

CRIPPLED AND LOST

Champions Went Down Before Rutland 13 to 2

BLANE GOT A BAD RAP

Had to Leave Game and Eddie Loughlin, Who Went into Box, Was Rapped

Rutland, Aug. 14.—Rutland broke her long losing streak at the fair grounds in this city yesterday afternoon by defeating Barre-Montpelier by a score of 13 to 2. The victory is, however, not so much of a credit to the locals as the big score shows, the visitors having a crippled team. Pitcher Blaine was hit in the head by a ball in the second inning and compelled to leave the game.

The visitors got their only scores in the fourth inning, when Daniels got his base in the play which put Bagley out of business. He scored on McMahon's long single. "Boots" stole second, was advanced when Davis was thrown out at first, and scored on Witse's poor throw to head him off at the plate.

Rutland got three of her tallies in the second inning. Carney was an easy out, but Shean made a hit and stole second; Collins got a cheap base. Duff's single scored Shean and advanced Collins to third. Then Duff got in one of his tricks and the double steal racket was worked. Collins thieving the plate and Duff making second. The Rutland catcher scored when Davis, in attempting to throw home from second, hit pitcher Blaine in the back of the head. Yerkes got a pass and McCormick a hit, but there was no more scoring during the inning.

The locals added a run in the fourth on Duff's pass, his steal and an error in left field. A pass, a man hit, Collins' single and Duff's double, helped along by two stolen bases, scored three more runs in the fifth.

The seventh was the banner inning for Rutland. Four men crossing the plate. Two passes, doubles by Duff and Bruce and McCormick's single were responsible for all this tallying. Hits by Shean and Collins and Bagley's double netted the home team two more runs in the eighth.

OUR FRIEND THE UMPIRE. Gory Days Are These For This Official.

These are gory days for our friends the umpires. In fact, what daily masses and a determined campaign of extermination, it's a wonder there's an umpire left in America. However, we need the noble race, and no doubt some Ernest Harold Baynes or other will soon come forward to prevent its extinction. It's certainly an interesting and valuable a breed as the bison, if not more so.

It has faults, though, I freely admit. I remember the umpire who came home from the game in high glee, shouting, "Our side beat, didn't it!" But I also remember the one who, when asked whether a ball or a strike had been committed, gasped, "How the deuce can I tell!" This was a most amiable and unassuming umpire, of truly Christian meekness. The grandstand rose up as one man and saluted him. From this we learn that umpires have souls, that no two are just alike, that we mustn't condemn them indiscriminately. However, a sort of race-baited overmaster the "rooters" as soon as they catch sight of the abnormal arbiter. His every decision becomes a challenge. They say; so did he, but they reserve to themselves the exclusive right to see straight. Did the ball go over the plate? It certainly did. And yet it seemed to the self-appointed authorities on the bleachers that it certainly didn't. Hence they hold with unphilosophic rage. Likewise do the players. Playing ball doesn't conduce to intellectual tolerance. There once came to our college nine possessed of a terrible batsman, who in turn was possessed of a huge oriel or bay-window. Our pitcher, fearing defeat if he allowed the fellow to remain in the game, deliberately hit him in the oriel with the ball. The umpire sent the man to first base, as was only just, but the pitcher loudly protested that it was "a perfectly fair ball—right over the plate!"

After all, somebody has to decide and why not the umpire? And yet, while baseball is baseball, the crowd will think it knows best. There are people, you remember, who will go into court and swear that they recognized Bill Jones by his coral shirt stud in a dense fog and on a dark night and at a distance of one hundred yards. It is this stamp of mind that sees what the umpire doesn't.—Boston Transcript.

OVER ARDENNES COURSE. Duray's Auto First of 21 in the International Race. Bastogne, Belgium, Aug. 14.—The international automobile race over the Ardennes course, six hundred kilometers, divided into seven laps, began yesterday. There were twenty-one starters. At the end of the third round Duray was leading, with Henriot second, Wagner third, and Gabriel fourth. Duray won in 5 hours, 36 seconds. Henriot was second.

GONE 31 YEARS. Chicago Man Returns and Tells Wife to Ask Him No Questions. Chicago, Ill., Aug. 14.—After an unexplained absence of 31 years, Prof. Charles H. Frye, formerly superintendent of the Chicago normal school of this city, returned Sunday. One of his first acts upon arrival at his home was to hand 50 \$100 bills to his wife, with the remark: "Ask me no questions." Frye was 31 years of age when he disappeared. No word had been received from him by his wife. He is said to have made money in the Philippines, where he resided for several years. He has settled down at home as though nothing had happened.

WHITE SOX STILL AT TOP

Now Lead American League By Five Points

ATHLETICS SPLIT EVEN

In the National League the Giants Got Away With Pittsburgh Two Straight, While Chicago Won Easily.

Chicago still stands at the head of the American league, notwithstanding that an even break in a 0 to 0 game with New York was the result of their meeting. Philadelphia foolishly dropped a game to St. Louis yesterday afternoon, after taking the first of the double-header with the greatest ease. The White Sox now have a lead of five of five points in the league. New York, although it did nothing better than tie with the Chicagoans, is now tied for second place. Cleveland defeated Washington and boosted along a little, while the Boston bunch again got away with Detroit, this time by the score of 5 to 4.

In the National League Chicago had an easy time with the Trolley-doggers, while the New York Giants downed the Pittsburghers in a double-header, the first easily by a score of 6 to 1, and the second tighter, 2 to 1. The Phillies continued their losing career by going down before Cincinnati. The Boston team started for Pittsburgh yesterday morning and St. Louis therefore had an off day.

LEHMANN FOR UMPIRE. He Is Chosen to Act in the College Regatta. Bourne End, England, Aug. 14.—Rudolf C. Lehmann, the well known oarsman and member of parliament who was largely instrumental in bringing about the Harvard-Cambridge race, has agreed to act as umpire.

TO KILL AMADOR. Thirteen Men Under Arrest Are Accused of Plotting. Washington, D. C., Aug. 14.—Gov. Magoon of Panama advised the state department of the arrest of 13 men on the isthmus, charged with plotting to kill President Amador and overthrow the republic. The dispatch states that 11 of the men are Colombian, one a Mexican and the other a Nicaraguan. All are in jail and Gov. Magoon says the incident caused but little excitement on the isthmus, and that there is no suspicion that any of the men were employed by the government.

Business-Like Consideration. Settled the Barre Dispute Over Surface Machine. A dispute about the operation of a surfacing machine in Barre, says the Granite Cutters' Journal, culminated in reference of the dispute by the Barre Granite Cutters' Association to the Executive Committee of The National Association of the Granite Industries of the United States, and in connection with same, sub-committees of both bodies met in Boston and after a business-like consideration of the subject matter, which involved the question of a lump sum which had become a member of a firm operating a surfacing machine, the following decision was unanimously reached, and which in accordance with the reference to this joint committee, settled the contention and made the deciding binding: Office of the National Association of the Granite Industries of the United States, 161 Summer street, Boston, Mass., July 17, 1906.

At a joint meeting of Committees representing The National Association of the Granite Industries of the United States and The Granite Cutters' International Association of America, at which the close relationship was discussed with a view to elimination of contentions in connection with members of firms working at the trade, it was mutually agreed that all members of firms who are practical workmen may work at any portion of the trade, and that in the event of a man who is not a practical workman becoming a member of a firm he will be required to learn the trade as an apprentice in accordance with current agreements before being eligible to operate machines. (Signed.) For The National Association of the Granite Industries of the United States, Seward W. Jones, J. L. Miller, John McDonald. For The Granite Cutters' International Association of America, Thomas Johnson, Alex. C. Smith, James Duncan.

JUSTICES ACCUSED. Autoists Doubtful About Their Fines Going to the State. Trenton, N. J., Aug. 14.—Andrew Pettit of New Brunswick has signified to Commissioner of Motor Vehicles Smith his intention to prosecute a justice of the peace on the charge of imposing an unjust fine on him for alleged violation of the Frelinghuysen law. It is believed by automobilists that some of the justices of the peace throughout the state have been using the new law for the purpose of grafting. They are required to turn over to the state treasurer all fines, and he transfers the money to the commissioners of public roads to be used for road repairs. Up to this time, in spite of the fact that many fines have been collected by the justices, only \$100 has been turned in to the state treasurer. The state authorities are in favor of making the justices toe the mark.

MONTREALERS IN RUTLAND. Dorion Club Had an Excursion—Spent the Day Sight Seeing. Rutland, Aug. 14.—An excursion party of about 400 French people comprising members of the Dorion club of Montreal, were guests of the Canada-American club of this city Sunday. The Canadians were entertained at dinner at the Bardwell, Mayor C. E. Paige, Aldermen Farrar and Lator and Attorney Thomas W. Moloney being guests of honor. The mayor welcomed the visitors and Archibald Bergovin, a member of the Canadian parliament, spoke for the visitors. The day was passed in automobile and visits to the marble quarries. The Montrealers invited the Rutland club to a big celebration in their city.

ICE MEN ARE INDICTED

By Special Massachusetts Grand Jury

CHARGE OF CONSPIRACY

Six Ice Corporations Are Also Included in the Legal Dragnet—Respondents in Court Yesterday and Furnished Bail.

Boston, Aug. 14.—Seventeen ice men, six ice corporations, three men connected with the Chelsea aldermanic case, were arraigned before Judge Harris in the criminal superior court yesterday as the result of secret indictments found by the special grand jury that sat last week and made its report on Saturday. The ice men who were indicted for conspiracy appeared in court in company with their counsel, former Attorney General Herbert Parker. Their bail was fixed at \$1,000 each. It was furnished and the men left the court house. The ice companies charged with conspiracy in increasing the price of ice are the Boston, Independent, Union, Fresh Pond, Cambridge and Highland Co-operative companies. The ice dealers indicted are President Lewis G. White of the Massachusetts ice dealers' association, Secretary Charles W. Hallstrom, and the following members of the association: Louis A. Holt, Marcus Estabrook, James M. Gill, William H. Barney, J. Edward Kimball, Marshall S. Coolidge, Edward A. Davenport, Charles A. Davis, Reuben W. Hopkins, Frank W. Hannans, John Q. Bennett, Frank H. Atwood, Jarvis W. Ferris, John O. Porter and Silas Boyes.

When asked directly about Marcus M. Estabrook, the president of the Highland Co-operative ice company, who made himself famous by his enunciation of the "soak 'em" doctrine at the annual dinner of the Massachusetts ice dealers' association on April 5 of the present year, Mr. Migan failed to recollect the name. "He is president of the Highland Co-operative ice company," said the reporter, "one of the members of the Massachusetts ice dealers' association, who was not before the grand jury during the indictment, and whose absence was considered significant. Am I to infer that he has not been indicted because he was not called to testify?" "You may infer what you please," replied Mr. Moran. "I have men in Charles street jail at the present time who are indicted for manslaughter, and I did not call upon them to testify before the grand jury."

Alderman Thomas E. Ruggles and Benjamin P. Nichols of Chelsea have received notices to visit the district attorney's office at once. When Alderman Nichols got home Saturday night he found a card bearing Special Officer Waiter's name and on the reverse side was a note requesting him to visit the district attorney Monday afternoon. "I suppose it means that I have been indicted," said Mr. Nichols, "and it is simply a polite way of arresting me. While I don't know that I have been indicted, this is the presumption upon which I am going to visit the district attorney."

Red Pyramid Frightens The Ring.

The outside advertising of the Bureau was put up about the state about two weeks ago. It consisted principally of red figures in pyramid showing the enormous growth of state expenses. The posters had no sooner appeared than a desperate effort was made by the Proctor machine to suppress them.

Billboards Were Bought Up and Heavy Bribes Offered to Bill Posters to Cover Up the Red Pyramid.

In some cases this was successful. In all cases where responsible parties were in charge the outrageous attempt to keep down the truth failed completely. Why does the machine fear to face the truth?

Figures That Won't Be Suppressed

The following is a statement of the Net Running Expense of the state for twenty years. First we show the expense during the fiscal years in which the legislature did not meet.

Table with 2 columns: Year ending July 31st and Expense. Includes years 1884, 1886, 1888, 1890, 1892, 1894, 1896, 1898, 1900, 1902, 1904.

In the years which include a session of the legislature, the amounts are larger and run as follows:

Table with 2 columns: Year ending July 31st and Expense. Includes years 1885, 1887, 1889, 1891, 1893, 1895, 1897, 1899, 1901, 1903.

EXPENSE FOR 1905. The nearest our accountant has been able to get to the state expense for 1905 is to show the gross expense, which appears to be \$808,356.64. Even after deducting some items of revenue, outside of money raised by taxation, it will show the same steady increase as the previous 20 years.

EXPENSE TO DATE. Up to July 20th, the date on which our accountant attempted to get at the state expense for the fiscal year ending June 30th, not one entry has been made on the books of the auditor in regard to state institutions for one whole year previous. By his own figures, however,—though where he gets them no one seems to know, the gross expense of doing the state's business had increased to \$865,623.93. Not only that, but, by the statement of Treasurer Bacon, Vermont is face to face with a deficit of \$50,163.44 on June 30, 1906.

A STATE TAX FOR 1907. We have raised more money by taxing corporations than ever before; we have had the repeated assurance of the machine officials that economy was being used in our public affairs and yet we have spent all our money, we are \$50,000 to the bad and the only possible solution is by raising the tax on corporations or levying a direct state tax on the people. Isn't it time a halt was called on this reckless extravagance?
