

ARE HOPEFUL OF VICTORY

Although Behind England at Opening of Day

ARE AMERICAN ATHLETES

There Was Little in To-day's Program to Interest Them—A 200-metre Breast Stroke Swim Had Several Heats.

London, July 15.—Notwithstanding the fact that England led America in total points, 29 to 13, when the third day of the Olympic games opened, the American athletes were in an optimistic mood. Thus far the Americans have won everything they counted on. Javelin throwing, free style, was the only event in which the Americans were especially interested to-day. They have no entries in the other events, which were swimming, cycling and gymnastic work. Already the race has narrowed down to America and England.

The honors were nearly even up to to-day, for of the four events finished the United States and the United Kingdom each won two gold medals. Great Britain, however, took three silver medals, while America got only one. Canada, Australia, Great Britain and Belgium each obtained a bronze medal.

E. V. Leming of Sweden won the final javelin throw with a record cast, 178 feet 7 1/2 inches.

The English team won the three-mile team race. America was second and France third. The time was 14 minutes 39 3/5 seconds.

The American team in the three-mile race was as follows: George Bonhag of the Irish-American Athletic club, G. A. Dull of the university of Michigan, J. L. Eisle of Princeton and the New York Athletic club, H. L. Trude of Cornell and the New York Athletic club, and Harvey W. Cohn of the Irish-American Athletic club.

ALLEGED BLACK HANDER

Caught Putting a Lighted Match to a Dynamite Bomb.

New York, July 15.—Fifty or more persons asleep in a Tenement house in East Eleventh street, shortly before midnight, were saved from probable death when detectives caught an alleged member of the Black Hand putting a lighted match to a dynamite bomb in the hallway of the building. While one of the detectives stamped out the light the others overpowered the would-be dynamiter.

The prisoner said he was Pinola Bonaventura and that he lived in Christie street. The house at the address he gave is known as the "house of three deuces," and it was here that nineteen persons were burned to death in an alleged incendiary fire a year ago.

TRAGIC DEATH TO THOMAS D. JORDAN

Man Implicated With The "Yellow Dog" Fund Expired in New York Subway Late Yesterday.

New York, July 15.—Thomas D. Jordan, formerly comptroller of the Equitable Life Assurance society, dropped dead of heart disease late yesterday afternoon in the Wall street station of the subway. His death was attended by tragic circumstances.

Scores of persons saw him fall, among them Dr. F. C. Wells, a friend of the Jordan family. Dr. Wells hurried to the side of his stricken friend, but he saw immediately that Mr. Jordan was dead. Mr. Jordan had parted from his son, Frank B. Jordan, only a moment before, and a messenger overtook the young man on the street and informed him of his father's death. The son was overcome with grief.

Before the body had been removed by the police, the news of Mr. Jordan's death had reached the financial district, a few blocks away, and many men prominent in the financial world were at the police station when the body arrived. Mr. Jordan was well known in Wall street, as he was a director and officer in many large corporations. It was in the course of the Armstrong committee insurance investigation that his name came prominently before the public. It was brought out then that Comptroller Jordan had secured loans aggregating \$685,000 for himself and James W. Alexander, former president of the Equitable, from the Mercantile Trust company, and that the loans had been covered up in the books of the company. This \$685,000 came to be known as the "yellow dog" fund.

A desire was expressed by the Armstrong committee that Jordan appear before the committee and explain his financial management of the Equitable, but the process servers were unable to locate Mr. Jordan. Mr. Jordan's son, who was called before the committee and asked to tell where his father was, said he did not know, and when further questioned said he did not know whether his father was dead or alive.

When the Armstrong committee investigation had come to a close, Jordan put in appearance and it was learned that he had been in Europe. As a result of the disclosures made before the Armstrong committee, the grand jury found eighteen indictments for forgery and one for perjury against Jordan.

Only recently Mr. Jordan appeared before Justice Goff in the criminal branch of the supreme court to plead not guilty to the indictments. His trial was set for the fall term of the criminal branch. Since his indictment Mr. Jordan had remained before the public eye as possible. While he was active in financial circles, his name seldom appeared in print.

OF CYCLONIC PROPORTIONS.

Much Damage Done in Massachusetts Towns.

Great Bartington, Mass., July 15.—A storm of cyclonic proportions late yesterday did great damage in this and the surrounding towns of Mount Washington, Egremont, Sheffield, New Marlboro and Montroy. For an hour and a half the rain fell in torrents and a heavy wind demoralized street car service and put telephone and telegraph companies out of commission.

Trees were uprooted in large numbers and the storm was said to be the worst that has visited this section in twenty-five years. Nobody was seriously injured, but several people received shocks from fallen electric wires. Many of the large trees on the estates of wealthy New York summer people were uprooted, in some instances doing damage to the houses.

The damage to crops in the surrounding country will be especially heavy. Corn and other grain truck were laid flat by the wind and much of the new plantings was washed out by the rain. The extent of the damage to the outlying towns cannot be fully learned until the tangle of fallen wires is straightened out and communication restored.

Westport, Mass., July 15.—Mrs. Hannah Emma Mosher, a widow, aged 49 years, committed suicide late last night, being dependent over ill health. A note sent to a neighbor which enclosed a sum of money and requested of the neighbor to care for Mrs. Mosher's only son, led to an investigation and the woman's body was found. She had taken a dose of arsenic and tied a handkerchief, saturated with chloroform, over her mouth.

NEAR ARREST, SHOT SELF

Portsmouth Man Who Shot Woman on Sunday

WAS DISCOVERED TODAY

Sent Three Bullets Into Himself and Died Almost Instantly—The Woman Is Alive and Will Probably Recover.

Portsmouth, N. H., July 15.—Raphael Diproffo, who was wanted for alleged murderous assault on Mrs. Ottrino DiBerto on Sunday was captured this morning in the woods of Freeman's point. When taken he fired three shots into his neck, dying instantly.

His victim is expected to recover. The bullet entered the right side of her neck just behind the carotid artery, passed through the esophagus, barely missing the jugular vein, and out at the left side of the neck.

The police were notified by telephone at 5:45 o'clock Sunday afternoon by Joseph Sacco, a North End merchant, and responded at once, but from the conflicting descriptions given of the assailant, they spent some time searching for another man, who demonstrated his innocence, and meanwhile the real culprit escaped.

Doctors Johnson and Junkins were summoned and ordered Mrs. DiBerto removed to the Cottage hospital, where the wound was dressed. Various theories are advanced to account for the crime. One story is to the effect that Mrs. DiBerto and Diproffo, who were cousins, quarrelled over money matters. Diproffo owing something for board and other things. Another theory is that jealousy was at the bottom of it.

RACE MEET AT RUTLAND.

Six Events Planned For The Two-Days' Racing.

Rutland, July 15.—A race meeting, which it is expected will attract to this city between 40 and 50 horses, among them some of the fastest in this section, will be held at the fair grounds in this city, July 29 and 30. A subscription paper was started yesterday morning and enough money was pledged to assure the success of the affair.

There will be six classes, the purse in each class to be \$300. They will be as follows: 2:30 pace and 2:27 trot, 2:25 pace, 2:17 pace and 2:14 trot, 2:23 straight trot, free-for-all, trot and pace.

Chester Pike of White River Junction who is acting as official starter at the Montreal races, is trying to induce the horsemen there to bring their horses to Rutland, and it is expected he will be successful, as there is to be a race meet in Barre the week following the meeting here.

If the meet is a success another race will be held in October after all of the affairs are over. A stock company will be formed later.

WANT REV. MR. WALSH.

Manchester, N. H., Church Calls Pastor From St. Johnsbury.

Manchester, N. H., July 15.—By a unanimous vote the Lowell street Universalist church last night extended a call to Rev. Francis A. Walsh of St. Johnsbury, Vt., to become the pastor at a salary of \$1,500. The local pulpit has been vacant for six weeks, caused by the resignation of Rev. George A. Miller, who has gone to Norwood, Mass., in acceptance of a call from the Universalist church in that place.

Mr. Walsh has been located at St. Johnsbury during the last seven years and has had an unusually successful pastorate. He is chairman of the St. Johnsbury school board and prelate of the St. Johnsbury commandery of Knights Templars. It is anticipated that arrangements will be made for him to begin his duties in Manchester, should he accept the call, by Sept. 1.

WANTS LAW REPEALED.

Brattleboro Man Would Allow More Freedom on Sunday.

Brattleboro, July 15.—Dr. Edward R. Lynch stated yesterday that he should seek the nomination for town representative from Brattleboro on the Democratic ticket. He is the only Democratic candidate now in the field.

Dr. Lynch says that if elected he shall stand for the repeal of the law which prevents a person from obtaining a cigar or a glass of soda or plate of ice cream on Sunday. In view of the blue law in Brattleboro, whereby the cigar counters and soda fountains are closed on Sunday, this plank is arousing no little interest.

CAR SERVICE CRIPPLED.

No Cars Moving in Burlington To-day Because of Two Reasons.

Burlington, July 15.—The entire electric car service of the city was tied up to-day, first because of low water, and later because of a break in the auxiliary system. Some cars may be moved later in the day.

SIXTEEN KINDS OF GRASS.

Are Noted in Vermont as Being Worth Considering.

Burlington, July 15.—At the district superintendents' school yesterday Prof. L. R. Jones discussed grasses and clover. He stated that most farmers, in a vague way, include the forage plants of the pasture and meadows under the term grass, an incorrect view which has led to popular confusion. The true grasses are more widely useful than any other similar group of plants. They include the cereals and the muck forage and pasture plants. They are characterized by slender stems with frequent solid joints or nodes. The stems are usually hollow but sometimes solid. The leaves are slender blade, clasping the stem like a sheath above the nodes. They arise one from each joint in two opposite rows. The flowers are usually borne on slender branches, forming open clusters or dense heads. The hay and pasture grasses of Vermont are many in number, but 16 only deserve special mention; 10 being valuable for hay or pasture and six being used as weeds. The principal hay grasses are timothy, orchard grass, meadow fescue, June grass or Kentucky blue-grass, Canadian blue-grass, fowl meadow grass, red top, blue-joint, reed canary grass and the manna grasses. The prominent weed grasses are quick, poverty grass, fox tail, barnyard and crab grasses.

The clovers are not grasses. They belong to the pea family; are nitrogen gatherers and well recognized and valuable adjuncts to the farm economy, improving the animal ration and bettering the soil in which they grow.

DEBOER APPROACHED.

Says He Would Represent Montpelier if the City Wants Him.

When asked yesterday if he would run for city representative from Montpelier, Joseph A. DeBoer stated that while he is in no way a seeker for the office, if the Republicans of Montpelier want him to represent them in the next legislature, he should consider it a distinguished honor, and if the call came to him he should feel it his duty, as a good citizen, to accept. This practically settles the question as to who will represent this city. Any other Republican would be foolish to run against Mr. DeBoer, and as the labor element in the city is anxious for him to represent the community this fall, no other candidate from any party could hope to win out at the polls. If Mr. DeBoer presses the button, the Republicans of Montpelier will gladly do the rest.

Bennett and was signed by Harriott. A check was given by Harriott to the Automobile Exchange for a 1908 model Buick auto.

WIND FANS FIRE, CAUSING ALARM

The Big Groton Fire Is Still Causing a Great Deal of Uneasiness as Fanned by the Wind.

Groton, July 15.—The great forest fire which started Saturday noon is far from being quelled. On the contrary, it is causing a great deal of uneasiness, as it sweeps ahead before a stiff north breeze toward an immense pile of logs on the Miller-Ayers property. The watchers thought the flames were pretty well burned out, but the springing up of the wind to-day is fanning them into new fury.

A Striking Likeness of Batstow.

An oil portrait of ex-Gov. J. L. Barstow of Shelburne, the gift of his son, C. L. Barstow, of New York, was hung in the governor's room at the State House in Montpelier yesterday in the presence of Adj. Gen. Gilmore, Sergeant-at-Arms Ferrin and others. The portrait is by Alice Morlan Flint of New York, technically a fine work of art and carried out with great sympathy and sincerity. It is not only a striking likeness but suggests Governor Barstow's character to a remarkable degree.

WEEKLY BUSINESS OF THE ALDERMAN

Health Officer Reported 28 Births and 14 Deaths During Month of June—New Railroad Bridges Considered.

A gist of routine business was done at the regular meeting of the board of aldermen last evening. There were only four members of the board present, the vacancy in the third ward not having been filled and Alderman Ladd being out of town. The report of the water superintendent for the month of June was read and accepted, as was also the report of the health officer for the same month. The latter report showed 28 births, 14 deaths and four contagious diseases, all measles. The application of B. R. Goff for a license to run a merry-go-round on the Tilden lot for two weeks was referred to the license committee with power to act.

A petition was read, requesting that the proper authorities make investigations as to the bull dogs owned by A. Croci and John Bussa; the petitioners claiming that the dogs are vicious and

dangerous to be loose. The petition was referred to the police committee.

John Bazzi made application for a lunch room license in the front room of the southerly side of the Northern hotel. On motion of Alderman Campbell it was voted to grant the license.

The contract with the city of the Montpelier Military band to furnish concerts at \$45 per concert and the number of concerts not to exceed ten was read and accepted by the board on motion of Alderman Alexander. The clerk stated that the band requested to be paid each week after a concert and that he had received three bills for three concerts already given. On motion of Alderman Campbell it was voted to lay the matter over until the next meeting.

The following reports from the building inspector on building permits were read and on motion of Alderman Alexander permits were ordered granted; G. Giachero to build a house on Smith street; Mrs. Cheney Batchelder to build a piazza on wood-shed at 2 Liberty street; W. H. Messer to build an extension to basement of house; Charles Plouf to repair house and build woodshed on River street; school commissioners to repair bulk heads at the Ayer street and Ayer street school buildings; R. S. Currier to build a hen-house at Currier street. Alderman Campbell reported that Theodore Stowe wished to have the water main extended on Prospect street to connect with his house and the matter was referred to the water committee to investigate and report.

New Railroad Bridges.

Supt. F. W. Stanyan of the M. & W. railroad appeared before the board in regard to securing permits for the company to erect iron bridges at the Ayer street trestle, at Prospect street and at the rear of the Miles block. The board voted that the necessary permits be granted. In regard to the new bridge at the Miles block Mr. Stanyan said he had received the notice from the board requesting that the bridge be built without a pier and he stated that to erect and through span bridge would cost the company considerably more money and for this reason they wished to build a bridge with a pier in the middle of the river. With the new bridge and the pier he said there would be five feet more waterway under the bridge than now.

Special Council Meeting.

At the conclusion of the business of the aldermen, H. E. Cutler asked that the mayor call a meeting of the city council as he wished to bring before the council a request that in laying the sidewalk on Jefferson street it be laid a few feet back from the street line near his stable. He claimed as it would improve the looks of the street and be more accommodation to pedestrians. The mayor called the council together and after listening to Mr. Cutler's remarks and discussing the matter for some time the council voted to lay it over to the next meeting.

AN ACROBATIC FEAT WHICH TOOK NERVE

Frightened Horse Stopped By Young Man Who Leaped From Wagon to Horse's Back and Threw The Animal.

Seldom in a runaway accident is seen such presence of mind and pluck as that displayed by a young man on Washington street yesterday afternoon when one of the reins broke while he was attempting to hold his frightened horse. The young man and a companion were driving down the Washington street hill around five o'clock when H. J. Slayton's automobile passed them and the horse became frightened and started to run.

The driver pulled up quickly and one rein broke. Instantly he jumped from the wagon squarely onto the frightened animal's back, grabbing its head in his hands, twisted it around so that the horse stumbled and fell to the ground. The plucky young man still clinging to the horse's head and held it down until he was assisted by his companion, who remained in the wagon, and by people who were passing.

After things had been straightened again it was found that the broken rein was the only damage done save for a few scratches on the horse's legs. People who saw the accident say it was a remarkable bit of horsemanship and saved a probable serious runaway.
