

To the Front With the Newest the Season Affords.

We are ready with many of the most beautiful weaves, weights, colors and color combinations that will be shown this season in worsteds and wool dress fabrics. The color schemes in the fancy dress goods have for their foundation ombre effects in stripes, checks and plaids. The plain shades are: first, brown; second, blue; third, red and fourth, grey. If it's a question of style and value, remember it's Fitts that can be depended upon. You'll enjoy seeing the line—it's a pleasure for us to show them.

Already are we showing exquisite things in Allover Laces, in Venice, Irish Point and Fillet—really more patterns to show you now than we would show you in a whole season. In most cases we show edges and bands to match the Allovers. Look them over.

Eight Women's Tailored Suits, \$22.50, 23.50, \$25.00, \$27.50, all in one lot at \$10.00.

FAMOUS BRIDGES.

The Zanzibar bridge in Africa is 450 feet in height.

The famous Niagara suspension bridge was begun in 1852 and completed in 1855. It is 245 feet above the water and 821 feet long.

The highest bridge in the world, the Colley bridge across the famous Royal gorge in Colorado, is 2,627 feet, half a mile, above the river below.

The Forth bridge, over the Forth of Forth, near Edinburgh, has two cantilever spans, each 1,710 feet in length, the longest in the world. The total length of this structure is one and four-sevenths miles.

One of the most peculiar bridges in the world is the tubular suspension bridge across Menai strait. This bridge consists of two lines of immense tubing, each 1,500 feet long, supported by three granite towers, besides the shore abutments. This strange bridge is 100 feet above the sea and weighs 11,000 tons.

The steel bridge the Portland and Seattle railroad is building across the Columbia at Vancouver will be a mile and a half long, the longest steel bridge in the world. It will be finished next January. Twenty thousand tons of steel will be used in it, not including the weight of the double track. The drawbridge is 404 feet long.
