Sheldon yesterday declared himself in favor of a constitutional amendment taking from the federal courts the right to enjoin state officials from enforcing of state laws.

TAPT'S DAUGHTER IN AUTO PARTY IN COURT.

Chauffeur Fined Ten Dollars After a Burst of Speed on Revere Highway.

Boston, Sept. 13.—The daughter of Secretary of War William H. Taft was one of a party of automobilists who were held up yesterday on the Revere state boulevard between Point of Pines and Revere street by Metropolitan Park Police Officer Finn and before Judge Cutler in the Chelsea police court, where the chauffeur, John Marks, was fined \$10. He paid and the party proceeded on their way to New York, after losing two hours while trying to go thirty-two miles an hour.

Marks, the chauffeur, is employed by Judge John Smith of Cincinnati, Ohio. He was bringing the party down from Magnolia on the way to New York. There were two cars and one of them got away from the policeman.

At the court Judge-Smith's brother was one of the party and the daughter of Secretary Taft another. The policeman explained that Marks was flying along at the rate of thirty-three miles an hour and the judge promptly imposed the fine, which was just as promptly paid, and the party laughingly took their places in their auto car and started to overtake the others, who had not been stopped by the officer.

Judge Smith, his brother, Miss Taft and two or three other ladies in the party, are just back in America after a long tour in Europe.

TOBACCO KING PUTS STRIKE TO THE BAD.

James B. Duke Establishes a Record as a "Breaker"—Lands 17 in Jail.

Romerville, N. J., Sept. 13.—James B. Duke, president of the America Tobacco company, who employs several hundred laborers and skilled mechanics on his estate here and has a payroll of \$8,000 a week, has made a record as a strike-breaker by landing 17 union hold carriers in the county jail, and breaking what was intended to be an extensive strike before it was an hour old.

Duke is now superintending the erection of an addition to his mansion that is to cost \$75,000. In order to push the work, the contractors imported an additional number of bricklayers from a nearby city, but failed to get a sufficient number of bricklayers to erect them.

Manager Smith of the Duke estate put a number of Italian laborers employed on the place at work carrying loads to help out. The union hold carriers, who are also Italians, threatened to strike if the men were kept on the job. Mr. Duke refused to take his men off, and a strike followed.

Later 18 hold carriers marched to the Duke mansion and drove the non-union laborers from the job and guarded the building to keep other non-union men from work. Special detectives and constables were summoned by Mr. Duke, who swooped down on the strikers and 17 of the men were placed in the wagons and driven to the county jail.

THEOSOPHISTS TO KEEP HIGH IDEAL.

New High Priestess Says They Can't Afford to Be Narrow and Petty.

Chicago, Ill., Sept. 13.—Mrs. Annie Besant, successor to Helena Petrovna Blavatsky as high priestess of the Theosophists of the world, yesterday took the lead in the 21st annual convention of the American chapter of the Theosophist society which opened in orchestra hall.

Mrs. Besant is accompanied here by Marie Bernard Hussak, one of her pupils. Mrs. Besant's attention was called to a report that one of the things that will be done during the convention is to expel certain members of the society who have expressed beliefs at variance with her teachings.

"This is untrue," she said. "I wish to correct this. There is nothing to expel any one for. We do not dictate what our members shall think or say. I intend to take that subject up in one of my lectures. We cannot afford to be narrow and petty. We are setting a high ideal and we must keep it ourselves."

Mrs. Besant will go East next week and sail for Europe October 21.

PENNA. PLANS TO OBEY CUT RATE LAW.

Will Give 2-Cent Rate Till the Supreme Court Decides Constitutional Point.

Philadelphia, Pa., Sept. 13.—Pending the appeal to the supreme court by the state of Pennsylvania, preparations are under way by the Pennsylvania railroad to obviate the payment of fines should the two-cent rate law be declared unconstitutional. So far have the plans progressed that the change to a two-cent basis can easily be made on Oct. 1, whether the higher court reverses the decision of Judge Wilson and Audenried or not.

It is asserted here unofficially that the company will abide by the provisions of the rate law until a final decision is reached. It was said, however, that the existing compensation rates would not be altered. A decision is hoped for prior to Oct. 1.

APPLE CROP VERY LARGE.

About Two Thousand Carloads to Be Shipped from Arkansas.

Memphis, Tenn., Sept. 13.—Harvesting of the apple crop of Benton county, Ark., which is one of the largest ever grown, has begun. ITS VALIDITY IN QUESTION.

The Courts Will Test the Fourteenth Amendment.

Atlanta, Ga., Sept. 12.—The state of Georgia will attack the validity of the fourteenth amendment to the constitution of the United States in the pending railroad rate litigation that has been instituted in both the state and federal courts.

The state will also make the point that the defendants in the suits have nothing to do with the enforcement of the reduced passenger rates. The two issues will be raised through demurrers now being prepared.

The Central of Georgia's railroad's suit to prevent the enforcement of the new rate is set for September 16 before Judge Newman or some other United States judge, and that of the Atlanta & West Point has been set for the same date in the Fulton county superior court.

Although questioned by many, the validity of the fourteenth amendment has never been attacked in court. In the pending rate litigation the railroads seek protection of the federal government under the fourteenth amendment, alleging that the order of the Georgia railroad commission is confiscatory because it denies them equal rights under the law.

FOUND NO NEW CONTINENT.

Mikkelsen Sends Report from Dawson, Alaska.

New York, Sept. 13.—The commanders of the Anglo-American polar expedition, which lost its ship, the *Thetis*, of Bedford, in an attempt to find a new continent north of Alaska, reported to the American Geographical society yesterday that the soundings they made disclosed no such land. The dispatch came from Elmer Mikkelsen and Ernest Leffingwell, the joint commanders of the expedition, and was dated at Dawson, Alaska, Sept. 10. The explorer reported that their sledge trip north of Alaska covered five hundred miles of sea ice, and that they crossed the edge of the continental shelf twice. Their sounding taken fifty miles off the Alaska coast and beyond was made to a depth of 2,000 feet, but found no bottom. Next year, they reported, they will continue the expedition of Beaufort sea, surveying the coast, and in making geological and ethnographical studies.

Monroe, N. Y., Sept. 13.—Ferdinand Finney Earle, who discarded his wife because he wished to marry his "affinity," Miss Julia Kuttner, left Monroe amid a shower of rotten eggs. Three of these landed on him as he reached the railroad station, and the townspeople who had gathered to see him off cheered lustily as each missile found its mark.

Earle says he left Monroe to transact some business in New York, where he will be for the next few days at his mother's apartments uptown. The townspeople, however, declare that a left because he had heard of a meeting they were to hold to plan to run him out of town.

A number of posters had already been printed warning him to leave town within 24 hours, and a woman had made 50 white caps for a committee which was to visit him.

GREAT NORTHERN FLYER

To West Entered, Safe Dynamited and Mail Car Robbed at Rexford, Mont.—Nervy Desperadoes Effect an Escape

St. Paul, Minn., Sept. 13.—General Manager Elliott of the Great Northern Express company announced yesterday that the Great Northern Oriental Limited train No. 1, which left St. Paul Tuesday morning, was held up by two masked men six miles west of Rexford, Mont., early yesterday morning. The robbers crawled over the tender, and at the point of their guns commanded the engineer to stop the train. They then ordered the engineer to go back with them to the express car and instructed him to tell the express messenger, mail clerk and baggage man to go back into the coaches. After the messenger, baggage man and mail clerk had left their cases, the robbers went through the mail car, and robbed the sacks of a large quantity of registered mail. Then they went into an express car, which carried an overflow of mail and express, and which contained a regular through safe. After exploding three charges the safe was opened and found to be empty. The robbers did not enter the regular express car.

The highwaymen took the registered mail, and after firing a parting volley, disappeared. In view of the fact that the Great Northern Express company did not suffer any loss, the Great Northern Railway company has telegraphed to the following offer of a reward to all points in the west along its line: "The Great Northern Railway company will pay the sum of \$5,000 for the arrest and conviction of each of the persons engaged in the hold-up of its train near Rexford, Mont., on the morning of Sept. 12, 1907. (Signed) F. E. Ward, general manager."

PENNSYLVANIA TO SOLVE DEEP WORLD MYSTERY

Chemist to Find Out What Breakfast Foods Are Made of.

Harrisburg, Pa., Sept. 13.—Dairy and Food Commissioner Foust has sent to Prof. Fear of the state college, one of the leading pure food experts of the country, samples of seventy-five brands of breakfast and other patent foods for analysis.

These samples were taken as the result of an agitation to know what was in them, which began some time ago. The samples were obtained all over the state, every brand having been taken, and Prof. Fear will ascertain if they are true to name, if chemicals have been used, whether they are bleached, and what they contain.

This is one of the most important works undertaken by Mr. Foust and will clear up questions which are of long standing.

The charge was recently made to the department that corn stalks are used in some of the patent foods.

Why Do Country Boys Flock to Big Cities?

Most small towns are short of young men. As a rule there are plenty of agreeable girls who would not object to matrimony; there are plenty of old people and enough babies to go around. But the boy—oh, where is he!

The boy, the young man, has gone to the city, where he imagines there are opportunities. To him the old home town is dull and stupid. He sees no future for himself there. Both for social and financial considerations he rushes off to the great city. Very frequently he finds that he is lonelier there than at home—nearly always so; and even more frequently he finds that riches do not grow on ten story walls.

BUT STILL HE GOES TO THE CITY.

In going there the boy simply follows his daddy's dollars. For years his daddy and his mother and his big sister and his Aunt Mary Ann have been mailing their money to the big city for Mail Order bargains.

Result: Home merchants don't thrive, grass grows in the streets, no jobs are to be had, no opening for a new business, and the young man goes to the city because it is a place where people have traded at home and built up their own community and provided opportunities for outsiders as well as for themselves.

IF YOU WANT TO KEEP YOUR BOY AT HOME—BUILT UP YOUR TOWN SO THAT HE CAN BUILD UP HIS CAREER AMONG HIS HOME FOLKS.

A PROGRESSIVE SAVINGS INSTITUTION

The Montpelier Argus in commenting on the fact that the assets of the Hyde Park Savings Bank have reached the million-dollar mark has the following to say:

"The assets of the Lamoille County Savings Bank and Trust Company, the progressive institution fostered by ex-Gov. Carroll S. Page, and a remarkable monument to his ability and sagacity, have passed the million-dollar mark. This is an especially noteworthy occurrence, when the limitations of population, etc., of the territory from which the bank draws its patronage is taken into consideration, and would only be possible with the most judicious management. It is noteworthy also that every cent of the million dollars is invested in Vermont, to foster Vermont industries and develop Vermont enterprises." The institution and its astute president are certainly entitled to congratulations on its success and prosperity.

This Bank pays a per cent. compounded semi-annually on deposits of \$100 or more.
