IN BOSTON MARKETS.

Butter Continues Firm, Receipts Are Rather Large.

Boston, Jan. 14.—Butter continues firm in the local market. Monday's receipts were pretty large, but they were mostly storage goods. The supply of fresh butter, especially of the best grades, does not increase, and Monday's large receipts of storage goods do not necessarily mean that the available supply of stock of that kind will be larger, since local factors who operate retail stores are known to have been buying quite freely in outside markets recently. Business in cheese does not improve much, but the inactivity does not weaken the views of dealers any. Eggs sell slowly, but receipts are moderate, and as another cold wave is forecasted, it is likely that receipts will continue rather light. Prices are firm and unchanged.

Quotations follow:
Butter—Fancy northern creamery, tubs 32@33c, boxes and prints 34@35c, western tubs 31@32c, fancy storage 31@32c, dairy 27@28c.

EMBLEM OF JUSTICE.

A Clergyman Pays Noble Tribute to the Union Label.

It is a pleasure to reproduce the following noble tribute to the union label by a Baltimore clergyman. Here is what he said:

"What can be more sacred, more holy or more deserving of the reverence of men or of the angels than the union label, which signifies that human life has been more highly valued in the production of human commodities than the mere profits sought for by greed?"

"The label is an emblem of justice, of fraternity, of humanity. When you find a label on a garment, or box of cigars, or loaf of bread, or a piece of printing you can be sure that neither was made in a sweatshop, that no little children's fingers were compelled to sew or sort the tobacco in the hours of night intended for childish sleep. When you see this label on any commodity you can buy it with a clear conscience, knowing that in doing so you are not becoming a partner in an institution that degrades humanity to private profit. You can sleep soundly and not be worried with thoughts of typhus fever or smallpox or leprosy, which are so often scattered broadcast from Chinese opium joints, penitentiary convicts' cells and tenement sweatshops, where the most degraded specimens of humanity put their life's blood into marketable goods, from which the poor, unsuspecting public suffers all manner of foul and loathsome diseases.

"The union label is a religious emblem. It is a religious act to buy the goods to which this label is attached—an act blessed on earth and honored in heaven; while it is a sin to buy a cigar, a piece of clothing, a pair of shoes or a loaf of bread without this label, for then you do not know but you are building up the business of some heartless tyrant, who is extracting a fortune from the drudgery and degradation of his fellows at the risk of public health.

"God bless the label! And I hope that all of you as you leave this house tonight will carry away indelibly impressed upon your minds the picture of the union label surrounded by angels and that you will always know that the favorite banner in heaven represents justice to labor, fresh air and sunshine and healthful conditions to those who toil and the truth that human life is of gold."

Trimming a Girl Can Make.

This is to be a season of trimmings, and the girl who is clever enough to make her own can save her purse. One of the easiest for home manufacture is thick cotton cord covered with bias silk sewed on the machine and then used in the form of braiding.

As the cord is large, the work is quickly done when sewed into curves, scrolls or circles. It is especially effective on net or mousseline. It is sewed by hand with loose stitches.

Another shrewy trimming that can be made at home is from bands of flowered silk cut to outline flowers and appliqued to white or ecru mousseline de sole or chiffon. The raw edges are finished with a gold or silver cord, very narrow, or with a ruffle of the narrowest ribbon that can be bought.
