

TWO GAMES FROM BARTON

Barre Ball Team Did Good Day's Work.

'BOB BURNS' PITCHED BOTH

Former Northern Leaguer Had the Barre Boys Guessing During Both Games, the First of Which Was a Shutout.

The Barre base ball team landed two games from Barton Saturday afternoon, largely through the effective pitching of 'Bobby Burns' O'pergett, who twirled both games and had the local team guessing the greater part of the time.

The first game was a shutout, 8 to 0, Burns allowing but seven hits; and the second was 3 to 1 in seven innings, being called on account of darkness.

In this game Burns was touched up for four hits, the same as Bishop of Barton, Allan Reid of this city, the Norwich university player, who is with the Barton team, pitched in the first contest and was hit for seven safeties. The games were played in a drizzling rain. The scores:

'NOT IN RACE,' SAYS HEARST

'I Will Not Accept Independence League Nomination'

New York, July 27.—William Randolph Hearst returned to New York Saturday on the Cunard line steamship Lucania.

To interviewers he reiterated that under no circumstances would he accept the nomination of the Independence party for the presidency.

'Would you accept?' he was asked, 'if the delegates at Chicago brought great pleasure to bear?'

'That would be impossible,' Mr. Hearst replied. 'I have given my word and under no conditions will I be a candidate.'

Mr. Hearst was told that he had been virtually named at temporary chairman of the Independence party convention, and he was asked if he would serve.

'I will do everything in my power to serve the party,' he answered. 'Do you think Taft was the strongest man the Republican party could have named?'

'That remains for the people to decide,' was Mr. Hearst's terse reply. 'He said he would leave this afternoon for Chicago and would reach there ahead of some of the delegates to the convention who depart tomorrow.'

'Will the party nominate a straight ticket or will it give its support to Bryan?' asked one of the interviewers. 'When I went abroad,' said Mr. Hearst, 'the sentiment was for a straight ticket and I have heard of no change.'

MISS FLEMING CORROBORATES.

Said Her Part to Coach Miss MacCausian for Gould Trial.

New York, July 27.—Contents of a statement said to have been made to the district attorney's office by Miss Julie Fleming, who is in the Tombs at New York on the charge of subornation of perjury in the Frank J. Gould divorce case, were made known Saturday.

After the hearing Friday Miss Fleming, it was said, made a statement which corroborates the story told by Miss Mabel MacCausian, in which the latter said she had offered a sum of money to testify falsely against Frank J. Gould in the divorce suit brought against him by Mrs. Helen Kelley Gould.

When employed at a prominent hotel, Miss Fleming said she had become well acquainted with Mr. Gould, and that her part in the alleged conspiracy to manufacture divorce evidence favorable to Mrs. Gould was to coach Miss MacCausian and enable her to identify Mr. Gould on the witness stand.

Miss Fleming was to have been married yesterday, and if her release from the Tombs was not procured on bail it was understood that the ceremony would take place in the prison.

Howard McCabe, who was to wed Miss Fleming, failed, however, in securing a bondsman. The Tombs warden would not permit the marriage to take place in the prison without an order from some judge, and as all the courts were closed yesterday afternoon the marriage did not take place.

BROKE LOCK OF THE CELL.

Ineffectual Attempt to Release a Prisoner in Stowe Cell.

Stowe, July 27.—Wallace Levanway, who has been in the lock-up here serving a sentence for second offense of intoxication, was taken to the jail with the VeVn Parker, who attempted to release Levanway Saturday afternoon by breaking the lock on the cell door.

Par-did not succeed in liberating the prisoner but did succeed in fixing the lock so that the keeper could not open the door when he went to the cell with the prisoner's supper.

The case was investigated and Parker was arrested and given a hearing Friday evening. He was placed under \$2,000 bonds which he was not able to raise.

Levanway was arrested in St. Albans last winter and during his imprisonment was married. He was out on probation. Parker is said to have also served time in Franklin county jail on various charges.

CLOSE ON TRAIL OF SUSPECTS

Arrest Expected Soon in Payrow Murder Case.

Boston, July 27.—With a mass of evidence in their hands the police are completing their plans for the arrest of the two men supposed to be implicated in the mysterious murder of Mrs. Emma D. Payrow, at 200 Columbus avenue.

Both men have disappeared from their usual haunts in the South End, and the most vigorous search of these haunts has failed to disclose a trace of the suspects.

On this account the police are at work on the theory that they have both sought safety in flight. Leak, the colored boy, whom the police are after in connection with the case, once lived in Burlington, Vt. He has often spoken of a sweetheart in Burlington and the police there are scouring the city in hopes of tracing him in his friend's house.

About 'Red' Geary there is less known, but it is thought that he is still with Leak.

Captain Dugan is very confident. 'We have positive information,' said the captain last night, 'as to where the men are in hiding. It is merely a question of a little time before they are both back in Boston charged with the death of Mrs. Payrow.'

FOUGHT IN MAD FRENZY

False Alarm of Fire Causes Panic in Philadelphia Theatre.

Philadelphia, Penn., July 27.—Panic-stricken by a false alarm of fire originating in a fight between two boys in the gallery, 2700 persons in the People's Theatre, at Cumberland street and Kensington avenue, Saturday night fought in mad frenzy to reach the doors.

For a few minutes the audience went wild. Screaming in their fear, men, women and children on the first floor made a rush for the entrance and exits. No less terrified, the persons in the balcony and gallery crowded toward the fire escapes.

The first to reach the escapes ran, half stumbling down the narrow iron stairways. They were men and boys, and when they reached the last platform 10 feet above the ground, their weight was sufficient to bear down the heavy weight which held the iron steps suspended.

But before those who followed them, the women and girls, reached the platform, the ladder had swung back into place and the weight of the girls was not sufficient to bring it again to the ground.

Hesitating to jump, while the crowds pressed from behind, they were in danger of being pushed off, until Walter Clark, conductor on a Cumberland street car, saw the trouble, and bringing his car to a stop, ran to the fire escape and hoisted the weight which held the ladder down again.

When the Democratic nominee for president reached Chicago Saturday he was strongly in favor of Mr. Mack for the place, but Mr. Bryan frankly told the committee that he wished them to consider all candidates and make an appointment accordingly.

There were in the race besides Mr. Mack, Judge M. J. Wade of Iowa, T. E. Ryan of Wisconsin, former Governor James E. Campbell of Ohio and Urey Woodson of Kentucky. The choice of Mr. Mack was made possible only after the New York leaders, Charles F. Murphy of Tammany and W. J. Conners, chairman of the state Democratic committee, had yielded to the personal desires of Mr. Bryan.

OVEREXPOSURE TO SUNSHINE

Is One of the Dangers of the Vacation Season.

More important, very probably, even than the question of water in vacation time is that of exposure to the sun. Here once more Hippocrates, in his wise, old, Greek way, emphasized a most important factor in the production of ill-health. We have heard sunlight praised so much in recent years that we may forget that in this as in everything else the rule must be ne quid nimium—don't go too far.

Many people seem prone to think that the heavier the coat of tan they wear on their return from their vacation the thicker are the layers of good health that they have accumulated. They forget that the darkening of the skin caused by sunlight is a definite effort on the part of Nature to protect underlying important organs from the destructive chemical action of the sun's rays.

Before nature supplies this pigment, which deposited in the skin protects the individual from solar actinism, the effects are strikingly and is shed. If the exposure to sunlight has been continued for some time,
