WOULD IMPEACH TWO U. S. JUDGES

Murphy of Missouri Will proceed Against McPherson and Phillips.

Washington, May 7.—At the conclusion of a lengthy statement in the House to-day regarding his resolution of inquiry into official conduct of Federal Judge McPherson and Phillips, of the western district of Missouri, Representative Murphy of that state, announced that he would present formal charges of impeachment.

Mr. Murphy brought the matter up as a question of personal privilege. The resolution involved the conduct of the judges in relation to the two-cent passenger fare litigation and the maximum freight law of Missouri.

Mr. Murphy had read some newspaper despatches to the effect that Frank Hagerman, attorney for eighteen railroads, had telegraphed the attorney general of the United States alleging that the charges in the Murphy resolution were "an outrageous (issue of) misrepresentation by one who has no knowledge of the facts." He said that he had confirmed the fact that such a telegraph had been received by Attorney-General Wickoreham.

Mr. Murphy called on Mr. Rucker, his colleague, to substantiate what he was saying. Mr. Rucker did so, and declared that Judge Phillips should have been impeached twenty years ago.

"I am asking the congress of the United States," Murphy went on to give back to us that government which you handed to us when you admitted us as a state in the union by requiring the federal judiciary in the Western District of Missouri to proceed along orderly and decent lines in the execution of the law."

Kansas City, Mo., May 7.—"I have nothing to say at this time, and will make no statement until Representative Murphy formally presents his charges of impeachment," said Judge Phillips, when shown the Washington dispatch. Judge McPherson also declined to make a statement.

COL. YOUNG CONSIDERING

May Yet Speak at Champlain Celebration

INVITATION IS RENEWED

With the Declaration That the "War Is Over"—At the Present Time the Kentuckian Is "Considering."

Louisville, Ky., May 7.—Kentucky and Vermont are swapping telegraph messages just about now over Colonel Bennett Henderson Young, Colonel Young, who is commander of the Kentucky division United Confederate Veterans, did as much as he could in 1864 to make Kentucky unpopular in Vermont by raising the city of St. Albans, and the memory of this ranking amid the Rutland G. A. R. has caused the present relations. The Rutland post objected some days ago because Colonel Young had been especially invited by Governor Prouty and the citizens' committee on the tercentenary of Lake Champlain to take part in the ceremonies in June. According to a Boston paper they called the colonel a "renegade." The colonel at once withdrew his acceptance of the invitation of Governor Prouty and the citizens' committee, but they renewed it, declaring that the war was over. At present the Kentuckian is "considering."

Plattsburgh, N. Y., May 6.—The Lake Champlain Tercentenary Commission met at Plattsburgh yesterday. In connection with their meeting the commission inspected the work of restoring the old fort. Plans for the tercentenary celebration during the week of July 4 were discussed in detail. Arrangements were made to have salutes to President Taft and Governor Hughes fired from Mount Independence on July 6, while a huge bonfire at the fort will be prepared as a part of the night display on that date.

Two long-distance marches by detachments of United States soldiers were among the plans discussed. One of them will be two squadrons of cavalry from Fort Ethan Allen, and the other one a five hundred mile route by field batteries from Fort Myer, Va.

Many Years Leading Quarryman, Died at Fitzwilliam, N. H.

Keene, N. H., May 6.—Daniel H. Reed, for many years a prominent citizen of Fitzwilliam and well known in the city, had for a long time been a leading quarryman in Fitzwilliam, died Tuesday noon at his home at the age of 76 years. Mr. Reed was a native of Fitzwilliam, the son of Charles and Betsey Osborn Reed, and his home had always been in that town, having been prominent in social and political affairs of that place. Until a few years ago he was the owner of all the principal granite quarries in that town, including those now owned by the Perry White Granite company of Keene and the Webb Granite company of Worcester. He was a manufacturer of monuments and other cut stone work and a large dealer in granite.

During the Civil war he served in Company F, Sixth New Hampshire volunteers, and Company E, Fourth artillery. He had for a long time been prominent as a member of the G. A. R., being identified with the state and town organizations. He was a very genial and hospitable man and had a large circle of friends.

Mr. Reed retired from business a few years ago and for the last two years his health had not been good. The immediate cause of his death was pneumonia, from which he had been suffering several days. He leaves a widow and one daughter, Mrs. W. M. Chaplin of Fitzwilliam.

PLOT TO SMUGGLE IN OPIUM.

Discovered by Customs Men in San Francisco.

San Francisco, May 7.—Details of a plot to evade the statute which forbids the importation of opium has come to the knowledge of the local surveyor. Under cover of the general impression that there would be no attempts made to smuggle the drug into this country as long as the present bountiful supply held out, a well organized and generously equipped ring, according to the customs officials, was formed with men in San Francisco and the Orient to conduct an illicit trade in the contraband. The first intimation of the conspiracy to evade the new law was conveyed to Surveyor of the Port Edward A. Woodward by the regular plum dealers in San Francisco, who feared that the dumping of a mass of contraband on the market would reduce their present enormous profits.

WOULD AMEND HEPBURN LAW.

Suggests Change to Carry Out Intent of Commodities Cases.

Washington, May 7.—Senator Bailey of Texas has introduced in the Senate an amendment to the Hepburn law intended to carry out the original intent of the commodities clause and make that apply to the ownership by railroads of stock in coal operations. He withdrew the amendment temporarily after presenting it to consult the official opinion of Justice White. It is generally expected here that President Taft will recommend that Congress strengthen the commodities clause. But much doubt is expressed whether Congress will take any such action at the regular session. Many members feel that it will be best to wait and see how the law works in the light of the recent supreme court decision.

The search of the Yildiz kiosk, which is still going on under the direction of Nuri Aga, one of the deposed sultan's confidential servants, who saved himself from the gallows by engaging to reveal the whereabouts of the hidden treasures in the palace, has led to the discovery of a number of bags, partly filled with valuables.
