A Good Way to Use Hyomei

Besides breathing through the Inhaler a few times a day, many cataract sufferers write that they find Inhaler Hyomei from a bowl of steaming water most night before retiring a great aid in curing stubborn cataracts. Try it! It's very simple; gives quick relief and makes you breathe easier. Fill a bowl half full of boiling water; pour into the water a half teaspoonful of Hyomei, cover head and bowl with a towel and breathe through nose and mouth the medicated, antiseptic and healing vapor that arises. This method relieves that stiffness at once, and makes your head feel clear. You can get a bottle of Hyomei at drug stores everywhere, or at the Red Cross Pharmacy, for only 50c. Ask for extra bottle Hyomei Inhaler. But bear in mind if you want a Hyomei Inhaler you must buy a complete outfit, which only costs \$1.00. But, as stated before, if you already own an Inhaler, a bottle of Hyomei costs but 50c. Hyomei is guaranteed by druggists everywhere and by the Red Cross Pharmacy to cure cataract, sore throat, coughs, colds, nose fever, asthma and croup, or money back. Try it on that generous basis.

He landed head first, on the hard soil and was unconscious when other workmen reached him. AMUSEMENT NOTES. Tom Ramsey of "Japanese Homeymoon" Company Tells a Story. Tom Ramsey, the comedian of the "Japanese Homeymoon" company, which comes to the opera house Friday night, tells the following story of a negro couple whom he knew. Jason Jackson was the name of the male member of the team and Miss Ada Bush was the feminine one. Jasper was very helpful, but he made up his mind to marry Miss Bush, and as she had led him to believe that he was the only man on earth for her, he decided to propose. He didn't have the courage to ask her personally, and after thinking for some time, as to how he could do it otherwise, a happy thought struck him to use the telephone, so he called up the house where she worked and the following conversation took place. "Is dat you, Miss Bush?" he inquired. "Yess," came the long-drawn reply. "Miss Bush, I've done got a most pertant question to ast yo'."

"Yess," again came the drawl. "Will you all marry me, Miss Bush?" The answer came quickly enough this time: "Shoo, but who am dis talking to me?"

"The Climax." Frequently the playgoer is heard to speak of the atmosphere found in this or that theatrical production. Just what this atmospheric condition is has always been explained and accorded to the scenic artist, who has so faithfully depicted the picture represented in the play that the spectator imagines himself in some picturesque spot instead of in an orchestra chair at the theatre. Joseph Weber, who will produce Edward Lock's classical play, "The Climax," here argues that this factor is merely the scenery and not the atmosphere of the playhouse. The atmosphere, said Mr. Weber, is the forming of every character in the play so en-

fully and with so much regard of what that character would do and how he would act were he a personage in this every-day life we lead. So much attention has been given this detail in "The Climax" that one forgets that it is a play. Rather is it a series of incidents occurring in the domestic life of the people. When the curtain rises, it is not on a stage, but merely some new process enabling you to see through the brick and mortar of Luigi Golfant's humble home in New York.

"The Climax" is one of the natural human plays which sink so deeply into the heart that it is bound to become, as strongly identified with the American stage as to be handed down to future generations.
