MONTPELIER

Judge Rowell Reserves Decision in Berlin Assault Case. Chief Judge John W. Rowell of the supreme court has ordered an entry in the Washington county assault and battery case of State vs. G. W. Cleveland of Berlin, in which the judgment of the lower court is reversed and the cause is remanded for a new trial. The responsibility was assigned to assisting Fred Winslow, road commissioner of Berlin. Twin daughters were born Saturday morning at Heaton hospital to Mr. and Mrs. Earl L. Billings. The ten-year-old son of Myron Sawyer was badly burned Saturday noon by using kerosene oil to hasten a furnace fire. P. J. Leahy returned Saturday from the Pittsford sanitarium where he has been since last August. He is very much improved in health and has gained 25 pounds in weight. Frank R. Pitkin, an employe in the home office of the National Life Insurance company, has gone to the home of his parents in Lorraine, N. Y., for the benefit of his health. So successful has been the power plant erected the past year by the officials of the Barre & Montpelier electric road that the company is already contemplating the erection of a second dam about a mile above the present one. The demand for power from this and other companies in this valley is much greater than the supply.

PREDICTIONS THAT DON'T PREDICT

The Farmer Gets, at Best, Only a General Guess at the Weather For His Locality. Suppose that my name is John Smith, and that I live at Sleepy Eye, Minnesota, and that I get a bulletin of the weather by act of Professor Moore. In the first place, this bulletin was not meant for me at all. It did not even come from my state. It came from Chicago, which is to say, in this case, from the North Central Forecasting station. Either I got this district forecast, or I got a national forecast made by wire from Washington. Every night there is a forecast made up at Washington which is sent all over the country. Every morning there are sent out district forecasts, which is to say, state forecasts made up at district stations. These bulletins, printed about eleven a. m., sometimes reach their destination the same day, but more often twenty-four hours after the date of the weather prediction. But there are only seven of these district forecast offices in all our many thousand miles of territory; Boston, Chicago, New Orleans, Louisville, Denver, San Francisco, and Portland Oregon. The Chicago office, from which I get my Sleepy Eye service, is obliged to cover fourteen states and also one or two special regions, such as the Upper Lakes. I do not get my local forecast at all. Such large cities as Milwaukee and Cleveland are allowed to publish local forecasts provided that the local observer for at least two years has "shown himself qualified" to make such forecasts. These forecasts for large cities are good for only twenty miles! Where does that leave me at Sleepy Eye? What I really get at Sleepy Eye is a remote and general prediction, handed out to my state from a district office; some hundreds of miles away; and my prediction is always lodged with the statement that the forecast does not claim to predict "local conditions." The obvious answer is that I ought to move my farm to Chicago, Cleveland, or some other large city.—Emerson Hough, in the May Everybody's.

The Daylight Store BLACK CATS

We have referred to Black Cat Hosiery. We have done in seasons past lots of talking about Black Cat Hosiery and we believe that the quality of Hose sold from such advertising has been of benefit to us and to those who have bought them. There is no class of good so good that they will please everyone, but we believe that Black Cat Hosiery will come very near to it. They surely have the real hard wear in them that is so hard to find.

Black Cat Hose

for children comes in both fine and heavy weight for dressy occasions, or real rough and tumble wear.

Ask for misses' very fine Black Cat Hose for dressy wear at 25c. Come in black or tan.

Ask to see a heavy Misses' Hose for school or real business wear. These come only in black at 25c.

Boys' Hose is where mothers are kept guessing and our experience with Black Cat Hose for boys has been that they stand the test of our roughest boys. One reason is that they have linen spliced insteep, linen spliced knees, heels and toes. This means something.

Black Cat Hose

Ladies that use Black Cat Hose can very readily see that they have more money to spend for other goods. They wear longer and have a better shaped foot. This Hose at the instep has a patent seam that gives a better fitting Hose.

Ladies that have used our No. 19 Black Cat Hose find wear and a style—Hose far different from any other Hose that we carry. This is the Hose that we buy by the case to get the inside price and sell them at 25c each. (35c values.)

701 Black Cat Hose is the line that we were showing those beautiful tans in last season when others did not have them. They may be a little the best this season at the price, 25c.

Special Hosiery Values

Here are special Hosiery values, such as our Black Seamless Ribbed-top Hose at 15c, 2 pairs for 25c. These look to be higher priced.

We are selling a good Tan Hose in both ladies' and children's at 2 pairs for 25c.

Ladies that are very, very hard on their Hose and get discouraged with them can get from us the original Holeproof Hose, warranted for six months' wear, or new Hose to take their place. These Hose have been very popular around large cities for the past three years. Those that buy one lot seem to be the ones that take the second lot.
