

WOMEN'S SUITS

Any proposition that has for its object the saving or making of money appeals to the average person.

If it's a question of Women's Suits here is a proposition that will interest you.

Practically every early Spring style we have left has been marked at a special price to move them quickly.

The sizes are badly broken and besides we are now showing advanced styles for early Fall.

Our idea in bringing out these early Fall styles is—a woman in buying an early style for the next season has the wear during the remainder of the present season and during all of the coming season. The average woman cannot wear out a Suit while it's in style.

Don't Miss Seeing the Suits at Special Prices, Anyway.
