CZAR TO OPEN PARLIAMENT.

Nicholas to Greet the Representatives of the Russian People.

St. Petersburg, April 25.—After much hesitation Emperor Nicholas has finally decided to come to St. Petersburg, greet the representatives of the people, and personally open the first Russian parliament on May 10.

His majesty's decision comes as a surprise, as it was supposed that, after his long absence from the capital he would not dare to leave the shelter of the Palace of Tsarsko-Selo.

A most elaborate programme for the opening of parliament has been prepared, and the ceremony will be attended by the pomp and circumstance befitting the event.

It is rumored that the emperor in greeting parliament will announce general amnesty for political prisoners.

Temperance Worker Dead.

Boston, April 25.—Mrs. Mary Hunt, superintendent of the department of scientific instruction of the Women's Christian Temperance Union and originator of the laws in all the state compelling scientific temperance instruction in the public schools, died at her home, 23 Trull street, in the Dorchester district, early yesterday, after an illness of several months with paraplegia.

A Woman's Gratitude

"For more than a year I had been a sufferer, completely broken down. I had not slept but two or three hours any night for weeks. I had such awful misery in my head, and oh, I was so irritable. I could not depend upon my judgment, and my memory was failing. I realized that I was losing my mind, and I thought the grave, or worse, the asylum, would be my doom. My doctor said my case was beyond the reach of medicine. I went to a druggist and told him my condition. He recommended Dr. Miles' Nervine; he was pretty sure it would help me, so I bought a bottle. That night I took a table spoonful, and fell asleep in a few minutes, the first rest I had in weeks, and oh, I will never forget that sweet sleep while I live. I have continued taking it, and sleep like a baby, and gain rapidly."

MRS. VIOLA BARKER, Orange, Texas.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

FINAL SERVICE FOR PAUL JONES

President, Jusserand and Porter Speak at Annapolis—Hero's Body Laid at Rest.

Annapolis, Md., April 24.—The impressive ceremonies with which America commemorated her yesterday the services of John Paul Jones, the father of her navy, began with the arrival of the President, who reached Annapolis shortly after noon in a special train from Washington.

The President and other guests were then entertained at luncheon by Admiral Buxton, who presided at the table. The President, the heads of departments of the Navy Academy and the following officers from the French and American fleets: Admiral Charles H. Davis, Admiral R. B. Bradford, Admiral Paul Campion, Capt. E. P. A. Gulpratte, of the Marcellais; Capt. A. L. M. Hartz, of the Comde; Capt. G. M. Lester, of the Admiral Ambe, and the commanding officers of the American vessels now off Annapolis.

At 2 o'clock the ceremonies in the armory began. The President was the first speaker, followed by M. Jusserand, Gen. Horace Porter and Gov. Edwin W. Field, of Maryland, in the order named.

Following the President, Ambassador Jusserand spoke. At the conclusion of the ceremonies in the armory the casket with the body of John Paul Jones, which up to that time had been supported on a platform in front of the speaker's stand, was carried in formal procession by representatives of the sailors of America and France to Bancroft Hall, where it was deposited in the room designated as Memorial Hall.

Collins' Men Played Horse With The Nationals

WHO MADE EIGHT ERRORS

Highlanders Batted Heavily and Defeated Philadelphia, While St. Louis Shut Out Detroit—Boston Nationals Drop Another.

The Boston Americans took a game yesterday from the Washington team and took it in a farcical manner, the score being the school boy record of 19 to 2.

The visitors from the Hub simply walked away with the Nationals, batting for nineteen hits and playing in the field without an error, while Washington piled up eight errors and as many hits.

Philadelphia lost and Detroit did also, so that the standing of the leaders was not changed. The Highlanders, by heavy hitting, got away with Philadelphia and St. Louis shut out Detroit, 2 to 0.

As the result of yesterday's games in the National league, New York and Philadelphia are still tied for first place, the former winning from Brooklyn in a heavy-hitting game and the Phillies again defeating the Tenney tribe in Boston.

Pittsburg kept a strong grip on third place by defeating Chicago and St. Louis took a fall out of Cincinnati.

BOTH "HELD HANDS."

But There Was No Evidence of Love Making in This Suit.

Burlington, April 25.—The jury in the case of John C. Alger vs. Fred Thompson, the county court suit for alienation of affections, reported yesterday that they wanted further instructions. They received them and retired again. In a short time they reported they were unable to agree and they were discharged.

The case was begun last week and occupied several days in trial. The plaintiff claimed \$2,000 damages, alleging that one winter during his absence from home, Thompson kept calling upon Mrs. Alger and influencing her to obtain a divorce offering to pay the expenses, and that she finally did obtain the divorce. Mrs. Alger appeared in her former husband's behalf and said that Thompson did frequently call upon her, staying late at night sometimes until 2 o'clock in the morning.

She says he also persuaded her to get a divorce and gave her the money to procure it with. He also told her, he said, that they would be married after the divorce was obtained. She then obtained a bill.

Mr. Thompson in his defence admitted calling upon Mrs. Alger, but not upon her any more than upon the rest of the family, consisting of her father and mother who retired sometimes before he went away. He said he never staid until after 12 o'clock. He said Mrs. Alger frequently complained of her husband and wanted to get a divorce. He said he did not advise her to get one but offered to lend her part of the expense money which he did. He denied that there was any talk of marriage between them and showed that he was going with a girl, Mrs. Alger's niece, at the time, and she afterward married him.

No evidence of love making came out. It was shown that the parties had "held hands." The case has aroused some interest. Both parties are from Huntington.

SENSATIONAL ESCAPE.

Bogus Gendarmes Take 10 Men from Prison in Moscow.

Warsaw, April 25.—At 3 o'clock yesterday morning seven men in carriages, and attired in uniforms of the gendarmes and police drove up to the prison here and presented false orders for the delivery of 10 political prisoners who were to be tried yesterday, saying that they intended to convey them to the citadel.

The prisoners were delivered to the men, who then drove away. At daylight the carriages were discovered empty on the outskirts of the city, the drivers' houses and gages and discarded uniforms inside the vehicles.

There was no further trace of the political prisoners or of the men who had rescued them.

SNOW IN THREE STATES.

Heavy Fall in Maine, New York and Pennsylvania.

Portland, Me., April 25.—There was a heavy and thick fall of snow in Maine yesterday, beginning about midnight. The actual fall averaged about a foot in central and eastern Maine. Six inches had fallen in Portland at noon. There was no wire communication between Portland and Bangor, except by way of St. Johns, N. B.

Kingston, N. Y., April 25.—Snow fell here for eight hours Monday and the Catskills are covered.

Wilkesbarre, Pa., April 25.—Snow fell nearly all of Monday throughout the Wyoming valley. At Dallas, Harvey's lake and Glen Summit the mountains are covered with six inches of snow.

OPPOSED TO STRIKE.

Miners Favor Peace If Prestige of Union Can Be Maintained.

Wilkesbarre, Pa., April 25.—Members of the mine workers' scale committee are assembling here to be in readiness for the meeting today at which the last reply of the operators will be discussed. It will then be decided whether or not an effort shall be made to continue negotiations or to refer the situation to a convention of the mine workers, which can be called together in a few days.

While the miners, so the scale committee report, are declaring at meetings now being held that they will support their union officers in any stand they may take, there is a pronounced desire to avoid a strike, if it can possibly be done without losing the prestige which the union has won.

Some of the members of the scale committee are expected, from the sentiments they express, to take a decided stand against a strike.

They believe the union would be assuming a great risk in ordering a tie-up because the operators are well prepared, and it is apparent, the committee men say, that they desire a rupture of relations. They estimate that it would require a strike of eight months to win and they question the ability of the union to weather such a period of stress.

Should the miners be defeated, they point out, the union would go to pieces and all the work that its officers have done during the last ten years would go for naught.

The attitude of President Mitchell will have much to do with the decision of the delegates, and his address to the convention, in which he is expected to put his views, will be awaited with the utmost interest, and to discuss the situation with the sub-committee before going into the session today.

FERTILIZER TRUST NEXT?

Southern Companies Said to Be in Fear of Federal Action.

Memphis, Tenn., April 25.—Reports from Nashville indicate that there is considerable uneasiness among the larger fertilizer interests there for fear of federal proceedings against them for violation of the anti-trust law. The government is said to hold that the fertilizer interests of the South are embroiled in one vast combine for the control of prices by violation of the terms of the anti-trust law and that they can be proceeded against just as was the beef trust. It is said that subpoenas have been issued for a number of witnesses to appear before the federal grand jury, and it is feared that some of the officers and directors may be indicted.

HOBSON AHEAD.

Indications of His Nomination for Congress.

Mobile, Ala., April 25.—All returns from the Democratic primary election in the sixth Alabama congressional district indicate the nomination of Capt. R. P. Hobson, of Merimac fame, over John H. Bankhead, the present representative. L. E. Musgrove, Hobson's manager, says they have certainly carried all but three counties, the indications being in favor of their candidate in the whole district.

AOKI IN WASHINGTON.

First Japanese Ambassador to United States Arrives.

Washington, April 25.—Viscount Saito Aoki, the first Japanese ambassador to the United States, arrived in Washington yesterday, accompanied by Viscountess Aoki, who is a German, and T. Miyaoki, who will be counselor of the embassy.

The ambassador and his companions were driven from the railroad station to the Japanese legation, which from the arrival yesterday becomes an embassy.

FRENCH STRIKES GROWING.

Authorities Look for Serious Disturbances on May Day.

Paris, April 25.—The strike element is increasing in France with the approach of May day, when the authorities apprehend a serious general movement.

About 6,000 persons employed in the jewelry trades and 4,000 employed in the paper industry yesterday joined the book printers here who struck work some time ago. The leading establishments are guarded by troops.

King to Visit Venustus.

Naples, April 25.—Preparations are being made for the visit of King Edward and Queen Alexandra, who will reach Naples April 27, ascend Mount Venustus, and visit the observatory.

Frank Perret, the American assistant of Prof. Matteucci, will act as interpreter when their majesties call upon Prof. Matteucci.

HUMAN BLOOD MARKS.

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well-known merchant of Barre, Ky. He writes: "Twenty years ago I had severe hemorrhages of the lungs and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures hemorrhages, chronic coughs, settled colds and bronchitis and is the only known cure for weak lungs. Every bottle guaranteed by the Red Cross Pharmacy, 50c and \$1.00. Trial bottle free.

RADICAL FUTURE

Political Observers Think Congress Faces Big Change

PARTY LINES BREAKING

Pending Legislation May Have Much to Do in Shaping Course of Future Congresses—Tendency to Radicalism.

Washington, D. C., 25.—Events of the last two or three weeks in Washington have impressed some politicians with the idea that the present session is only a forerunner of many others in which the future will be the struggle for very radical legislation. Conservative influences, in their efforts to stem the tide in the imminent matter of railroad legislation, have gone far toward shattering party distinctions.

The tendency toward startling departures appears in both parties. Attacks on the federal judiciary the repeated declarations of President Roosevelt for nationalizing the control of all corporations doing interstate business, the remarkable fight made by Senator Bailey of Texas to get a provision into the railroad rate bill limiting the power of the courts in issuing injunctions, and the declaration of the President for limiting great fortunes—these are the principal developments which are regarded as signifying the radical drift.

Senator La Follette has entered upon a senatorial career determined, evidently, to voice among the voters the cry for the most stringent control possible of great corporations. In addition he wants a thorough revision of the tariff. He has begun service in the Senate by denouncing the Senate and its ways. He started his speech by saying that senator "evidently is not much interested in the railroad issue, and by warning them that the country is interested and is watching them. May not La Follette fall heir to the radical Republican leadership when it is vacated by Mr. Roosevelt?

The strong showing made by Senator Bailey in defence of the power of Congress to deny the federal courts the right to issue injunctions, has raised, it is generally believed here, a situation that in the course of a few years may result in the enactment of such a provision that it may be tested in the supreme court.

If the railroad bill, when passed, leaves the shipper and the public, when complaint is made, alleging excessive freight charges or unfair discriminations in such a position that no satisfaction can be had without waiting on the endless delays encountered in the federal courts, then, it is believed, a storm will break on Congress of much greater consequence than the one which has resulted in the pending legislation.

TRAFFIC MANAGER SAYS AGREEMENT NECESSARY

Trade and Commercial Conditions of Country Can't Be Carried on Without Rate Understanding.

Washington, April 25.—When the hearing before the interstate commerce commission under the Tillman-Gillespie resolution was resumed yesterday, T. S. Dana, chief traffic manager for the Norfolk & Western, said that at one time the Chesapeake & Ohio, Baltimore & Ohio and the Pennsylvania gave the Norfolk & Western to understand that if the Norfolk & Western went into Washington they would go into the Norfolk & Western territory.

Mr. Dana said the all-rail lines were under the impression that the tide-water lines were getting too much of the business and wanted their rates raised. Asked if it was proposed, at a conference which he attended between the tide-water and all-rail lines representatives, that the all-rail lines would lower their rates if the tide-water lines did not raise theirs, the witness said there was an intimation to that effect.

The New York Central, he said, proposed a raise in the rate of the tide-water lines; the Pennsylvania and Baltimore & Ohio were indifferent and the Chesapeake & Ohio and Norfolk & Western opposed any change in rates. He added that subsequently he received word from his executive officers that the existing rate would be continued.

"The commercial and trade conditions of this country," declared Mr. Dana, "cannot be carried on unless there is some sort of understanding between the railroads as to rates."

WILL HEAR MRS. MORRIS.

Senate Committee to Listen to Story of White House Ejectment.

Washington, April 25.—Mrs. Minor Morris is to appear before the full Senate committee on postoffices and post roads today to relate her experiences when, as she charges, she was dragged from the White House by order of Assistant secretary Barnes, now nominated for postmaster of Washington.

Mrs. Morris declined to appear before the sub-committee to which the question of charges prejudicial to confirmation were referred. She is willing, however, to tell the details to the full committee, and will be given the opportunity.

EXTRA CENSUS OF LIVESTOCK.

Every 5 Years Favored by House Committee.

Washington, April 25.—The House Committee on Census has taken favorable action on the Crumpacker bill authorizing the Directors of the Census to take a classified census of livestock and a census of acreage of principal crops, including cotton, corn, wheat, rice and oats, every five years instead of every ten years as now provided by law. The estimated cost of securing these additional figures is \$900,000.
