

15,000 MEN IN PARADE

Of Grand Encampment of Knights Templar

AT SARATOGA, N. Y., TO-DAY

The Brilliant Spectacle Was Witnessed By 80,000 People, Governor Hughes Welcomed Sir Knights to the State.

Saratoga, N. Y., July 9.—Fifteen thousand Sir Knights, representing 200 commanderies Knights Templar from every part of the United States marched today through the brilliantly decorated streets of this village. The occasion was the parade of the 30th triennial convocation of the grand encampment of the order. Fully 50,000 spectators watched the parade, which took between three and four hours to pass the reviewing stand. Grand Master George M. Moulton of Chicago and Governor Hughes of New York were the reviewing officers. At a meeting after the parade the latter welcomed Sir Knights to the state.

Last night the grand master, the Earl of Euston, and other distinguished visitors were guests of honor at a reception tendered them at the convention hall by the grand commandery of the state of New York. The Pennsylvania grand commandery and other commanderies also had receptions at their headquarters.

Four cities are looking for the next triennial convocation, Atlantic City, Milwaukee, Cincinnati and Chicago. It is regarded as probable that a city in the Middle West will be selected.

Among the notable personages at the convocation include Andrew Jackson Vincent of Harrods Creek, Ky., a nephew of Andrew Jackson. He has received a cordial reception by the hundreds of southerners here.

The city is illuminated at night with an archway of electric lights extending for a mile and a half on Broadway. The buildings along the line of march for tomorrow's parade and in many other parts of the town are entirely hidden by Templar emblems and bunting.

Mrs. Caroline Hawley of Bay City, Mich., wife of one of the officials of the grand commandery of Michigan, was taken last night to the Saratoga hospital suffering with acute peritonitis. Her recovery was said to be doubtful.

WORKMAN CRAZED BY HEAT.

Made Murderous Attack on His Fellow Fataally Injuring One.

New York, July 9.—Armed with a hatchet and crazed by heat a workman on a Wall street building made an attack among his fellows yesterday, fatally injuring one, dangerously wounding two others. He was then attacked by a crowd which had gathered and narrowly escaped death himself. The workman's name is Milton Albin, a plasterer. His victims are John Reilly, who will probably die, Patrick Sullivan and Edward Smith. All were at work on the new building of the Trust Company of America. Albin, who has always been a steady employe, without cause attacked Sullivan with whom he had worked for years. After he had beaten him unconscious, he turned upon Reilly, whom he struck with the blade of the hatchet, fracturing his skull. Smith was wounded in attempting to separate Reilly and Albin.

Cries of the injured men attracted other workmen and a crowd from the street who assisted in a desperate attack upon the crazy man. The hatchet was wrenched from Albin's hand and he was so badly beaten with it that the police, after rescuing him, had to send him to a hospital. To the police Albin said he must have been made insane by the excessive heat.

Fined For Carrying Strike Banner.

A man who was doing picket duty for the machinists' union at Seattle has been adjudged guilty of contempt of court because he carried a banner on the street near the shops where the strike existed. The court had issued an injunction restraining members of the union from intimidating would be strike breakers.

The strikers had the right, said the court, to endeavor by peaceful persuasion to keep workmen away from the plant, but it was not considered that carrying the banner was peaceable persuasion, but partook of the nature of intimidation. The orders of the court must be obeyed, and the defendant ought to be punished. A fine of \$25 was therefore imposed.

The inscription on the banner was the mere announcement, "Machinists on Strike at Moran Company."

SUNDERLIN A GREAT DRIVER.

Drove to New Record and Took Two Firsts at Albany, N. Y.

E. A. Sunderlin, the well-known horseman who used to be with Page Bros. of this city, has been doing some excellent performances on the track elsewhere during the past few years. On the fourth of July he drove Angus Pointerto a new record for Woodlawn track at Albany, N. Y., making the mile in 2:07 1/2. The Albany Argus says of the performance: "Angus Pointer provided the feature of the professional racing at Woodlawn mark, which opened most auspiciously yesterday afternoon with three races. To Angus Pointer and his exceptionally clever driver, Edward A. Sunderlin great credit is due." The exhibition was one of the finest pieces of driving and pacing ever seen. Alone, not even a prompter to help him, Pointer scored several times. Finally Mr. Sunderlin nodded for the word. He was not going at a clip that made it seem that he would break the record.

The first quarter was turned in 32 3/4. But he reached the half in 1:04. He went the three-quarters in 1:36. From there Mr. Sunderlin just teamed him up for all he was worth. Into the stretch the great son of Sidney Pointer tore as if on wings and with his driver chirping to him and crying "Hi, there, boy!" he flashed under the wire in 2:07 1/2.

Besides this performance Sunderlin drove two winning horses on that day, putting Burlington Maid under the wire first in three straight heats of the 2:17 class and Jim Fudley first in three straight heats of the 2:30.

HAD GOLDEN WEDDING.

Mr. and Mrs. Robert I. Richardson of Washington Were Honored.

The privilege of celebrating a golden wedding is reserved for only a few, and to have lived on the same farm 42 years is equally rare. There is not another family on the main road from Bradford to Montpelier, a distance of 40 miles, now living on the same farm they occupied 42 years ago, when Robert Fletcher and Rosetta (Dexter) Richardson moved from Topsham to Washington in 1865. The same holds true in respect to all crossroads leading to the same destinations. The nearest approach is in the case of Mr. and Mrs. Warren Braham in the south part of Washington.

The day of the anniversary was without a cloud to mar its beauty. It was neither too warm nor too cold, but perfect in itself, which added to the joy of the day as 150 relatives and friends gathered at the old home to observe the day.

Mr. and Mrs. Richardson were married in Lowell, Mass., the 9th day of June, 1865, but as the children could not reach home on the anniversary day, the celebration was postponed to the fourth of July, so that all the children and grandchildren might be present, as indeed they were.

The children were, Herbert E. Richardson, a commission merchant of Lowell, Mass., and wife, Prof. C. E. Richardson, of Syracuse University, Syracuse, N. Y., with wife and daughter; Mr. and Mrs. Herbert D. Scott of Providence, R. I., with their four children, and Mr. and Mrs. James Wallace of Waterbury, Vt., with their four children.

After a basket picnic on the lawn in front of the house the crowd assembled in the shade of the maples when prayer was offered by the Rev. Lewis Dexter, a brother of Mrs. Richardson. The Hon. J. B. Brooks, D. C. L., dean of the law college of Syracuse University, in a very felicitous speech, presented the many valuable gifts to Mr. and Mrs. Richardson, in whose behalf the Hon. Chester Dickey happily responded.

Among the presents given were \$50 in gold, a token from the children; also a marble clock and a rocking-chair, from the neighbors; a parlor lamp from Mrs. S. K. Dexter and family of Lowell, Mass.; a set of silver knives and forks, and a clock for \$10 from A. I. Dexter of Birmingham, Ala.; an oil painting, N. H. Richardson of Lancaster, N. H.; a hammock from Mr. and Mrs. J. A. Dodge of Waits River; a sum of money from Mr. and Mrs. D. E. Stevens of Glendale, Wis.; also several small sums of money and numerous articles from relatives and friends, but more than all these were the presence of the people and the love manifested by the children by the celebration of the 50th anniversary.

Essex Junction, July 9.—About 1:30 o'clock yesterday afternoon a serious accident occurred on Main street in front of Brownell's block. She was at once taken to the Junction pharmacy and Dr. D. Marvin called. It was several hours before she regained consciousness. In the meantime she was removed to her home. EMPLOY BARRE GIRLS.

Do the People of Barre Want a Garment Factory Located Here?

Do the people of this city wish to see a garment factory located here, which will employ a large part of the girls of this vicinity?

There are over two hundred girls and women in Barre who would like to work and many of them absolutely need to work—but for whom there is nothing to do.

Since we started our waist business last November, we have had applications from 176 girls who live in this city, and from about twenty more who live within a few miles of Barre. Of this number we are at present able to use but sixteen and every day some of the girls whose names are on the waiting list comes in to see if we cannot find them a place in some way.

The people who cannot see the disappointment in the faces of these girls when they are told that we haven't a machine for them, do not know anything about the need for a factory of this kind here.

Now, we have business enough to keep a large proportion of these girls busy, but we haven't the shop room nor the machines for a large number of operatives. But if the people of this city would cooperate with us it would be very easy matter to employ a large proportion of the girls.

This is an incorporated stock company and if one-tenth of the people of this city would subscribe for out or two shares of our stock at only five dollars a share a plant could be equipped and a large number of girls employed.

The money which would come back into our city from the outside world by the selling of the product of these girls' labor and the payment of their wages and the dividends on the money invested would be a great benefit to a great many homes where there are fatherless children or where the bread winners are for any reason unable to provide for their wives and children.

Those who are interested in this and who desire either to subscribe for stock or make any inquiries will kindly address the A. E. Durling Manufacturing Co., box 283, Barre, Vt.
