Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

MOVES TO FORFEIT TITLES TO VAST OREGON LANDS. Bonaparte Charges Harrison Road Has Violated Law By Speculating With Federal Grants.

Washington, March 6.—Atty. Gen. Bonaparte yesterday appeared before the House committee on public lands and asked that the department of justice be given authority to institute actions at law that are expected to forfeit titles to hundreds of thousands of acres of land in Oregon and to destroy private interests in millions of dollars' worth of property.

He charged that the California & Oregon railroad, in Oregon, controlled by the Harrison interests, had violated the provisions of the grant of lands to it, but at one time sold much of the land at prices far exceeding the figure stipulated by the act of Congress, had dealt in the land for speculative purposes and that now the railroad refused to sell any of the land, thereby retarding the development of the section of Oregon through which the road runs.

Pekin and Tokio Tell Very Different Stories.

Tokio, March 6.—The Japanese government, while maintaining a firm attitude concerning the seizure of the ship Tatsui by the Chinese at Macao on Feb. 7, entertains no idea of resorting to force for the recovery of the vessel. Possibly, in the event that China delays action, Japan will appeal to England or America to act as intermediary in the matter.

The building was emptied in two and one-half minutes.

TRIBUTES TO SEN. PROCTOR Both Houses of Congress Pass Resolutions OF REGRET AND ADJOURN

Committees Appointed as Escort to Vermont—The Chaplain of the House Refers to Great Loss of the Nation.

Washington, March 6.—After appointing a committee to escort the body of the late Senator Proctor to Vermont, and adopting resolutions of regret for his death, the Senate, as a further mark of respect, adjourned for the day after a session of seven minutes yesterday.

The committee appointed consists of Senators Dillingham, Daniels, Gallinger, Perkins, Talliferro, Overman and Hemenway. Senator Dillingham made the announcement of Senator Proctor's death, saying that the news of his colleague's demise had not only brought grief to the Senate, but that it had come as a shock to that body.

In his invocation in the House of Representatives yesterday, Chaplain Condon feelingly referred to the death of Senator Proctor. "You have laid a heavy hand on us," he said, "in the removal of a public servant whose strong mind and pure heart made him conspicuous in the affairs of state and nation. His work was of the highest order, and his genius was his own. He will live in the hearts of his countrymen for what he was and for what he did, and be an inspiration to those who shall come after him."

COLDS AND GRIP

A Home Treatment Better Than Drugging

The best general treatment for colds, and usually much better than drugging, is to create bodily warmth to make up for the lack that is lost. Treat it as the beginning by a hot bath or if not convenient to get into a bath tub take hot mustard and water foot bath, and go to bed at once, taking a hot drink of lemonade, milk, tea, or other non-alcoholic drink. Rub briskly over the throat and chest with

MINARD'S KING OF PAIN LINIMENT

Sleep between blankets, be careful to keep the arms and body well covered, and remember that the sweating is evidence that you are overcoming the cold, so above all don't undo the benefit by throwing off the clothes if you feel a little uncomfortable. A thorough rubbing of the throat and chest with Minard's Liniment will besides giving relief, do much to prevent recurrence of the cold, and also be strong measure of protection against any of the serious complications resulting from colds.

HUGHES BILLS MAY PASS OF BACKACHE

More Hope For Anti-Race Track Legislation

Albany, N. Y., March 6.—Present indications are beginning to point toward a victory for the governor in his fight against race track gambling. The announcement was made by Mr. Murphy, who heads the assembly codes committee, that he expected his committee would report the bill before it next week. It is generally agreed now that if the bill is reported it will pass the assembly, the only hope of defeating it having been that it would be held in committee. The arguments of the opponents of the governor at the public hearing Wednesday have visibly fallen, and their offer to compromise by restricting betting to the English—a "credit system"—will not be accepted as it has been abandoned by Senator McCarron, one of their champions, already.

MEASURES BE REPORTED MANY WAIT TOO LONG

By the Committee—Opponents Fail to Score at Hearing—Compromise Is Not Likely to Satisfy the Governor.

More people succumb each year to some form of kidney trouble than to any other cause. The slightest form of kidney derangement often develops into Bright's kidney disease, diabetes or dropsy. When either of these diseases are suspected the sufferer should at once seek the best medical attention possible. Consult only a good first-class physician, have patent medicines alone. There are many of the lesser symptoms of kidney trouble which can be treated at home as stated by a well-known authority. For some of these, such as backache, pain in the region of the kidneys, weak bladder, frequency, (especially at night) painful urination and other urinary troubles, try the following simple home remedy: Fluid Extract Dandelion one-half ounce, Compound Sarsaparilla, one ounce, Compound Syrup Sassafras, three ounces. These simple ingredients are harmless and can be obtained at any good prescription pharmacy and any one can mix them by shaking well in a bottle. The dose for adults is a teaspoonful after each meal and again at bedtime.

There is no better general remedy known to relieve all forms of rheumatism either, because it acts directly upon the kidneys and blood. It cleans the clogged up pores in the kidneys so they can water and strain from the blood the poisonous uric acid and waste matter which if not eliminated remain in the blood, decompose and settle about the joints and muscular tissues, causing the untold suffering and deformity of rheumatism.

THE QUADRANT.

How the Idea of the Device Came to Thomas Godfrey.

Concerning Thomas Godfrey, a famous American mathematician, there is an interesting account in the "Littlerary History of Philadelphia." Thomas Godfrey was a glazier. He seemed to be one of the most singular phenomena that ever appeared in the learned world. One day while at work at his trade a young girl came to a pump and filled a pail with water, which was left upon the sidewalk. The sun's rays were reflected from Godfrey's glass to the pail of water and then to his eye, thus completing a triangle. This led to the idea which in 1750 became the basis for the double reflecting sea quadrant.

WE DON'T BUY 'EM.

So the Output of Diamonds Will Have to be Reduced.

New York, March 6.—Word has been received that two big diamond mining companies have decided to curtail the output of diamonds in South Africa until America begins buying diamonds again. The agreement between the two companies, it is said, will prevent a drop in the price of the stones, and is considered of much importance to the trade. One of the companies is said to mine about 37,000 carats a month. Imports of precious stones of all kinds at New York in the first two months of the year amounted to \$312,859. In the corresponding months of last year, they amounted to \$7,000,000, so that the loss is more than 90 per cent. More than three-quarters of the importations of precious stones are diamonds.
