

GOOD START SAVID BOSTON

Chicago Almost Climbed Up Over Them

BY BATTING TWO PITCHERS

Glaze and Atrock Both Retired After the Sixth Inning and Young and Patterson Came Into the Game.

Boston, Aug. 10.—Boston won the third game out of four in the series with Chicago yesterday afternoon by the score of 7 to 6. Glaze pitched good ball for five innings, but in the sixth the visitors found him for three runs and Cy Young went in. Atrock was hammered but again, and Patterson relieved him at the seventh also.

A fielder's choice and a clean single by Unghaus gave the locals a tally in the first inning. A pass to Barrett, Sullivan and Congalton's single filled the bases in the third, and Ferris' grounder which Isbell couldn't field let two out of runners in. Knight was the third out of Jones. Wagner's single, Criger's sacrifice, and Glaze's two-bagger gave them another in the fourth.

In the sixth inning, Chicago made its first hit of Glaze. In the fifth they couldn't do anything with him, but in the sixth, came the collegian's Waterloo. Atrock led with a double. Halin was out to Barrett and Wagner got Jones, but Isbell single scoring Atrock. Donohue's triple killed Isbell, and the better himself then scored on Criger's miss of the throw. Barrett got Davis.

Criger's single and Parents' triple (he batted for Glaze) brought in a score in the sixth. Barrett's singled killed Parent, Sullivan and Congalton singled and Barrett scored. Unghaus fled out. Old Cy, who went into the box in the next inning, had his troubles at the start. Dougherty singled. The next two men went out, but Hickman who hit for Atrock singled, scoring Dougherty. That was all for the seventh, but in the eighth he started on the veteran again. Singles by Jones and Isbell, a passed ball and another single by Donohue gave them two tallies. Davis walked. Young got Dougherty's try. Rehe hit to Wagner and Donohue was out at the plate. Unghaus made the third putout on McFarland's grounder. The round ended, with Chicago within one notch of the leaders.

But Chicago couldn't do anything in the ninth and the lead was just enough to land the game, and it was fortunate, as the locals were moved down by Patterson, who replaced Atrock after the sixth. The score:

Important Ruling by Commerce Commission

THE PUBLISHED RATE

Is Held to Be Unalterable—High Rate on Undesirable Traffic Is Unlawful—Alabama Indictment May Cause Trouble.

Washington, Aug. 10.—An order was made by the Interstate Commerce Commission in a decision handed down by Commissioner Harlan yesterday directing that, beginning on Sept. 15 next, the through rate of wheat from points in Nebraska to Pacific coast terminals should be not more than sixty-five cents per 100 pounds. The rate now in force on the Chicago, Burlington & Quincy railroad is seventy-five cents per 100 pounds. The order was made in the case of the T. J. Poor Grain company against the Chicago, Burlington & Quincy railway and others.

In connection with this case the commission made several important rulings. It held that the published rate governing transportation between two given points is as fixed and unalterable as if that rate had been established by special act of Congress. Regardless of a rate quoted in a bill of lading, the published rate must be paid by the shipper and actually collected by the carrier. It held that the published rate and the rates quoted by freight agents and billing clerks, the law charges them with knowledge of the lawful rates.

TOBIN DEFEATS SHEA AS HEAD OF TEAMSTERS

Defeat of Shea Is Taken as Showing the Sentiment of Chicago People Against His Policy.

Boston, Aug. 10.—Cornelius P. Shea is thrust aside from power in the International Brotherhood of Teamsters. The man who gained notoriety as a leader of union forces in the Chicago trouble with team drivers was defeated in Boston yesterday by the man who led the recent strike of team drivers in this city. The new president is Daniel J. Tobin, business agent of Team Drivers' union, No. 25, of Boston. There has been a bitter contest between these men for the presidency of the international order, and the votes cast yesterday in the annual convention showed the contest to be close.

Ever since the international convention met here last Monday, interest centered in the rivalry between Shea and Tobin, and the friends and adherents of both have been working day and night for their candidates. The Shea delegates are now charging that some of the western delegates bolted the Shea slate. Especially are the men from Chicago—eighty-three in all—accused of deserting Shea. The Chicago delegation is the largest from any one city in the convention.

The defeat of Mr. Shea is taken as showing the sentiment of the Chicago people against the policy which he pursued in the great teamsters' strike there two years ago. As a result of this strike Shea was tried on a charge of conspiracy made against him by the Montgomery-Ward firm. The first trial resulted in acquittal; he was acquitted on the second trial.

OLD CARLSBAD.

In Ancient Times the Cure Was Sometimes What Violent.

Carlsbad, that fashionable resort in Bohemia, is a very ancient cure place. It has held a royal charter from Kaiser Carl IV, since 1401. History has it that it is the mighty leap from rocky heights to the depths below of a hundred feet pursued by the bounds of Kaiser Carl IV, that led to the discovery of the Sprudel spring and that the doctor hunting emperor was the founder of the health resort to which he gave his name.

Originally the Carlsbad cure and the mode of life there, a mode which remained in fashion for at least two centuries, consisted solely in the use of the baths. This, however, was so energetic that we children of the twentieth century are overcome by a feeling of admiration for the doctors who ordered such cures and still greater honor for the patients who could undergo them, for the bath treatment was so severe that it was not inaptly called the "hautfresser," or skin eater. It was only about the year 1500 that Dr. Payer, the town physician of Elbogen, near by, ordered the Carlsbad water to be drunk as a cure. Quoting from the publications of the period and Dr. Payer's remarks:

"I have said that this water must be drunk, and as hitherto it was not usually employed for drinking, but only for bathing, this will appear new to many." The quantity of the water prescribed was in handsome proportion to the "skin eater"—twenty, forty and up to sixty cups of a morning regularly.—Town and Country.

FRYE SUMMONED.

Must Appear in Court in the Eddy Case Today.

Concord, N. H., Aug. 10.—An important move in the Eddy case occurred yesterday afternoon when High Sheriff A. S. Kimball went to Pleasant View and there served upon Calvin A. Frye a summons calling upon him to appear before Magistrate Edmund S. Cook this morning at 9 o'clock.

At that time the attorneys for the "next friends" in the original Eddy case will seek to compel Frye to answer questions about Mrs. Eddy's physical and mental condition.

At the same time H. Cornell Wilson, who refused to answer questions touching this matter when he was present before the same magistrate some days ago, will also be required to answer the same questions.

In event of Frye's or Wilson's refusal to answer the questions today, it is very likely that the attorneys for the "next friends" will ask that they be committed to jail for contempt of court.

As soon as Calvin A. Frye was served with the summons yesterday afternoon, Attorney-General Eastman and Allen Hollis, of counsel for Mrs. Eddy and the defendants in the Eddy case, were called to Pleasant View where a consultation, at which Mrs. Eddy was present, took place.

By both sides it is now conceded that the deposition proceedings before Magistrate Cook today will be of a crucial nature.

PHILIPINO BABIES BAPTIZED.

Pocahontas, Pacific Jamestown and Patrick Henry Bryan Their Names.

Norfolk, Va., Aug. 10.—Three infant Filipino babies being the names of Pocahontas, Jamestown Pacific and Patrick Henry Bryan were the centre of interest at the Jamestown exposition. They were given a public baptism yesterday by Mgr. Falconio.

One of the babies was the 10-day-old daughter of Datto Con, a Bagoto chief, and the two boys were the Tagalo tribe of the Philippine reservation at the exposition. Patrick Henry Bryan was named on Patrick Henry day by William Jennings Bryan.

BREAKS WITH MILL; QUILTS HIS OFFICE.

Vice-President McGuigan of Great Northern Resigns After Troubles.

St. Paul, Aug. 10.—E. H. McGuigan, first vice-president of the Great Northern railroad, has resigned to take effect Sept. 1.

Without hesitancy, McGuigan acknowledged when seen at home, that personal differences between himself and J. J. Hill had caused him to break with the Great Northern.

PEANUTS A GREAT FOOD.

10c Worth Contain Six Times Amount of Energy of Potatoes.

Berkeley, Cal., Aug. 10.—Professor F. Jafa, who has been connected with the state university for thirty years, says in a bulletin just prepared for the United States department of agriculture that ten cents' worth of peanuts contain more than twice the protein and six times the amount of energy contained in a potatoe.

JAMESTOWN FAIR COMPLETE.

The Exposition Asks the Support of the People.

Norfolk, Va., Aug. 10.—The Jamestown exposition is declared to be practically complete in a statement issued by Director General James M. Barr, who also asks for the project the support of the country at large. Mr. Barr says: "The Jamestown tercentennial exposition, barring minor details which will be finished within ten days, is completed. It fittingly commemorates the great historical event which is being celebrated, and it reflects credit on the state of Virginia, the south and the nation. In the character of its buildings, the excellent of its exhibits and the beauty of location on historical Hampton Roads, it compares favorably with any exposition held in this country, and it fully justifies its management in asking the united support of the people of the country."

Apple Growers Expect Good Crop This Fall.

Atlantic City, N. J., Aug. 10.—After listening to a report which stated that a good apple crop is in prospect, the International Apple Shippers' association has adjourned to meet next year in Niagara Falls. William Wagner was elected president and A. Warren Patch, Boston, secretary for the ensuing year.

WOULD BE RID OF PHILIPPINES

Congressman Longworth UP for Filipino Liberty

STATEMENT AT DINNER

Wonderment Over the Hope of the President's Son-in-Law That "Islands Will Not Long Be With Us"

Honolulu, Aug. 10.—Congressman Nicholas Longworth, in a speech made at the Commercial Club's luncheon, said he hoped that the Philippines "would not long be with us."

"In the mean time," he said, "free trade with the Philippines would be a square deal, and free sugar would not injure Hawaii."

NICK NOT TAKEN LITERALLY.

Long Is Not Held as Spokesman for the President.

Washington, D. C., Aug. 10.—If he were not the president's son-in-law, this city would pay little attention to the words of Representative Nicholas Longworth, called today from Honolulu. As matters stand, however, there is wonderment as to just what he meant in a speech at the Commercial Club's luncheon yesterday, when, as reported, he said he hoped that the Philippines "would not long be with us."

President Roosevelt has not been in the habit of making his son-in-law his spokesman in official affairs, although "Nick" enjoys the confidence of the man in the White House. If the president has any intention of advocating Filipino independence, he has not heretofore signified it. That is Bryan's doctrine, and one of the few Bryan doctrines with which the president has dissented.

The opinion here is that "Nick's" words should not be taken too literally. Those Honolulu luncheon affairs are very local, and probably the Cincinnati congressman was voicing his own personal sentiments rather than administration policies.

TAFT BOOMERS ELECTED.

Taft Boom Wins For Tariff Revision.

Washington, D. C., Aug. 10.—The Taft boomers are elated from the returns throughout the country in approval of the Ohio state committee's endorsement. It has been taken up very generally by the men and by the newspapers favoring tariff revision and interpreted as an initial victory for that cause.

As Senator Foraker has been fighting Secretary Taft on account of his revision views, the secretary's endorsement is bound to be further strengthened in lower tariff circles. The secretary's lieutenants are citing a tariff speech of the senator made at Sandusky, O., the other day which the Erie county farmers received in silence.

Special evidences of enthusiasm for the Taft boom have been shown recently in Philadelphia, New York, Chicago, Buffalo, Pittsburgh and St. Louis. It is claimed that Senator Knox's boom in Pennsylvania is not taking deep root, and that the senator's intimate friends—Henry C. Frick and President McCas of the Pennsylvania railroad—refuse to take his endorsement by the state convention seriously.

The vote of the Ohio state committee is generally accepted as pledging the vote of the Buckeye delegation to Taft in the convention and also as making him the leader of the Republican party in Ohio.

The secretary of agriculture, "Tamm Jim" Wilson, who is touring the West and looking at the national forests, has been saying out in Washington state that "there is a well defined sentiment all over the West in favor of Mr. Roosevelt's election for a third term." Further than that the secretary declined to say anything.

BRYAN POPULAR IN SOUTH.

Grigs Says Nebraskan Is Favorite in That Part of Country.

Washington, Aug. 10.—Representative Griggs of Georgia, chairman of the Democratic Congressional committee, who is here attending to departmental business, says that Bryan is the favorite Democratic candidate for president in the South. "Mr. Bryan is more popular than anybody else in the South and West," said Judge Griggs, "and he will be nominated next year, although the East may not want him."

PRESIDENTIAL BEES CLASH IN THE CABINET.

Friends of Taft Are Angered By the Attitude of Cortelyou.

Washington, Aug. 10.—Persistent reports are in circulation here of friction in the cabinet arising from clashing presidential ambitions. The reports concern Secretary Taft and Cortelyou. They come from high sources, and are to the effect that the Taft forces are displeased at the Cortelyou movement, particularly at the evidence that Mr. Cortelyou is quietly fostering it.

A remarkable phase of the reports is a rumor that the cabinet may be dissolved. It is said that the Taft people are prepared, unless things change, to go after the official seal of Mr. Cortelyou. It is added that the President is with the Taft forces and thinks Cortelyou should not let the talk of his boons go unchecked.

Most politicians here doubt greatly whether there is danger of Mr. Cortelyou's resignation.

STANDARD GETS ERROR WRIT

In Big Fine Case at Chicago

JUDGE CROSSCUP ALLOWS

Review of Judge Landis' Sentence for \$29,240,000 for Rebating—Trust Stock Drops Lowest for Years.

Chicago, Aug. 10.—Judge Crosscup in the United States circuit court yesterday granted the Standard Oil company in Indiana a writ of error in the rebate case in which the company was fined \$29,240,000.

Federal attorneys frustrated the coup planned by the Standard Oil company yesterday to obtain similar action when the state was not ready. While Dist. Atty. Sims and Special Asst. Dist. Atty. James H. Wickerson, who had charge of the big rebate case, were absent from the city, the attorneys for the oil trust went before Judge Crosscup and attempted to secure a hearing upon a motion for a writ of error and supersedeas, but Acting District-Attorney Robert W. Childs and several assistants hurried and secured postponement of the hearing until today.

Judge Crosscup, after hearing arguments yesterday on the application of the Standard Oil for a writ of supersedeas in the Landis case, will determine the amount of bonds the court will accept.

It was claimed by the government that the bond should be fixed at \$29,240,000. Landis, in order to secure the government pending a stay of execution on the judgment. The assignment of error contained 116 citations.

AUGUST CROP REPORT.

Spring Wheat Deteriorates, but Corn and Winter Wheat Improve.

Washington, D. C., Aug. 10.—The agricultural department yesterday afternoon issued its monthly report on the cereal crops, giving the condition of spring wheat on August 1, at 79.4, against 87.2 last month, 86.9 on August 1, 1906, and 92.2 on August 1, 1905. The condition of corn was 82.8 against 80.2 last month, 88.1 on August 1, 1906, and 89 on August 1, 1905. The condition of oats was 75.6 against 81 on July 1.

The indicated yield of winter wheat was reported at 499,200,000 bushels, compared with 285,950,000 bushels, the July estimate, and 492,880,000 bushels harvested last year.

Standard Stock Lowest in Years.

New York, Aug. 10.—On the curb Standard Oil, after opening up three points from last night's closing, broke 17 points from 483 to 466, being the lowest price reached in many years. The stock is now offered at 475 with no bid.

Such a situation at any previous time is not recalled by any of the present dealers on the curb.

Today's price indicates a shrinkage in value computed on the total capital stock, of more than \$300,000,000.

Find Lost Boy.

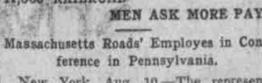

Washington, Aug. 10.—Three-year-old Robert Baker, who Wednesday afternoon wandered away from Camp Goodwill, the Associated Charities summer resort for the children of the District of Columbia, was found yesterday afternoon by a group of United States cavalry from Fort Myer in the woods between the camp and Rock Creek park. The boy was well, but very hungry.

Washington, Aug. 10.—Persistent reports are in circulation here of friction in the cabinet arising from clashing presidential ambitions. The reports concern Secretary Taft and Cortelyou.
