ELEVENTH AVENUE THE SCENE OF A VENDETTA

After Seven Years, a Bohemian Finds His Foe and Wreaks a Fistic Vengeance.

New York, Sept. 20.—A vendetta of seven years' standing was fulfilled in Eleventh avenue Tuesday, but the power of vengeance was forced to use his fists instead of the classic fistic.

When John Skorpian was a boy on a farm near Maribrod, Bohemia, Jacob Barulak, a neighbor, struck down John's father. The aged man did not die, but he swore John to vengeance.

"Avenge my hurt, my son, avenge my hurt," until you do this you'll never be lucky," he cried.

Barulak disappeared and young Skorpian came to America to do the avenging. For several years he sought without result the object of his wrath.

Skorpian gave a shout of joy and sprang on his adversary. He bore him down and pummeled him to his heart's content. Then he got up and clapped his hands. Finally he prayed.

At this juncture the police called off the vendetta. John was placed under \$300 bonds to keep the peace.

TYPHOON DEAD PUT AT 1,000

Hongkong Disaster Is Growing

TWELVE VESSELS SUNK

Twenty-Four Driven Ashore in the Harbor—Damage to Native Craft—Several Foreign Warships Wrecked in the Storm.

Manila, Sept. 20.—The latest news from Hong Kong is that 1,000 lives were lost in Tuesday's typhoon. Twelve vessels were sunk and twenty-four were driven ashore. Half of the native craft in the harbor were sunk.

It is reported that twenty sailors belonging to the French torpedo boat destroyer were drowned. It is also said that another French destroyer is ashore on the coast of the island of Hong Kong.

A fleet of nineteen deep sea junks was driven aground on Stone Cutters' Island. These, however, represent only a slight part of the damage done to native shipping. Thousands of small native craft with pearl hunters aboard and hundreds of natives were drowned when these small vessels filled and were swamped.

Four British river gunboats were damaged. The waterfront docks and sea wall are strewn with wreckage. The first reports received here of the damages and loss of life in the typhoon were underestimated. A dozen ships were supposed to have been driven ashore or sunk, and it was known that Hong Kong had been damaged to some extent.

It appeared Tuesday that the great damage had been done to shipping near Hong Kong. The largest number of vessels reported sunk was three, and altogether not more than ten or a dozen ships were mentioned in the cable despatches as having been driven ashore.

There was nothing to show that the typhoon had worked much havoc on land. All this was completely upset by yesterday's message.

It is thought that it is not improbable that hundreds of persons are homeless and that property in the city and surrounding country has been damaged to a disastrous extent.

LAW EXTENDED.

President Orders Eight-hour Day Applied to the Public Work.

THAW REFUSES.

Will Not Allow Alienists to Examine Him in His Cell in the Tomb.

New York, Sept. 20.—Thaw will not allow alienists to examine him in his cell in the tomb. Dr. Charles G. Wagner, superintendent of the state hospital at Binghamton, N. Y.; Dr. Christian C. Belling, superintendent of the state hospital at Morris Plains, N. J.; and Dr. R. D. Evans, chief physician of the state hospital at Morris Plains, N. J., visited and examined Harry Kendall Thaw at the Tomb yesterday morning.

The physicians were accompanied by C. W. Hartridge, A. R. Peabody and John B. Gleason of counsel for Thaw. While the alienists were in the reception room, Mrs. Harry Thaw and the prisoner's mother were talking to him at his cell. They left the prison while the physicians were still in the reception room. Both women expressed surprise when informed that Harry Thaw was about to be examined by insanity experts.

The alienists and the lawyers were escorted to the hospital ward by Dr. McGuire, the prison physician. When they entered the examination room, Thaw was sent down to see them. When Thaw entered Dr. McGuire was politely informed that the test was a private examination, whereupon he withdrew.

It was learned that when the physicians were introduced to Thaw, the prisoner stormed about the room for half an hour, not heeding the protests and pleadings of Mr. Hartridge, and refusing to allow the alienists to examine him. When the physicians and Mr. Hartridge left the prison, the former plainly showed their disgust.

NEW PAPER TRUST FORMING.

Mills to Profit by Experience of Federal Injunction Defeat.

Chicago, Sept. 20.—A blanket increase of 85 a ton in the price of wrapping and other grades of wood papers, with a corresponding advance in other classes, has started a report that a new paper trust is forming.

The delay in the reporting of the true facts is attributed to interrupted cable communication. For this reason it is believed that perhaps the full extent of the ruin is not yet known.

MURDERER'S LONG TRIP ENDS.

Adams Arrives in Wallace, Idaho, After 275 Mile Drive.

Wallace, Idaho, Sept. 20.—Sheriff Sutherland, Vernon Whitney of the Idaho penitentiary, and the Rev. Mr. Johnson arrived here Tuesday with Adams, one of the chief witnesses in the Stuenkel assassination case. Adams was then arraigned on the charge of murdering a man named Diller in 1904.

He confessed this crime in Boise and implicated Newton Whitney of the Idaho penitentiary, and the Rev. Mr. Johnson, a man of the name of Mason. Glover has already been arrested and warrants have been issued for the other two.

Adams' trip from the penitentiary at Boise to this place was sensational. The 275 miles were covered by relays of teams to avoid going out of the state. Deputy Sheriff Adams came from Denver to take Adams to Colorado to answer to another charge of murder.

JEWELS STOLEN FROM BODY.

Boarding House Mistress Accused of Hiding Corpse of a Woman.

Los Angeles, Cal., Sept. 20.—Emma Howard, charged with the theft of diamonds valued at more than \$5,000 from the dead body of the wife of Henry Briggs of Pasadena, was arrested at Stockton Tuesday. The robbery took place Aug. 20, and up to the time of the arrest had been kept a secret.

The diamonds were stolen from the body at Santa Monica, immediately after her death. Mr. Briggs was not in a condition at the time to pay much attention to worldly matters, and the police say the theft was easily accomplished.

TAFT CONFERS WITH PALMA

First Act Under American Intervention

CUBAN LOYALISTS

Believe That Taft Will Use Precedent of Panama—Rebels Demand the Release First of Political Prisoners.

Havana, Sept. 20.—Secretary of War Taft and Assistant Secretary of State Bacon arrived at Havana on the U. S. S. Des Moines yesterday morning and proceeded at once to an interview with President Palma. With this act the actual intervention of the United States with the internal affairs of Cuba under the terms of the Platt amendment is a fact.

At this moment moral suasion is being resorted to bring peace to the harassed island. In the deplorable event of Secretary Taft's failure to bring the warring factions together physical pressure will be exerted. Palma Cabinet officers pretend to think that Taft will support the existing Government as far as is possible to be the case in the most interesting of which is that of Giuseppe Guidici, convicted of murder in Kings county and sentenced to death in November, 1885.

Former Governor Hill commuted sentence to life imprisonment, the following year, and subsequently extended further commutation to forty years.

Justice Albert F. Jenks of the second department, who assisted in the prosecution of Guidici, was in a great measure instrumental in securing Guidici's pardon. Justice Jenks, while visiting Auburn prison a few months ago, met the prisoner by accident, and recalled the circumstances surrounding his case.

Inquiry revealed the fact that during his confinement of more than twenty years Guidici had never broken a single rule of the prison.

FREE AFTER TWENTY YEARS.

Governor Higgins Pardons Italian Once Sentenced to Death.

Albany, Sept. 20.—Governor Higgins yesterday announced that he had granted applications for pardons in four cases—the most interesting of which is that of Giuseppe Guidici, convicted of murder in Kings county and sentenced to death in November, 1885.

Former Governor Hill commuted sentence to life imprisonment, the following year, and subsequently extended further commutation to forty years.

Justice Albert F. Jenks of the second department, who assisted in the prosecution of Guidici, was in a great measure instrumental in securing Guidici's pardon. Justice Jenks, while visiting Auburn prison a few months ago, met the prisoner by accident, and recalled the circumstances surrounding his case.

Inquiry revealed the fact that during his confinement of more than twenty years Guidici had never broken a single rule of the prison.

ONE MORE RAILROAD STRIKE.

Ballermakers on the Chicago Great Western Walk Out.

Chicago, Sept. 20.—While the prospect of an early settlement of the Wabash Railroad strike now seems bright, another road, the Chicago Great Western, has become involved in a similar labor controversy and its repair shops at Oelwein, Ia., have been crippled by a strike of ballermakers.

The other employees of the Great Western's mechanical department are ready to go out as soon as their contracts have expired. The machinists and blacksmiths have served notice on the officials of the road that failure to meet demands for an increase in wages will result in a general walkout extending over the entire system.

Watson and J. W. Leighton, vice president, and M. J. Walsh, secretary and treasurer. It is non-partisan, and its main object is to improve social, business, and political conditions in this town.

It will seek to create a sentiment in favor of independent voting in election of town officers, and will support candidates best qualified for the places without reference to party. The outlook for a large membership is favorable.

USES BED TO ESCAPE. Prisoner Makes Key to Cell Door, Then Digs Through Wall. Lodi, N. H., Sept. 20.—The iron bedstead in a cell of the Belknap County jail furnished Edward Sherrill of Tilton with implements for making his escape. Sherrill used a small piece of iron taken from the bedstead to make a key, with which he unlocked the cell door. Then, with one of the legs of the bedstead which he wrenched off, he dug a hole in the bricks under a grating of a window, pried out and frame, and climbed to liberty through the aperture. Sherrill was awaiting trial on a charge of breaking and entering.
