The Acme of Proficiency.

When we reach the higher studies of foreign languages we are told to seek diligently to learn to think in the alien tongue, as well as to read and write it. That is, we are expected to catch the meaning of the strange words without any connection with English or English speech.

From this one may come to appreciate the experience of a certain Porto Rican negro. He was asked not very long after his arrival in the United States if English was difficult for him. "Oh, no," he said. "I learn her ver' quick."

"So you understand it and talk it?" "Oh, yes, ver' good. But I have one trouble ver' long time. I speak good, an' hear good, but cannot dream in English. I always dream in Spanish. An' I feel ver' bad, an' I try so hard to dream English. An' one night I do. I dream English when I am asleep, an' I wake an' I cry, an' I weep for joy. I am lappy. I can now dream in English."—Youth's Companion.

A Repugnancy.

"She acts as if she was the only girl he ever loved."

"Yes, and she was telling me he was just a perfect lover."

"That's the silly part of it. She calls him a perfect lover and she forgets that it's only practice that makes perfect."—Philadelphia Press.
