

SLOW GAME ON COLD DAY

Goddard Defeated Norwich University 2nds.

BY THE SCORE OF 13 TO 3

Scampini and Smith Pitched Winning Ball for the Home Team, Allowing the Visitors But Three Hits.

Goddard seminary won an easy victory over the Norwich university seconds of Northfield on the local campus Saturday afternoon, the final score being 13 to 3.

In the fourth inning with the bases full Berry lined out a three-bagger into right field that scored three of the five runs in that inning and in the fifth Boynton clouted the ball into the same field for three sacks that scored one of the five runs made in this inning.

Scampini and Smith divided the work in the box for Goddard and pitched great ball, the catchers being able to make only three hits off them.

AFTER MR. NORTH'S HEAD

Mr. Nagle Wants New Director of Census Bureau

TINKERING THE TARIFF

The Interests of New England Appear to Be Threatened—The President Still Keeps His Hands Off.

Washington, April 25.—Quite the talk of the day has been the visit of Secretary Nagle of the department of commerce and labor to President Taft with an axe and a basket in which he has requested Mr. Taft to deposit the head of S. N. D. North of Massachusetts, director of the census. The census bureau is in the department of which Mr. Nagle is chief, and it appears that Mr. North has undertaken to set at naught the authority over him of Mr. Nagle, and as Mr. Nagle is a man who tolerates no insubordination of those under him, he will have Mr. North's implicit obedience or his head. Furthermore, inasmuch as Mr. Taft has said that he will permit the heads of his cabinet to have unquestioned authority in their respective departments, and that they can have such assistants as they choose, it would appear that Mr. Nagle will have his way. It has been known for some time that Mr. North has sought to make his census bureau rather an independent branch of the government, even to the great vexation in his time of Secretary Straus, but apparently when he sought to impress his independence on Mr. Nagle, coupled with strong faith in his influence with senators and congressmen, he misjudged his man and has strayed into some very hot water. There are also charges of moral conditions in the census bureau repugnant to hundreds of employees in the bureau, but Mr. Nagle, it is understood, has not laid these before Mr. Taft as a basis for asking the resignation of North.

On the eve of taking the census it would appear that the making of a change in the director is rather not to be thought of. But it is understood that Mr. Nagle has already in mind somebody who would make a very proper director. Mr. North Saturday night said that he would not resign, and that in a day or two he would make a statement that will be interesting. He appears to be looking up his friends, and among others he says Saturday was Senator Crane, who holds him in high regard.

As President Taft permits his secretaries to choose their assistants, Mr. Nagle's declaration, which is reported, that he is satisfied with the service of Herbert Knox Smith, commissioner of corporations, and that he intends to retain him is pleasing news.

The Senate committee on finance was in session pretty much all day. It is ascertained that quite a combination is forming in the Senate of forces that will higher duties on oil, hides, lumber, coal and wood pulp. Iron ore seems not to be part of it, but this industry is apparently well satisfied with the rate that has been taken of it. The combination looks invincible and its results, if realized, should make New England look sick. It cannot be imagined that Mr. Lodge is very happy over the status of affairs. As a member of the finance committee it would appear he is going to be far less successful in obtaining for New England what the section desired than Mr. McGill was a member of the ways and means committee. Free hides has been the corner stone of the tariff revision sentiment in Massachusetts, but the Senate appears to be in the control of those who insist on a duty on hides. To be sure, Mr. Lodge has succeeded in procuring recognition on a number of things for New England, but the main thing the section has been contending for in the way of raw materials appear to be a vanishing expectation. Mr. Payne, chairman of the ways and means committee, is understood to be very much disturbed over the tariff conditions in the Senate. It is also said that he has practically determined to assist in Representative Hill of Connecticut being appointed a member of the conference committee. He will need fighting assistance.

Meanwhile President Taft appears to continue faithful in his resolve to take no part in the tariff legislation in Congress and so the high protectionists are running riot and it is believed that even the heated remonstrances and exposures of such men as Senators Nelson and Dooliver will result in nothing substantial toward lower duties. Those who favor tariff revision of true merit desire that Mr. Taft would find it easier to have a finger in the pie now than to write a veto later which would keep the tariff question open and play havoc with the election prospects of his party.

TINKERING THE TARIFF

The Interests of New England Appear to Be Threatened—The President Still Keeps His Hands Off.

Washington, April 25.—The West and the country at large need have no fear as to President Taft's attitude toward the conservation movement, said Joseph N. Teal of Portland, Ore., who represents the Northwest on the joint committee on conservation. Mr. Teal, who is chairman of the Oregon conservation commission, came to Washington to see the president with regard to rumors in the West that the present administration is not in accord with the policy of conservation. "Vigorous support of conservation is so vital to the West," said Mr. Teal, "that I regarded the word of the president himself as necessary to allay those rumors. After talking with the president I make the statement without reserve that the West and the country generally need have no concern as to President Taft's attitude toward conservation. For some reason an attempt has been made to create an impression to the contrary, but it is absolutely without foundation. The president not only recognizes the vital importance of the movement and is in sympathy with its purposes but he will give it his active aid and hearty support. This can be depended on."

SHRUBB DEFEATS ST. YVES.

Easy Work for the Englishman—Slow Time in Cold Wind.

New York, April 25.—Alfred Shrubbs of Horsham, Eng., once more proved himself the greatest middle distance runner in the business by defeating Henri St. Yves of France at the American league grounds Saturday night. At no time was the result of the race in doubt. Shrubbs at the outset assumed a pace that the Frenchman could not follow. He hit his pit-pat stride. When eight miles had been covered he had secured a lead of two laps, and this seemed to content him, for he ran the remainder of the race at St. Yves' side. During the last two miles of the race St. Yves made frantic efforts to catch his rival, but to no avail. Shrubbs' time for the race, one hour 26 minutes and 13 seconds, was over four minutes behind the professional record and nearly six minutes behind the amateur mark. The slow time was due to the fact that the Frenchman could not make him do his best during the last half of the race. The night was cold and windy, and this probably affected the runners as well as the attendance.

"DREYFUS" BRANDENBURG.

Magazine Writer Says He Has Been Made the Scapegoat of Politics. San Francisco, April 25.—Broughton Brandenburg, novelist and magazine writer, who was arrested at San Francisco Friday as a fugitive from justice from New York, on a charge of grand larceny in connection with the political article alleged to have been written by the late Grover Cleveland and sold to the New York Times, declares that he is the "Dreyfus of America," and has been made the "scapegoat of politics."

With the writer, when he was arrested at a San Francisco hotel, was his stepson, James S. Calhane, 3rd, of St. Louis. Brandenburg had registered as D. W. L. Leonard of London, and explained that this was a family name, under which he had been traveling for several months all over the United States. He claims that he has been working on a great industrial scheme, and that had he not been interfered with here he would have realized \$50,000 within the next year, and returned to New York to face his accusers. Brandenburg left Ogdun Wednesday. On the train he learned that two little boys with whom his stepson had struck up an acquaintance, were traveling alone to their mother in San Francisco, and undertook to see them safely delivered. To the mother of these children, Mrs. Hoss of 799 Elizabeth street, he will instruct his stepson until his affairs are straightened out.

Attorney Jacob S. Meyer was engaged yesterday by friends of Brandenburg to represent him. The attorney said he would resist extradition and would insist that all the evidence against Brandenburg, including a genuine signature of former President Cleveland, be produced in court. A legal contest is predicted in the meantime Brandenburg will remain in prison. Chief of Police Cook of San Francisco received a message yesterday from Dis-

warded and requesting the chief, in case the accused was admitted to bail, to ask that his bond be placed as a high figure.
