

MOTHERHOOD

MRS. DANIEL SULLIVAN

Unquestionably preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the entire feminine organism and renders it perfectly normal.

A woman in good physical condition transmits to her children the blessings of a good constitution. Read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sullivan, 589 E. 7th Street, Flatbush, N. Y.

"What a blessing Lydia E. Pinkham's Vegetable Compound is to motherhood. I sent you a picture of my three month old baby and myself, and the photo shows the splendid condition of our health. That I am so well and the baby so healthy and happy is entirely due to your excellent remedy, Lydia E. Pinkham's Vegetable Compound. I took it for five months before baby came and it brought me an easy confinement and kept me strong, whereas I was weak and in perfectly miserable health all the time when my first three children were born."

Mrs. Geo. Walters of Woodlawn, Ill., also writes:

"I feel it my duty to tell of the good Lydia E. Pinkham's Vegetable Compound has done me and to recommend it to all expect-

tant mothers to insure a healthy child and easy birth. I had lost three children and was discouraged when a friend advised me to try Lydia E. Pinkham's Vegetable Compound. I did so and it not only kept me well and strong but I have a healthy child as you will find anywhere. I hope other discouraged women may read this letter and take Lydia E. Pinkham's Vegetable Compound and be benefited by it as I have been."

Women should remember that for more than thirty years Lydia E. Pinkham's Vegetable Compound has been without a rival in sustaining women's health and curing all those painful ailments peculiar to her sex. Its record shows that it has cured almost every form of female complaint, organic troubles, inflammation and ulceration, falling and displacements and consequent spinal weakness, and is peculiarly adapted to the periods of child-birth and change of life. It cures backache and all those bearing down sensations.

If there is anything about your case you do not understand write to Mrs. Pinkham, Lynn, Mass., for advice. It is absolutely free. Thousands of women have done so and have received help.

SUES PLATT FOR DIVORCE

Mae Wood Gets After U. S. Senator

WILL CAUSE SENSATION

Says She Has Named 16 Women as Co-respondents and Announces That Trial Will Disclose Many Crimes.

New York, Feb. 27.—Suit has been brought in the supreme court of this city by Miss Mae Catherine Wood against United States Senator Thomas C. Platt, and there is every likelihood that it will create a sensation when it comes to trial.

Miss Wood, who is at Colon, Mich., is quoted as saying:

"I instituted divorce proceedings on December 27 last in New York against Senator Platt through my attorney, Mr. O'Flaherty. I have named 16 women

THOMAS C. PLATT

as co-respondents. The trial will disclose crimes of various kinds, including robberies and perhaps attempted assassinations.

Miss Wood is herself an attorney, and it is probable that she has taken an active part in the preparation of her own legal papers. She attracted a great amount of newspaper notice about the time of Senator Platt's marriage to Mrs. Lillian T. Janeway, in October, 1903. Miss Wood, who was then employed in the postoffice department in Washington, insisted that she had been given reason to believe she would become Mrs. Platt, and, in revenge, announced that she would publish Senator Platt's letters to her under the title of "Love Letters of a Boss."

Frank Platt, son of the senator, had an opportunity to see the love letters before they were given to the public. As a result there was a compromise and they were not published.

"IT IS FALSE," IS PLATT'S REPLY TO MISS WOOD.

Admits His Divorce Suit, But Denies Every Allegation Made.

Washington, Feb. 27.—When Senator Thomas C. Platt was questioned yesterday concerning the reported filing of an action against him for divorce by Miss Mae Catherine Wood—his old-time mistress—in the New York supreme court, he said:

"It is true that a suit of divorce has been filed. For the present I do not care to discuss the case in the newspapers. I deny her allegations in every particular. They are as false as false can be."

Miss Wood has long been threatening to sue Mr. Platt for divorce, claiming to have abundant evidence that she and the aged New York senator were married.

It is understood that Miss Wood pretenses to have in her possession one or more letters from the senator which would hold her contention of marriage.

To Aid the Trolling Infants.

And now conservative Missouri has found that it has to wrestle with the child labor problem. There is a state law which when framed was thought to be sufficient to prevent the great evil of child labor. Recently, however, investigation has shown that the law was either not enforced or was inadequate. State Factory Inspector Hiller will have introduced in the legislature this winter a more carefully drawn and drastic bill.

According to the inspector, there are now tolling in the big factories of St. Louis for a mere pittance thousands of little children whose opportunities for education and advancement have been forever sacrificed to the remorseless god of gain.

Important Labor Decision.

Judge Gaskill of the superior court of Boston recently gave one of the most important labor decisions ever heard in Massachusetts. It was that a labor union has a right to fine any member who does not accede to the demand of the union and quit work in an establishment where a strike has been ordered by the union.

New Haven.

The name of Quinlupia was changed to New Haven by order of the Connecticut court in 1940.

Just a Surmise.

ALL DRUGGISTS, 50c. AND \$1.00.

ACCUSE STOESEL OF COWARDICE

Secret Report of The Defence of Port Arthur Has Been Made Public.

St. Petersburg, Feb. 27.—A copy of the secret report on the defence of Port Arthur, which is the basis of the indictment on which Lieutenant-General Stoessel, Lieutenant-General Fock, who commanded the Fourth East Siberian Division at Port Arthur, and Major-General Reiss, chief of staff of General Stoessel, are standing trial for their lives before the supreme court martial, has been made public. It is of the greatest interest as explaining the decision to try these three officers and noble prose-qui the other defenders of Port Arthur. The report, which was written by Lieutenant-General Smirnov, the actual commander of the fortress, Stoessel being commander of the Kwantung Peninsula, is sensational in the extreme and categorically accuses Stoessel of cowardice and incapacity and finally of the deliberate, treasonable, surrendering of the surrender to save his own life and in defiance of the decisions of two successive councils of war. The report is based in the extreme, breathes the most bitter personal enmity and shows that the high officers of the Port Arthur garrison the darkest days of the siege were almost each others' throats. Only the late Major-General Kondratenko, commander of the Seventh East Siberian Rifle, had the confidence of both sides.

The report explains the references made in General Kurptkin's report of General Stoessel's demoralization of the garrison. The indictment is summed up in the conclusion of General Smirnov as follows:

"A series of unpardonable blunders outside the fortress due to the ignorance and lack of military capacity and martial prowess of Generals Stoessel and Fock brought about the investment of the fortress several months earlier than necessary and after the investment a desire for unreserved glory moved Stoessel to interfere in the defence with unfortunate results. Finally, at the last period of the siege, Stoessel usurped his authority and the assistance of Generals Fock and Reiss and committed treason in surrendering suddenly and prematurely. I regard our defeat at Mukden as a direct result of this treason."

SNAPSHOTS OF THE MODE.

Handbags Match Gown Trimming.

Handbags match the buttons used on one's gown, and there are sets, consisting of neck chain and locket, buttons and mental wristbands, that come to be worn together. A bracelet to match is added, and the set is charmingly unique and dainty.

The skirt most in favor for simple muslin frocks has a deep flounce set

OF THE NEW FORDGE—3575, 5432.

on above the knees which is trimmed with groups of tufts or alternating rows of tufts and inset lace.

Pique is again a smart summer fabric for tailored gowns. A particularly smart model has a box plaited skirt and box plaited blouse cut low at the neck and without sleeves. This waist is worn with a lingerie blouse. Falling sleeves, drooping hat brims and a less defined waist line are some of the prevailing styles in early fashions.

Skirts seem to be of two kinds—one most heavily loaded with trimming and the other a long plain clinging skirt almost devoid of trimming unless it be at the hem. These are of course both skirts of a dressy nature.

The illustration shows a smart little dress of pique in a new plaid effect, with green lines on the natural pique background. The waist is in the favorite jumper style, with a glimpse of cream colored lace. The skirt is plaited in groups. JUDIC CHOLLET.

HARVARD IS STILL IN GAME

Will Not Abandon Game of Foot Ball

SAYS PRESIDENT ELIOT

He Declares That the Game Has Been Changed, and That It Is Therefore Satisfactory to Him.

Boston, Feb. 27.—Football will be played at Harvard university next fall, according to statements made by President Charles W. Eliot which were made public yesterday.

It had been generally supposed that President Eliot was opposed to football and the recommendations of the special investigating committee which was appointed some time ago to make a report on the general subject of athletics has been awaited with some concern by the

PRESIDENT ELIOT.

undergraduates, in view of the stand taken by President Eliot in regard to football and other intercollegiate sports.

In the interview President Eliot is quoted as saying:

"No one for a long time has proposed to stop intercollegiate athletics at Harvard. Last year some people wanted either to stop football or change it. Football has been changed, and so far as I can see it will go on as usual at Harvard next fall."

The special investigating committee, which was appointed some time ago, has rendered two reports, a majority report and a minority report. As yet I have not seen either the former. Football has not been singled out for special consideration any more than other branches of sport.

When asked if he intended to reply in any way to President Roosevelt's recent speech at the Harvard Union, when football was upheld, President Eliot said he did not.

"I have always criticized the abuses of football," he said, "and do yet. I think you will find our positions with reference to sport on rough sport are not essentially different."

President Eliot added that he expected to make public his annual report in about ten days. In this he is expected to have much to say concerning athletics. The report is generally made public in January, but was delayed this year for the treasurer's statement.

The Town of Brook.

The nearest town in the world is Brook, in Holland. So tidy are the inhabitants that they will not allow horses in the street. It contains a population of 2,700, and the chief industry is the making of Edam cheese.

The "Dopper."

It is not uncommon to find the epithet "dopper" applied to a Boer, as if the terms were synonymous. The name "dopper" is really derived from the Dutch word for an extinguisher, and it is properly applied only to the members of a religious sect which is notorious for extinguishing all theological opinions of a later date than the famous synod of Dort.

Britany Marriage Custom.

In Brittany there is said to prevail a curious marriage custom. On certain fet days the young ladies appear in red petticoats, with white or yellow borders around them. The number of borders denotes the portion the father is willing to give his daughter. Each white band denotes silver—100 francs per annum; each yellow band represents gold—1,000 francs a year.

Teapots.

Teapots are used in China only by the poor. Among the wealthy it is customary to put the tea leaves in each cup and pour water on them.

Demerara.

Demerara, in British Guiana, was at one time a regular port hole, 700 of the Royal artillery having died there in one season. But, owing to irrigation, drainage and all the latest sanitary improvements, as the advertising gag has it, Demerara is now a health resort.

The Serpent's Sight.

There is a tradition in many parts of Europe that when a serpent's sight grows dim with age he eats fennel and thus regains his vision.

Wherever there's Pain There is the place for an

Allcock's PLASTER

The Standard External Remedy

ECZEMA GERM DISCOVERED

Dr. Dennis, Well Known Specialist, Explains Discovery in Official Report.

In a paper read before the National Medical society in Chicago, Dr. D. D. Dennis explained his experiments which led up to the discovery of the eczema germ.

This discovery has settled the long-disputed questions that skin diseases are due not to condition of the blood, but to disease of the skin itself. Dr. Dennis explained that cures could be effected only by curing the skin through the skin. The majority of skin sufferers, he said, were entirely healthy in all other respects, showing no pathological symptoms.

By applying certain harmless vegetable ingredients direct to the injured skin the doctor explained how the diseased condition could be relieved instantly, taking away the terrible itch and leading to an early cure.

The reading of the paper was followed by a general discussion in which a number of Chicago's most eminent physicians participated. In reply to several questions, Dr. Dennis defended his course in having permitted the D. D. Co., of Chicago to put out his prescription in original bottles to be sold at \$1 a bottle, instead of stating his formula only to brother physicians, who could then prescribe the remedy. Dr. Dennis said there were thousands of sufferers from skin diseases who could not or would not pay the regular fees for being under the care of a physician, so that the same results could be accomplished by selling "D. D. Prescription" in original bottles through the druggists. He declared that he did not consider his remedy a patent medicine in the ordinary sense of the word, which was evidenced by the fact that while some brother physicians had apparently grown jealous of him, others were freely directing their patients to use D. D. Prescription for eczema and similar diseases.

After Dr. Dennis had concluded, Dr. A. B. Hartley of Albany, N. Y., read a paper on tubercular infections.

CONFESED HE POISONED HIS WIFE AND DAUGHTER.

Husband Arrested After Shamming Illness—Infatuated With Another.

Denver, Col., Feb. 27.—Benjamin C. Wright, solicitor for the International Correspondence school of Scranton, Pa., is in jail on a charge of murder, having confessed to the chief of police Monday night that he poisoned his wife and daughter, who were found dead Monday in their home in this city. Infatuated for Stella Good, on whose account the police say Wright had neglected his family, is supposed to have been the motive for the crime. According to the statements of hospital physicians Wright had taken no poison, and was shamming Monday when he seemed to be unconscious. He has not disclosed the nature of the poison given his wife and child. Following Wright's confession, Stella Good was arrested at Colorado Springs.

FRIBBLES OF FASHION.

Skirt Models That Will Be Popular.

There are a number of new models in separate skirts for spring, which indicate the continued vogue of separate skirts and waists. The plaited skirt is most prominent, with numerous graceful variations. A smooth fit over the hips seems to be the most important point about all these skirts.

Knife plaited models made of two tone striped gray wool in dark colored are very smart. The plaits are stitched at the depth of the hips, then well pressed to retain the shape and finished around the bottom with a wide, neatly turned hem.

Dainty women are putting delicately performed sachets in their corsets under the bust laces. Garter eczema bags which fit comically each side of the garter top are a French freak.

In bridesmaids' attire veils and empire wreaths have superseded hats, the

LENS DRESS—5077, 5185.

wreaths being composed of gold berries and leaves, with a veil of gold or silver gauze floating behind. Another pretty fancy is the wreath of forget-me-nots and tiny button roses tied at the side with a true lover's knot or bow of velvet.

If anything the spring cloths are more supple than ever, and in making them so the manufacturers have succeeded without lessening their quality or tint. As for the colors, the shades are more varied than ever, and the nature schemes are followed most faithfully.

The shirt waist dress in the picture is of linen in a coarse canvas weave that is peculiarly effective and is going to be very smart next summer. The yoke is the new feature.

MANY SLAIN AT KISHINEFF

Horrible Brutality on the Part of Mob

JEW BAITING CONTINUES

Five Persons Killed Outright and Scores Injured, Some So Badly That They Will Eventually Die.

Bucharest, Feb. 27.—Details of the anti-Jewish riots reaching here yesterday from Kishineff tell of horrible brutality on the part of the mob, which has carried on a reign of terror in that city. The leaders of the Jew baiting had arrived at Kishineff from Odessa, and after stirring up the riot forced an entrance to synagogues, where they destroyed costly fittings and attacked the worshippers, beating and stabbing the men and causing terror among the women.

Five persons were killed outright and scores were injured, many so badly that they will die. Following the disorders in the synagogues there was a looting of the Jewish shops and street disorders which caused hundreds of families to flee to Roumania.

MR. WHITE GIVEN FAREWELL AUDIENCE WITH ITALY'S KING

Presents Letters of Recall Previous to Departure for Paris Post.

Rome, Feb. 27.—King Victor Emmanuel yesterday received in private audience the American ambassador, Henry White, who presented his letters of recall, previous to his departure for Paris, where he succeeds Robert S. McCormick as ambassador to France.

ALIVE IN A TOMB?

Strange Case of a Young Russian Woman.

Rome, Feb. 27.—The story of a weird vigil is told by a correspondent who writes from San Remo. In a vault of a church there, he says, a watch is kept night and day over the body of a young Russian woman which is reposing in a coffin.

The woman, who was married, was consumptive. A fortnight ago her death was duly certified and her body was removed to the place where it now is.

Eleven days later the woman's relatives arrived from Russia and the coffin was opened. The body was found to show no signs of death. The skin was soft and retained the tints of life and the lips were crimson. The eyes were wide open and conveyed an uncanny impression that they saw. Doctors were hastily summoned, but were unable to account for the strange condition of the body. It is being watched in case animation should return.

DOUMA NEARLY COMPLETE.

And 463 of 524 Members Have Been Selected.

St. Petersburg, Feb. 27.—Four hundred and sixty-three of the 524 members of Parliament have now been selected. The party of the Left predominates. The city of Nijni-Novgorod has elected a member of the Group of Tall, Dr. Dolgopolo, who is an exile as the result of the part which he took in spreading the social revolutionary propaganda.

The Social Democrats and Social Revolutionists are offering on the subject of the tactics which they are to follow in Parliament. The general impression is that they are opposed to any measures likely to precipitate another dissolution of Parliament. The Slovo today publishes interviews with prominent members of the Constitutional Democratic party who are quoted as declaring that Parliament must first make a stand against revolution. The leaders are opposed to a general attempt to solve the agrarian problem during the sessions of the coming Parliament.

POPE LOSES HOPE.

Expects No Immediate End to the Struggle in France.

Rome, Feb. 27.—It is said in Catholic circles that the pope has declared to the French episcopate that it must not hope for anything more from providence. After some years of trial the church will triumph in the present struggle, as she always has triumphed in secular struggles in the past.
