TEMPERATE JAPANESE COMMENT

Only the Second-rate Press Shows Active Resentment. The publication of the text of the resolution aroused active resentment only in the columns of the second-rate press.

The absence of extended comment on the situation in the Japanese newspapers is believed to be due to the reported action of the California legislature in defeating the Drew anti-alien land bill, and also President Roosevelt's letters and telegrams to Gov. Gillett, all of which have been fully reported to the local press.

LONG FIGHT OVER TARIFF

Outlook That Congress Will Sit Till Midsummer

THE HOUSE IN NO HUMOR

To Be Debated with the Usual View of Debate, and the Senate Won't Hurry, Either—Uncle Joe Knows He's in for It.

Washington, Feb. 8.—That the special session of Congress to be called in March for the purpose of revising the tariff will be prolonged far into the summer and possibly into the fall months is the belief of the leaders of the House who have been advised of the many problems that have been presented for solution to the Republican members of the committee on ways and means. PLANTER CONVICTED OF POISONING WIFE

But South Carolina Jury Recommends Rich W. T. Jones to The Court's Mercy.

Union, S. C., Feb. 8.—After deliberating eighteen hours, a jury found W. T. Jones, a rich planter, guilty of poisoning his wife with strychnine last July. But the jurors recommended Jones to the court's mercy. The jury stood 9 to 3 for hanging. It is reported that on hearing the verdict, Jones, who has stood well under the strain of the trial since last Wednesday, turned deathly pale and almost collapsed. The jurors retired at 8:45 p. m. Friday. For hours the crowd remained in the courtroom, for the case had aroused intense interest hereabouts. Just before noon Saturday they returned to the courtroom and reported that they differed as to the value of circumstantial evidence. Judge Memminger cited to them the case of a woman who was found dead in her bed in Oconee county this state, and whose murderer was convicted on circumstantial evidence. The judge also instructed them again that under the law of South Carolina a person who induces another to commit suicide is guilty of murder. The jury then retired again, and at 3 p. m. they brought in a verdict of "guilty of murder, with a recommendation to mercy." It is expected that the sentence will be imprisonment for life. Jones' counsel moved for a new trial, and next Friday was fixed for argument in the courtroom, and it is stated that if a new trial is denied the case will be taken to the state supreme court. It is explained that Jones' reason for not testifying in his own behalf was that he feared several affairs of his youth would be aired, and that, as he claims, he desired to avoid telling everything regarding his relationship with his wife.
