Baseball Notes

Arthur W. Daley, of Montpelier, and other members of the Ottawa baseball team who sued the association in that city for part of their salaries have received word that Judge J. J. O'Meara, who tried their case, died recently, and that no decision had been rendered by him.

"Young O' Young may not go back to the Boston National team this season. According to the story that comes from other than official sources, he has determined to reject the offer of President Dovey, and what is more, will quit the game.

The president has also recently said that Congress would probably not reverse the tariff should he call an extra session, because outside of a few states there is no strong public sentiment for it.

Senators and members would be in an ugly mood at having to come to Washington, and the leaders are strongly organized against revision.

APPROVES HOUSE NAVAL BILL

Senate Committee Authorizes Favorable Report.

Washington, Feb. 19.—The Senate committee on naval affairs yesterday authorized a favorable report on the naval appropriation bill.

EAST BARRE

The Ladies' Aid of the Congregational church will meet at the home of Mrs. Fred Greenon on Thursday afternoon at the usual hour.

The regular weekly prayer meeting will be held in the church vestry Wednesday evening at 7 o'clock.

Mr. Watt of Barre has kindly consented to come up and lead this morning. It is hoped a large number will gather there if only to show appreciation of his kindness.

The church committee have had definite news from the Rev. W. R. Stewart to the effect that he will be with us in the near future.

The Red Men are making extensive plans to have their banquet next Friday evening a success. They are providing a good feast and an excellent program.

REPLIES TO GUILD'S NOTE

President Sends Letter to the Governor

WILL BE NO EXTRA SESSION

So President Answers Guild's Tariff Petition, It is Now Understood—No Strong Sentiment, Many States Hostile.

Washington, D. C., Feb. 19.—President Roosevelt yesterday replied to Governor Guild's tariff petition. There was a conference yesterday with the Massachusetts senators, who were shown the text of the letter.

It is known to be brief, and probably leans to the suggestion of Senator Crane that as little be said about the tariff issue as possible.

It was stated at the White House in the morning that Governor Guild will have to make the letter public, if it is made public at all.

If the people of Massachusetts alone were concerned, the president would have no hesitation in claiming an extra session of Congress on the question.

But he has weighed the sentiments of other senators, and it is very positive in his conviction that it would be absolutely fruitless to call Congress together again.

He has never hesitated on that subject for a moment, and has not for a moment thought of an extra session.

Those who have discussed the tariff situation with him, the president has used the matter of free hides as an illustration as being the attitude of the far western states and also of Democratic Texas as uncompromisingly hostile.

The president has also recently said that Congress would probably not reverse the tariff should he call an extra session, because outside of a few states there is no strong public sentiment for it.

Senators and members would be in an ugly mood at having to come to Washington, and the leaders are strongly organized against revision.

APPROVES HOUSE NAVAL BILL

Senate Committee Authorizes Favorable Report.

Washington, Feb. 19.—The Senate committee on naval affairs yesterday authorized a favorable report on the naval appropriation bill.

The resolution directs the secretary of the treasury to ascertain and report to Congress for the balance of the fiscal year the interest charges on call loans at 11 and 2 o'clock each day.

POPE PIUS DOES HONOR TO MONSIGNOR KENNEDY

Sends Special Blessing for Golden Wedding of Prelate's Parents.

Rome, Feb. 19.—The pope yesterday received in private farewell audience Mgr. Kennedy, rector of the American college here, who is going to the United States on a two months' vacation in order to be present at the celebration of the golden wedding of his parents.

The pontiff sent his special blessing to the latter and also a photograph with his autograph.

Mgr. Kennedy subsequently presented General William F. Draper, the former American ambassador to Italy, and his family, Miss Iselin of New York, and Miss Bronson and Mr. and Mrs. Nicholas Thouron and Miss Margaret Thouron of Philadelphia.

PRESCRIPTION FILLED OFTEN

Local Druggists Were Kept Busy All Last Week.

RELIEVES ALL LAME BACKS

No Sufferer of Ailment or Bladder Troubles or Rheumatism Should Leave It Untried—Is Easily Mixed at Home and Absolutely Harmless.

That the readers of this paper appreciate advice when given in good faith is plainly demonstrated by the fact that one well known local pharmacy filled the "vegetable prescription" many times within the past two weeks.

Another well-known druggist asks us to continue the announcement of the prescription. It is doing so much real good here, he continues, that it would be a crime not to do so.

The following is the prescription, of vegetable ingredients, making a harmless and inexpensive compound, which any person can prepare by shaking well in a bottle: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

CLERGYMAN WANTS ALL THE THAW TESTIMONY PUBLISHED

"I Think the Public Should Read It," Says a Kansas Pastor.

Wichita, Kan., Feb. 19.—In a sermon on morality, entitled "Woman's Rights," the Rev. Dr. John Henry Cudlippe, pastor of the First Methodist Episcopal church, declared Sunday night that all the testimony in the Thaw trial should be printed.

"I want to see every line of the Thaw evidence printed," said Dr. Cudlippe, "and I want to read it. I think the public should read it."

PEARL BRYAN'S SKULL DUG UP

Missing Head of Victim in Famous Murder Mystery Found by Workmen.

Cincinnati, O., Feb. 19.—Workmen have discovered a skull that has been identified by competent anatomists as that of Miss Pearl Bryan, the Green castle, Ind., girl killed on February 1, 1896, by Jackson and Walling, Cincinnati medical students.

That the skull is Miss Bryan's has been proved by evidence said by lawyers to be as valid and relevant as the circumstantial evidence on which the students were convicted of murder and hanged for their crimes in Newport, Ky.

The skull was found in the soil which forms part of the roadway that a carriage on its way from the proved scene of Pearl Bryan's murder, near Fort Thomas, Ky., would take in proceeding to the home of a doctor in Newport, where the testimony at the trial showed Miss Bryan underwent treatment, just before she was killed.

No other parts of the skeleton to which the skull belonged have been found.

The measurements of the skull tally with the measurements prescribed by comparative anatomy for Miss Bryan's skull.

SLEEP BROKEN BY ITCHING ECZEMA

Skin of Whole Body Covered for a Year—Awful Itching Kept Sufferer Awake Half the Night—Tried All Kinds of Remedies but They Had No Effect.

CUTICURA REMEDIES A PERFECT SUCCESS

"I wish to let you know that I have used one box of Cuticura Remedies—one cake of Cuticura Soap, one box of Cuticura, but two vials of Cuticura Resolvent Pills—which cost me a dollar and twenty-five cents in all. For a year I have had what they call eczema, I had an itching all over my body, and when I would retire for the night it would keep me awake half the night, and the more I would scratch, the more it would itch. I tried all kinds of remedies, but could get no relief. A friend of mine told me to try the Cuticura Remedies which I did, and an hour after I tried them, for I was completely cured. If any of my friends should be troubled with the same disease, I will cheerfully recommend the Cuticura Remedies, and if I know any one who shall be glad to tell them, Walter W. Paglusch, 207 N. Robert St., Chicago, Ill., Oct. 8 and 16, 1906."

CUTICURA The Great Skin Cure and Purest and Sweetest of Emollients.

Cuticura Ointment is, beyond question, the most successful curative for torturing, disfiguring humors of the skin and scalp, including loss of hair, yet compounded, in proof of which a single application with Cuticura Ointment, followed by a hot bath with Cuticura Soap, and followed in the severer cases by a dose of Cuticura Resolvent (Liquid or Pills), is often sufficient to afford immediate relief in the most distressing forms of itching, burning, and scaly humors, eczema, rashes, and irritations, permit rest and sleep, and point to a speedy cure when most of all other remedies and even physicians fail.

Complete External and Internal Treatment for Every Humour of the Skin, Scalp, and Adipose Glands. HAS NO HOPE IN BURLINGTON

City Very Likely to Vote For License Again

THINKS ANTI-SALOON MEN

Supt. Ferguson of the League It Not Making a Great Effort in the First City of the State, But Is Working Hard Elsewhere.

Burlington, Feb. 19.—The Vermont State Anti-Saloon league is in the thick of a fight to deprive the number of towns in the state that vote license. This end towns and villages and cities are being stormed with meetings, flooded with anti-saloon literature, and the voters met face to face by representatives of the league all over the state.

Superintendent C. J. Ferguson of this city works everywhere except in Burlington, in which city he sees little hope. That is, he does not think that much effective work can be done by the league here at this time in turning the vote at the same time he is flooding the city with copies of the current number of the Vermont issue, the organ of the league, and expects that the city may go non-license.

"We are trying to keep down the license vote all over the state," said Mr. Ferguson to a reporter for this paper. "The superintendent of the New Hampshire state anti-saloon league, the Rev. Dr. Barker of Boston, and many state speakers are in the field every Sunday and the next two weeks will see much accomplished in the way of stirring up the people to a sense of their obligation in this matter."

Mr. Ferguson spoke of the excellent beginning made in the city of Rutland towards organizing a no-license league, and remarked that similar organizations were being effected all through the state so far as possible.

PRIEST FOR SELECTMAN

Head Fusionist Ticket in Bennington This Spring.

Bennington, Feb. 19.—The home of the Bennington "idea" with which was inaugurated the independent campaign of Percival W. Clement for the governor last spring, has retained the fusion proposition in politics and it is going to be used at the coming March meeting in an attempt to oust the present officials.

Democratic and independent caucuses were held Saturday evening and at both conference committees were appointed for the purpose of selecting a joint ticket. The nominations agreed upon are about equally divided between Democrats and Republicans and some of the names will probably appear upon the Republican ticket to be placed in nomination this evening.

The fusion ticket is headed by the Rev. A. A. Barron, of St. Francis de Sales Roman Catholic church, as first selectman of the Emory S. Harris, chairman of the state Democratic committee. It is one of the candidates for mayor, and Edward J. Hall, candidate for state auditor on the fusion ticket last summer, is named for collector. The ticket was made up, its makers assert, with an eye to making it collectively and individually as strong as possible, and it is probable that the coming election will be more than usually interesting.

BETTER FREIGHT SERVICE

Burlington Jobbers Want It From The Central Vermont Railway.

Burlington, Feb. 19.—A meeting of the wholesale jobbers of this city was held at the office of the Burlington Grocery company on Saturday afternoon with the idea in view of securing better freight service from the Central Vermont railway in the handling of incoming and outgoing freight.

F. E. Kimball was elected chairman of the meeting and R. S. Barstow secretary. A committee comprising C. M. Russell, O. C. Taylor and J. E. Miles were appointed and they with the chairman will draw up a set of resolutions to be submitted in the form of a complaint to the state board of railroad commissioners for its consideration. It is hoped by the jobbers, who state that they are having difficulty in the receiving and shipping of freight, that the present conditions will be greatly improved.

One of the local jobbers said Saturday that conditions were such that it was almost impossible to get a shipment of fruit through to Montpelier within five days. He also said the jobbers had also similar difficulty in receiving freight from out of the state.

JUDIC CHOLET.

MANY CHILDREN IN CONGESTED DISTRICTS

VICTIMS OF CONSUMPTION

S. Goodfriend, a specialist from New York, declares that ten per cent of the children in the congested districts of Cleveland are victims of tuberculosis.

The same deplorable conditions have been found to exist in other cities, and the eradication of the white plague among children has been started in earnest. Sanitary conditions are being improved, roof treatment, affording fresh air, is given, and nourishing food is being supplied.

Children with weak lungs are susceptible to colds, which cause the lungs to become sore. The tubercular germ settles in the sore places and sets up what is called a "mixed infection," the starting point of consumption.

Parents are warned against giving children cough or cold remedies containing opiates, as narcotics only stultify the lungs and render them more susceptible to the deadly tubercular germ. The following simple formula, the ingredients of which can be obtained from any good prescription druggist at small cost, will break up a cold in twenty-four hours, and cure any cough that is curable: Virgin Oil of Pine (Pure), one-half ounce; Glycerine, two ounces; good whiskey, a half pint. Use in teaspoonful doses every four hours.

An eminent authority on lung trouble says if this simple and effective formula was known and generally used, throat, lung and bronchial affections would seldom reach an acute stage. Care should be used in selecting pure ingredients, and, to avoid substitution, it is best that they be purchased separately and mixed in your own home.

The Virgin Oil of Pine (Pure) should be purchased in the original half-ounce vial, put up expressly for druggists to dispense. Each vial is securely sealed in a round wooden case, with engraved wrapper, with the name—Virgin Oil of Pine (Pure), guaranteed under the Food and Drug act of June 30th, 1906, serial number 451, prepared only by Leach Chemical Co., Cincinnati, Ohio—plainly printed thereon. There are many tank imitations of Virgin Oil of Pine (Pure), which are put up under similar names and style of package. Never accept these as a substitute for the Pure Virgin Oil of Pine, as they will invariably produce nausea and never effect the desired result.

THE EIGHT HOUR LEAGUE.

A Nonpolitical Organization That Aims For a Shorter Workday.

The Eight Hour League of America has been thought by many to be a political organization. We want to disabuse the minds of any and everybody that this league is formed in any way for political purposes. It is not now and never will be controlled by any political party, says the Labor World of Jersey City. The one sole idea and object of the Eight Hour League of America is to establish a universal eight hour workday for all trades, crafts and businesses.

It will be the aim of the league to accomplish this by enlisting the sympathy and co-operation of all citizens of the nation, state and municipalities. It will be the aim of the league to have the "natural" workday introduced on all the great railroad systems of the country. It is the purpose of the league to secure the eight hour workday and make it effective through the workings of the labor organizations and with the assistance of the many influential men in public life and others engaged in commercial and industrial pursuits who are known to be friendly to the plan of a shorter workday.

It shall be the aim of the league to have the eight hour principle embodied in the platform of every candidate who comes before the people for their suffrages, city, county, state and national, and the Eight Hour League of America will give its support to the candidates who have this principle embodied in the platform upon which they stand, whether they be Republican, Democrat, Socialist or Prohibitionist. The Eight Hour league has been formed to voice the worldwide demand today for the universal eight hour workday.

The league has been incorporated under the laws of the state of New Jersey and has established national headquarters at 80 Montgomery street, Jersey City, N. J., from which it is sending literature throughout the country and is building up a powerful organization that can and will demand the universal eight hour working day.

Literature bearing upon the purposes of the league and speakers who are ready and willing to address labor organizations or other bodies interested in the eight hour workday can be had by addressing William E. Ward, secretary Eight Hour League of America, 89 Montgomery street, Jersey City.

CANADIAN LABOR BILL

Proposed Measure to Settle Strikes and Lockouts.

A bill prepared by Minister of Labor Lemieux which seeks to prevent and settle strikes and lockouts is now before the Canadian parliament. From a labor viewpoint it is perhaps the most important bill that has ever come before the house.

Under its broad terms of conciliation and investigation may be constituted, one member being selected by each party to a dispute and the third by the two so appointed or by the minister of labor. Full powers regarding the summoning of witnesses are conferred on these boards. Until disputes have been referred to the board and fully investigated it is made an offense either to lock out or to strike.

After the board has made its recommendations the parties are free to accept or reject its findings.

A special provision makes it an offense for any person to incite others to declare or continue a strike or lockout prior to or pending a reference of a dispute to a board of conciliation and investigation.

It is made an offense for employers to declare a lockout simply because any of their employees are members of a labor organization. Similarly it is made an offense for employees to strike simply because an employer employs nonunion men.

SIX LIVES LOST IN GALE

Barges Ashore Near Highland Light

TWO MEN DROWNED

Nothing Seen of the Crew of the Alaska—The Vessel Broke Adrift from the Tug Valley Forge.

Highland Light, Mass., Feb. 19.—The barge Girard, coal laden, went ashore near the Highland Light life saving station and two of her crew were drowned. Captain Larson and another member of the crew were saved by the life savers. The barge will be a total loss.

The barge was in tow of the tug Valley Forge, bound from Philadelphia for Boston. In the heavy northeast gale which prevailed early yesterday, with a thick snowstorm, the Girard broke adrift, and within a short time she was driven ashore.

She was sighted by the life savers of the Highland Light and High Head life saving stations, and as the four men aboard the barge could not launch boats on account of the rough seas, the life savers shot a line aboard the stranded vessel, and Captain Larson and Seaman Morton Burke were brought ashore in the breeches buoy.

Seaman Joseph Johnson and Joseph Johansen were caught in the cabin when that part of the barge filled, and were drowned.

Shortly before 1 o'clock another barge believed to be the Alaska, was thrown up on the breakers, and in a few moments went to the bottom with all hands on board.

IVES SHOWED BULLDOG GRIT.

Old Eli Crew Captain Dead After Revolver Accident in New Mexico.

Albuquerque, N. M., Feb. 19.—Alone and 90 miles from a telegraph, in one of the remotest parts of New Mexico, Sherwood B. Ives, son of Brayton Ives, the New York banker, accidentally shot himself with an automatic revolver and died while being driven in a buggy to Magdalena.

A rider was sent post haste to Magdalena and a surgeon was
