Clemenceau Plans Said To Be Radical

OLD-AGE PENSIONS

And State Railroads Included—Petroleum and Spirit Monopoly Likely—Sarrin Budget Draft Pretty Certain to Be Revised.

Paris, Oct. 25.—The Clemenceau cabinet has begun the formulation of its programme, and the indications are that some surprises are in store. In well-informed circles the impression prevails that the plans of the government include, besides the carrying out of the law providing for the separation of the church and the state, legislation establishing old-age pensions, the state purchase of western and some of the southern railroads, and the creation of a state monopoly of petroleum and alcohol.

The draft of the budget as presented by the budget commission under the Sarrin ministry, which has been bitterly assailed, will probably be revised.

MOODY TO WAIT.

President to "Sound" Senate as to Appointment of Bay State Man.

Washington, D. C., Oct. 25.—President Roosevelt will withhold his intended nomination of Attorney General Moody of Massachusetts to the supreme court until he has an opportunity to sound the Senate about the Bay State man's confirmation.

He anticipates no serious opposition from what senators have already told him. It was said at the White House yesterday morning that there is every reason to expect the appointment will be made. The only bar to it would be a show of serious opposition at the selection of two justices from one state. In any event Mr. Moody will hardly take his seat upon the supreme court bench before January 1, as the nomination will not be made till Congress assembles.

Owing to the fear of an attack on Tangier the patrols in the outskirts of the city have been doubled.

FARMERS PLAN BEEF WAR

May Cure Own Meats For Home Consumption

TO GET GOOD PRICES

For Products, Form Organization—More Grain Elevator Evidence at Kansas City—Move Against Pullman Co. Under Food Regulations.

Topeka, Kan., Oct. 24.—The National Farmers' congress in session here has resolved to make a vigorous war on the beef trust. The war cry is "cure your meats for home consumption, ship through county agents and to terminal commission agents, who shall be members of the co-operative societies." These are features which will lead to securing better prices for cattle than can now be secured through the commission firms operating at packing centres. As relief from the arbitrary fixing of prices for meat, which has worked to the injury of both consumer and producer, the committee on live stock suggested that the cattle men in each county get together, appoint an agent as their representative in that county through whom shipments would be made to an agent at the terminal point, the latter to be a member of the co-operative society.

BETTER PRICES FOR FARMERS.

Organization Suggested in the West With This Object.

East St. Louis, Ill., Oct. 25.—The first national convention of the American Society of Equity, composed of farmers, began here Tuesday with delegates present. The society seeks to regulate values of grain and farm produce by regulating the supply in relation to the demand. President C. O. Drayton, in his annual address, said: "This organization is not a trust, nor a combine to force extortionate prices, but rather an organization to get profitable prices for farm products. Our idea is to establish granaries in the grain country, cold storage plants, hay barns and places to store all sorts of farm products. If the market is low the society will hold the product until the demand forces up a profitable price, when the goods may be sold. The poor farmer who cannot afford to hold his grain will be given a warehouse receipt, good for two-third the face value of the grain represented."

NEW EVIDENCE AT KANSAS CITY.

Several Witnesses Testify in the Grain Elevator Case.

Kansas City, Mo., Oct. 25.—Evidence of favoritism to the manager of the Kansas City elevators of the Chicago, Milwaukee & St. Paul railway in reduced grain rates, the existence of a rule in the Kansas City Board of Trade threatening its members with suspension for dealing with "irregular" grain men; a combination of members of that organization to fix prices, and threats by grain dealers' associations to boycott the board of trade members who might buy from farmers and others against whom the associations had issued orders were some of the points brought out here on Tuesday, at a hearing before the Interstate Commerce Commission. A score of grain dealers, elevator men and rail yard officials were examined, and their testimony was taken.

CARNEGIE WANTED.

Eastern Court Would Ask Him About a Chadwick Note.

Boston, Mass., Oct. 25.—Because Andrew Carnegie was out of the country when a commission was appointed to take testimony from him in relation to the affairs of Cassie Chadwick, Attorney Samuel W. Emery, appearing for Herbert B. Newton, of Brookline, told Judge Lowell in the United States circuit court that he might not be able to proceed with the trial of the case at this term.

Newton is sued by Receiver George C. Rankin, of the Central National bank of Oberlin, Ohio, to recover on a \$10,000 note that came to the bank through Mrs. Chadwick.

Judge Lowell kept the case on the list for this term, with the understanding that if the Carnegie evidence was shown to be material, the case might be continued, unless there was an agreement as to what this evidence might be.

SAVES MONEY ON LEPEERS.

Massachusetts Finds Experiment of Colonizing Them Is Successful.

New Bedford, Mass., Oct. 25.—The five lepers cared for by the state of Massachusetts at the isolated colony on Penikese island, in Buzzard's Bay, have cost the Bay State for the first fourteen months of the experiment \$49,043, according to figures made public yesterday. The greater portion of this sum, however, was expended for the necessary initial expenses, which included the purchase of the island, the building of four cottages for the patients, and other equipment. Dr. Joshua P. Lewis, superintendent of the board of charity of the state adult poor, estimates that now the colony is established, an annual appropriation of \$5,000 will be adequate for future expenses. Heretofore, the lepers have cost the state about \$11,000 annually.

THE N. Y. CAMPAIGN

Hughes and Hearst in Many Rallies

MURPHY'S PROPHECY

Says Hearst Can Win With 74,000 in New York City—The Tammany Chief Talks on the Campaign.

New York, Oct. 25.—Chas. E. Hughes, Republican candidate for governor, made several speeches up the state yesterday and last night spoke at Cortland, where he spent the night. Mr. Hughes was greeted by large crowds at Waverly, Owego, Binghamton and Whitney's Point. Mr. Hearst remained in New York yesterday. Last evening he made a rapid tour through Greater New York.

Charles F. Murphy, leader of Tammany hall, said yesterday that he expects Hearst to carry Greater New York by 74,000, and that he thinks that will be sufficient for him to win. His attention was called to the fact that Coler, Democratic candidate for governor in 1902, carried New York by 120,000, but was defeated.

"There were no Democrats up-state that year," said Mr. Murphy. "Are there any up there this year?" he was asked.

"I think so, judging from reports," John Carlisle of Watertown, a former member of the state Democratic committee, made a statement yesterday in which he declares he will not support Hearst. Mr. Carlisle said that in two years Hearst will run for President on the Independence league ticket and that the duty of every Democrat for the preservation of the party is not only to defeat him, but to bury him.
