CHICAGO BROKER FLEES THE CITY

Hopkins Said to Have Spent Clients' Money in Fast Living and Speculation.

Chicago, April 24.—Wallace H. Hopkins, president of the Wallace & Hopkins company, 181 La Salle street, stated by himself to be dealers in stocks and bonds, fitted from the city Wednesday with less than \$500 in his pocket, after having sunk \$100,000 of his clients' money, it is charged, in private speculations and rapid living. His company's offices were closed under a writ of attachment, and the sheriff took possession. A petition in bankruptcy was filed against the company as well by three of the creditors. In addition to all this sea of litigation troubles, it is intended to present evidence to the grand jury which, it is said, will result in Hopkins' indictment on the charge of embezzlement.

Hopkins' lawyer, Francis A. Harper, admits that his client has no defense to any of the proceedings, either criminal or civil, except that "he did not intend to take anybody's money."

Facing Revolvers of Police Youth Puts Bullet in His Brain.

Fall River, April 24.—Driven into his lair in a little summer house in Mt. Hope avenue, and standing at bay yesterday as revolvers gleamed in the hands of his pursuers, Edward F. Moriarty, but seventeen years of age, yet accused of scores of burglaries in Globe village and other parts of Fall River, yesterday cheated the law and shot himself in the head, dying instantly.

He had planned everything. The boy of seventeen had known that sooner or later he must fall into the clutches of the law if he were not quick, and his nerve never failed him.

Proving that he had determined to die rather than be taken prisoner was a little letter of parting to "Mamie," his sweetheart, in which he had written: "If I am found dead you will know that I died for the love of you."

For months the police have been on the trail of Moriarty, who always said that his parents were dead. He had lived in a little room at No. 1,185 South Main street, but had not been there for weeks, owing to the activity of the police.

ABOUT THE STATE

E. A. Ferrin of Holland, announces his candidacy for assistant judge of Orleans county.

H. C. Smith, of Burlington, whose lively stable was burned early Tuesday morning expects to rebuild at once.

The Economy Rig Co., of Lowell, Mass., has been making inquiries with a view to locating in White River Junction.

Small boys and hens are causing the Ladies' Village Improvement society at Northburg Falls trouble and annoyance, the boys by playing on the parks, injuring the starting grass, and the hens by digging up the flower beds.

Mr. and Mrs. Gardner Bride, who last December celebrated the sixty-sixth anniversary of their marriage, have passed nearly all of these years in the town of Rochester. Mr. Bride is nearly 90 years old, his wife is several years younger.

The property of the Fowal Stone Co., a corporation organized for the purpose of manufacturing crushed stone to be used in building highways in the state of New York, was sold at auction last week on a foreclosure secured by Jarvis P. O'Brien of Troy who acts as trustee for the bond holders. The business may be resumed.

Says St. Gaudens Was Real Name.

The story told of J. W. Furlong, a carpenter of Providence, regarding the parentage and early life of Augustus St. Gaudens, in which Furlong claimed that the sculptor's real name was Melchior Sweetney, is characterized by Louis St. Gaudens, a brother of the dead artist, who has a studio in Cornish, N. H., as absolutely false.

Furlong in his story which was published by a Providence newspaper, said he and Augustus St. Gaudens were boys together in New York city. He asserted that the sculptor's name was changed to suit his wife, whom he married in 1877.

Louis St. Gaudens, who is himself a sculptor of ability, talks freely of the early life and struggles of himself and brother, Augustus St. Gaudens, he said, was born in Dublin in 1848, the son of Bernard St. Gaudens and Mary McGuinness. The parents, with Augustus, moved to America the same year, on account of the great famine which drove so many Irish people to this country at that time, landing in New York.

The older St. Gaudens was of French descent, a shoemaker, and carried on that business in New York for years, dying there in 1893. The mother, who was a native of Dublin died in New York in 1875.

These facts may be easily proven by the records, Louis St. Gaudens says.

Neither one, he asserts, was ever ashamed of his humble parentage or the trials of his early life. A similar story, he says, went the rounds some years ago, but was discarded at that time by all who had any knowledge of the facts.

Morrisville Board of Trade.

At the annual board of trade meeting at Morrisville Monday evening, the officers, who have served for the past year, were all re-elected, including the board of directors, and the appointments of the several committees will be made at a meeting of the directors and president next Tuesday evening. The officers are: President, C. H. Sloum; vice-president, H. M. Rich; corresponding secretary, H. A. Slayton; recording secretary, F. W. Mould; treasurer, B. J. Kelley. The treasurer's report showed a balance of \$53.93 on hand. Following the business, Mr. Sloum addressed the meeting, giving an interesting and encouraging account of the accomplishments of the board for the past year. In this connection Mr. Sloum reminded the board that one of the accomplishments was the acquisition of a tract of land worth between \$750 and \$1,000, which is paid for and held for industrial purposes. The securing and building of the new dress-making building at Morrisville, he also mentioned as a result of the attitude of Morrisville and the board of trade toward new industries. Mr. Sloum urged a renewed interest on the part of members and especially of the new committees. He also referred to the co-operation of the committee on improvements, with the Village Improvement society, which is composed of ladies, who are planning a vigorous spring and summer campaign. He thanked the members and business men of Morrisville for courtesies extended during the past year and predicted that the coming year would be a busy and profitable one. E. H. VanCot, C. A. Slayton and A. C. Small also made interesting remarks along the line of suggestions for the coming year. The suggestion of H. Waite that the business men of Morrisville erect a stone shed on a part of the land owned by the board, created considerable interest and it is not improbable that it may result in something definite in the near future.

THE STRIKEN ROSE FROM GRIEF.

The fortunate provision of nature is that it deprives the rose of its perfume for low temperatures would be its grief to discover in the height of its blooming glory that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. ROB CLUB; LOCK UP THE MEMBERS.

Hot Springs Bandits Get Between \$5,000 and \$10,000 and Escape.

Hot Springs, Ark., April 24.—Four masked men with leveled revolvers entered the clubhouse of the Indiana club on Central avenue early yesterday morning and forced the occupants to line up against the wall and looted the place of a large amount of money. No definite statement concerning the amount of money taken can be secured, but it is estimated at between \$5,000 and \$10,000.

The Indiana club is located along the employed to prevent any interference with the amusement of the members. Notwithstanding the vigilance of the guard the four masked robbers made entrance from the mountain side through a window and quickly lined the occupants against the wall.
