## NOOSE AWAITS NIGHT RIDERS

Score May Hang, Tennessee Authorities Believe

### SPECIAL COURT CONVENES

Large Crowds at Union City for Opening of Court Procedure Looking into the Indictment and Speedy Trial of Men.

Union City, Tenn., Oct. 27.—That swift and certain justice is to be meted out to the night riders who are charged with the lynching of Capt. Rankin a week ago was made quite evident here yesterday morning when the court proceedings against the men thus far rounded up were begun here. The first steps looking to their indictment by a special grand jury were taken at the court house here yesterday.

The state authorities believe that the hangman's knot awaits a score or more of the accused men. The greatest interest was taken in the proceedings by the residents, and visitors from the surrounding country to the number of fully 1,000 came to Union City yesterday morning. Judge Jones presided over the special term of court. His charge to the special grand jury was the most important event scheduled for the day.

He said in part: "I feel sure that the efforts of the governor and all the subordinate officers to suppress crime and vindicate the law will be seconded by the almost unanimous plaudits of the people. The state has the task to a helpless woman. These lawless acts must be investigated, and the offenders brought to the bar of justice."

"Every man present in the band which killed Capt. Rankin is guilty of murder in the first degree, and the penalty may be applied to all who aided or abetted by their presence or consent. Conviction in cases where murder is committed by one or more persons with the death penalty, unless the jury substitutes imprisonment."

T. R. Beaton was chosen foreman of the grand jury, which at once entered upon its work. The plan of the authorities is to dispose of the night rider cases as quickly as possible, not only on account of the large expense which any delay would occasion, but for fear of mob violence, the danger of which increases constantly as the enraged citizens of all northwestern Tennessee add their opinions of the recent outrages.

Governor Patterson, who spent Sunday in Nashville, returned to Union City yesterday morning. Owing to efforts of influential citizens of this city, doubt was expressed yesterday as to whether Governor Patterson would proclaim martial law, as was threatened last week.

The governor has definitely abandoned his stumping campaign for re-election, in the belief that his devoting of all his energies to the night rider crisis will win him more votes than all the speeches he could make. No further threats against the governor or other state officials have been reported, and in the face of the wholesale arrests of Sunday it is not believed that further efforts will be made to intimidate the authorities.

Seventy-five additional soldiers have been detailed to guard the camp at Hamburg, where the prisoners are detained, as the wholesale arrests have greatly excited the entire lake section, and while there was considered to be no immediate danger of an attack by night riders upon the camp, it was deemed best to take every precaution. Additional picket lines have been established and all approaches to the camp are guarded with the greatest care.

Union City is still guarded by the special posse of citizens. It is understood that many of the people residing in the lake district have left their homes for parts unknown. Fifty-one arrests were made Sunday by the soldiers under command of Col. Tatom, Col. Rogan, Major Martin, Major Holmes, Capt. Bellamy, Speer, Hunt, Zopf, and other officers and deputies, led by the sheriffs of Obion, Lake, Dyer and Gibson counties.

For a distance of at least twenty-five miles in every direction the soldiers and deputies scoured the country from morning till night, and Sunday night the military camp at Hamburg was crowded with prisoners.

## Ceresota Flour

is no impoverished bargain counter flour, but it is the best bargain flour when the loaves are weighed and counted.

That's why it's worth the price it brings. It is richest in gluten, retains its moisture longer and makes big, white delicious loaves. The first bag of CERESOTA will convince you as much as a barrel. A trial will be enough.

head and shrill twittering to excite my attention and to obtain worms—its usual food—thereby. Its appetite is indeed something uncanny. Thirty fat worms are readily taken at one meal."  
—November Technical World Magazine.

### SWIFT PROGRESS IN LEPROSY CASE

Afflicted Camden Boy's Condition Excites Unusual Medical Interest.

Camden, N. J., Oct. 27.—The interest which is being taken in medical circles in the case of Charles Clarke, the Camden boy who was suddenly taken with leprosy some time ago and is now under treatment at the county almshouse at Blackwood, is indicated in a report just made to the war department by Dr. Charles E. McDonald, U. S. A., surgeon stationed at Fort Mott.

The resident physician of the institution was informed yesterday that an expert would be detailed from the war museum to make an exhaustive examination. The disease is progressing with a rapidity so unusual as to make it one of the most remarkable examples of this little known disease on record.

The first leprosy symptoms appeared less than a year ago, but its advance has been so swift that it has reached the point where the spinal cord gives evidence of degeneration. The entire muscular system is contracting, and the boy's condition is said to be similar to that of a leper who has suffered for 25 or 30 years.

### MAGAZINE REVIEW.

Bats as Pets.

A bat in a woman's bedroom can cause more excitement than can one lone burglar or even a dozen mice. As the strange creature of the night comes flapping and flapping against the walls and ceilings such shrieks are elicited from the terrified female as to rouse the whole family and to bring them to the rescue with brooms and canes. All of this is sheer foolishness for if she would but give him a chance the bat could prove to her entire satisfaction that he is an intelligent and amiable creature and not unworthy of a permanent place in the household. Yes, the detested bat makes a most agreeable household pet.

He is a most affectionate creature and will attach himself to a person as does a kindly and intelligent dog. A college professor says: "When I was a student at the university I had two bats, which came and went freely of their own accord. In the evening they were wont to rush through the window into the neighboring garden, hunt insects, and when their hunger was appeased they would return to my room. They slept on a bookshelf, where they suspended themselves from a dictionary. At the present time I possess a bat that shows a touching attachment to my person and follows me about through the rooms of my house, if I called it."

This last statement seems to be unquestionable testimony in favor of the theory that the ear of the bat is not only susceptible to high and shrill sounds, but also for the lower sounds of the human ear. Recognizing that it is called, the creature evidently is able to distinguish different shades and accents.

The advocate of bats as pets further states that when he talks pleasantly to it his present favorite raises and lowers its ears, much after the manner of a horse, blinks its eyes in a contented fashion, licks its nose with its tongue, and, in general disports itself in a manner that indicates it is pleased and contented. When harshly spoken to, it lays back its ears, shrinks away, and seeks to escape by climbing up the curtain.

The proprietor of this bat adds: "When I sit by lamplight in the morning working at my desk, I can hardly get rid of it. It comes and goes, rambling about the desk or climbing up my legs or else it sits on the curtain and endeavors by violent shakings of the

### FEARFUL TALES OF HARDSHIP.

Storm Does Enormous Damage in District South of Saskatchewan.

Medicine Hat, Saskatchewan, Oct. 27.—The first trains to reach Medicine Hat since Monday's snow storm arrived from the East Saturday night. Riders got in from the region stretching south to the United States border with fearful tales of hardship created by the storm. Two fatalities have been reported and it is feared there were many deaths among the sheep herders as a result of the recent storm. It is known that many thousands of sheep perished.

### RESIGNS AS HEAD OF CRIME SOCIETY

Dr. Parkhurst Declines to Give His Reasons for the Step Taken.

New York, Oct. 27.—The Rev. Dr. Charles H. Parkhurst has resigned as head of the Society for the Prevention of Crime. Members of the society and Dr. Parkhurst admitted Sunday that this was so, but declined to discuss the clergyman's reason for the step. Dr. Parkhurst has been president of the society for 17 years.

"Will you give the reason for your resignation," he was asked. "I can say nothing now except to confirm the report that I have resigned," he replied.

"Was it because of any disagreement over the methods of the society?" he was asked. Dr. Parkhurst declined to answer. Dr. Parkhurst will be the guest of honor at a dinner at the Hotel Gotham next Thursday night, given by members of the society. He said that he might give his reasons for resigning then.

Frank Moss, counsel for this society, when asked about the resignation, said: "We did not intend to let it be known at this time that Dr. Parkhurst had resigned. His reason for resigning is a purely personal one, and he resigned

### SEEKING THE SANFORD PAIR AS ELOPERS

Sadie Whiteley, 17 and Albert DeMille, 20, Not Heard from Since Last Tuesday.

Sanford, Me., Oct. 27.—Search is being made throughout New Hampshire for Sadie Whiteley and Albert DeMille, who it is thought, eloped from Sanford last Tuesday. The young people left Sanford on the early morning train last Tuesday, and since then have not been heard from. They were traced as far as Rochester, but there all clues were lost.

Miss Whiteley is the daughter of Mrs. Ida Whiteley of this town, her father being dead. DeMille is about 20 years old, of dark complexion, curly hair, weight about 120 pounds, and was dressed in dark clothes. The Whiteley girl is 17 years old, short and thick set, of light complexion, light hair. She wears a brown suit with hat to match. She is good looking and attractive in manners. The police in Dover, Somersworth, Manchester and Portsmouth have been notified.

Mrs. Whiteley is heartbroken over the affair and is confined to her bed under a doctor's care. It is feared that unless something is heard of her daughter soon serious results will follow.

**A Skin of Beauty is a Joy Forever.**  
**DR. T. FELIX GOURAUD'S Oriental Cream or Magical Beautifier.**

Removes Tan, Pimples, Freckles, Moles, Fuzz, Hair, and all Blemishes, and every blemish on beauty, and on the complexion. PRICES 50c, 75c, \$1.00 and \$1.50. - - TICKETS THURSDAY.

### BEWARE OF PNEUMONIA.

According to mortality statistics, pneumonia is one of the most frequent and fatal diseases to which humanity is subject. Its action is so rapid that its victim is often in precarious condition before realizing that anything more serious is the matter than a severe cold.

This is one of the dangers that may follow neglect of a cough or cold, and is therefore the best of reasons why one should check a cold at the start. A simple, inexpensive and effective remedy, that will usually break a cold over night, is the mixture of one-half ounce of Virgin Oil of Pine compound pure, with two ounces of glycerine and a half pint of good whiskey. Take a teaspoonful every four hours. It is claimed this mixture will cure any cough that is curable, and provides a sufficient quantity to last the average family an entire year. Get the ingredients and mix them yourself.

In preparing this formula it is essential to use only the best quality of glycerine and whiskey with the genuine Virgin Oil of Pine compound pure. The latter preparation is a combination of the active principles of the pine and santalwood trees, carefully compounded to retain the healing, health-giving properties for which these trees are justly famous. In order to insure its purity and freshness, it is securely sealed in a round wooden case. The genuine Virgin Oil of Pine compound pure is prepared only in the laboratories of the Leach Chemical Co., Cincinnati, O.

## BLUE WOMEN

Women should understand that melancholia, commonly called "the blues," is in nine times out of ten a sure symptom of some serious female organic derangement and should have immediate attention.

Women whose spirits are depressed, and who are ailing and miserable, should rely upon

### LYDIA E. PINKHAM'S VEGETABLE COMPOUND

as is evidenced by following letters.

Mrs. F. Ellsworth, of Mayville, N. Y., writes to Mrs. Pinkham: "For three years I was in an awful despondent and nervous condition caused by female troubles. I was not contented anywhere, and was in such constant fear that something terrible was going to happen that it seemed as though I should lose my mind. Lydia E. Pinkham's Vegetable Compound has restored my health, and I cannot say enough for it."

Mrs. Mary J. Williams, of Bridgeport, Ill., writes to Mrs. Pinkham: "I have been suffering from a female trouble, backache and headaches, and was so blue that I was simply in despair. I feel it my duty as well as my pleasure to tell you that Lydia E. Pinkham's Vegetable Compound cured me. The change in my appearance is wonderful, and I wish every suffering woman would try it."

### FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache. Why don't you try it?
