

THREE TIED FOR SECOND

Rutland's Defeat by Ottawa Helps Intercity

BURLINGTON STILL STRONG

Defeated Plattsburgh Yesterday Afternoon and Will Try to Do Same on Local Grounds This Afternoon.

The defeat of Rutland at Ottawa yesterday makes three teams tied for second place in the Northern League, Intercity, Ottawa and Rutland. Burlington strengthened its lead yesterday by downing Plattsburgh with a score of 6 to 3.

HOME RUN SHAUGHNESSY.

Ex-Champion Drove Three Men Ahead of Him.

Ottawa, July 13.—Hogarty's poor work and the errors of Shean lost yesterday's game for Rutland to Ottawa, 9 to 4. Shaughnessy drove the ball over the fence in the fourth inning with the bases full. Hassett gave everything to Ottawa, some of his decisions being

COULDN'T HIT THE BALL

Boston Americans Lost to St. Louis, 4 to 1

SOME COSTLY ERRORS

Chicago Defeated the Boston Nationals in Two Games and Is Now Far in Lead of the League.

Boston, July 13.—The same inability to hit the ball and the ability to contribute errors caused the downfall of the Boston aggregation before St. Louis yesterday afternoon, 4 to 1. The home team got five hits off Powell and made four errors, while the visitors touched up Dineen for five hits.

The locals were the first to tally, the score coming in the third. Freeman singled and after Jones had thrown out Carigan Dineen walked. Parent popped out but Stahl singled, scoring Freeman. Hoy was the third out on a drive to Hartzell. They had no chance to score during the remainder of the game, although a single was put in occasionally.

In the fourth Stone singled and Freeman muffed Parent's throw on Hemphill's grounder. Dineen took care of Wallace and Stone was out on home on O'Brien's rap to Ferris. O'Brien stole second and Hartzell doubled, sending two men across the rubber. Hoy took Comor's fly. The visitors added another in the sixth. With one down Hemphill hit for three bases but went out on a rap by Wallace to Freeman. Wallace stole second and scored when Parent let O'Brien's rap get by.

In the eighth Hoy muffed Stone's fly, the runner going all the way to third and scoring on Hemphill's out to Hoy.

TAFT TALKS OF THE CANAL.

He Explains Delay in Work of Excavation.

Put-In-Bay, O., July 13.—Secretary of War Taft in his speech Wednesday afternoon before the State Bar Association, after expressing his pleasure in again appearing before an audience, began his address upon the Panama Canal by giving reasons for the selection by the Government of the Panama route and explaining the apparent delay in the actual work of excavation. The necessity of improved sanitary conditions being established before the actual work of construction was actively commenced was strongly emphasized, and it was shown that the nearly twenty-five thousand employees had in reality accomplished more than anyone realized, in the building and equipment of railroads, the construction of a water supply and building of thousands of homes for those engaged in the work. It was pointed out that the actual excavation was much less of a problem than what to do with the material taken out, much of which had to be carried fifteen miles, requiring the building of over three hundred miles of spurs. The question of obtaining sufficient labor was shown to be serious one and it had been necessary to employ large numbers of natives and Chinamen, three of whom would do less than an average American workman. The estimate cost of the Panama route was placed at \$150,000,000 and the time of completion about seven years, against a cost of \$300,000,000 and seventeen years for the completion of the work had the Nicaraguan route been chosen. The Secretary said the American people were disposed to be in too big a hurry "to have the dirt fly" and that it has been necessary for those in charge to withstand a great deal of political stress while carrying out the preliminary work.

Mr. Taft spoke without manuscript and his talk was supplemented with a number of official maps.

DREYFUS SAYS NOTHING AGAINST HIS ACCUSERS

"Inexpressibly Thankful to All Who Have Assisted in the Maintenance of Truth."

Paris, 13.—In the course of an interview yesterday after the announcement of the supreme court's decision in his favor, Capt. Dreyfus said: "I am inexpressibly thankful to all who have assisted in the maintenance of truth."

The executive and judicial branches of the government are separate, and should remain so," he declared, "and neither should encroach on the other."

"Strictures on the outcome of the packer's trial," he said, "were uncalled for, and amounted to an infringement of the prerogative of justice. Criticisms such as these tend to lessen respect for the judiciary and to lower the dignity of both bench and bar."

ICE TRUST INDICTED.

Washington Authorities Take Action on Conspiracy Charge.

Washington, July 13.—The grand jury of the District of Columbia yesterday returned indictments against the American Ice Company and the Chapin-Sackley Ice Company and their local offices on the charge of entering into a conspiracy to increase the price on ice.

At the request of District Attorney Baker, Judge Wright immediately issued warrants for the arrest of the indicted officers.

Philadelphia, July 13.—Through counsel, Henry W. Behrenburg, of Hoboken, N. J., president of the Mountain Ice Company, yesterday accepted service of a warrant charging him with conspiracy to maintain an exorbitant price for ice.

He waived a hearing and entered bail for his appearance at court. The trial of Mr. Behrenburg and thirteen other ice dealers members of the Ice Exchange of this city, will take place in September.

DINKEY ALSO PROTESTS.

President of Carnegie Company Asks a Part of Armor Contract.

Washington, July 13.—President Dinkey of the Carnegie steel company was in conference with Secretary Bonaparte at the navy department yesterday concerning the bids on the armor plate for the battleships South Carolina and Michigan, and is said to have reiterated the plea of officers of the Bethlehem steel company for part of the contract which would be awarded to the Midvale company of Philadelphia, if the making of all the steel were intrusted to the lowest bidder.

The Midvale company bid \$345 a ton, Carnegie company \$370, and Bethlehem company \$381.

Secretary Bonaparte said yesterday that the award of the armor contract will probably be made today.

TAFT NOT A CANDIDATE.

Secretary, With Much Emphasis, Reports Relating to the Presidency.

Detroit, Mich., July 13.—Secretary of War William H. Taft was in Detroit for a few minutes Wednesday on his way to Put-In-Bay. He denied with much emphasis that he was a presidential candidate.

Fore River Ignored on Warship Bids.

Washington, July 13.—The Fore River ship building company and Francis T. Bowles were turned down by the naval department yesterday, when that concern was ignored in the award of contracts to build the two battleships, the South Carolina and Michigan.

SPECIAL LABEL ON MEAT

Consumers' League Makes This Suggestion

A SUPERIOR BRAND

Needed for Use in Hospitals—Wilson Gives Ultimatum to the Packers—He Takes an Optimistic View.

Chicago, July 13.—In the name of invalids and hospital patients, to whom purity of their food is of vital importance, the Illinois branch of the National Consumers' League asked the government to place a special label on at least one brand of meat. The matter it has developed was presented in letter to Secretary Wilson who yesterday finished his investigation here and left for the West. Before he departed he stated that after August 1 the government would withdraw its inspectors from and deny the use of its label to all plants that have not perfected sanitary improvements.

The letter to Secretary Wilson from the Illinois branch of the league, was signed by Mrs. Mary Wilmarth, president, and Mrs. Harriet M. Van Der Vaart, secretary. It contains the following points: "We, as consumers, demand that Government inspection shall mark at least one grade of meat which has been procured from animals absolutely free from disease. This will be comparatively easy, as it is known that only a small percentage of animals used for slaughter is diseased.

"Disease in an animal can be ascertained with reasonable accuracy only at the time of slaughter.

"Physicians and others often desire animal food for invalids for hospital use, and would be willing to pay an advanced price for meat which is beyond doubt as to its injurious effects.

"We believe you have the power to prevent the shipment of visibly diseased and emaciated animals over the common carriers, and by exercising this authority every diseased animal would have to be destroyed where they are produced. The cost of a diseased animal at this point is less than half what it is after shipment and repeated change of ownership.

In an interview the secretary took an optimistic view of the future of the country in the meat business in foreign markets. He appeared to feel that the government had saved the packers by its fearless exposure of conditions formerly prevailing at the stockyards.

PRICES OF MEAT ADVANCED.

Packers Say It is Due to Increase in Value of "Raw Material."

Kansas City, Mo., July 13.—(The price) on nearly all meats have been advanced considerably within the last two days. The increase amounts to 5 to 1 cent a pound on veal and mutton and a still greater raise in pork. At Armour's yesterday the cause was given as due to the increase in the value of the "raw material." Cattle on the hoof were said to have advanced 50 cents although the market reports of the last two days make the price of cattle steady to lower. Butchers say the rise is due to an attempt of the packers to recoup their losses on foreign sales by an increase in the domestic price, and they assert word has gone out that the Kansas City raise is the forerunner of a general increase throughout the country.

MEETTRICK ALL RIGHT.

Says District Attorney Moran in Reply to Attacks on Former.

Boston, July 13.—District Attorney J. B. Moran, yesterday afternoon issued a statement in reply to the attacks made upon Felix W. McGettrick, whom he engaged to examine the state house bribery evidence. In his statement the district attorney declares that he can find no ground whatever for the attacks made upon McGettrick, and that therefore the latter will go ahead with the work for which he engaged him. The statement in substance follows:

"I believe Mr. McGettrick to be one of our ablest criminal lawyers in the state, as he was one of the ablest in the state of Vermont. I believe him to be absolutely honest, and he will continue to perform the work in relation to the bribery case for which I retained him and for which I am personally to pay him."

Population of Armenian City is Said to Have Been Nearly Destroyed.

Tinis, Transcaucasia, July 13.—Alarming news has been received here of terrible ravages by Turkish troops across the border in Turkish Armenia. Soldiers who are collecting taxes are said to have indulged in frightful outrages.

The population of the city of Van is represented to have been nearly destroyed by the Turkish troops, who pulled down houses, assaulted the women and acted generally like wild beasts.

Van in a very ancient place, the capital of a viceroy of the same name. The population is over 30,000. The people believe that it was built by Semiramis. It is an important post of American missions.
