Also 3000 cords of chunk wood by the run \$2.50, the same as above. By cord, load delivered at stone shed... \$1.00 per cord, also black and hem wood at \$2.75 per cord and \$2.75 for hem. Soft oak wood \$1.75. Inquire of Michael David, 25 Granite street, telephone 222-11.

NORTHFIELD

Barn Burned, Supposed to Be Work of Incendiaries.

The barn adjoining the residence of W. T. Kerr on Main street was damaged to the amount of \$300 by fire about 3 o'clock yesterday afternoon and only a prompt response by the volunteer fire department and a perfect working water system saved the dwelling house and the one immediately south. It is reported that the fire was set by two men seen coming from the barn only a few moments before. Clifton Dutton, a boy about 14 years old, called at the house occupied by Mrs. J. W. Getty on an errand and saw the men leaving the barn. He told Mrs. Getty of the fact and she went out and found the barn ablaze in the hayloft. The Dutton boy stated that the men appeared to be intoxicated and it is supposed they went into the barn and up stairs to lie down while smoking. Chief of Police Plunkett and Officer Donahue were put on the track of the men and will probably locate them later on. Had the fire occurred in the night Mr. Kerr's house, together with F. S. Dyk's residence would have burned.

Claude A. Boys of Boston was a visitor in town recently.

Rev. Geo. F. Fortier has returned for a business trip to Boston.

Chas. Brooks and wife of Boston are in town for a short vacation.

Harry Dole of Jersey City is spending a few weeks with relatives in town.

Chas. A. Plumley and wife leave today on their vacation in Nova Scotia.

Miss Grace Houston is visiting her sister, Mrs. James Higgins, in Barre.

Mrs. E. A. Shaw and children are spending a few weeks visiting friends and relatives in Newbury.

Prof. Maynard Howe and wife of Terra Haute, Ind., are the guests of his sister, Mrs. C. W. Claggett, for a week.

The annual Sunday school picnic of St. Mary's parish will take place on next Thursday on the fair grounds.

Miss Belle Houston and Mrs. Fred Greene leave tomorrow for Burlington for a week's stay at Crescent beach.

Harry Jenkins, who has been the guest of Mr. and Mrs. Harry Kendall for the last week, has returned to his home in Boston today.

Miss Florence Kendall, who has been assisting in Boyles and Smith's store for the past two months went to her home in Graniteville yesterday.

The members of the Merchants' association who have in charge the billing of the streets in the village, began operations yesterday morning.

Last night's performance, "A Poison Mystery," by the Pauline Hammond Co. gave very good satisfaction. To-night they will present the play, "The Devil."

Levi Cross, who has been occupying Prof. G. S. Wright's house on Central street during the summer months, has rented the only vacant house in Jonesville, this village.

Mrs. Chas. M. Houston and daughter Helen left yesterday for Rochester, where they will make their home. Mr. Houston is employed as an engineer on the Rochester railroad.

J. T. Lance is singing at the Pearl theatre since Miss Eva Richardson finished her duties as soloist. Miss Richardson was a fine singer and well liked. Mr. Lance is very well known locally, being a fine baritone.

Amos F. Lanier and Roy A. Chase, the inventors of an improved sawing machine for granite, left yesterday on the noon train for Worcester, Mass., to close a contract with Geo. F. Webb for one of the machines. Mr. Webb was here on Saturday and inspected their machine, which is located in the shops of Phillips and Stack.

Dr. J. H. Judkins has returned from Brattleboro, where he consummated a deal, taking a partner in the Northfield pharmacy. The new member is Neil C. Hay of Brattleboro, who has had 30 years' experience in the drug business, being a registered druggist in both Vermont and Massachusetts. He will have the full management of the business, although Dr. Judkins to give his entire attention to his professional work. Dr. Judkins bought this store from the late Dr. Edwin Porter in 1894. About five years ago he remodelled the block, making it one of the finest drug stores in this part of the state.

EAST BARRE

A regular meeting of Winona council, D. of P., will be held Wednesday evening.

Mrs. Robert Gray returned last week from her visit with friends in Manchester, N. H.

Miss Lola Nye has resumed her work in McAllister Bros.' store, after having a short vacation.

The Fresh-air mission day of our W. C. T. U. was observed in connection with the Barre union by a picnic in the grove at F. C. Little in Williamstown. Although many were hindered from attending for various reasons, those who were able to enjoy a very pleasant and we trust a profitable time.

The funeral services of the little 16-months-old daughter of Mr. and Mrs. J. O. Blodan were held last Saturday. The following is a list of the floral tributes sent by friends of the family: LaRoche family, wreath of roses and lilies; Dr. and Mrs. Avery, white carnations and ferns; Mrs. Brown, pillow and cross; Mr. and Mrs. Sullivan, white carnations; Mrs. F. B. Dieke, wreath; Mr. and Mrs. Will Nye, pillow; Miss Mary Blison; pillow; Mrs. Lermond, star; Miss Harvey, wreath; Mr. and Mrs. E. A. Lermond, pillow; Mrs. Gravel, sword; family, pines; Elizabeth Liberson, crown; Emily Watson, crown; Mrs. M. J. Whitcomb, basket; and bouquets from Mr. and Mrs. J. R. Osborne, Mr. and Mrs. Fred Gauthier, Marguerite Tucker, Edith Robie, Esther Liberson, Mrs. Doyle, Mrs. Piestid and Paul Piestid, Beatrice Watson, Zelena and Carolina Magoon, Mrs. E. Blodan and children, McAllister Bros., Mrs. Blanchard, Mr. and Mrs. Gray, Flossie Cutler.

PE-RU-NA TABLETS.

The Peruna Tablets will be found effective and convenient for people much exposed to cold and subject to catarrh. Lasting men are exposed to the elements; traveling men, exposed to a constant change of food and sleeping apartments, will find the Peruna Tablets of great value in preventing cold, catarrh and derangements of the stomach.

THE ONLY WAY

Many Barre Citizens Have Discovered It.

Just what to do when the kidneys are affected, is a question that concerns both young and old. Weak kidneys neglected in childhood lead to life-long suffering. People of advanced years, with less vitality, suffer doubly. In youth or age, languor, backache, urinary irregularity, dizziness and nervousness make life a burden.

There is one remedy that acts directly on the kidneys and cures these troubles. Doan's Kidney Pills owe their world-wide fame to the fact that they cure sick kidneys and cure them permanently. Follow the example of this Barre citizen and you will be convinced that this

Mrs. Eliza Mitchell, 42 Maple avenue, Barre, Vt., says: "I was subject to attacks of kidney complaint for some time. The passages of the kidney secretions were too frequent and I also had terrible pains in my back and hips. I had dizzy spells and any cold I caught was sure to make the trouble worse. My son had used Doan's Kidney Pills and been so greatly benefited by them that I decided to give them a trial. I got a box at E. A. Brown's drug store and had taken but a few doses when I experienced relief. The pains in my back gradually diminished, the kidney secretions became more regular and my general health was improved. I consider it a pleasure as well as a duty to make the value of this remedy known to other kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

MONTPELIER

Excursion to Missisquoi Park. See adv. on page 4.

Thirteen car loads of cement have been used in the city hall construction.

Clair Ward, son of H. C. Ward of Moretown, is progressing rapidly at Heaton hospital. Mr. Ward suffered a severe fracture of one leg recently.

The Firemen's club has purchased a six-foot sign to be erected over the club rooms in the Laird block on Main street. The firemen now have their club rooms fitted up in most comfortable style.

Game Warden H. O. Kent received a telephone message Wednesday from Warden Herry of East Montpelier, telling that he had discovered a deer which had broken one leg and asked what he should do about the matter. Mr. Kent advised him to kill the deer and report to State Fish and Game Commissioner H. G. Thomas.

The condition of the city water supply is better than before the rain last week. Although it did not appear to have raised in the rivers any, Berlin pond is higher than it was previous to the rain. The water is much higher than it was one year ago and under the recent conditions there appears to be enough to supply the need for over two months yet, without starting the pump, even if little rain fell.

Prof. E. A. Hamilton, formerly a member of the faculty of Montpelier seminary, and Mrs. Hamilton were in the city Wednesday afternoon. Prof. Hamilton is now superintendent of the town school districts of Bakersfield and Fairfield, and with Mrs. Hamilton has been taking an extensive carriage drive through the state and attended the teachers' conference at Willoughby lakes.

While in Barre yesterday afternoon, they met Mr. and Mrs. Charles Clark and daughter of Massachusetts, who have been spending several days in Marshfield and who left last night for Los Angeles, Cal., to make their home. Mrs. Clark is Prof. Hamilton's aunt.

Two matches of singles were played in the Y. M. C. A. tennis trial, yesterday afternoon on the State street court, both contests resulting in victories for the high point men. The first match was between Hoadley and Theriault. Theriault played a good game in his second set, but it took him some time to get on to his feet as he has not been on a court before this season. A third set was unnecessary. The match between Bates and Hoadley started out in good shape and the first set was very close for a number of games. Bates has a strong nerve which he knows how to make use of. Hoadley added the next series to his string without any apparent difficulty. The score: Hoadley beat Theriault, 6-0, 6-3; Hoadley beat Bates, 6-3, 6-0.

The city hall building committee met in the office of George O. Stratton last night for the purpose of going over the plans and the work completed and to see to the awarding of the various inside contracts. Plans for the ventilation and heating were discussed and the bids of the different contractors were looked into. It was decided to let the heating and ventilating contract to James P. Dwyer of Boston. Mr. Dwyer, it is understood, was not the lowest bidder, but in view of the superior work which he proposes to do and in consideration of some of his ventilating already completed in public buildings in a satisfactory manner, the committee decided that it would be for the best interest of the city to award this important contract to him. Specifications and bids for the plumbing were also sent out, as this is not included in the above contract.

The arrangements are practically completed for a dissolution of the partnership known as the Little Granite company of this city. This company was formed January 1, 1909, for a year's partnership although business has been done under the present name for several years. The firm also conducted the business of the Deming Hardware company, selling granite supplies, belting, etc., and also operated two sheds, the Little Granite shed and the one formerly run by Brault and Sargent. The members of the partnership were D. K. Little, C. H. Deming, Charles Kennedy and J. D. Sargent. D. K. Little will continue the granite business in the Little shed, C. H. Deming and Charles Kennedy will take over the granite supply business of the Deming Hardware company and also the Brault and Sargent shed, leaving it to Mr. Sargent until January first, as the stone for the City hall is being cut there. After January first the shed will be for sale. If it is not sold the firm may put in men to do cutting there, but ultimately they will go into the building granite business. Mr. Sargent, it is understood, has intended for some time to go into the cutting of building stone.

HINTS FOR FARMERS

Conquering the Weeds.

A valuable means of keeping under control if not completely exterminating any form of noxious growth in the following of a rational system of rotating crops. It will have been observed that the different farm crops appear to have a sort of affinity for certain kinds of weeds. For instance, spring grains are congenial to mustard, wild oats and foxtail; fall wheat and rye to cockle, pigeon-weed and chess, while meadows and pastures encourage the growth of curled dock, oxeye daisy and plantain.

These facts suggest a rearrangement of crops, such as sowing spring grains on lands infested with weeds common to fall grains, and vice versa. In the former case the cultivation required in connection with the seeding operations will destroy any weeds that may have started to grow the previous fall. In the latter instance the crops will be harvested and incidentally any foil growth kept from maturing. On pastures and meadows where the growth of grass is fairly dense annuals are pretty likely to be smothered out. The trouble will be from biennials and perennials. If a short rotation of, say, three or four years is practiced, which includes a hood crop following soil, these may be held in check so as to give very little trouble.—Farm and Fireside.

The Poultry Yard.

Lack of business brings on liver complaint in hens, just as it does in men.

Poultry brings returns as quickly as any investment that can be made.

It is not enough to clean out under the roosts and think you have done a good job. Take out everything movable and don't bring anything back till you have made it as clean as you possibly can.

Laying hens should not be too fat. Think of this when making up your rations.

Crop corn from your ration while the weather is hot.

Skip feeding at noon while the hens are out on good range in summer.

Feed sparingly of buckwheat in warm weather. It is a heavy, fattening feed.

Sloppy washes are not half as good as those which are a bit crumbly. Don't get them too wet.—Farm Journal.

Soil Problems.

In experiments with soils and fertilizers by the Wisconsin experiment station it has been found that on heavily manured lands there is excessive leaching of fertilizing materials, particularly phosphates, which were formerly supposed to have been retained in the soil in a form available for future crops. Examination of the drainage waters shows that if large amounts of these materials are added there are heavy leachings which cannot be regained. At some thirty-five points in the state co-operative experiments on soil problems are being made on the use of phosphates on clay lands supplemented by manure and other fertilizers. Most of this work is being done entirely by the farmers upon plans furnished by the experiment station.—Breeder's Gazette.

Care of Chickens.

Above all, the most important thing in poultry raising is to keep the chicks free from lice. But it is just as important to give plenty of fresh air. Of course chickens cannot grow without feed. This should be supplied in abundance, with plenty of pure water. If always supplied with plenty of each there is little danger of their gorging themselves, provided they are on free range. But there is no reason why they should run the entire farm. Exercise makes the flesh hard and consequently makes it soft, and a happy medium should be struck between these two extremes. Give a variety of feed, including milk and other animal products.—American Agriculturist.

The Self Running Farm.

Just as sure as one suttles back and lets things on the farm run themselves they will do it, and the peculiar thing about it is that they always run one way, downhill, and they run faster than a horse can trot too. The day for that kind of farming has gone by. It is clear out of sight, in fact. It had to go, because there are so many bright, up to date farmers who are pressing

PERFECT SKIN COMFORT

for Baby and others follows the use of Comfort Powder. Chafing, itching, rashes, skin irritations and soreness all disappear like magic under its influence.

Comfort Powder

is easy to put out electric light and it is easy to turn it on again.

What is the result? It is easy to practice economy and keep the bills down. You let the gas burn to save the trouble of relighting and it costs money. You put out the electric light when you leave the room.

Moreover, it is cool, clean, steady, cheerful and convenient, and with our service you turn the button and the light burns ALWAYS, day or night, winter or summer.

things sharply every day that there is no chance whatever for the man who is satisfied to go along in an easy, slipshod way. Up and at it must be the watchword of every farmer who expects to win at the present time.—Farm Journal.

Good Advice.

"Young man," said the boss, "come hither and listen." He approached. "When you've made a mistake forget it and go on to the next job. Don't potter around all day adding a lot of finishing touches."—Louisville Courier-Journal.

Thrifty.

A Scotsman and his wife were traveling from Leith to London by boat. When off the Yorkshire coast a great storm arose, and the vessel had several narrow escapes from foundering. "Oh, Sandy," moaned his wife, "I'm afeard o' death, but I dinna care to dee at sea."

"Dinna think o' death yet," answered Sandy; "but when ye do, ye'd better be drowned at sea than anywhere else."

"An' why, Sandy?" asked his wife. "Why?" exclaimed Sandy. "Because ye wou'dna cost me nuckle to bury."

A Drawback.

"Your ocean trip was pretty nice, it's pose?" "Oh, yes."

"Saw icebergs and such things, eh?" "Yes, but I missed the billboards, I can tell you."—Washington Herald.
