FIXING RATE AND TRUST LAWS.

Attorney General Wickham, Secretary of Commerce and Labor Nagel, and Lloyd W. Bowers, solicitor general, the three remaining members of the committee, held a closed session yesterday. It is believed they will have completed their work here by this evening. Whether additional sessions will be held next week cannot be ascertained, but it is understood the committee will endeavor to have its report formulated and in the hands of President Taft at Beverly, Mass., before he leaves on his western tour. No indication of the general scope or character of the recommendations of the committee can be learned here, as it is said that all news of that character must emanate from Beverly.

GREAT HEROISM.

Of a Young Spaniard Who Died in Defending Garrison. Lisbon, Sept. 3.—A story of heroism that has set Spain wild with enthusiasm has been received here. General Arizona commanding the Spanish garrison of the island of Albufera, near Malilla, was informed that the Moors intended to surprise the blockhouse on the other end of the island and sent eighty men, commanded by a subaltern of eighteen years. They held off the Moors all night, the boy leader finally leading a charge and dying at the head of his troops. Spanish reinforcements found the boy and fifty men dead, but the Moors were driven off and the block house saved.

Premeditated Murder

You Will Benefit Yourself and All Humanity by Killing Dandruff Germs. Microbes cause baldness, falling hair, dandruff, irritated scalp and other diseases. It is no crime to kill them. Get rid of all hair or scalp troubles by using Parisian Sage, the remedy that never fails to kill the germs. For sale by leading druggists for 20 cents a large bottle and in Barre by The Red Cross Pharmacy, which guarantees it to stop itching scalp, falling hair, splitting hair and dandruff or money back. Parisian Sage is the favorite with discriminating women for it will make the hair grow luxuriant and beautiful. It is not sticky or greasy but it is a most delightful hair dressing. I am a good and true friend of Parisian Sage. It appeared to my scalp trouble at once while I was using the first bottle. I also suffered with an itchingness of the scalp, which caused large sores to form. The use of Parisian Sage took away all the trouble, cooled and removed the sores, made my head feel cool, and caused the hair to grow in nicely." J. W. Moody, 1906 Bainbridge street, Manchester, Va., April 2, 1909.

Toledo, Ohio, Sept. 3.—Joseph Bior, 80 years old, killed Wednesday night by being struck by a train, was a veteran of the Crimean war, and fought in the battle of Balaklava—being a witness of the "charge of the light brigade." MINERAL LAND FRAUDS. Easterners Are Swindled Out of Over \$400,000. Anty Drudge Tells Why Washboilers Are So Cheap.

Mrs. Bargain Hunter—"Oh, Anty! I see by Bargain Brothers ad. in the papers they're selling dollar washboilers for fifty cents." Anty Drudge—"No wonder. Since I've told the women of this town how much better they can wash clothes with Fels-Naptha in cool or lukewarm water, summer and winter, without boiling, they have no use for washboilers. The stores can't sell 'em to women who have learned the new way of washing, and that's why they're so cheap."

Fels-Naptha takes the dirt out of clothes instead of leaving it to elbow work on a washboard.

Little rubbing is necessary and no boiling or scalding.

Lukewarm or cool water—never hot. Boiling weakens clothes and hard rubbing wears them out.

Clothes washed the Fels-Naptha way last longer and are whiter, sweeter and cleaner.

Follow the simple directions on the red and green wrapper.

Don't Come Here

for cheap machinery, or cheap gasoline engines for I don't have them, never have had them and don't intend to have them—unless some Ananias sticks me, and he can't do it but once.

Don't expect to buy first-class goods for "catalogue house" prices, for nobody can sell first-class goods at cheap goods prices.

Now this may be poor advertising, but I propose to stand or fall on this issue. I will only handle first-class machines, and, like gold dollars, they are worth the price.

With this idea firmly established, I solicit your business, and will stand back of everything you buy.

If it isn't right don't pay for it.

TOO HIGH!

Some people have the idea that the cost of Electric Light is too high—that it is expensive.

Look at it this way—If it is safer, cooler, cleaner and more cheerful and convenient than any other illuminant, isn't it worth more to you?

We can easily show you that our rates are fair as compared with other cities and lower than in many. And our service is constant and sure. The lights always burn.
