

MONTPELIER TOOK TWO

Defeated Barre C. V. R. R. Employees

ON BUZZELL'S ALLEYS

Carrigan Was the Star Man, Getting a Three-string Total of 580—The Rest of the Bowling Was Rather Poor.

The Barre and Montpelier employees of the Central Vermont railroad had another "go" at each other last night, this time on Buzzell's alleys. The session was with the big pins, and the down-sweep men got away with two of the three strings played. With the single exception of Carrigan of Montpelier, the bowlers were away below par. Carrigan's score would have done credit to the best team hereabouts. He got two single strings over 200 and made a total of 680. The scores:

Table with 3 columns: Name, Score 1, Score 2. Rows include Ingraham, Carrigan, Naah, Galleher, Simonds, Nelson, Kelly, Marrion, Bessett, Gall, Toats.

The two teams expect to have another meeting before the ball players get out on the diamond.

OFF FOR WASHINGTON.

Chicago Bankers to Fight the Aldrich Bill.

Chicago, April 15.—A delegation of Chicago bankers, headed by J. B. Forgan of the First National bank of this city, left for Washington last night to appear before the banking and currency commission of the House of Representatives tomorrow in opposition to the Aldrich bill.

"The time has come," said Mr. Forgan, "when this question must be settled. The entire country is today suffering from the effects of a needless panic. We are recovering, it is true, but it will not stop it, and especially had tinkering, such as the Aldrich bill is in its last form. If things be left as they are there is no danger of another panic next fall, because business is sure to be slack and capital is accumulating in all the centres. Before the danger again becomes imminent there is time enough in which to give our financial and currency system that complete overhauling which every one who knows anything knows is imperative."

MUST GIVE UP THE DIAMOND FORMULA.

London Bank Having Lemoine Packet Ordered by the Court to Surrender It.

London, April 15.—The high court has ordered the Union of London and Smith's bank to surrender the packet it has in its keeping which contains the formula by which Harry Lemoine says he manufactures diamonds. On March 23 an application was made to the Bow street court for an order compelling the bank to surrender the packet, but as counsel for the bank refused to make an order as he had no power to enforce obedience. The application was made on behalf of the police authorities of Paris, where Lemoine is under bail on a charge of defrauding Sir Julius Wenhner of the DeBeres Mining company by means of his diamond-making scheme.

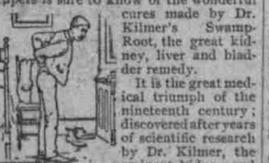

EAST BARRE.

Rippling Stream Rebekah lodge will hold a special practice meeting Wednesday evening, at 7:30 o'clock. Every member is requested to be present. Per order Noble Grand.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for every thing but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer, & Co., Rindjhamton, N. Y. The regular size bottles are one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Rindjhamton, N. Y., on every bottle.

Your Blood

Needs purifying and your whole system renovating in the spring, as pimples, boils, eruptions, loss of appetite and that tired feeling annually prove.

Hood's Sarsaparilla is the most effective medicine ever devised for the complete purification of the blood and the complete renovation of the whole system.

It will make you feel better, look better, eat and sleep better and give you the best possible preparation for the hot days of summer, as over 40,000 people have testified in the last two years. Today buy and begin to take

Hood's Sarsaparilla

Usual form, liquid, or in tablet form, called Sarasabs, 100 Doses \$1.

CY YOUNG WON OPENER

Veteran Box Man Pitched Boston to a Victory

OVER WASHINGTON TEAM

He Struck Out Nine Men and Allowed But Four Hits—Big Crowd in Attendance at Opening Games of the Two Leagues.

The National and the American base ball leagues opened their seasons yesterday afternoon before tremendous crowds of enthusiastic people. Both Boston teams won their first contests, as did both New York and both Chicago teams. The New York and Philadelphia American league game was perhaps the best contest, requiring twelve innings before the former won out by the score of 1 to 0.

Boston, Mass., April 15.—Despite a chill east wind, the grand-stand and bleachers at the Huntington avenue grounds were crowded yesterday and the spectators saw the home team defeat Washington in the opening game of the season, by a score of 3 to 1. The visitors could not score until the ninth inning, when Delahanty sent the ball over the left field fence for a home run. Young struck out nine men. Smith was a triple wild in the third inning, but was generally effective. A sensational one-hander by Laporte in the fifth was a feature. Before the game the teams proceeded by a band marched to centerfield where there was a flag raising by Managers McGuire and Cantillon. Scores: Innings... 1 2 3 4 5 6 7 8 9—R.H.E. Boston... 3 1 0 0 1 0 0 0—3 4 1 Washington... 0 0 0 0 0 0 1—1 4 2 Batteries, Young and Criger; Smith and Street; umpire, Sheridan.

BOSTON 3, BROOKLYN 3.

Loose Fielding by Home Team Gave Boston Big Score.

Brooklyn, N. Y., April 15.—Manager Kelley and the Boston National League team, including four former Brooklyn and New York players, opened the championship base ball season here yesterday by defeating the Brooklyn 3 to 3. Loose fielding on the part of the home team was responsible for the big score of the visitors. The batting feature was Jordan's home run hit over the right field fence in the second inning. Ground round Smith hit into the great crowd which surrounded the field to two bases. Scores: Innings... 1 2 3 4 5 6 7 8 9—R.H.E. Boston... 2 1 0 0 0 4 0 2—9 12 4 Brooklyn... 0 1 0 0 1 0 1 0—3 11 4 Batteries, Young and Bowerman; Bell, Rucker and Ritter; umpires, Emside and Rudderman.

AMERICAN LEAGUE RESULTS.

At Boston—Boston 3, Washington 1. At New York—New York 1, Philadelphia 0 (12 innings). At Cincinnati—St. Louis 2, Cleveland 1 (10 innings). At Chicago—Chicago 15, Detroit 8. National League Scores. At Brooklyn—Boston 3, Brooklyn 3. At Cincinnati—Chicago 6, Cincinnati 5. At St. Louis—Postponed, rain. At Philadelphia—New York 3, Philadelphia 1.

FANS OBJECT TO THE LADY AND HER HAT.

Cincinnati Councilman Comes Bravely to the Rescue.

Cincinnati, O., April 15.—At the meeting of the city council Councilman O'Brien of the sixth ward presented an ordinance providing that any woman wearing a big hat at the National League Ball Park must remove the hat before the game commences. In order that those men who have paid to see the game may be able to see it. The council referred the resolution back to the committee on law, of which O'Brien is chairman. The proposed ordinance provides for a fine of \$50 for each violation of it.

How Vermont "Stung" Harvard.

In justice to the Vermont base ball team a young alumnus of the university who saw the game wishes to say that the printed reports of Saturday's game failed to show the actual superiority of the Vermonters over their opponents. The Harvard team has had out-of-door practice for several weeks. It had had daily practice against a strong second team which contained several of last year's regular team. Under such favorable circumstances every man was in prime condition. The Vermont team, on the other hand, had just returned from a hard Southern trip. Every man was lame and in poor physical condition. Harvard has the best team she has had in years but Vermont has a better team, one of which she may be justly proud. Vermont scored in the first inning on a very clever play. Collins singled, took third on Gardner's hit, while Gardner reached second on the throw in. Burlington hit to allowed,

PLEA FOR BATTLESHIPS

President Urges Congress to Provide for Four

IS NOT AN ERA OF PEACE

To Avoid Insult We Must Be Able to Repel It—Prepare for Defense—Our Rank Among Nations at Stake, He Says.

Washington, April 15.—Compressed into what would be not more than a 10-minute speech on the floor of Congress, President Roosevelt yesterday urged the body in a special message to provide at once for the construction of four battleships of the largest and most approved type.

The arguments of the president to impress his insistence on the naval program were few, but calculated to be effective. China was held up as an example of the peace-at-any-price doctrine and Great Britain as having a naval policy to be emulated.

The result of the last Hague conference made it plain that the nations would not for some time, if ever, agree on a plan of limitation of naval armaments. Arbitration, the president holds, cannot be relied upon as an effective remedy, though it should be utilized to its fullest extent. Disclaiming any intention on the part of the United States ever to engage in a war of conquest, the president made it plain that this country could ill afford to relax into a place where insult would have to be borne in silence.

NEGROES HEARD IT.

Mr. Foraker's Speech Filled the Senate Chamber Galleries.

Washington, April 15.—Seldom if ever has the Senate chamber contained as many negroes as through its corridors and crowded its galleries yesterday. They were attracted by the announcement of Senator Foraker's speech in defense of the negro soldiers, who were discharged by the president on account of the Brownsville riot. They largely occupied the galleries, to which admission cards are not necessary. Long before the Senate opened, every seat had been taken and the corridors contained almost enough people to again fill the galleries. In introducing his speech, Senator Foraker contradicted a newspaper report that he intended to attack the president. He stated that his only intention was to review the testimony taken in the Brownsville affair and advised that the statement that he meant to criticize the chief executive was libelous.

NAVAL BILL UP.

No Quorum Present, Roll Call Was Necessary in House.

Washington, April 15.—When Speaker Cannon called the House to order at 11:30 yesterday morning, the pending question was a motion to go into committee of the whole to further consider the naval appropriation bill. No quorum appearing, a vote by call of the House was necessary. Members came in during the roll call and the motion was carried 229 to 5, and the naval appropriation bill was again taken up.

Agrees on Pension Bill.

Washington, April 15.—The Senate yesterday agreed to the report of the conferees on the widow's pension bill.

HOBSON QUOTES DEWEY IN PLEA FOR SUBIG BAY.

Admiral Says That's the Place, "Now and Forever" for a Naval Base.

Washington, April 15.—In the course of the discussion in the House of the provision for fortifying Subig Bay yesterday, Representative Hobson quoted a telephone message from Admiral Dewey saying: "It is Subig Bay now and forever, if we are to have a naval base."

BUILDS UP THE THIN AND WEAK

Samose Makes Thin People Fat, or D. F. Davis Will Return Money.

In Samose are combined flesh giving food elements that soon produce a steady and noticeable gain in flesh. Taken after meals, Samose mingles with the food, and causes it to be assimilated so that the fat producing elements are retained in the system, and you will soon get good flesh, steady nerves and a healthy body.

Mr. Davis has seen such remarkable results following the use of Samose that he offers to pay for the treatment if it does not make thin people plump and rosy.

You run no risk whatever in buying Samose; it is a true flesh forming food and is sold under the guarantee of one of the most reputable business houses in Barre to refund the money if it does not give complete satisfaction.

TWAIN NEARLY LOST HIS LIFE WITH HUB GIRL

World-famous Humorist Engulfed in Huge Wave as He Explains Ship Working.

New York, April 15.—After an escape from being washed overboard while gallantly showing a young lady how a log works at the taffrail of the Quebec steamer Bermudian, Mark Twain, with his friend, H. H. Rogers, arrived from Bermuda yesterday.

Mrs. Rogers accompanied her husband on the homeward voyage.

Miss Dorothy Sturgis of Boston is the young woman who had the honor of being drenched with world-famous humorist. She is a granddaughter of Russell Sturgis.

It was on Sunday. The ship was pitching heavily. Mr. Clemens and Miss Sturgis were watching the revolving of the little wheel that tells how fast the ship is going.

Suddenly and without warning a huge wave came up from behind the ship and the two were engulfed in it. The young lady was lightly dressed and Mark Twain had on his famous white suit. When the water receded and they could be seen again, they looked as if they had been in swimming.

The humorist, in speaking of the incident yesterday, said: "Miss Sturgis, being from Boston, is always in the swim, but at my time of life, I have lost interest in surprise parties. I prefer something more formal than a slip on the back, even from my old friend Neptune."

Continuing Mr. Clemens said: "My other old friend, Rogers, has improved very much as a result of our trip. He is not any heavier, but he takes more interest in life and is rather staid in his feet than when he went away."

"Financially, he is just as bad as ever. I had to help him out repeatedly. At one time I was so careless as to offer to lend him \$2. He did not take me up, so I am in \$2, but it was a terrible risk."

ALABAMA MARBLE.

A New Company Formed to Develop Properties in Talladega County.

The Alabama Marble Quarries, recently incorporated at Montgomery, Ala., has organized by the election of the following officers: Dr. L. J. Gaston, Montgomery, president; H. L. McElderry, Talladega, vice-president; Louis B. Farley, Montgomery, treasurer; T. J. Scott, Montgomery, secretary; J. Taylor Scott, Montgomery, general manager, says "Stone."

The Alabama Marble Quarries owns a property near Syramore, in Talladega county, within one mile of the Louisville & Nashville railroad, upon which valuable deposits of marble are said to be. This property was purchased by the firm of Scott & Sons several years ago, and since then a careful investigation of the deposit has been made under the supervision of experts. Within the last few months a company was organized to handle the property with a capital stock of \$300,000, divided into 30,000 shares of the par-value of \$10 each.

The result of the investigation has shown, so it is stated, that the deposit is 400 feet wide, more than 2,000 feet long and of a depth unknown. Drings carried to a depth of 126 feet did not penetrate through the marble. From calculations based upon the investigations made, it is stated that sufficient marble exists to keep in operation for 192 years a quarry with an annual output of 250,000 cubic feet. The actual quantity of marble contained is said in all probability to be incalculable.

A correspondent writes that the marble is of the highest quality and that it takes a very fine polish, being especially adapted for interior work. In fact, the high quality of the samples obtained would indicate that the marble will never be used for exterior decoration, as it will command such a price as to prohibit its use for this purpose, being perfectly adapted for statuary and monumental purposes requiring close texture and high polish.

It is interesting to note in this connection that the quarrying of marble is not an industry new in Alabama. Previous to the Civil War quarries were worked by hand, slaves being employed for the labor. After the war the industry was destroyed because of inability to obtain suitable and cheap labor.

In the last several years a quarry near Sylvauga has been operated by Ghant Brothers. It is stated that the demand for Alabama marble is always in excess of the supply.

A striking example of the use of Alabama marble for interior decoration and elaborate carving of the highest character can be seen in the Day and Night Bank, on Fifth avenue, New York. This shows not only polished work but carved ornaments and statuary. The bank interior is considered one of the finest examples of marble work in New York.

TURNED NIGHT INTO DAY FOR FIFTEEN YEARS.

Chicago Merchant Who Tried to Reverse Life Is Dead.

Chicago, April 15.—E. F. Henderson, who for fifteen years systematically turned day into night, died at the Auditorium Annex last evening. Fifteen years ago Mr. Henderson, who was a member of the well known wholesale firm of C. M. Henderson & Co., began to suffer an ailment of the liver. After this he always complained that he could not sleep at night so he began to reverse the ordinary hours.

It was Mr. Henderson's custom to breakfast at 1 o'clock in the afternoon, take luncheon just before the theatre at night, and to eat a hearty dinner at 1 o'clock in the morning. This "night day" life Mr. Henderson persisted in with marked benefit to his health, so he believed.

WOMAN OBTAINS A \$4,750 VERDICT FOR STOLEN KISS.

Landlord's Defense Against Tenant's Suit Was Blackmail.

Duluth, Minn., April 15.—Mrs. Olga Bergerman of Hibbing has received a verdict of \$4,750 for a kiss. This is a judgment of \$250 from the verdict awarded at the first trial.

Mrs. Bergerman, who was a tenant of Jacob Kitz of Hibbing, declared that one day kissed her by force when he called to collect the rent. Kitz's defense was blackmail.

KYANIZE FLOOR FINISH

Is made in seven beautiful colors besides natural or clear. These colors are all durable and will stand water, hard usage and heavy shoes; same as the clear. It's all the same quality, works easy and lasts.

Is made to walk on, but is suitable for all inside work as well as floors. Booklet and Color Card Free.

SOLD BY REYNOLDS & SON, BARRE, VERMONT.

DECLARATION IN SECLUSION.

Important Documents Will Not Be Taken From Safe Until 1923.

A message from the White House a few weeks ago announced that the president had given a permit to a man who wanted to see with his own eyes the original copy of the Declaration of Independence or what is left of it. If that permit had been issued and had been presented at the department of state, it would have enabled its holder to have the first view of the Declaration of Independence that has been had since the spring of 1903. No one has seen the document for five years. It is locked up in a safe in the library of the state department, and not even the officials of that department get it out to look at it. Even before 1903 it was kept in the safe, but it was often brought out for admiring citizens to scrutinize and to exclaim over. Since 1903 the light of day has not fallen on it.

There had been too much light of day before that, says the New York Sun. In fact, there had been too much of a good many things: too much fiddling, too much rolling, too much handling, and, alas! too much stealing of its immortal language by a wet press copying operation resorted to in 1820. This was tried as a means of securing a facsimile copy. It was good enough for the copy, but it was powerful bad on the original, for it resulted in transferring to the copy the ink which belonged on the old parchment itself. Not content with swiping its ink, the government put the document up on exhibition in a nice, bright light, so that visitors could decipher the traces of ink which remained.

For 30 years the Declaration of Independence hung in the light, and the longer it hung there the more necessary the light became, for the ink that was left grew paler and paler until it was hard to make out any of the signatures except the big black name of John Hancock. Finally it became evident that if anything except the parchment was to be left, the document would have to be kept in the dark. So it went into retirement in the safe, being brought out only upon special requests. In 1902 the late John Hay, then secretary of state, appointed a committee to examine the condition of the Declaration of Independence and to recommend what should be done to preserve it. The committee found it creased and bereft of its ink, but they were pleased to find no evidence of mold or other disintegrating agent. They recommended that the document be kept dark and dry, and their recommendation has been religiously followed.

The original parchment was photographed in 1883 and again in 1903. The committee recommended that it be photographed again from time to time. The present indications are that it will not be seen until perhaps another 20 years have passed. In 1903 the late John Hay, for taking another photograph. In the safe with the Declaration of Independence reposes also the original copy of the constitution of the United States. It is not on exhibition, but if doubt as to its existence continues to grow, it may be produced to set such fears at rest. There is nothing the matter with the constitution; that document has been left in the safe since the late John Hay, then secretary of state, appointed a committee to examine the condition of the Declaration of Independence and to recommend what should be done to preserve it. The committee found it creased and bereft of its ink, but they were pleased to find no evidence of mold or other disintegrating agent. They recommended that the document be kept dark and dry, and their recommendation has been religiously followed.

ATTEMPT TO WRECK FLYER.

Ties Placed Across Rails Near Elmira, N. Y.

Elmira, N. Y., April 15.—A determined attempt was made last night to wreck a west-bound passenger train on the Lackawanna, near Lowman, about seven miles east of this city, by piling ties on the track. The ties were placed across the rails, and then laid from the top of these to the roadbed between the rails. The train, which is due in this city at 6:40 o'clock, was running sixty miles an hour. The obstruction was on a sharp curve and close to the river. The locomotive ground one of her ties and stopped. The train was stopped on the east-bound tracks, where a freight train was due.

MINERS MEET.

Conference to Adjust Wage Scale on Toledo Yesterday.

Toledo, O., April 15.—A conference of operators and representatives of the United Mine Workers of America is in session here through which it is hoped to reach an agreement as to the interstate wage scale, which expired on April 1, since the expiration of which thousands of miners have been out of work.

Total of 418 Typhoid Cases.

Boston, April 15.—With 22 cases of typhoid fever reported at the office of health yesterday, there are 418 cases throughout the city, of which 279 are confined to the Jamaica Plain district.

Up to 9 o'clock Monday morning, there were 270 cases of the fever in Jamaica Plain. Only seven more were reported yesterday. The other 13 cases are from all sections of the city.

North Wolcott's Aged People.

Within a distance of twenty rods from the North Wolcott post-office are four people whose total age April 7 was 967 years, seven months, and twenty four days. Their dates of birth are as follows:

Mrs. Eidelis (Taylor) Potter, born October 6, 1816, age 91 years, six months, and two days. She was the daughter of the fourth person to settle in Wolcott, is in excellent health, and retains her faculties, being able to read and sew without spectacles, and is now making a rug.

Mrs. M. M. Mason, born August 12, age 89 years, seven months, twenty six days. Until recently she was able to read and sew without the aid of spectacles and was in very good health about two months ago, however, she became ill and is now confined to her bed.

Mervin H. Wheeler, born June 24, 1819, age 88 years, nine months and nine days. He is in very good health, and goes to the post-office every day, and has full possession of his faculties.

Mrs. Jenn Child, born July 21, 1820, age 87 years, eight months, six days. She is not in the best of health, but is able to be about. Her eyesight has failed so she is unable to read at all.

Does not Color the Hair

AYER'S HAIR VIGOR

"TIME IS MONEY"

This saying was never better proved than when getting rates for Fire Insurance in the Old Vermont Mutual.
