ELDERLY MAN CARED FOR

Hiram Francis, Aged 91, of Wells Lived Alone and Miserably.

Rutland, Jan. 29.—Hiram Francis of Wells, 91 years old, has at last been taken in charge by the town, his case having again been brought to the attention of the authorities through the stock on the farm. The old man lives alone in a miserable shack on the mountain about six miles from the village of Wells. It was discovered recently that his cattle and sheep were in a starving condition and when they were let out of the barn some of them were so weak that they fell to the ground.

The case was referred to Humane Officer M. J. Tewe of this city and he, in turn, the poor master of the town, to take charge of the case. Despite the protests of the old man the town has taken charge of the stock and the old man and it is probable that a guardian will be appointed.

It will be remembered that Francis' case was brought to the attention of Mr. Tower last February and when he visited the place he found the old man with his badly frozen feet and his first stock in a starving condition. Relief was furnished against the man's will.

Messrs. Charles Kimball and James Stewart gave an old time social at the town hall Wednesday evening. The large attendance of 150 was present. The amusement was marvellous and pronounced. Cake and coffee of the best quality was served. A vote of thanks was extended to Kimball and Stewart. Many wished to be there to their next social.

A LEAP TO FAME.

The Story of a Stuffed Cat in the Smithsonian Institution.

In the Smithsonian Institution at Washington is a case containing a stuffed cat. A card attached to the case, setting forth the reasons why this particular feline is known to fame, gives official sanction to a tale that is in every respect as remarkable as any emanating from the nature fakirs.

The story of the cat is as follows: Many years ago, when the Washington monument was still in an unfinished condition, an adventurous and patriotic cat ascended the interior of the shaft by means of the ropes and scaffolding. When the workmen arrived at the upper landing the next morning and began to prepare for the day's work the cat took fright and, springing to the outer edge, took the leap of over 500 feet to the hard earth below.

In the descent, which was watched closely by the workmen, the cat sprang head-first like a flying squirrel, fell slowly and alighted, as cats always do, on all fours. After turning over on the soil a few times as if dazed she prepared to leave the grounds. She had proceeded almost beyond the shadow of the monument when a stray terrier pounced upon and killed her.

One of the workmen rescued the remains of the cat and turned them over to the Smithsonian Institution, which caused the skin to be mounted and placed under the glass case, -Youth's Companion.

TO SAVE EASTERN FORESTS

Reserves Urged by American Association

ASKED WHITE MOUNTAINS

And Appalachians—Supports the Bill Now Before Congress—Many Delegates at Washington Meeting from New England.

Washington, D. C., Jan. 30.—Upwards of five hundred delegates interested in the conservation of forests are in attendance upon the annual meeting here of the American Forestry Association.

The primary object of the convention is the promotion of the projected Appalachian-White Mountain national forest, a bill for the creation of which is before Congress. The scheme has in view the establishment of national forests in the White mountains in New Hampshire and Maine, and on the principal mountains in the southern Appalachians, from Pennsylvania to Alabama and Georgia. It is estimated that \$5,000,000 will be required to put it into effect. The representatives of the various organizations in the association will appear before the House committee on agriculture on Thursday and Friday, to urge the passage of the bill at the present session of Congress. A delegation of about fifty from the New England states, headed by Governor Floyd of New Hampshire and Lieutenant-Governor Lake of Connecticut, besides many other prominent men from that section, are here. The South is well represented. Secretary of Agriculture Wilson, president of the organization, presided at the opening session, and made his annual address. Following this the annual report of the board of directors and others were read. Gifford Pinchot, chief of the forest service, spoke yesterday on the situation regarding our national resources, followed by five-minute addresses by members of the association and visitors. At the afternoon sessions, the speakers included Senator Gallinger and Professor George F. Scripps of the Massachusetts Institute of Technology. At the evening session, H. N. Shepard of Boston was one of the principal speakers.

CONDEMNNS ALDRICH BILL

Report of Committee of the Merchants' Association of New York.

New York, Jan. 30.—The board of directors of the Merchants' Association by a unanimous vote has accepted and approved of the report of the committee on bankruptcy and commercial law, which condemns the Aldrich emergency currency bill now pending in Congress and seeks the co-operation of other commercial bodies in this and other cities to defeat the bill. This committee, in its report, states that "rather than accept legislation of the character of the Aldrich bill, which we feel in its ultimate results would be most disastrous to the commercial interests of the country, it would be preferable to have no legislation at all in spite of the manifest necessity of some relief to the present intolerable situation."

CATARRH YIELDS

To Healing Air of Hyomeo—Sold Under Guarantee by Red Cross Pharmacy.

Catarrh is the most prevalent disease known to humanity. Probably ninety per cent. of the people in this country suffer at one time or another with this common disease. It is a germ disease and hence can be cured only by some method that will reach and destroy the germs. This is best found in Hyomeo, which may be called the direct method of treating catarrh, as its secretion, taken in with the air you breathe, goes directly to every air cell in the nose, throat and lungs; kills all catarrhal germs and inflames the mucous membrane and stimulates the cilia so as to render mucus no longer possible. The unique way in which Hyomeo is sold should dispel all doubt as to its absolute propriety, for the Red Cross Pharmacy give their absolute guarantee to refund the price in any case that Hyomeo fails to benefit. You do not risk a cent in testing its healing powers. What other would be more fair to you than this, where a leading drug-gist takes all the risk of Hyomeo giving satisfaction, and leaves you to be the judge.

His Barren Announces Address in New York, on "Thou Shalt Not Steal."

New York, Jan. 30.—The William J. Bryan political bureau in this city issued yesterday the following: "William J. Bryan will arrive in the city next Monday night or early Tuesday morning and will go to the Hoffman house. During Tuesday he has engagements to meet a number of Tammany leaders and Brooklyn Democrats. That night he will lecture at Carnegie hall under the auspices of the Civic Forum, the subject being 'Thou shalt not steal.' The speech will be the boldest he has ever made. It has been carefully prepared. On Wednesday morning Mr. Bryan will talk upon foreign missions at the hotel Manhattan and at 4 o'clock in the afternoon he will address the Young Men's Hebrew association at Ninety-fourth street and Lexington avenue. Wednesday night he attends a dinner of the Economic club and will discuss the currency question. On Thursday, February 6, Mr. Bryan will make a widespread campaign in New Jersey under the auspices of the New Jersey Progressive Democratic league."

TRIED 14 TIMES TO KILL ROBERTS.

Dynamite, Bullets, Poison Used, Hunt Arrested on Porch With Explosive.

Seattle, Wash., Jan. 30.—Charged with attempting by means of dynamite, infernal machines, fire, poison and bullets to kill George M. Roberts and family, John Hurst was arrested. The latest attempt on Roberts' life was made Monday, and only the presence of two detectives saved the Roberts family from being blown up. That was the 14th attempt upon the life of Roberts. A year ago Hurst was arrested for trying to blow up the Roberts residence and was released. Previous to that he had been fined through the windows of the Roberts home. About six months ago an infernal machine was placed near his gate and on Christmas an unsuccessful attempt was made to blow up the house. Since Christmas the house has been constantly watched by private detectives.

Of the Signal Service—Payment of the United States is Opposed—The Members of House Applaud Chaplain's Prayer.

Washington, D. C., Jan. 30.—As the outset of consideration of the urgent deficiency bill in the House of Representatives yesterday, the provision appropriating \$10,000 for the expenses of the signal service of the army of Cuban pacification was questioned by Mr. Clayton of Alabama. He inquired of Chairman Tawney what had been the cost to the United States of its occupation of the island, which elicited the response that it was about \$4,000,000. Further inquiries showed that there was at this time in the Cuban treasury about \$15,000,000, and Mr. Clayton asked why it was now proposed that the United States should pay the bill. Mr. Tawney replied that he had addressed a letter to the war department asking for an explanation. Notwithstanding the opposition aroused by the provision, it was allowed to stand.

COLDS AND GRIP A THREAT TO NATAL

A Home Treatment Better Than Drugging. The best general treatment for colds and usually much better than drugging, is to create bodily warmth to make up for the heat that is lost. Treat it at the beginning by a hot bath, or if not convenient to get into a bath tub take hot mustard and water foot bath, and go to bed at once, taking a hot drink of lemonade, milk tea, or other non-alcoholic drink. Rub briskly over the throat and chest with

Sleep between blankets, be careful to keep the arms and body well covered, and remember that the sweating is evidence that you are overcoming the cold, so above all don't undo the benefit by throwing off the clothes if you feel a little uncomfortable. A thorough rubbing of the throat and chest with Minard's Liniment will, besides giving relief, do much to prevent recurrence of the cold, and also be strong measure of protection against any of the serious complications resulting from colds.

SOUND WAVES.

The Way They Are Deflected by Atmospheric Causes.

One of Uncle Sam's scientists at Washington gives an interesting explanation of the action of the wind in preventing the spread of sound toward the direction from which the wind comes. It is, he claims, not the wind, as such, that prevents sound from traveling against it, but differences in the strength of the wind. If, for instance, the wind is stronger above than below or stronger at one side, its effect will be to tilt the sound waves in one direction or another.

Differences of temperature in the air also cause deflection of the waves of sound. Other atmospheric causes exist which deflect sound from a straight course and prevent it from going as far in certain directions as it may have been expected to go.

Some of the sirens in this country, says the scientist, produce sounds which ought theoretically to be audible at a distance of 1,500 miles, but in fact, the authorities are satisfied if they are heard only two miles away. The reason for the discrepancy between calculation and experiment was probably atmospheric deflection of the sound.—Minneapolis Journal.

COUGHS!

Every person who coughs should not alarm himself with the idea that he is in a bad way. Experience has convinced us of a fact that there are two distinct kinds of coughs—one proceeding from an affection of the lungs and air tubes, as in a cold, the other proceeding from effervescence in the stomach. The lungs cough is a symptom which all know to require attention, the most serious consequences ensue. The stomach cough is a much more simple matter and may easily be got quit of. It is caused by the food and drink which are put into the stomach effervescing and producing an irritation. A knowledge of this fact ought to lead persons so affected to ponder a little on the nature of their ailment and the tone of their digestive powers.

THE UNDERDOG.

Underdogism does not arise wholly from condition (you did underdog in the very seats of the mighty), but from a winsome quality of mind which is inherent. You may know the underdog by a certain negative attitude, an absence of assertion, a denial of superiority, a smiling air of seeing the humor of the situation, a droll hint of a wink at his own discomfiture. Some of them, it is true, do make the mistake of trying to be something else. They put on an imposing front and in a momentary flood of favor and fortune pose as dogs rampant. Yet even in that lofty attitude the tail may be observed between the legs.—Atlantic.

PIRACY ON CHINESE GRAND CANAL

Passengers Reported Held Up and Robbed—A Number Killed. Shanghai, Jan. 30.—Details have reached here of the piratical outrages recently committed on the Grand canal, eight hours' journey from Shanghai. Three towns of crowded launches coming from Kashing were held up on Saturday by hundreds of pirates, who are believed to be soldiers that have deserted from the disaffected districts of Chekiang. A number of passengers were shot. One of the launches attacked is owned by Japanese, and the consul of Japan threatens to send pinnaces from war ships to patrol the waters if the Chinese authorities remain inactive. All the towns of passenger launches are now accompanied by strong military escort.
