In First Game of Series on Home Grounds

WITH DORNER IN THE BOX

Pilgrims Lose to the Yanks—New York and Chicago Teams Both Were Winners in the National League.

Boston, Aug. 28.—After losing five straight games to the Phillies, the Reds climbed into the Doves' backyard with spirit broken and otherwise damaged, in the hope that the Puritanic ball tossers would be more lenient than the Quakers were and not indulge in the same trick that was worked on them in Slottown.

The Reds pulled themselves together when they faced the Doves with the expression that they stood above the Hub team in the race, and with that prestige in their favor, the rest was easy.

BISHOP OF LONDON'S SAD LOVE EXPERIENCE

Dr. Ingram, Who Brings the King's Bible Over, Was to Wed an Earl's Daughter.

London, Aug. 28.—America is about to receive a visit from Dr. A. F. W. Ingram, bishop of London, who is to leave England next week to present to the old Burton parish church at Williamsburg, Va., the second oldest church in America, the Bible King Edward has given it in connection with the James-town tercentenary celebration.

The high position occupied by Bishop Ingram in the church world is sufficient in itself to attract attention. But from the human interest point of view, the romance of the youthful bishop's life is of far more attraction than the story of his career in the church.

It was two years ago that the bishop's romance came to a focus, when it was announced that Lady Ulrica Duncombe, the youngest of the four famous beauties, daughters of the earl of Faversham, was to become his bride.

HIBBERDARS DO HIBERNIANS

Just Escaped Being a Shut Out

CHAMBERLIN IN THE BOX

For the Montpelier Team—He Struck Out Seventeen Men and Allowed Only Two Hits—Keefe Pitched Good Ball.

At Intercity park yesterday afternoon the Hibernians met their match in the Hibberdars of Montpelier, who trimmed them to the tune of six to one, a score which should have been a shutout, if it were not for a costly error of judgment.

Harry Chamberlin of Montpelier was in the box for the Hibberdars, and pitched good ball, striking out seventeen men and allowing only two hits. In spite of the fact that it is the first game he has pitched for many moons, he showed traces of his old-time speed which the Hibernians could not hit.

The Hibberdars started their scoring in the first inning. Henson singled, and stole second. Mitchell walked. Beisbane singled, advancing both men. Then with two out, Jaynes singled, scoring Webb, but was caught trying to steal second.

In the second inning the Hibernians made their only score. Murphy walked, stole second, and took third on Henson's error of Dowers' grounder. Then Dombrowski struck out, but Jaynes dropped the third strike and Murphy scored on the throw to first. One run.

There was no more scoring until the fifth inning, when Jaynes got first on Doughty's error, stole second and scored on Henson's single over first base. One run.

The Hibberdars brought in their last tally in the sixth inning, when Henson started off with a double, stole third, and scored on Dombrowski's error at short.

Harry Wishart, the Spaulding high school catcher, caught for the Hibernians and played a good game. Holding his position in a creditable manner.

In the fifth inning Billings, the Hibberd third baseman was hit in the face by a pitched ball which he struck at, according to Umpire Heggie. At that rate it was an ugly blow and prevented him from finishing the game.

WOULD ENJOIN MAN'S PRAYER

If Heard, Says Samuel Gompers of Injunction

IN A STIRRING PLEA

Laboring Men Are Prevented from Doing Anything Else Except to Breathe, He Tells Recess Labor Committee.

Boston, Aug. 28.—President Samuel Gompers of the American Federation of Labor declared yesterday before the recess committee on labor at the Massachusetts State House that "the courts should be prevented from issuing injunctions in labor disputes. The injunction is not used in any other kind of disputes. There is absolutely no warrant in law for it.

"The use of the injunction is but an attempt to secure indirectly what is not authorized by law."

Anxious to "make good" on a day distinguished by the appearance of the national labor leader, all the committee-

SAMUEL GOMPERS.

men showed up. It was the first fully attended meeting of the body, although every committee man draws \$750 for his summer wage.

Mr. Gompers addressed them quite as if their work would amount to something, although even the Massachusetts labor leaders knew that this summer committee "report" on injunctions will be referred by John Cole next January to the Committee on Judiciary, which is composed exclusively of lawyers.

A full year was thrown away when the legislature of 1907 helped "the party" by sidetracking the labor bills.

President Gompers gave the committee startling examples of injunctions that have been issued in the several states.

"The injunction," he then went on to say, "has grown from a little, almost inoffensive thing, up to the blanket injunction of today, by means of which the employer and the courts almost daily enjoin us from doing anything except breathing, and doubtless if they could hear some of our prayers we would be enjoined from that."

Then Mr. Gompers talked and advocated unionism.

"It is claimed by many," he said, "that a man loses his freedom and his individuality by joining a labor organization. The truth is that under modern industrial conditions a man entering the employ of a corporation loses his freedom and his individuality the moment he enters the door, and can regain it only through concerted action with his fellow employees."

"If you believe that a man loses his freedom and his individuality when he joins a labor union go tell it to that man who, a decade ago, was working from twelve to fourteen hours a day, and now works but eight or nine."

"Go tell it to his wife, who has seen her husband become more temperate, because of his shorter hours of labor, and who has been able to enjoy more of his society."

"She knows whether her husband has lost his freedom and his individuality. Ask her and she will laugh you out of court."

"Behold the Magna Charta in England, a laborer who left his employer and sought a position with another man was brought back and had his person branded with a 'V,' showing him to be a villain. If his offense was repeated, an 'S' was added, being burned into his forehead to signify 'slavery.' After a second repetition, the man was hung on the charge of 'conspiracy.'"

GIVES POOR BABY \$30,000, SHE'S SO FOND OF IT.

Woman Missed Train and Had to Stay in Home Where Child Was Born; Begged to Name It; Sends It Check.

Boston, Aug. 28.—Every traveler is generous to give a bellyful of a dime or a quarter, after the one has brushed up your shoes and the latter has lugged up your trunk. These tips may seem insignificant beside the \$50 tip given by J. Kennedy, Tod of New York, to Austin McCarthy, a bellyful who lives in North Adams, who is looking for an education. But look at this:

A wealthy woman in New York state has eclipsed all these records of generosity, opened wide her purse and given \$30,000 to a baby. Here's the story as it comes in a despatch from Cordele, Georgia.

On her return for kindness shown her, Mrs. J. R. McKay of Cuba, N. Y., has sent a check for \$30,000 to Mr. and Mrs. Homer Powell of Cordele, to be used for their youngest child, who is only a few weeks old.

Mrs. McKay was returning to her home after spending the winter in Florida, when she missed connection and was obliged to lay over a short while in Cordele. By accident she was thrown in with this family. When she heard of the birth of the child she asked permission to name it, which was granted.

The letter, when received here, bore the name of the child, James Edward Powell, and contained the check for \$30,000, drawing 4 per cent, to be paid annually, and when the baby is 21 years of age the entire amount will be paid to him. The father of the child is a carpenter and brick mason.

Oil King Must First Tell Where He Started From.

Chicago, Aug. 28.—John D. He did not say, however, whether he came from Pittsfield, Mass., or Cleveland, Ohio.

The government will, therefore, holding the money until it receives official information as to where Mr. Rockefeller started from when he came to court. Mr. Rockefeller will not get his money until the marshal obtains the official information he is seeking.

BOOM! BOOM!! BOOM!!!

That's the way Grant's guns thundered at Vicksburg and Lee's guns thundered at Fredericksburg. Each of them thundered a little louder than the other fellow at each place and won the battle.

The war is over long ago, but booming still wins. Make this town and the country around it your battleground, and then boom!

If you boom loud enough, people will come from afar off to find out what's up. Then a little more booming will take them prisoners and add them to the population. Then they will begin booming, and other willing captives will come in.

This is the inside history of every town on earth that amounts to anything more than a hill of beans. Booming may be done in many ways. A board of trade can do it. A commercial club or business men's club can do it. You can do it individually.

If you don't believe in this town, why do you live here? If you do believe in it, why don't you boom it? Every new family means money in your pocket if you are in business here or own property here. If you make your living by working here, every increase of population tends to increase your wages, every new industry brought to town tends to enlarge your opportunities for making a good living.

Batteries in a battle boom together. If only one gun booms now and then it helps some, but when they all boom together something big is going to happen right off. It's just the same with town booming. When we all boom together, the things we desire to have happen will begin happening.

Now, suppose you who read this suggest through the columns of this paper some method of massing our boom batteries and making a noise that will bring people running into this town to go into business, start a factory, develop some of our natural resources.

N. B.—BOOM! BOOM!! BOOM!!!
