A MOSCOW

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and herbs in solution much better than alcohol would. It is a valuable element, possessing antiseptic and antifermenting properties. It is greatly tolerated by the Black Cherry bark, Bloodroot, Golden Seal root, Sassafras root and Queen's root, contained in "Golden Medical Discovery" in treating chronic or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Sassafras root and Queen's root, contained in "Golden Medical Discovery" in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure severe, chronic, acute, chronic, catarrhal, inflammation of the stomach, indigestion, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine: "Indigestion it serves an excellent purpose. Holding a food quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon feeble, disordered stomachs, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach). It is a most efficient preparation. Glycerine will relieve many cases of prostatic hypertrophy and excessive gastric (stomach) acidity." "Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores or ulcers. Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. These are not allowed to be sold.

Delightful Party Last Night of Senior Class, R. H. S.

A delightful party was given on Friday evening to the senior class of R. H. S. by Miss Esther George at Mr. and Mrs. Alton Hubbard's, where Miss George has made her home for years. The evening passed pleasantly with games, music, etc., till the hour of midnight arrived, when the party took on a different guise and became a surprise to Arthur Galarrano, who is a member of the class, he having reached his 21st birthday. It was admirably planned, as the one whose anniversary they were celebrating was wholly unsuspecting, although an inmate of the Hubbard household. A second course of refreshments was served, and the class presented the guest of honor a silver ring, with many good wishes for future happiness. The decorations were quite elaborate, in crimson and gold, the class colors.

The repairs at the foundry are completed and work was resumed Thursday noon.

Miss Lucile Benton of New Rochelle, N. Y., is with Mrs. Guy Lamson for the present.

Mrs. A. J. Foster has been visiting her daughter and family, Mrs. J. M. Thompson of Montpelier.

A party of fifty couples gathered at the Mansion house hall on the night of January 9, and thoroughly enjoyed ladies' night as had previously been advertised by Mr. P. J. Blanchard, who gave the dance.

A meeting of the Sanatorium aid was held in the parlors of the inn yesterday afternoon, which was well attended. Arrangements are being perfected for an elaborate social affair at the court hall to be given February 7.

Mr. and Mrs. George Laird drove up from Royanton to call upon Miss Winifred Richmond on Friday. The friends of Miss Richmond learn with pleasure and happiness of her steady improvement from her recent surgical operation. The danger point is now past and a complete recovery is anticipated.
