SUSPECT IS RETICENT

Arrested In Danby Post Office Robbery

\$300 WAS SECURED

Samuel Ward Admits That He Slept in a Barn in Danby That Night--Taken to Rutland.

Rutland, May 1.—A man giving his name as Samuel Ward was brought to the jail here yesterday, having been arrested as a suspect in connection with the robbery of the Danby postoffice early yesterday morning. Ward refuses to say anything. The postoffice safe was blown open by a dynamite charge and a large quantity of booty secured. The explosion was muffled so that the report was not heard and no one knew of the burglary until morning, when the store was opened. E. J. Reed is the postmaster. The burglars secured stamps valued at \$200, about \$100 in money and a quantity of money order forms. The burglary was performed in the same manner as those which occurred so frequently in the state last summer and it is believed that part of the gang is again operating here. The sudden death of "Connecticut Billy" at Sheldon last fall put a stop to operations of that character for a period, this being the first since that time.

Safe Door Not Locked.

The outer door of the safe was not locked and the lock of the inner door was drilled, a charge of giant powder inserted and exploded. Outside of the lock the safe was practically undamaged. It was learned that several men were in Danby last week ostensibly soliciting orders for a firm which enlarges photographs and an effort is now being made to trace those men. A stranger was seen in the woods beyond Co town this morning and a posse is trying to locate him and bring him in.

COOKING BREAKFAST IN THE BACK YARD

Is the Experience of Edwin A. Mudgett of San Francisco, Who Writes an Interesting Letter to Parents.

Mr. and Mrs. Joseph G. Mudgett received yesterday a letter from their son, Edwin A. Mudgett of San Francisco, in which some of the sufferings of the people there are told. Mr. Mudgett will be remembered as a recent visitor to Barre. In his letter, which is dated Oakland, April 25, he says: "The sights that we see daily are deplorable and now that Oakland, Berkeley and Alameda have been the only places sought by the refugees of the city, it is estimated that 175,000 of them have crossed the Bay, making our population about 500,000. Tents are erected everywhere and all are under military control. No fires are allowed built in any house until chimneys are inspected. As ours are down Anne is using a little sheet iron stove formerly used by Zeldia and as this can only be fired up in the back yard, you can imagine us going up and down stairs every day to get plates for our breakfast, another trip for our hot water, etc.

"Our office was the first to be established in Oakland, that is, the S. F. offices. We are in a tailor's store, have one window and about 30 to 40 feet back, and got it at a rental of \$200 a month and was later offered \$350 per month for the place. As every business place of S. F. was burned and the greater population being on this side of the Bay, you can imagine what a demand there is for storage and offices.

"The martial law in the city is extremely effective; hardly a man that 30 or 40 are not shot dead for looting. Every person (male) who goes up there is ordered to assist in clearing the streets, millionaires and hoboes working side by side, no distinction being made. If they refuse, they are shot. Not a fire is allowed in a store, not a light in the house up to today, and cooking must be done in the street. There were up to Saturday 50 births in the parks and on the streets, brought about by fright. Everybody who leaves S. F. are requested to register their names on reaching the Bay cities, so that they may be found by other members of their families.

"It is terrible. I send you some of the papers so you can get an idea. Men who have thousands have shown me a dollar or two, all they possess and unable to obtain any. No banks on this side will open for a long time, those in the city all destroyed. It is estimated now that the loss of S. F. is greater than those combined of Chicago, Boston and Baltimore."

TOWNS SWAP POLICIES

Barre Town To-day Entered License Regime

WITH THREE SALOONS

City of Montpelier Going from License to No-License, Experienced No Great Convulsion Yesterday.

A great many changes take place on May 1, and not the least of them hereabouts this year was the transition in the policies of some towns and cities on the liquor situation. Barre Town, the only one in Washington county to vote "yes" last March today allowed the resumption of the legal sale of liquor after a year under the no-license regime. Three places opened up, one in East Barre, another in Grandville, and the third in South Barre, the holders of the privileges being E. H. Bissell, J. C. Sheridan and Grant A. Lane. The commissioners who will have charge of the Town liquor matters this year are John Trow, Oscar Waterman and John Nichols.

The transition from license to no-license in Montpelier was not attended with so much of a convulsion as expected, and today the neighboring city finds itself without a legal saloon for the first time since the citizens led the right to declare for themselves what the policy should be. Although there was quite a business done on the closing day there was little disturbance, and the bar-keepers report that they did not have to rush any harder than on some other days. One of the last arrests for intoxication was that of Mrs. Sadie Cochran, who was taken in charge by the police last evening.

In Montpelier city court this morning Mrs. Cochran pleaded not guilty to a second offense of intoxication and her case was continued until this evening for a preliminary hearing. The only other arrest in Montpelier last night was that of a man named Albert Liles of St. Johnsbury, who took too much liberty with the closing hours of the Montpelier saloons. He pleaded guilty to a first offense of intoxication this morning and was taxed \$13.30.
