ABUSING PRIVILEGE OF CITY HALL PARK

Was Complaint Made to Aldermen Last Night by Parties Adjacent Thereto—Other Things Heard and Said.

Complaint was made to the board of aldermen at their regular meeting last evening of the way boys are conducting themselves evenings and Sundays on the city park, and the matter was placed in the hands of the property and police committees, with power to act. Dr. C. E. Camp appeared before the aldermen and said he spoke for the ladies of the Civic federation, who had asked him to state the situation to the board and plead for their immediate action in remedying the nuisance.

Dr. Camp said that the loud, vulgar talk used and the rowdiness engaged in by crowds of boys on the park in the evening made it impossible for ladies to sit out on the piazza at the City Hotel or at his house and, furthermore, the grounds of the park were being injured and made to look, he said, like a back yard. The midnight quartets, and boys who gather in the doorways of the Spaulding high school building disturbed people in the City hospital.

Alderman Ladd stated that he thought there was just cause for complaint and something should be done about it. On motion of Alderman Alexander, the matter was referred to the property and police committees to attend to.

A petition for a street light to be placed at the corner of Nelson and Washington streets was asked for by residents in that vicinity, and the petition was referred to the lighting committee to investigate and report. Residents on Jefferson street petitioned the board for a concrete walk along Jefferson street to Averill street. On motion of Alderman Ladd, it was voted to lay the petition on the table for one week. A resolution appropriating \$25 for the care of Currier park was read and passed to a second reading.

A communication from the gas company was read, stating that they had received notification last February from the city to extend their gas pipes down North Main street to Second street, as the city is to build a macadam street there. The company stated that they did not wish to go to the expense of laying the pipes now, owing to a stringency in the finances of the company. President Thurston said that according to the terms of the company's franchise with the city, they were to lay pipes as far as Second street within two years. On motion of Alderman Alexander, the matter was referred to the city attorney and the chairman of the street committee.

Herbert Lepere made an application for a pool room license in the small building just south of the covered bridge on South Main street and it was referred to the license committee to investigate and report. Joseph Wooby was granted a lunch room license at 28 Prospect street.

Fred Baskett made application for a permit to move two buildings from the corner of Berlin and North Main streets onto a lot on Ferrin street. He claimed that in moving the buildings the streets would be occupied about 11 days and that only a few wires would have to be cut, as the trolley wire and some others could be raised enough to allow the building to pass. Grant Lane also asked for a permit to move a building from Beckley street onto the lot owned by him on Seminary street. As the building was small, he said that it could be moved in three to five hours and no wires would have to be cut. Both applications were referred to the street committee to investigate and report.

Chief of Police David Faulkner notified the board that his department was shot of handcuffs, and on motion of Alderman Campbell the police committee was instructed to procure what handcuffs were needed. Residents at Phelps' mill petitioned the board for a hydrant to be installed opposite the C. E. Smith residence at Phelps mills. Referred to the fire committee to report.

The following building permits were recommended by the building inspector: L. P. Austin to top off chimneys on house on Center street; Smith, Whitcomb & Cook company to make alterations on their shop buildings and erect an office building; Alexander Gordon to patch roof of house on Spaulding street; George Hoyt to enlarge woodshed at 115 Summer street; L. A. Holt to reshingle house at 59 Elm street; E. Brogdon to extend piazza of house on Sixth street; A. E. Lebonrvean to cover roof of woodshed at 31 Spaulding street; Charles J. Campbell to build a dormer window on house at 28 West street; W. S. Littlejohn to build a house at corner of Trow avenue and Orange street; Benjamin O. Wood to reshingle house on Prospect street; Barre Railroad company to cover roof of material at 166 Washington street. On motion of Alderman Campbell the permits were ordered granted.

The boiler inspector gave notice that the boiler at the pumping station would not be safe to use after August 15. Alderman Alexander thought that the matter should be looked into at once if a new boiler was needed, and it was referred to the water committee to investigate and report.

The board then adjourned and went into executive session. After going out of executive session it was voted on a motion made by Alderman Ladd that applications from members of the permanent fire department for additional relief from duty other than that provided for in the rules of the department for a period not to exceed one week during the year may be made to the city council and granted by them if they see fit, providing that the member making the application can make arrangements that are satisfactory to the city council to maintain the service of the department in a satisfactory and efficient manner during such relief from duty as may be granted the applicant. Adjourned.

The Daylight Store

YOU ARE LUCKY

By being in a city where you can get the assortment of Dry Goods at prices that you can get in Barre. We are not the only good Dry Goods store, either. There are others, and good ones at that. The following are what we are making special prices on.

- WHITE GOODS.** We are only speaking of goods that are in great demand at the present time—goods that we call very cheap. Long Cloth has a growing demand. A recent purchase allows us to offer a 12 1/2-2c Long Cloth that sold in January at 15c, now at 10c per yard, or a 12-yard piece for \$1.10. 12-yard piece of 18c Long Cloth now at \$1.65 per piece. 45-inch White Shrunken Lawn, very fine and firm, at 25c per yard. The above prices are only for this one lot.
- HAMBURGS.** Hamburgs, 2 1/2 inches wide, at 5c per yard. Hamburgs, from 3 to 6 inches wide, that were 12 1/2-2c, 15c and 18c, now at 9c per yard. For trimming muslin underwear. 14-inch Flouncing with beading edge, for corset covers or flouncings for skirts, that were 35c, now at 25c a yard. These Hamburgs come in both edges and insertions and a part of them match. If they all matched we would not be making these low prices to close them. Good things to be looking for.
- SWISS FLOUNCINGS AND INSERTIONS** Here is a lot of very finest goods that we have been selling wedding and graduation costumes from. Lots that are getting broken as to matching. Swiss Embroideries, fine enough for whole dresses or very fine undershirts. These Embroideries come in flouncings, from 18 to 24 inches wide, and insertions, from 6 to 13 inches wide, that have sold at 60c, 70c, 87c, \$1.00 and \$1.25. Now all at one price, only 49c per yard. (The cheapest lot of first-class Embroideries that we have ever had in a sale.)

If you appreciate good values in Embroideries, as many ladies do, you should call early at this sale.

PROHIBITIONISTS HEAR GLOWING REPORTS

They Were Told That There Will Not Be Any Licensed Saloons in Five Years—Executive Committee Will Nominate the State Candidates.

The state convention of the Prohibition party, which was held in the L. M. Averill hall in this city yesterday afternoon, resulted in leaving the nomination of candidates for the different state offices in charge of the executive committee. The executive committee will have power to select the candidates and to adopt a platform which will be submitted by the committee on resolutions.

The executive committee, elected at the session yesterday afternoon, is composed of the following gentlemen: L. C. Andrews of Montpelier, chairman; M. L. Barton of Vergennes, vice chairman; Rev. G. L. Story of Burlington, secretary; Henry Babcock of St. Albans, treasurer; Warren Newton of St. Albans, auditor; S. M. Harris of Vergennes and H. E. Howard of Bakerfield.

The report of the committee on resolutions was called upon for a report, and the chairman of the committee, Rev. G. L. Story, stated that the committee was not ready to report, as three drafts of platforms had been submitted and the committee had not decided which one to recommend. The sense of the meeting proved to be that the matter of the platform be left in the hands of the committee to be referred to the executive committee for final adoption.

At the conclusion of the business meeting a short address on the principles and work of the party was given by W. D. Luken, a national representative of the party from Chicago. Mr. Luken spoke of the immense strides that the party had made in the past few years, until now one-half of the territory of the United States and 45,000,000 people were under prohibition of one kind or another. He said that in discussions of the problem medical men placed emphasis not so much on drunkenness as upon the use of alcohol in small daily quantities and stated that this practice brought on the diseases which kill thousands of men in the country.

Temperance is not so much a matter of sentiment as of science, and the more modern the medical men become, the more they advocate the harm done by alcohol even in small quantities. In closing Mr. Luken said: "If the prohibition party could not poll over 10 votes in the state, it would be the duty of its members to put a ticket into the field."

No Licensed Saloon in Five Years. Although the attendance was very small at the closing of the Prohibition state convention last evening Rev. W. D. Luken again addressed the company as was scheduled. In opening he spoke of Professor Atwater's statement that alcohol was a food and stated that this proved a good thing for the temperance cause in the end, as eminent scientists all over the world took the investigation in hand, and not one was able to conclude that alcohol was a food.

In speaking of the rapid strides of the movement, Mr. Luken stated that there would not be a licensed saloon in the country in five years' time. The Prohibition party proposes to do away with the legalized traffic in liquor and have a campaign of education going on that is doing a work that it little realized.

The movement has reached a stage now where it is not a matter of teaching the harm of drinking or of advocating total abstinence from liquor, but the time is to strike at the root of the evil and prohibit the manufacture. If the voters of the country had a chance to vote on the matter individually, the licensed saloon would be wiped out at once, but the conditions of the country are such that the individual does not get a right to vote his convictions directly.

The prohibitionists have stood the test through thick and thin for 28 years, and even if the party were to be wiped out at once, the story of the country would give to it a prominent place. High license is no longer mentioned as a solution of the problem, and local option is no better. Both are mere subterfuges, and the only real and permanent remedy is the stopping of the manufacture of alcohol in any and all forms.
