Valid Reasons Why You Should Buy Sun-Proof Paint.

Patton's Sun-Proof Paint is the natural result of years of expert experimenting, and was named for precisely what it will do—resist even the intense heat of the sun without cracking or peeling. After perfecting Sun-Proof Paint for outside use, we put our chemists to work studying out a floor and inside paint that would be superior to any on the market. The result of their research was the putting of Princess Floor Paint before the public, until now thousands of gallons are used every year all over the world. Princess Floor Paint is made in seven serviceable shades and when applied to a clean, dry surface they dry quickly and as hard as flint. 50c one-half gal., \$1.75 gal. For the above reasons you should brighten up this Spring with Patton's Paints to secure the best and most lasting work. Ask for handsome color booklets.
