TAFT HAS TARIFF LIST

Comparative Tables Made by MacVeagh

ON THE WHOLESALE PRICE

The Duties Are Calculated—Twenty-one Articles of Domestic Origin—None of These, or Similar Ones, Are Imported.

Washington, May 23.—Secretary of the Treasury MacVeagh made public yesterday the celebrated table of comparative customs duties of common household articles published in the Transcript of May 17. The comparisons on the forty-six articles enumerated are between the rates in the Dingley, the Payne and the Aldrich tariff bills. This list was compiled for the inspection of President Taft, and was understood to indicate his interest in tariff revision as affecting the ultimate consumer. In the list issued yesterday the duties are calculated on the import or wholesale price, instead of the retail price, as in the original list; but the retail prices are quoted in both lists. The conclusions reached are, of course, exactly the same in both cases, as the measure of increase or decrease was not, as the original dispatch stated, the amount of duty paid, but the rate upon which it was levied. The new table shows that of the forty-three articles enumerated twenty-one were of domestic origin, and that no articles of such character, of such value were imported. These articles, on which the American manufacturer thus is given absolutely to control the domestic market, are men's suits and overcoats, felt hats, men's shoes, iron cook stoves, heating stoves, beds with springs, cotton sheets, bureaus, dining tables, chairs, porcelain dinner sets, tin cups, iron knives and forks, tin pails, ham and bacon, wheat flour, go-carts. On only three of these articles, felt hats, men's shoes and cotton sheets, are the duties reduced. On iron knives and forks they are increased to forty-five cents from a compound duty ranging from thirty-three to thirty-six cents a dozen.

On Decoration Day Parade

On parade—that's where every man will be next Monday who gets his clothes in this store.

He may not be conscious of it—but he does attract attention of the kind that any gentleman may be pleased to get—the attention which "well-dressed" always secures.

It's worth a good deal to you to have such clothes at hand—the best of style and tailoring, snappy bright fabrics, correct fit.

We've got these clothes for you and will be pleased to show them. Come in tomorrow and take a look—then you'll know the kind of clothes you ought to have.

LAST HOPE IS BURIED.

Whitehall Not in the Same Class With Northern League Teams. Rutland, May 23.—The hopes of the local baseball fans have once more been raised off the ground only to be buried deeper than ever. It was announced in Tuesday's paper that Whitehall, N. Y., was forming a baseball team and from the report it was apparent they were ready to challenge the world. A number of local men interested in the game got together and telephoned to the New York state town to ascertain the prospects of getting them into a league with Burlington, Rutland and the Hyphens but they got a frost. The men backing the scheme over the line stated over the phone that this proposition was entirely out of their class.

It is the general opinion that this is the last hope and that there is now no possibility of a team in this city. It is now up to the Rutland team composed of local men to furnish the sport.

DARTMOUTH WINS ALL.

Takes the Final Doubles Match with Wesleyan. Boston, May 23.—The Dartmouth tennis team won the championship in doubles in the New England intercollegiate tennis tournament in the morning play yesterday by defeating Wesleyan in straight sets, 6-2, 6-1, 6-0. The Dartmouth pair also won their way to the finals of the singles Wednesday and yesterday afternoon met to settle the title in that event. The match yesterday forenoon was quickly decided, the Dartmouth pair playing an excellent team game, especially at the net.

REGULARS WIN IN SUGAR VOTE.

Amendment is Voted Down by Majority of 11.—Dental by Independent. Washington, May 23.—The Senate yesterday afternoon refused by a majority of eleven to strike out the words "not above sixteen Dutch standard," in the paragraph of the tariff bill relating to sugar duties. The amendment has been offered by Senator Bristow of Kansas. The vote was 47 to 26.

Two Democrats, voted against the amendment—Senators Foster and McEnery of Louisiana. Many others did not vote. The following Republicans voted for it: Beveridge, Bristow, Brown, Chappell, Crawford, Cummins, Dooliver, Johnson of North Dakota, Jones, La Follette and Nelson. Two Senators heretofore credited to the progressive column—Cammie and Ely—voted against the amendment. Just before the vote was taken Senator Bacon made a protest against what he characterized as a manifest effort by the clerk to rush things. He halted the roll call.

HOUSE TO HAVE HOLIDAY.

Will Not Hold Regular Monday Session. Washington, May 23.—The House yesterday agreed that when it adjourned for the day it shall be until tomorrow and that adjournment tomorrow shall be until Tuesday night. Mr. Payne, the majority leader, explained that the idea was to avoid a session Memorial day.

"REVOLUTION" IN PORTO RICO.

Douglas so Calls the Action of Delegates. Washington, May 23.—Consideration of the Porto Rican bill was resumed in House of Representatives yesterday. Mr. Douglas of Ohio, the first speaker, arranged the House of Delegates of Porto Rico, for making it a condition precedent, as he charged, to its assent to appropriations that the executive council or upper body agree to certain legislation. "It amounts to revolution—nothing else," he exclaimed. "He declared in response to a question by Mr. Fitzgerald of New York, that while he was willing to admit that revolution may be justified in cases of oppression, there had been no oppression in Porto Rico calling for such a course. He defended the bill as well as the policy of the government toward the island possession. Criticism of the Foraker act was made by Mr. Garrett of Tennessee. That act, he said, was the same to the

Porto Ricans as was the Constitution to the United States, but, he maintained that affairs were more in the hands of the people of the island under Spanish rule than they were under the Foraker act.

MRS. HOWE'S BIRTHDAY.

Boston's First Lady is Ninety Years Old. Boston, Mass., May 23.—Mrs. Julia Ward Howe, noted champion of woman suffrage, and author of the "Battle Hymn of the Republic," yesterday celebrated her ninetieth birthday at her home, 241 Beacon street, and was the recipient of thousands of congratulatory messages from friends all over America. Although Mrs. Howe is actively at work on a new project that is to be set on music and still possesses a remarkable amount of the mental and physical vigor that has distinguished her in the past, she was persuaded by her relatives not to undergo the strain of a general reception at her house, and her callers were limited to members of the family.

WHEAT CROP WILL BE LARGE.

The Reserve Will Be Less by Five Per Cent. Chicago, May 23.—Incomplete reports on the wheat crop and reserve that were received Wednesday at the convention of the Millers' national federation indicate that the crop of 1906 will exceed that of 1905 by 18 per cent., and that the reserve will be less by 5 per cent. Secretary A. L. Goetzman made this statement after a secret session of the convention, in which the reports were discussed. "The assertion of Secretary of Agriculture Wilson regarding a plentiful reserve is not borne out in these reports," said Mr. Goetzman. "For the reserve will be 5 per cent. less than that of last year." "The statement of Jas. A. Patten that the crop is short also falls; for, according to our reports to-day and to-night, the crop promises to be 18 per cent. better than for 1905. Of course these reports will have to be extended and proportioned, and the full results will not be made known until to-morrow."

RIVERS RISING RAPIDLY.

Serious Flood Conditions in The South. Memphis, Tenn., May 23.—Reports from surrounding country bring advice of devastation by recent rain and wind storms. Mississippi and Arkansas seem to have suffered most. The Arkansas river is out of bank, and flood warnings have been sent out that other rivers will rise above the danger point. In both states the crops are said to have been almost destroyed, while numbers of towns are under water, and families have been driven to the roofs of their homes, and the only means of transit is by boat. In several places trains are tied up, while the telephone and telegraph wires are down in many localities. Yesterday a tornado passed over the northern portion of Mississippi, wrecking many houses. As yet no deaths have been reported.

CARUSO IN HOSPITAL.

Will Have an Operation on His Throat. New York, May 23.—A cable dispatch dated Milan, May 23, is printed by the Times this morning, as follows: "Enrico Caruso entered yesterday the private hospital of the throat specialist, Prof. Della Vedova, in Milan, where he will undergo a surgical operation. There are hopes of restoring the voice of the illustrious tenor, who was similarly operated upon some years ago. English specialists, whom he recently consulted expect good results to follow the treatment, and that he will be able to fulfill his American contract next winter. Many in the musical world here, however, think the great singer will require a prolonged rest. Emma Eames in South of France. Paris, May 23.—Madame Emma Eames, the opera singer, arrived here yesterday and left immediately for the south of France.

TELLS OF BRIBERY MONEY.

One of Prosecution's Special Agents Testifies in the Calhoun Trial. San Francisco, May 23.—Stories of alleged bribery money concealed in soap dishes comprised an interesting part of the testimony at Wednesday's session of the trial of President Patrick Calhoun of the United Railroads, charged with bribery. John G. Lawlor, an assistant employed by W. J. Burns, head of the prosecution's bureau of special agents, was the principal witness. He charged that Luther O. Brown, who had already testified to his own activities in behalf of the president of the United Railroads, had employed him to supply information procured in Burns' office and had paid him \$250 for his services. Lawlor related to the jury his version of a series of meetings with Brown and charged that the corporation agent had several times invited him to enter Brown's bathroom in the St. Francis hotel, where Lawlor found various sums of money deposited in a soap dish. Lawlor admitted he had taken all the money offered in this manner. Assistant District Attorney Henny placed in evidence four envelopes containing gold coins which the witness said he had marked in the presence of the district attorney and an assistant. Attorney Moore of the defense obliged Lawlor to explain all his motives for entering the employment of Luther Brown in the interests of the prosecution and repeatedly questioned the sincerity of the witness.

Dr. Pierce's Common Sense Health Talks

No man is stronger than his stomach. Make your stomach strong and you thereby fortify your system against the attacks of a long list of diseases which originate in the stomach and must be reached, if at all through the stomach. Thus torpid, or lazy liver, biliousness, dyspepsia, impure blood and various skin affections originate in weak stomach and consequent poor nutrition. The same is true of certain bronchial, throat and lung affections.

Dr. Pierce's Golden Medical Discovery Strengthens the stomach, invigorates the liver, purifies the blood making it rich, red and vitalizing and thereby curing the above and kindred affections.

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Golden Medical Discovery." The dishonest dealer sometimes insists that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only a difference of profit. Therefore, insist on having Dr. Pierce's Golden Medical Discovery. If not promptly supplied trade elsewhere.
