

DAY IS SAVED IN NEW YORK

Through the Heroic Action of Secretary Cortelyou

WITH AID OF J. P. MORGAN

Although One Brooklyn Bank Closed This Morning, Things Were Generally More Quiet in Financial Districts Today.

New York, Oct. 26.—The Terminal Bank of Brooklyn closed this morning. It was a depository of the Williamsburg Trust company. Although there is a moderate run at the Nassau Trust company, things are generally quiet in the Brooklyn financial district.

KEEP YOUR HEADS. Counsels Rockefeller, and Keep Your Money in Bank.

New York, Oct. 26.—In the course of an interview on the New York banking situation, John D. Rockefeller said: "If the men and women who are depositors in the banks and trust companies of New York would only stop a moment and do some honest thinking there would be a speedy adjustment of the present peculiar situation. It was great folly for the people to draw their money from the banks and lock it up in strong boxes. It would be a great deal better for them if all such money was left in the banks, so it could be used to keep business moving. Unreasonable demands will hamper even the strongest institutions and at the same time create an unnecessary feeling of unrest. It is clearly the business of depositors, big and little, to furnish the remedy for the present muddle. They should recover their composure and let their money do its accustomed work."

TRYING TO PROVE UNSOUND MIND

Defense Begins in Case of William Fairbanks, Charged With the Murder of His Niece, Mary Groat.

Brattleboro, Oct. 26.—A sensational climax was reached yesterday in the trial of William Fairbanks for the murder of Mary Groat when the state put on for its witness Charles Tenney, in whose house the shooting took place. The evidence proved to be a dramatic finish to the incriminating testimony already introduced.

Mr. Tenney was called upon to state what took place at the meeting of the brothers after the crime was committed. He spoke with much feeling and began by telling of the affectionate greeting that Almon Fairbanks gave to the accused. Tenney went on to say that Almon knelt over his prostrate brother and held a whispered conversation with him for some time. The witness then broke out: "Good bye, Almon, I have done a nasty trick. If I die I will not see you again and if I live they will hang me by the neck."

Previous to this the state brought out many more details having to do with the moving of Fairbanks to the front room. The defense in its opening made no statement of what it would attempt to show. At this point, Dr. C. S. Pratt of Brattleboro and Dr. Houston, superintendent of the retreat for the insane in Northampton, Mass., entered the court room. They were summoned by the state and will testify in rebuttal as to the prisoner's condition of mind relative to insanity. Through the remainder of the day they watched the prisoner with keen interest.

F. M. March testified as to the stupid condition in which he found the respondent on the afternoon of the crime. He told of repeated efforts to send the man away, once threatening to turn the hose on him. But after this, the witness continued, Fairbanks sat down and fell asleep. S. Kimble, who was at the scene of the crime shortly after it, was committed, next told of the condition in which he found the accused. He was the witness said, "in a comatose state and continued to be up to two o'clock." When asked how he knew this to be the case, he would not allow the explanation to be given. Evidence was further brought out that for three days Fairbanks had been drinking to a considerable extent.

Seaman and Drury W. Cooper, as receivers. The first named complainant alleges that \$137,212 is due from the Westinghouse Lamp company and that \$153 is due to the Cooper Hewitt company.

The receivers it is understood have already taken charge of the corporation's affairs.

Manchester, N. H., Oct. 26.—Walter H. Jordan, 24 years of age, who claims his home as Sheldon, Vt., was arrested last evening at 6 o'clock by Policeman Maher on Central street on the charge of breaking and entering.

Jordan made an unsuccessful attempt to get away from Maher on the way to the station, after having asked him to remove the twisters from his right wrist. Maher, however, did not like the looks of the fellow, and paid no attention to the request. Coming through Merrimack common, Jordan made a quick turn of his wrist and tried to wrest himself free, but was unsuccessful. Maher being ready for just such a move.

Jordan was arrested on West Central street, just as he had brought a chest full of carpenter's tools to Cramer's pawn shop. He was taken completely by surprise. Greens—Clean and Unclean.

In the November number, Woman's Home Companion gives these impressive figures in its campaign for clean grocery stores: "There are eighty-four million people in the United States. For their food twelve billion dollars are spent annually. "Eighty-four million stomachs to be fed this year at a cost of twelve billion dollars. Allowing as a very small average that half the marketing will be done by mail, telephone or through solicitors and children, forty-two million people will be fed by women who do not know how to select their groceries, and six billion dollars' worth of food will be bought without the supervision of the woman who knows her grocer. This food, distributed by grocers, clean and unclean, includes nearly 3,000,000 tons of sugar, \$34,267,028 pounds of coffee, 173,809,000 pounds of prunes, 17,634, 778 bushels of rice, 84,000,000 barrels of flour and 84,000,000 pounds of fat."

All of these commodities must be handled by various clerks and delivery men before they pass from the grocery store to your pantry. Don't you think it is about time you got acquainted with your grocer and his helpers? Are the man and boys who handle the food for your family worthy of the trust?"

NO RESPONDENT APPEARED

When Daniel Sullivan's Case Was Called

SHERIFF SENT AFTER HIM

Respondent Is Charged With Shooting a Doe in Roxbury, Being Accused by Game Warden Taylor, Who Says He Saw the Act.

Daniel Sullivan has changed his mind about going to the court in Montpelier and pleading to the charge of shooting a doe in Roxbury this week, and so State's Attorney Gates has sent a persuader after him in the person of Sheriff Tracy with a warrant in his hand. When State's Attorney Gates left Roxbury after looking up the case, it was with the understanding that Sullivan should go to Montpelier yesterday. But Sullivan didn't appear.

The capture of Sullivan was effected by Game Warden P. W. Taylor of Putnamville and several other men after a lively chase. As they told the story to the state's attorney, they were standing in a clearing watching three does when they were startled to hear a shot and see one of the does fall. Then they investigated and found Sullivan. When they asked him if he knew what he had done, he ran away, so they said, and they took after him. A fast sprint brought them alongside of the fugitive, and after that, in his suggestion, they had looked for the doe over Game Warden Taylor placed him under arrest.

There could be no trial of the case before justice court in Roxbury, as the court didn't have jurisdiction. So it was decided to wait for State's Attorney Gates to take up the matter in Montpelier. Gates expects to, when Sheriff Tracy returns with his man. As near as can be learned up to today there have been 40 bucks killed in Washington county. Of these 14 were brought down in Middlesex, with Waitefield next with five, Marshfield four and the same for Berlin. Percy Clifford and Horace Clark are among the hunters who have done the last to report. Brown was left at home to tend the farm Thursday while the other men folk shouldered their rifles and went into the woods after game. While looking about the farm Brown spied a buck, went for a gun and brought the animal's fellow down. The others who had gone away for game came back empty-handed.

NINE DEER ON ONE R. F. D. ROUTE. Weatherfield and The Vicinity of Springfield Report Good Season.

Hunters in Weatherfield have had good luck. On R. F. D. route No. 3 from Springfield postoffice, which covers a large part of Weatherfield, nine deer have been shot all by patrons of the route; and if reports are true this is only about a quarter of the number shot in Weatherfield.

THIS DEER BOMBARDED. He Dropped, But It Is Doubtful Which One of Four Hunters Owns Him.

Essex Junction, Oct. 26.—One deer has been shot in this vicinity, but it is hard to determine just who the successful hunter was. A party consisting of Geo. Gainer, Geo. WILL HOLD FAIRS FOR BASE BALL ASS'N

Stockholder of Intercity Team Met Last Night and Decided to Have One Each in Barre and in Montpelier.

About a score of the stockholders of the Intercity Base Ball association met last evening in the office of William Wishart and discussed plans for holding a fair both in this city and Montpelier to raise money to wipe out the indebtedness of the association. It was decided to hold the fair the first two weeks in February, the fair in Montpelier to follow the next week after the one in this city. Owing to so many entertainments of this sort already announced in this city to come off before the holidays, February seemed to be the only suitable month in which there would be no confusions. The matter of electing committees to take charge of the fair was postponed until a later date.

A special meeting of the companions of Queen of the Forest Circle will be held tonight at 6:30 in Forrester's hall. A full attendance is desired as business of importance is to come up. Per order clerk.
