Shot by His Own Invention. Leopold Finck, the keeper of a pony trap at Charlottenburg, near Berlin, was the victim of his own contrivance against thieves. He had placed an automatic pistol above the entrance to the shop which would fire at the intruders like a machine gun as soon as the spring at the threshold was trodden upon. He forgot where the danger spot was while locking up his place, with the result that the pistol shot him repeatedly. At the hospital to which the neighbors took him thirty-six pellets were found in his body. His condition is dangerous.

GERMAN GLEANINGS. In Germany stray dogs are captured in a fashion that appeals strongly to the humanitarian. Instead of being lassoed with a noose they are scooped up in a huge dip net.

THE RATES Wisconsin Railroad Commission Reduces Freight PRICES ON GRAIN Most Important Ever Made—Two Shippers Make Complaint Against Four Different Railroads.

Madison, Wis., Aug. 10.—Grain rates in Wisconsin were reduced practically one cent per bushel in a rating adopted by the state railway commission yesterday. This is the most important ruling ever made by the commission. The order, which will affect all the railroads operating in Wisconsin, is the result of complaints made by O. G. King against the Wisconsin Central railroad and by W. L. Houser, against the Chicago, Milwaukee and St. Paul, the Minneapolis and Omaha and the Chicago & Northwestern.

BOTH SIDES FIRM. No Change in Switchman Strike on the New Haven Railroad.

New Haven, Conn., Aug. 10.—It was reported yesterday that representatives of the striking New York, New Haven & Hartford switchmen had left for various points along the railroad for the purpose of attempting to organize sympathy strikes among the switchmen at those places.

The opening of the third day of the strike finds both sides standing firm. The strikers say that if a settlement is not reached within a few days the yards here will be so tied up with freight that the railroad will be unable to handle it. Several men have been sent here from Boston and other railroad points to take the places of the strikers, but few of them have been put to work. There has been no violence or disturbances of any kind in the yards; in fact, the strikers have spent little time near the scene of their labors, preferring to gather in groups on the street corners near the center of the city. The company has practically announced that there will be no concessions.

EAST MONTPELIER. Mr. Clement has a plank in his platform which reads: "We charge the Republican machine of Vermont with continuing the rotten borough system to maintain its absolute supremacy." And Mr. Clement pledges his best efforts to secure an amendment to change the present system of representation from towns to districts. This means that your town will have no representative in the legislature of your town in the coming one of a chain of towns and that this chain of towns will elect a representative. Will you stand for it? There's just one way to avoid this Clement plan and that is to vote the straight Republican ticket.—Adv.

Evangelists and Annabel, the two youngest children of Mr. and Mrs. E. G. Baker, are dangerously ill with a disease of the stomach and intestines. They are attended daily by Dr. Grimes of Montpelier.

The annual camping-out conducted by the Evangelical association will open this evening with a service at 7:30 o'clock. The meeting is in charge of the president, Rev. J. A. Ward of Pawtucket, R. I., and he has already arrived, together with several preachers, some of whom have been here before and are well known. They are to include the Rev. Dr. J. C. Briggs of Somerville, Mass., the Rev. Mr. Nickerson of Woodville, N. H., the Rev. G. A. Moore of Montpelier, Rev. E. H. Post of Massachusetts and the Rev. N. D. Witham of Milan, N. H., formerly of this town. The singing this year is to be in charge of the preachers. All christian ministers and workers are invited to attend and assist in the services. Good board and lodging may be obtained at reasonable rates on the grounds, and land is furnished free on which to pitch tents. The meetings will take place daily at 10:30 a. m., 2:30 and 7:30 p. m., each day till and including Sunday, August 19th. These meetings have been a source of great blessing in the past few years and it is hoped that all who have in former years attended will do so this year, and also many new ones. The annual business meeting of the camping-out association will occur Friday, August 17th, at 1:30 o'clock, at which times reports will be received and officers elected.

South African Ant Hill. The largest structure on the earth when compared with the size of the builders is the ant hill of Africa. Some of these mounds have been observed fifteen feet high and nine feet in diameter. If a human habitation were constructed on the same scale it would be more than seven miles high.
