**SEVERAL ARE TO BE INDICTED.**

Authority for Statement Concerning Officers of the Mutual Life.

New York, June 11.—The New York Evening Post Saturday published the following: "Instead of resulting in the indictment of only one, or at most two, of the moderately prominent former officers of the Mutual life insurance company, the special grand jury's work, according to an excellent authority, will include the indictment of four, or possibly five, of the most prominent officers of the old order. The jury will complete its work next week, probably on June 15. The notion that the indictments were to be few in number has been quietly spread abroad, and there is reason to believe that the report of those granted 'immunity baths' was exaggerated. The net result will be to insure a genuine surprise when the jury actually does finish up its work and make public its findings."

The government artillery was in sharp action for six hours without apparent serious result. The revolutionary leaders are enthusiastic over their progress. Gen. **ODD FELLOWS SERVICE HELD**

Members of Various Affiliated Lodges Together

AT PRESBYTERIAN CHURCH

Rev. W. C. MacIntyre Preached Helpful Sermon on "And a Man Shall Be as the Shadow of a Great Rock, Etc."

Upwards of one hundred Odd Fellows and members of affiliated orders attended divine services in the Presbyterian church last night, when the pastor of the church, the Rev. W. C. MacIntyre preached a sermon particularly to them.

The several lodges met in their respective halls and marched to the church at the corner of Seminary and Summer streets. They were assigned seats in the front of the church. Nearly every seat in the auditorium was taken, there being many others present besides the Odd Fellows.

The Rev. Mr. MacIntyre preached a very helpful sermon from the text: "And a man shall be as the shadow of a great rock in a weary land," it being a part of Isaiah 32:2. After extending to the Odd Fellows the hearty welcome of the church and on congratulating them on the good work which the order is doing in the world, the speaker drew a parallel from the text, Jesus Christ is the rock which is shadowing mankind in this world. This He has commissioned men to do, saying that the work which He is doing by shall do also. If we are living of the stature that God intended we should, then we are acting as a great rock, keeping back the drifting of the sands, which the speaker likened to sin.

Mr. MacIntyre drew the picture of the home upon which sickness has fallen, the husband and father being prevented from ministering to the needs of the household, and it may be dying and leaving the widow and the fatherless. Then our Odd Fellows have said not to worry, "you will be provided for," and the care and support of the order have been furnished. You have also erected homes for the care of your sick and dependent ones. Any society that is doing this, any man that is doing it, is acting as the great rock in a weary land.

But there is something further. Christianity demands that we stand for something, for a principle, for the right. We must be the rock to keep back the currents of sand that are beating upon us and our children. All sin, intemperance, gambling, immorality, whatever it be, we must keep back from our lives. We must be careful that the sins of the parents are not visited upon the children, and to prevent this we must keep our lives blameless, spotless. "Therefore," said the speaker in closing, "let us not glory in our society, not in our citizenship, not in our native land nor in its institutions, but let us glory in the cross of Christ."

**MAKE USE OF RIOTS TO REDRESS WRONGS**

Italians Think Attention of the Government to Their Wants May Thus Be Obtained.

Rome, June 11.—The belief appears to exist among the classes most susceptible to anarchical teachings, that the attention of the government may best be attracted to their wrongs by rioting.

It really seems as though a wave of anarchy were sweeping through the peninsula, it being particularly evident in the southern provinces and the islands. Now it is the turn of Sardinia, where the populace has recently been committing all kinds of excesses, their object being to show their dislike of being starved by the usurers, to whose speculations is attributed the rise in the price of footstuffs.

According to the Messagero, there has been at least serious conflict between troops and the mob, in the course of which 10 people were killed and several others injured, of whom four subsequently died.

That there is much real cause for dissatisfaction is true. The government feels itself powerless, with the resources at hand, to do anything of great consequence to ameliorate the condition of the people. Yet there is no lack of good intentions, nor is there any opportunity for complaint against the King, whose every wish is for the well-being of his people.

Jones Is for Bryan.

Washington, June 11.—Former Senator James K. Jones of Arkansas, twice chairman of the Democratic national committee, called on the President Saturday. Afterward he declared for W. J. If he makes the race I think he will be elected."

**ELEVEN KILLED BY DYNAMITE**

Terrible Explosion at Plant on Susquehanna

Pequesa, Pa., June 11.—Eleven men were blown to pieces by the explosion of a dynamite plant Saturday near Pequesa, Pa., along the Susquehanna river. The dead are Benjamin Gebhardt, 22; Benjamin Rineer, 31; George Rineer, 20; Fred Rice, 23, married; Collins Parker, 19; Phares Shoff, 18; William Funk, 19; John Boatman, 17; an unknown man; two men known, residents of York county. All except the last two lived in the immediate vicinity of the dynamite plant. The seriously injured are Walter Brown, Martin Rineer, Gen. Gray, Charles Cramer and Jacob Schoff.

The accident was one of the most horrible in the history of Lancaster county. The victims were literally torn to pieces, not enough remaining of a single body to make identification possible. The cause of the explosion is not known. The two unknown residents of York county who were killed had just started to drive from the place with a load of dynamite. They had scarcely gained a distance of 50 feet when the plant blew up with a detonation that was plainly heard 15 miles away. A great cloud of smoke covered the site of the factory, and when it had cleared away there was not a vestige of the horses, wagon or men who had left the factory only a moment before. The air was filled with debris, and fragments of human bodies and pieces of flesh and limbs were found hanging to the trees nearly 100 yards from the scene of the disaster. People living near the factory rushed out of their homes and began the work of rescue, but there were few persons who had not been blown to pieces.

The injured, some of whom it is thought will die, were taken to their homes in the immediate vicinity. The plant consisted of a dozen buildings. All were blown to pieces except a remote structure in which seven girls were at work. The dynamite plant was owned by G. R. McAbee & Co. of Pittsburg.

The information was taken to Camak by a trainman, who had run the distance to report the accident. He could give only the information that the train, running at a rapid rate, had run into a siding and that several persons had been killed.

Says She Didn't Swallow Diamond.

Chicago, June 11.—A despatch to the Chicago Record-Herald from Omaha says that Mae Thomas Friday nullified the argument of her lawyer that the \$300 diamond she is charged with stealing may have slipped down her throat unintentionally, because her throat was sore from the mumps, by testifying that she could not have swallowed the gem at that time because of her affliction. She finally made a positive statement that she did not swallow the jewel.
