

GRAHAM RE-PLACES LLOYD

House Republicans Accept Gentleman From Illinois

APPROPRIATION RUNS OUT

Immigration Commission without Funds, Fight over Salaries of Judges in New Court of Customs Appeals.

Washington, Jan. 25.—Accepting the action of the Democratic caucus, the House yesterday elected Representative Graham of Illinois as a member of the Haffner-Pinchot investigating committee, in place of Representative Lloyd of Missouri.

The choice of Mr. Graham was ratified by the House without debate and by a viva voce vote.

President Taft sent yesterday to the Senate the reappointment of Brigadier General James Allen of the army to be chief signal officer.

Lieutenant Colonel Hiram M. Chittenden, corps of engineers, was named as a brigadier general.

The \$125,000 appropriation for the immigration commission was stricken out in the urgent deficiency bill in the House yesterday in a point of order by Representative Macon of Arkansas, leaving the commission without an appropriation.

During the consideration of this bill, a bitter fight was made against an appropriation of \$125,000 to continue the immigration commission until December, 1919, and as the result of the efforts of Representative Macon of Arkansas, Butler of Pennsylvania, Goldfogle of New York and Sebath of Illinois, the provision was eliminated.

There was something of a fight also over the paragraph appropriating for the salaries of the judges and officials of the new court of customs appeals. The law fixed the salary of the judges at \$10,000 a year, but did not appropriate the money. Chairman Tamm of the appropriation committee, claiming that this rate of payment would disarrange the whole salary system of the United States judiciary, fixed the amount as \$7,000 in the bills, which was then adopted for the balance of this fiscal year, the whole matter to be threshed out when the permanent appropriation for these judges comes up in the sundry civil bill. Half an hour before adjournment, the agricultural appropriation bill was taken up for consideration.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, back-ache or sediment in the urine, head-ache, back-ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a clogging of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you use you will be disappointed.

ELIOT'S LABOR PLAN.

One He Has for the Settling of All Disputes.

Boston, Jan. 25.—Dr. Charles W. Eliot, former president of Harvard university, with George B. Hugo and George H. Ellis, is sponsor for a new labor bill, which is intended to do away with strikes and lockouts by forcing employers and employees to refer their mutual troubles to a board of investigation before they shall cause a discontinuance of work. The legislature has been petitioned for the proposed act, and those interested in Dr. Eliot's labor hobby, which has been growing steadily since his retirement, are curious to see how his relief bill will be received by the labor world.

The bill provides for the appointment of a commissioner of labor, to whom either employers or employees may apply for a board of inquiry when a dispute arises between them, and, on every such occasion, until the difference has been finally dealt with by the board, neither employers nor employees affected shall alter the condition of employment, or the wages or hours, or on account of the dispute do or be concerned in doing directly or indirectly, anything in the nature of a lockout of strike or a suspension or discontinuance of employment or work, but the relationship of employer and employees shall continue uninterrupted by the dispute or anything arising out of it.

The act requires that the board of investigation consist of three members, one chosen by the employer, one by the employees of their duly authorized agent and the third shall be designated by the other two, unless they are not able to agree; in which case the third party shall be picked by the commissioner.

The duty of the board is set forth to bring about a settlement when possible, after carefully inquiring into all facts in dispute; and it may dismiss any matter referred to it which it thinks is trivial. Either party may be represented before the board by three or less persons, but no lawyer shall appear except with the mutual consent of the disputing parties, and then the board has power to hear him out. Witnesses may be summoned and paid as in a trial at law, and the board can pass on the evidence submitted.

In case no settlement is arrived at the board must file with the commissioner of labor, within ten days, a full statement of the proceeding, containing the cause of the dispute and the recommendation of the board.

In the way of penalties the bill provides that "any employer declaring or causing a lockout contrary to the provisions of this act shall be liable to a fine of not more than \$100 a day for each employee so locked out, but not less than \$100 for each day or part of a day that such lockout exists. Any employer who goes on strike contrary to the provisions of this act shall be liable to a fine of not more than \$50 for each day or each part of a day that such employee is on strike. Any employer or employee violating any other provision of this act shall be liable to a fine of not more than \$1,000. Any employer or employee using any provision of this act for the purpose of unjustly maintaining a given condition of affairs through delay shall be liable to a fine of not more than \$1,000.

HEIKE CLAIMS IMMUNITY.

Says He Testified Before Grand Jury Concerning Sugar Frauds.

New York, Jan. 25.—Charles R. Heike, secretary of the American Sugar Refining company, sought to avoid prosecution for alleged sugar underweighting frauds on the claim of having taken an "immunity bath." Heike was arraigned before Judge Lough in the United States circuit court with Ernest N. Gerlach, former superintendent of the American Sugar Refining company and the other sugar company officials and checkers indicted for conspiracy in connection with the frauds on the company's Williamsburg docks. Heike's counsel presented a plea in abatement on the ground that his client had appeared on several occasions before the grand jury, which was investigating the sugar frauds, and therefore was entitled to amnesty. The court took the plea under advisement.

Plea of not guilty were entered by all the other defendants, with the usual permission to change the plea or enter demurrer, the privilege to expire on Friday of this week.

For Catarrh

Medicine Free in Every Case Where It Falls to Relieve.

Neglect or pessimism, we believe, is the greatest enemy the public has to contend with when applied to the loss or recovery of health. Practically every case of consumption might have been cured, if hope had been maintained and proper treatment had been resorted to at the first symptom of the disease. Until the advanced stage is reached, consumption is curable. Catarrh is responsible, we believe, for many cases of consumption. It is about catarrh we want to talk to you, to-day, incidentally mentioning, since the two are so closely allied.

We have a medicine made from a prescription of one of the most successful catarrh specialists known. We believe it is positively without an equal. We are so satisfied that we are right that we will supply the medicine free in every instance where it is used according to directions for a reasonable length of time, should it fail to give satisfaction in every particular. We want everyone to try this medicine at our risk. There are no conditions attached to our offer. We put the user under no obligation to us whatever.

The medicine we want you to try is Resall Mucin-Tone. It is a catarrh remedy that goes direct to the seat of trouble. It is carried by the blood to every part of the system. It purifies and enriches the blood, tones up the mucous cells, and brings about a condition of health and strength that tends to prevent the germs of consumption from getting a start. Besides this, Resall Mucin-Tone is a wonderful appetizer, digestive aid and flesh builder. Its good effects are often felt from the very first dose. It is one of the largest and most satisfactory selling medicines that we have ever had anything to do with.

We know so much of the great good that it has done that we personally back it up with our reputation and money, which fact should be ample guarantee to satisfy anybody. Resall Mucin-Tone comes in two sizes, 50 cents and \$1.00. We urge you to try it. Remember, you can obtain Resall remedies in Barre only at our store—The Resall Store. Ret Cross Pharmacy, Burt H. Wells, proprietor.

SKIRMISH IN NICARAGUA

Rebels Engage Government Forces

FORMER NOT IN FORCE.

However, and Retire—Uruguayan Revolt Coming to an End—Little Strength Behind the Movement, It Is Said.

Managua, Jan. 25.—The advance guard of the revolutionary army, five hundred strong, engaged the government outposts yesterday at La Libertad, fourteen miles north of Acoyapa. The government forces, fifteen hundred strong, under command of General Narciso Arguello, opened fire with the artillery. The revolutionists replied at long range with rifle fire. They retired after forty-five minutes, on finding themselves badly outnumbered and lacking artillery.

There were no casualties on the government side. The arrests of Conservatives, alleged to be involved in a movement against the Madriz government, still continue. The wildest rumors are current. One reports the capture of the steamer Victoria by the revolutionists on Lake Nicaragua. Another has it that General Vasquez has gone over to the revolutionists, but this is declared by the government to be absurd. The authorities are said to have intercepted letters sent by runners via Costa Rica, in which there is evidence of the sending of \$6,000 to the revolutionists by Granada Conservatives.

Rear Admiral Kimball, commander of the American squadron, has issued a notice urging all Americans in Nicaragua to abstain from taking part in the political controversies or from violation of the laws of neutrality towards the factions in arms. He declares that he will not extend protection to any so-called American interest which has no existence in law or by right.

Great tension prevails throughout the republic because of the conscription orders. In most places, however, the majority of the recruits are allowed to proceed with their work in the day, but they must sleep at the barracks at night. The rising of the Conservative party has caused surprise in some quarters, as President Madriz was the first to promise, and accord as far as he was able, complete liberty. Many of the most prominent of the Conservatives have been imprisoned, but it is understood that they are being well treated.

PANAMA LIBEL CASE OPENS.

Suit by Government Against the World Begun in New York.

New York, Jan. 25.—Two continents have been scoured for evidence, and witnesses from far and near have been called by subpoena, to attend the trial of the government's libel suit against the World Publishing company, set for yesterday in the United States circuit court here. The defendant company, publisher of the World, is charged with libel in connection with stories printed during the last presidential campaign, regarding the government's Panama Canal purchase. Paris and Panama have been visited by commissions to investigate and secure evidence and the defense is credited with the intention to summons various well-known men to give testimony—among them William Nelson Cromwell, Senator Root, Charles P. Taft and Henry W. Taft. The government insists that the case be tried at once but the defense was expected to ask for a further postponement.

URUGUAY REVOLT ENDING.

Movement Dying Out, Says Dispatch to the London Times.

London, Jan. 25.—A dispatch from Buenos Ayres to The Times says that the revolutionary movement in Uruguay is dying out. The roaming bands of insurgents are having unsuccessful skirmishes with the government troops. Argentina is preventing any mobilization of the revolutionists in her territory.

BOKHARA RELIGIOUS WAR.

More Than 100 Killed in Russian Dependency.

St. Petersburg, Jan. 25.—More than 100 persons have been killed and many wounded as the result of religious conflicts, which have been raging for two days in old Bokhara between the Sunnites and the Shiites. The Sunnites demand the replacement of the Shah of Belah by Sunnites. At the request of the Bokhara authorities, Russian troops and machine guns have been sent to the scene of the fighting from Samarkand, capital of the province of the same name in Asiatic Russia, adjoining Bokhara.

WINNER IN FAST GAME

Spaulding High Defeated Vermont Academy, 34 to 18

GOOD WORK BY STEWART

The Game Was One of the Best of the Season, the Visitors Covering Well and Making Spaulding Work Hard.

The Spaulding high school basketball team added an important victory to its list last evening by defeating the Vermont academy team of Saxton's River by the score of 34 to 18. The game was the fastest and best played that has been witnessed here thus far this season and was not so one-sided as the score would indicate, as the teams were well matched in weight and the visitors covered their opponents persistently, making Spaulding work hard for every point.

Three periods were played and the first ended 12 to 6 in Spaulding's favor. In the second Spaulding just held its lead of 6 points by making six more points to their opponents' six. The last period was the fastest of the game, and, though the visitors stuck to it hard, were unable to stop Spaulding getting in six more baskets from the floor on good shooting, while their only scores were two fouls.

Stewart did exceptionally good work for the locals at basket throwing, getting six from the floor, all of which were pretty shots. Grigg also got five from the floor and tossed in six from fouls. Maiden, who is usually in the points for Spaulding, had for his opponent the bestest man on the V. A. team, who did nothing else but keep the little fellow smothered nearly throughout the game, though in the last period Maiden caught him off his guard and got a chance to toss in one basket.

Between the periods, the Spaulding second team played a game with the Barre Athletic club seconds, which the latter team won by a score of 21 to 17. Every point but two for Spaulding was made by Williams, who showed a good eye for the basket and made four from the floor and tossed in seven fouls.

The line-up:

Cost of Beauty

How New York Dames Keep Young.

Recently a young New York society woman received her monthly bill from a downtown beauty parlor. This particular bill amounted to fifty-two dollars for the month, which was, perhaps, a little lower than the average monthly accounts rendered by this shop. It contained such items as Turkish bath, \$2.00; violet water rub, \$7.50; facial massage, \$7.50. The attendants at these exclusive beauty parlors frequently make as much as ten dollars a day in tips. Occasionally some "grande-dame" in social extracts a perfumed ten-dollar piece from her gold bag and tosses it to Nancy with an air of lofty grace. One of these attendants confided to a friend in an unguarded moment that among the many lotions and beauty restorers used in such establishments, a preparation for restoring gray hair was most in demand. It is usually charged on the bill at five dollars a bottle under a fancy name, but in reality is the same formula as HAY'S HAIR HEALTH, which retails at all drug-gists for 50 cents and a dollar per bottle, and is manufactured by PHILIP HAY SPECIALTIES CO., Newark, N. J., U. S. A. HAY'S HAIR HEALTH has many imitators, but those who have used different preparations agree that HAY'S HAIR HEALTH is the most effective and safest.
