AGREEMENT REACHED IN CANADA DISPUTE. United States and England to Negotiate Treaty on Boundary Waters Question.

Washington, D. C., April 9.—Announcement was made at the state department yesterday morning that a substantial agreement had been reached between the United States and Great Britain for the negotiation of a treaty covering all matters relating to the boundary waters between this country and the Dominion of Canada.

The matter has been pending for a long time and has been the subject of diplomatic correspondence between the state department and the British embassy. Mr. Bryce has scarcely had time to give the subject any consideration since his arrival in this country, but it will be one of the matters which he will take up shortly after his return to Washington.

TWO KINGS AT CARTAGENA.

Great Crowds Greet Edward VII of England and Alfonso of Spain.

Cartagena, April 9.—King Alfonso and his mother, ex-Queen Christina, with a suite including Prime Minister Maura and Count Salazar, minister of foreign affairs, arrived at Cartagena at 7:30 a. m.

The British royal yacht Victoria and Albert, escorted by warships, was sighted later in the day, and King Alfonso went out to meet King Edward and Queen Alexandra on board the Spanish royal yacht Gracida.

The dining saloon was hung with priceless Gobelin tapestry from the royal palace, whence also the famous gold dinner service was sent to Cartagena under a special military guard.

Cannon Back from Panama—He Thinks That the Big Waterway Will Be Built Within a Reasonable Time.

Washington, D. C., April 9.—"The president and I are the best of friends. Nothing better."

These words were uttered by Senator Scott of West Virginia after he had had a long talk about political matters with the chief executive yesterday.

BEHIND PRISON BARS.

Think President Would Like to Jail Mr. Harriman.

Washington, D. C., April 9.—President Roosevelt is personally urging expedition in the investigation of E. H. Harriman before the interstate commerce commission.

There are men at the commission who believe it is the president's plan not only to get the Harriman case into court as speedily as possible, but if there is evidence to warrant it, make the most conspicuous example of Mr. Harriman that has yet been made of any magnate.

As Mr. Harriman is said to have boasted that he could buy the courts, it is understood to be Mr. Roosevelt's purpose to show very emphatically that Harriman cannot make a commodity of justice.

Those who know the president well say he would like to see the imprisonment penalty enforced against Harriman if the government is able to find a case where such a penalty would be authorized.

SCALY ERUPTIONS COVERED HIS BODY

Itched Constantly—Scratched Until Blood Flowed—Suffered 10 Years—Doctors and Medicines Were Fruitless—Tries Cuticura and Is Completely Cured

BY THREE BOXES OF CUTICURA OINTMENT

"When I was about nine years old small sores appeared on each of my lower limbs. I scratched them with a brass pin and shortly afterwards both of those limbs became so sore that I could scarcely walk. When I had been suffering for about a month the sores began to heal, but small scaly eruptions appeared where the sores had been. From that time onward I was troubled by such severe itching that, until I became accustomed to it, I would scratch the sores until the blood began to flow. This would stop the itching for a few days; but scaly places would appear again and the itching would accompany them. After I suffered about ten years I made a renewed effort to effect a cure. The eruptions by this time had appeared on every part of my body except my face and hands. The best doctor in my native county advised me to use arsenic in small doses and a salve. I then used to bathe the sores in a mixture which gave almost intolerable pain. In addition I used other remedies, such as iodine, sulphur, zinc salve, and a Salvo ointment, and in fact I was continually giving some remedy a fair trial, but it did no good. A few months after, having used almost everything else, I thought I would try Cuticura Ointment, having previously used Cuticura Soap and being pleased with its effect. After using three boxes I was completely cured, and my hair was restored, after fourteen years of suffering and an expenditure of at least \$50 to \$60 in vainly endeavoring to find a cure. I shall be glad to write to any one who may be interested in my cure. B. Hiram Mattingly, Vermont, S. Dak., Aug. 18, 1906.

PRESIDENT TO SPEAK AT REGIMENT'S SHAFT

Rough Riders' Arlington Monument of Barre Granite Will Be Dedicated Next Friday and Will Eventually Bear Roosevelt's Name.

Washington, D. C., April 9.—President Roosevelt will make an address at the unveiling of the Rough Riders' monument in Arlington national cemetery next Friday.

In the cornerstone of the shaft have been deposited an autobiography of the President's book, "The Rough Riders Campaign," and a United States flag both enclosed in a brass box. On the shaft are inscribed the names of the deceased members of the 1st United States volunteer cavalry and eventually Col. Roosevelt's name will head the roll.

It is one of the handsomest monuments in the cemetery, and is almost a duplicate of the monument on the battlefield at Las Guasimas, Cuba. It is of dark Barre granite, 15 feet high and weighs 14 tons.

"Doesn't Would Make Good Presidents," Says Roosevelt. Washington, April 9.—Senator Nathan B. Scott, of West Virginia, for many years leading member of the Republican National Committee, whose name was mentioned in connection with the story about a great political conspiracy, called at the White House yesterday and had a talk with the President.

"Yes, it was a talk about politics," said Mr. Scott, as he left the President's office. "We talked about the next nomination for the Presidency, and he said that there were dozens of men in the party who would make a good president—dozens of them. There isn't a word of truth in the story that the president and I are not good friends."

ORDER FOR BROWNE'S RELEASE CONFIRMED. Cannot Be Imprisoned on Second Charge, Says Court.

Washington, D. C., April 9.—That a fugitive from justice in the United States who has been extradited from Canada on one charge cannot be imprisoned on another charge was decided yesterday by the supreme court in a United States case in the case of Charles C. Browne, an appraiser of merchandise at New York, who three years ago was indicted and convicted in connection with the importations of Japanese silks.

LAW POINTS. The probable accretions of wealth to the husband are held, in Muir versus Muir (Ky.), 4 L. R. A. (N. S.), 909, proper to be considered as a basis for alimony.

AN injunction against the commencement of an action is held, in Hunter versus Niagara Fire Insurance company (O.), 3 L. R. A. (N. S.), 1187, not to save the running of the statute of limitations unless the statute so provides.

THE rule that the statute of limitations does not run against a state is held, in Eastern State hospital versus Winston (Va.), 3 L. R. A. (N. S.), 740, applicable in favor of a claim by a hospital, which is a mere agency of the state, owned and controlled by it.

TOWN TOPICS. New York city has added 35,400 families to its population in the last three years.

WORTH KNOWING. When it is known that its power to strengthen the system and build up the body is why Father John's Medicine cures colds, it will be understood why it is valuable as a tonic and for driving the impurities out of the blood.

BLOOD GETS SOUR.

At this time of year, says a well known authority, the kidneys become weak, clogged and inactive, failing to filter out the poisons and acids, which sour the blood, causing not only facial and bodily eruptions, but the worst forms of rheumatism, backache and painful, annoying urinary affections.

It is worth anyone's time now to get from some good prescription pharmacy the following ingredients: fluid extract dandelion, one-half ounce; compound Kargon, one ounce; compound sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after your meals and at bedtime. This simple home-made mixture will force the kidneys to normal healthy action, so they will filter and strain all uric acid and poisonous waste matter from the blood, and expel this in the urine, at the same time restoring the "full blood count"—that is, 95 per cent red blood corpuscles—which is absolutely indispensable to perfect health.

GLIMPSES OF THE MODE.

For the Post-Easter Wedding—Some New Corset Covers. Rainbow weddings are most attractive. This idea can be carried out in two, three, four or five colors if the bridal procession is sufficiently long. One couple in pink, two more girls in mauve, others in green, blue and yellow or whatever shades are desired are sure to make a charming effect, provided the colors are carefully chosen so as to harmonize perfectly together.

Simple tailored suits are showing almost entirely some sort of killed skirt, often a genuine knit. There will, however, be gored circular models as well. Coats to be worn with these skirts are severely tailored. They are almost without exception single breasted, with collars and cuffs of velvet, often in contrasting colors.

All of the new corset covers have a shaped piece fitted closely over the hips to do away with unnecessary fullness. This is ornamented in some way

at the armholes and top. Many of the corset covers and skirts are in one, being joined at the waist line. These are very essential to the perfect fit of the lingerie gown. It is also quite the fad to have the corset cover and petticoat trimmed to match. This idea is most effective under a sheer summer gown.

A well made light wrap adds tremendously to the rounding out of a smart toilet. Some extremely attractive styles are shown in cloth and silk combinations. A great number of loose semifitting and tight fitting shapes are found among the importations.

Tan pongee, with lines of green forming a check, make this an exceedingly pretty spring costume. The bands are of the plain pongee, edged with green velvet. JUDIC CHOLLET.

COLLEGE AND SCHOOL. The average number of children attending school daily in the United Kingdom is just under 5,500,000.

Dr. Judson, the newly elected president of the University of Chicago, is the author of many books. He is a co-editor of the American Historical Review.

Ten research fellowships of the annual value of \$500 each have been established in the engineering experiment station connected with the College of Engineering of the University of Illinois. Graduates of American and foreign schools of technology are eligible for appointment to these fellowships.

SISTERLY CITIES. Last year over 90,000,000 postage stamps were sold in Pittsburgh. Nobody can live in Pittsburgh very long without feeling a desire to look somebody or something—Washington Post.

Chicago wants to know why passenger trains leaving that city are run faster than those headed for Chicago. Perhaps because the railroads try to suit the wishes of the passengers.—Omaha Bee.

If the sun were inhabited it would be easy to account for the black spots on its surface. They would be regarded as solar equivalents to Chicago and Pittsburg.—Rochester Post-Express.

Boston Coast-Pig. Roast pig is a favored Boston holiday dish. Families that never think of it at any other time will give it a try on a holiday, and the market men cater to the notion, stalls that never have them on sale generally will have them just before the holiday.

FAIRBANKS TO BE FARMER

Will Seek Strength for Campaign by Manual Work.

DEMAND FOR ROOSEVELT So Great That He Cannot Refuse to Accept, Says Congressman Townsend—A Bryan Prophecy.

New York, April 9.—While demands for the renomination of President Roosevelt are coming from the Republicans of several states, Vice-president Fairbanks has decided on a vacation to recuperate for the strenuous campaign he is planning for the summer and fall. Mr. Fairbanks will go to his farm in Illinois this week to spend three or four weeks in manual labor in order to secure

the glow of health and exhilaration of spirits that he believes are to be found in farm work. He said he has taken little or no exercise since last year.

The vice-president has recently added three valuable Jerseys to his Illinois herd, and proposes to turn his back on coffee and tea.

On his return he will begin conferences with his leaders from all over the country.

Cyrus Leland of Topeka Kan., who has been one of the Republican leaders of Kansas more than a quarter of a century, says that the Republicans of his state are for Taft, and will be for Taft in the Republican national convention next year.

"I don't see how President Roosevelt can avoid a renomination," says Congressman Townsend of Ypsilanti, Mich., in an interview. The demand for him is so great that he cannot refuse to accept. There is the Panama canal for one thing. If he were re-elected the work would be well on toward completion by the end of another term.

"If there is a conservative wing in the Democratic party when the next national campaign is here, it will not manage the campaign," said William J. Bryan in the presence of 500 Iowa Democrats. The occasion was a banquet in honor of Thomas Jefferson.

DECLINES INVITATION. W. R. Hearst Won't Break Bread With W. J. Bryan.

New York, April 9.—William R. Hearst has declined the invitation of the Brooklyn Democratic club to be its guest and meet William J. Bryan at the Jefferson day dinner the club is to give at the Assembly in Brooklyn a week from Tuesday. Mr. Hearst's declination was received more than a week ago by the committee in charge of the dinner.

It is said that Mr. Hearst gave no reason beyond stating that it would be impossible for him to be present.

Mr. Hearst is to have a Jefferson dinner of his own on Saturday evening at the Savoy, given to him by the executive committee of his Independence League. The speakers will be Justice John Ford, Justice Samuel Seabury, John B. Moran of Boston and Representative Lamar of Florida.

TUNBRIDGE. Mrs. Hattie Clark is with her aunt, Mrs. Walter Carpenter.

Mrs. Nina Daniels of Woodbury is stopping at Carleton Stevens' for a few weeks.

Chandler Woodard, who is now with Albert Dean's people, was stricken with paralysis last week and is very low.

Considerable sugar was made during the good "run" last week and some farmers have begun their spring work.

The funeral of Frank L. Jones, whose death at Randolph was published in Friday's issue, occurred at the Congregational church, Sunday, Rev. E. C. Clark of East Randolph officiating.

George Robbins suffered a severe shock Thursday morning and died hardly twenty-four hours later, at the age of 64. Mr. Robbins was a member of the 7th Vermont Volunteers and Whitney Post, G. A. R. The funeral was from his late home Sunday, attended by members of the G. A. R., W. R. C. and S. of V. Rev. E. C. Clark officiating. Interment at Chelsea.

If so, Williams' Kidney Pills will cure you. Sample free. By mail 50c. Williams' Med. Co., proprietors, Cleveland, Ohio. Sold by C. H. Kendrick & Co.

DAINGEROUS TO NEGLECT A COLD

The danger of neglecting an ordinary cold cannot be too strongly emphasized, especially at this season of the year. The natural effect of a cold is to cause the lining to become sore and thus render them most liable to develop acute diseases, as pneumonia, for example.

At the first indication of a cold steps should be taken to check it at once. This can readily be done by following these simple directions: procure from the nearest drug store a half-ounce vial of Virgin Oil of Pine (Pure), two ounces of glycerine and a half pint of good whiskey. Mix well in a bottle and take a teaspoonful every four hours. A noted authority on lung trouble prescribes this formula, and claims that it will break up an ordinary cold over night, and will cure any cough of a curable nature.

The necessary ingredients are inexpensive and can be purchased at any good prescription drug-gist. Care should be exercised to use only pure ingredients and to this end it is better to purchase each separately and mix them at home. Virgin Oil of Pine (Pure) is put up for dispensing only in half-ounce vials, each vial securely sealed in a round wooden case with an engraved wrapper showing the name—Virgin Oil of Pine (Pure), guaranteed under the food and drugs act of June 30, 1906, serial number 431, prepared only by Leach Chemical Co., Cincinnati, Ohio—plainly printed thereon. The oils sold in bulk and the many cheap imitations of Virgin Oil of Pine should be avoided.

BOOKS OF FRENCH PRIESTS DISPLEASE THE CHURCH

Works of Several of Them to Be Officially Condemned. Rome, April 9.—It is reported that the new syllabus being prepared by the Holy Office will contain a solemn condemnation of the works of the Abbe Fouin and of Fouazare, in addition to condemnations of the writing of Abbe Leisy, the Rev. Dr. William Barry and the former Jesuit priest Terrill.

According to information received here the Abbe Leisy, whose books were placed upon the "Index Expurgatorius" in 1903, owing to the efforts of Cardinal Richard, the archbishop of Paris, is suffering from an incurable internal disease, but before dying he hopes to finish his most important work, an "Exegesis" or explanation of his apologetics.

NEW JAPANESE POLICY TOWARD UNITED STATES

Consul Uyeno Called Home to Assist in Framing It. San Francisco, April 9.—Consul Uyeno who represents Japan in this city, has been called home by Foreign Minister Hayashi to assist in framing a new policy for the future relations of the empire with the United States.

Uyeno will sail for Japan on Wednesday, on the liner Hong Kong. While he is away his post will be filled by Matsuo Bara, assistant consul, who was recently transferred here from Honolulu.
