

"YANNIGANS" MADE 'EM WORK

But Intercity Won Out in the Eleventh

CLEMNS AGAINST SANDERS

Dave Spicer's Nine Gave the Regulars a Good Argument at Intercity Park Yesterday Afternoon, the Score Being Finally 5 to 4.

At the Intercity park yesterday afternoon, Spicer's "Yannigans" by no means to be despised on account of their name, attempted to trim the unbeaten Intercity team, and nearly did so, since it took the Hyphens 11 innings to beat them. This is the longest and most interesting game played on the grounds this year. Two umpires were required, for Dr. Goodale who was featured as one of the attractions, gave place to Joe Crapo, a well known figure in Montpelier baseball, who made more enemies than friends. The air was full of objections, the loudest voice being that of "Jack" Fraser on first.

At the end of the sixth inning the score was tied (4 to 4). Then the interest grew, and the voice of Spicer was heard offering "Dan" Shea a bottle of beer if he would drop a ball with a man on third, but Dan refused to be bribed. In the seventh each pitcher got two strikeouts, and one scored. Again no scores in the eighth. The ninth opened with Drennan at bat, who struck out. Hull flied out to center, and Henson fanned. For Intercity, Wherry fanned, but Sanders drove a pretty double to the right field fence; Harris tied out to left and Cotter was passed, advancing Sanders. Murphy at the bat. The confident crowd started to leave the grounds but Murphy flied out to short.

In the tenth the Yannigans went out in order. Fraser drove a hot one toward first which struck the bag and bounded out of the field's hands. Thayer hunted to Clemns who threw to second, but Yeaton dropped the ball. Reid bunted out, and Fraser was caught off second. Shea walked and Wherry came to bat but Thayer was caught stealing third which retired the side.

In the eleventh the Yannigans went out again in order. For Intercity Wherry walked taking second on Yeaton's error on Sanders' throw. Harris took first on Cotter's error and the bases were full. Cotter, next at bat, drove a single over between right and center and the game was over.

Both Clemns and Sanders pitched good ball, and although Sanders gave fewer hits, Clemns pulled out of bigger holes. The line up:
Yannigans—Ball, c. Clemns, p. Thompson, ss. Yeaton, 2b. Dalley, 3b. Brennan, rf. Hull, lf. Huntington, cf. Nute, 1b.
Intercity—Harris, 3b. Cotter, lf. Murphy, 2b. Fraser, 1b. Thayer, rf. Reid, cf. Shea, c. Wherry, lf. Sanders, p.

The score by innings:
R. H. E.
Yannigans. 10201000000—4 5 6
Intercity. 11001100001—5 14 7
Summary—Struck out, by Clemns 7; by Sanders 13; bases on balls, off Clemns 4, off Sanders 5.

BRATTLEBORO SEEKS TRADE.

Wants Special Train for Laborers on the New Dam.

Brattleboro, July 16.—The Brattleboro board of trade has decided to find out whether a special train can be secured to run from this village to the dam site five miles south of the village Saturday nights and then to see what the merchants are willing to do towards guaranteeing the expense of such a train. A little later from 150 to 200 Americans and 100 or more Italians will be employed on the dam across the Connecticut river. They can come to Brattleboro on a regular train late Saturday afternoon, but there is no train southbound in the evening.

The Connecticut River Power company of New Hampshire filed in the registry of deeds at Keene last week a first mortgage of \$2,000,000 in favor of the Old Colony Trust company of Boston, to secure 5 per cent bonds which the company will issue on the power plant at Hinsdale, N. H., which includes the dam and power house. This is probably the largest mortgage ever recorded in Cheshire county.

NO LAND VOYAGES FOR MARK TWAIN.

To Avoid Them Honorably or Otherwise, He Tells The Press Humorists.

Los Angeles, Cal., July 16.—No more land trips for Mark Twain. This decision has been made, according to a letter received from him by Frank T. Swright, secretary-treasurer of the American Press Humorists, of which organization Twain is the dean, and whose fifth annual convention Sept. 10-12 it was expected he would attend. "I will never make a land voyage that can be avoided either honorably or otherwise," he wrote.

NOW WELL EQUIPPED.

Rutland Feels Pretty Secure From Conflagration.

For the first time in the history of Rutland, since the introduction of modern buildings, the city has now a fire department capable of handling any fire that is likely to occur. Under no conditions could another conflagration such as visited the city 18 months ago occur, with the apparatus the department now has for fighting large fires. With the purchasing of a new engine and the repairing of the old one, a reformation in the method of extinguishing a large fire is begun. Heretofore the firemen were unable to throw a good stream over two-story and have any water at the end of the stream.

Chief C. E. McDermott now claims that with the force of the two engines siphoned into one line, a two inch stream can be thrown over the Mead building. Besides the repairing of the old engine and purchasing of a new second size Metropolitan engine the city has purchased new patent nozzles, which shape a stream, giving more force to the water, and some new two and three diameter connections. Several new hydrants of much larger size have been placed in the fire district, which will add to the force of the water, as well as double the number of streams. The water department is laying throughout the fire district 12-inch mains which will supply plenty of water at all times. With these improvements which have cost the city approximately \$8,000, the efficiency of the fire department has been increased at least 25 per cent.

The Miter. Strange as it may seem, the origin of the miter is to be found in Acts 1, 3. "And there appeared unto them cloven tongues like as of fire, and it sat upon each of them." The miter is supposed to be a representation of these cloven tongues.

Standard Books. It has been estimated that it would take a man 3,000 years to read all the standard works.

Success With Lima Beans. To be successful with lima beans it is necessary to keep the vines well tied to poles, so that cultivation can be kept up constantly during the season, says New England Homestead. This tends to keep up vigorous growth of vines and green pods through the season. Strings should be run at the top of the poles one way, at least, and the vines trained to the strings, thus keeping them from drooping around the poles and giving them light and air.

END OF TRIAL IN SIGHT

State Finishes on Wednesday, Surrebuttal to be Brief

MAY ALL END THIS WEEK

Orchard Recalled in Haywood Trial. State Puts Slayer of Steunenberg On the Stand in Rebütal Yesterday.

Boise, Idaho, July 16.—The long trial of William D. Haywood for the murder of former Gov. Steunenberg is nearing its end. The prosecution is expected, although it has thirty-three witnesses yet to call, to finish its rebuttal testimony by next Wednesday. The defense announces that in sur-rebuttal it will require only fifteen minutes. On Thursday next the defense will probably begin summing up. Mr. Richardson will open the argument, and Clarence Darrow will close it. Then will come the oratory of the prosecution, in which Mr. Hawley and Senator Borah will take part. Previous to the final addresses by the opposing lawyers Judge Wood will read his instructions to the jury. Both sides have prepared voluminous requests with reference to the judge's charge. It is known that the state relies on the following clause found in the instructions in the Paul Corcoran case:

"An act done by a party to an unlawful conspiracy in furtherance of any naturally flowing from common design is the act of each and all of the conspirators. Even if the identity of the conspirators who did the act be not established and when murder is committed as the result of conspiracy each one of the conspirators is guilty even though he was not present at the place of the crime, if he aided, abetted or encouraged the commission of the unlawful act resulting in the crime charged."

PHILIPPINE ARMY "DOBIETCH"

Disease Contracted in the Philippine Service—Itching Pimples Covered Body—Army Surgeons Failed to Cure—Discharged for Disability—Cured by Cuticura, Now

A FIRM BELIEVER IN CUTICURA REMEDIES

"I enlisted in the Corps of Engineers as a telegraph operator, and while stationed in the Philippines, I became subject to the 'Dobie Itch,' as the natives call it. In this disease small, white, itching pimples form under the skin, generally between the toes, on the limbs, between the fingers, and under the arms. I never knew of a case originating outside the Philippine Islands, but have known of many cases where it has returned in this country and invariably at the same time of the year as the original attack. The cause, so far as I could learn, was some tropical parasite or germ peculiar to that region. "I got so bad that I was confined to my quarters a week at a time. The Army Surgeons applied some carbolic solution, and it would disappear for a time when it would break out again. I was discharged from the Engineers by reason of disability contracted in line of duty, and when I had the trouble again, my druggist, Mr. Z., of Brooklyn, recommended Cuticura Remedies. The immediate relief was manifest with my first purchase, and the malady quickly yielded to the Remedies. It has never returned or bothered me since I began to use and continued to use the Cuticura Remedies. You may quote me as a believer in Cuticura Remedies from personal experience. John S. Woods, 221 Sands St., Brooklyn, N. Y., Oct. 21 and 26, 1906."

yesterday afternoon, Judge W. H. Taylor of Hardwick, presiding. The session will last practically all of this week, and it will make the April term one of the longest terms in the history of the court. In ordering court to convene in Brattleboro instead of Newfane, Judge Taylor has departed from a long-established custom.

MUST SUE HARRIMAN

This the Belief of Commerce Commission

NOT A FUNCTION OF BOARD

Members Irritated by Public's Criticism. On Omitting to Suggest Action On They Were Not Unanimous.

Washington, July 16.—Members of the Interstate Commerce Commission are confident that there will be legal prosecution of the Harriman lines as a result of their exposure of their unlawful operations. They assert that it will be impossible for the attorney general to ignore the damaging statement of facts which they present in their report (which is printed on another page) and at the same time they explain their failure to mention the word "prosecution," in their recommendations of what ought to be done to the magnate. The fact is the commission is very much irritated because it has in some quarters condemned for the mildness of its Harriman report. The public had been led to expect a vigorous denunciation of the Harriman method of railroad management and a stinging recommendation for prosecution. Not a word was said about punishing the magnate, although there was a suggestion that there ought to be additional legislation to render impossible the gobbling up of competing lines through stock purchases by powerful systems.

TO GET TITLE TO RUTLAND. TRAIN AND TRACK.

Foreclosure Proceedings Believed in Interest of New York Central.

New York, July 16.—What is believed to be the first step toward securing title for the New York Central & Hudson River Railroad company to the Rutland railroad company has been taken by filing notice of pendency in the county clerk's office at Troy, N. Y., in an action to foreclose a mortgage for \$4,000,000 on the property of the Harlem Extension Railroad company. The property includes the Lebanon Springs Railroad and the Bennington & Rutland Railroad company and the right of way from Chatham Four Corners to Rutland. The present action is brought by Robert D. Radcliffe, a bondholder, against the Union Trust Company of New York, the Harlem Extension Railroad, William Butler Duncan and the New York & Montreal Railroad company. It is desired that the action be tried in Berkshire county, through the eastern part of which the railroad runs.
