The accidental slayer is only 14 years old, and is now delirious over the tragedy. The boys are the sons of William A. Capwell, manager of the Union Trust company's bank at Oliveville, who lives at 11 Arnold street, Edgewood, where the accident occurred. Around the barn of their home were many rats, and it was the desire of the two boys to rid the premises of these. Consequently they set a spring gun. Several victims fell to the deadly aim of the gun, and the boys were more than satisfied with their success. Yesterday afternoon they invited several of their friends to the house to see what their ingenuity had accomplished. Clarke Capwell went at once to the gun to see that everything was in readiness for the exhibition. He thought that his little brother and friends were in the rear of the barn and far from the range of the weapon. In making the examination he touched the trap, the gun exploded, there was a scream and little Norman fell.

COAT OF SNOW THIS MORNING.

Quite a Remarkable Sight For the 29th of May.

Perhaps it is nothing remarkable to chronicle in this season of ice-burges and fur-coats, but for the benefit of future reference let it be stated that the ground was covered with a coat of snow this morning, May 29. The snow didn't remain long after the dawn, but it was there as the early risers can testify to. During the forenoon little flakes of congealed rain dotted down to remind shivering humanity that winter was still king. The temperature was such, however, to need no further reminder.

STRUCK BY A TRAIN.

Samuel I. Andrews of West Brookfield Believed to Be Man Killed.

Weston, Mass., May 29.—A man supposed to be Samuel I. Andrews, a butcher of West Brookfield, was killed on the B. & A. tracks at the corner of North Main street in Weston, Mass., Monday. Mrs. Andrews, who has been in Weston for several weeks, was telegraphed for and arrived in Montpelier last evening. She went to Richmond this morning. What the Council Did. The mayor stated that Pearl Street ought to be closed up for a short time. It was in a dangerous condition for teams to pass over an account of putting in the wall for the Gimber block. After talking over the situation the council decided to close up the street as long as it was dangerous and also to serve a notice on the contractor, W. L. Jackson, to have the sewer, the sewer and water pipes from breaking and leave the street in as good a condition as he could find it. Alderman Thurston said that the street committee found themselves in a peculiar situation in regard to paying any damages as an appropriation of funds had been made, but no action was taken last evening in regard to making an appropriation. The contract between the city and the Blanchard block company for the use by the latter of the driveway from Prospect street to the rear of the Blanchard block was read and accepted. According to the contract the company pays the city one dollar a year for the use of the driveway. The reading of a resolution from the street committee for macadamizing, draining and curbing North Main street between Beekley and the corner of Rich street, which was started by the assessing authority, started considerable discussion among the aldermen. Alderman Williams wanted to know why the street committee had recommended going down so far on North Main street when there was so much of the street this side that needed working just as bad. Alderman Thurston and Campbell said that it had not yet been settled what would be used in constructing the street from the paving at Depot square down to Whitecomb Bros., and that this section of the street from Beekley to Sixth street was in a very bad condition as it had no surface sewer drainage and the main sewer was bursting every year. Alderman Cutler at first made a motion that the resolution be accepted and later withdrew his motion in view of the fact that he thought that if the sewer was in a bad condition it should be fixed before the road was worked. Alderman Campbell then made a motion to accept the resolution and called for a roll call vote which resulted in the motion being lost, 5 to 2, Alderman Campbell and Thurston voting in favor of it. Another resolution was read relating to macadamizing the section of Washington street between the corner of Rich street and Hill street. Alderman Ladd made the motion that this resolution be accepted, saying that the street was in a bad condition, not being properly drained and the water was running down the car track into that part of the street which has been macadamized and suggesting that Alderman Williams inquire if the width of the street had been determined and on being told that it had not he thought that ought to be settled first. Alderman Thurston thought

When county court convened in Montpelier today the case of State vs. Rose Brassaw which was appealed from the Barre city court following conviction for keeping a house of ill fame was called up. Thomas, with a set of rules to govern her conduct and a lecture on the sanctity of the home and society. And she was then released.
