BETHEL.

New School Union Formed, with Earl E. Wilson Superintendent. The directors of the Bethel town district were in South Royalton last week and assisted in the formation of a union school district, which is comprised of four towns and their schools, all of which number 29. Earl E. Wilson, superintendent of the South Royalton school, was elected to the position of superintendent, and he will assume his new duties about July 1. He is a graduate of Dartmouth in the class of 1903 and has made a great success as principal in the South Royalton school.

Mrs. S. G. Bent of Roxbury is in town for a few days.

Principal and Mrs. James Walker will spend the summer at Lake Ansel in a tent.

Miss Grace Tupper attended the commencement exercises at Goddard seminary last week.

Dr. and Mrs. E. A. Burnett are in town, coming from Swanton for a visit with friends here.

Rev. W. B. Reynolds was called to Stockton, N. Y., last week by the serious illness of his brother.

John Keleher went to Boston Saturday to be present at the funeral of Michael Grabin, a former resident here.

The presentation of "The Union Depot" by local talent last week resulted in \$40. to be added to the library fund.

Mrs. J. J. Carney and children have joined Mr. Carney, where they will spend the summer in the Chase cottage at Lake Ansel.

W. O. Bailey has severed his connection with the Brooks & Washburn company and is now with J. O. Blaisdell, formerly of South Royalton.

D. Lynn Chadwick and C. A. Spaulding have purchased of the Albert Brooks estate the premises known as the Brookfield place, near the dry bridge.

About 50 of the friends of Miss Mary Stinson called upon her Friday afternoon with numerous pieces of linen of every description, which were given her for a linen shower.

Mr. and Mrs. J. F. Marsh went to Barre Saturday to attend the funeral of Nathaniel Whittier, whose death occurred in the Waterbury hospital. Deceased was formerly a resident of this town.

Work has been begun at Findley bridge, to eliminate the crossings at that place. An underpass is to be made and a new road built to connect with the present highway near Frank Chamberlain's.

White River Valley pomona will hold its next meeting in Bethel June 24, when the state master, C. F. Smith of Morrisville, Amos J. Eaton and others, will be present and address the meeting. The evening session will be open to the public.

White River Lodge, F. and A. M., held a public installation of officers, when the following were installed for the year: W. R. Briggs, W. M.; James Graham, S. W.; C. O. Spaulding, J. W.; G. H. Tupper, treasurer; C. S. Soper, secretary; W. N. Batchelder, S. D.; Walter Swinney, J. D.; Burns Osgood, S. S.; W. O. Bailey, J. S.; H. H. Dinmore, S. D.; R. E. New Discovery, S. D.; S. F. Goodhart, Rev. H. A. Parkhurst, R. J. Finn, Martin Wynnan, ar, and Wallace Batchelder. Music was furnished by the Wyman and Chapman orchestra.

Marvelous Discoveries

mark the wonderful progress of the age. Air flights on heavy machines, telegrams without wires, terrible war inventions to kill men, and that wonder of wonders—Dr. King's New Discovery—to save life when threatened by coughs, colds, grippe, asthma, croup, bronchitis, hemorrhages, hay fever and whooping cough or long trouble. For all bronchial affections, it has no equal. It relieves instantly. It's the surest cure. James M. Black of Ashville, N. C., R. R. No. 4, writes: "I cured my son of an obstinate cough after all other remedies failed. 50c and \$1.00. A trial bottle free. Guaranteed by Red Cross Pharmacy."

BARRE TOWN REPUBLICAN CAUCUS

The Republican voters of the town of Barre are hereby notified to meet at the East Barre opera house on Tuesday evening, June 14, 1910, at 7:30 o'clock, for the purpose of electing four (4) delegates and four (4) alternate delegates to attend the second district Republican convention, to be held at Montpelier, Vermont, on Wednesday, the 29th day of June, at 2 o'clock p. m., to nominate a candidate for representative to Congress; also to elect four (4) delegates and four (4) alternate delegates to attend the state Republican convention, to be held at Montpelier, Thursday, June 30, 1910, at 9 o'clock a. m., to nominate candidates for governor and all other state officers and to elect a state committee. To elect a town committee to serve two years. To do any other proper business.

Per order of the town committee.

REPUBLICAN CAUCUS.

The Republican voters of the city of Barre are hereby notified to meet at the city hall on Tuesday evening, June 14, 1910, at 7:30 o'clock, for the purpose of electing ten (10) delegates and ten (10) alternate delegates to attend the second district Republican convention, to be held at Montpelier, Vermont, on Wednesday, the 29th day of June, at 2 o'clock p. m., to nominate a candidate for representative to Congress; also to elect ten (10) delegates and ten (10) alternate delegates to attend the state Republican convention, to be held at Montpelier, Thursday, June 30, 1910, at 9 o'clock a. m., to nominate candidates for governor and all other state officers, and to elect a city committee, one from each ward and one at large, to serve two years. To do any other proper business.

Per order of the city committee, T. H. Cave, Jr., secretary.

REST AND HEALTH TO MOTHER AND CHILD.

Miss Wilkesdale's mother has been used for over SIXTY YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE SUFFERING WITH BRONCHITIS, COUGHS, COLIC, SOOTHS THE CHILD, SOOTHES THE STOMACH, ALLAYS PAIN, CURES WIND COLIC, and is the best remedy for DIARRHOEA. It is a wholly harmless. Be sure and ask for "Mrs. Wilkesdale's Soothing Syrup" and take no other kind. Twenty-five cents a bottle.

R&G CORSETS

Add Distinction to any costume. RANDOLPH. Graduation Exercises and Annual Alumni Banquet. Music hall was filled to overflowing on Thursday evening, when the graduation exercises of R. H. S. were held. The decorations were very beautiful, being composed of daisies and wild flowers. Immediately following these exercises, the company repaired to Daltos and Gay's hall, where the graduation ball was held. Friday evening the alumni banquet was held at Randolph Inn, and was a very successful affair. The decorations in the parlor and dining hall were of green and red, and were arranged with much taste, adding to the beauty of an already attractive place. The officers of the association are: President, Sherman R. Moulton, '91, of Burlington; executive committee, Elwin F. Martin, '92, Ethel F. Newton, '96, secretary, and Franklin A. Salisbury, '96, treasurer. The following program was given: Toastmaster, Fred T. Brodick, '88, "Fit the Nail on the Head"; president's address, Sherman R. Moulton, '91, "We have been friends together in sunshine and in shade"; "Our Young Quinet," Harold P. Gaylord, '10, "A New Broom Sweeps Clean"; music by orchestra; "Reminiscences," Mabel Smith Adams, '85, "Deal Gently, O Time!"; "Our Alma Mater," Homer Ladd, '93, of Barre, "Altho, he had wit, he was very shy of using it"; selection, male quartet; "Pass the Toast," Dr. John P. Gifford, '90, "Ye little stars, hide your diminished rays"; "Shades of the Future," Bertha Hayward Burridge, '93, "Woman, who laid old Troy in ashes"; "Randolph High School," Prof. E. O. Ham, "He was not of an age, but for all time"; solo, M. Blanche Sparhawk, '90; informal toasts in answer to call of president.

R. P. Morse of Boston was the guest of Mrs. George Spear last week.

Mrs. Gray and her daughter, Miss Adeline Gray, went to Waterbury Conn., Saturday.

Mr. and Mrs. J. B. Adams joined Clinton Adams and family at Fairlee lake Saturday.

Fred Bradish, the guest of Dr. and Mrs. F. A. Eaton, returned to Bellows Falls Saturday.

Mr. and Mrs. Harold Perkins of Woodstock were over Sunday visitors at Rev. Joseph Hamilton's.

Miss Mabel Smith, one of the teachers in the schools, went to Boston on Friday for the summer vacation.

Miss Ethel Park, one of the assistants in the high school, went to her home in Lyndonville Saturday.

Rev. John Q. Angell of Stowe was in town over Sunday, the guest of his brother, Dr. F. C. Angell.

Mrs. P. J. Blanchard left here Saturday morning to join a Barre party, who are going into camp for a few days.

The children of Clarence Osha will remain in Rochester for the present with their grandparents, Mr. and Mrs. Horace Cole.

Mrs. Christopher Riley and infant daughter went to Bethel Saturday for a stay of some time with her mother, Mrs. J. J. Wilson.

Mrs. Mial Lockwood of Springfield was in town to attend the funeral on Friday of Mrs. Clarence Osha and returned to her home Saturday.

Mrs. Thomas Pith left here Sunday, after a five months' stay with her mother, Mrs. Ellen Blanchard, to join her husband at Montpelier, N. D.

Mrs. John Morrill and son returned to Tumbidge Saturday, after a visit of a few days with her sister, Mrs. Rix. Olive Rix accompanied her home for a few days' visit.

Miss Cora Noble went to Lowell, Mass., to remain over Sunday with an uncle and the first of the week will go to Boston for another stop of a week with relatives and from there to New York for an indefinite stay.

Young people's night at the grange was largely attended and very interesting. The program was largely given by the young people. H. W. Vail gave an interesting account of athletic day at Woodstock, Dorothy Buck gave a solo, "Roses," Mrs. Dunham a selected reading, Eliza Goodhart a song, Leda Jones a reading, Edith Blanchard a piano solo, six young ladies, Marguerite Hudson, Lottie Bailey, Mabel Sault, Maud Johnston, Alice Buck and Edith Blanchard, spraved waltz march.

WAITS RIVER.

Rev. S. H. Harris was in Montpelier on business recently.

Mrs. Alameda Phipper has returned from visiting friends in Corinth.

Preparations are being made to observe Children's day June 19.

Rev. Mr. Harris will speak to the young people Sunday at 2 p. m.

Mr. and Mrs. A. L. Patterson were recent guests of Mr. and Mrs. McDuffie.

Mrs. Ada Simpson of Bradford is the guest of her mother, Mrs. S. E. Clark.

Mr. and Mrs. Robert Hodge returned Saturday from their wedding trip to New York.

Frank Carter and F. O. Cunningham have recently had telephones placed in their homes.

Mrs. Beckwith, teacher of the Robie school, was the guest of Mrs. J. A. Dodge over Sunday.

Mr. and Mrs. Fred Sanborn and Mrs. E. H. Miller were at Fairlee, taking recently, getting the Sanborn cottage in readiness for occupancy.

Kidnaped

By LOUISE B. CUMMINGS. Copyright, 1910, by American Press Association.

Job Wilkins was altogether too tender hearted for a sheriff. He lived in a town not far from the Canadian border with his wife and children and only accepted the position because no one else would take it. Besides having nothing but the house he lived in, he needed the pitiful salary attached to the office. One night a citizen of the place was waylaid, sandbagged and robbed. A man named Fletcher was suspected and arrested. Fletcher's wife went to Mrs. Wilkins with a pitiful story of her husband's innocence and persuaded her to beg the sheriff to let Fletcher off. When Wilkins came home he found Mrs. Fletcher at his house. She told so straight a story and begged so hard that Wilkins, since he had no power to let his prisoner go free, agreed to furnish bail for his appearance in court. Wilkins signed a bail bond for \$4,000, and Fletcher was released from jail. Fletcher disappeared. It was evident that it was his purpose to jump his bail, and to pay the bond would take all Wilkins had—his home. He heard of Fletcher's flight a few days after it occurred, and, setting a watch on Mrs. Fletcher, she and her husband were traced to a Canadian village a dozen miles beyond the border. Something must be done to save what little Wilkins possessed. Besides, the sheriff was very wroth at having been tricked. He thought over the different ways by which the criminal might be brought back and determined that he would try to kidnap him. This he preferred to using the process of extradition, which he considered hopeless. Wilkins interested a friend of his named Parker, who agreed to help him. Unfortunately for their plan the village where Fletcher lived was the headquarters of a troop of mounted police. To go into a town right under the noses of these men, capture a man protected by British law and carry him twelve miles was a risky undertaking. At nightfall the two men, having hired the fastest team they could find, crossed the St. Lawrence river by ferry. They agreed to pay the ferryman a good sum to be on the Canadian bank at the time of their return and be ready to push off at a moment's notice. They hired another team at a village midway between the river and their point of attack. This team was to be ready and waiting for them in the road on their return. Wilkins and Parker drove into the town where Fletcher lived soon after bedtime. Fletcher's house had been located, and, pulling up before the door, Wilkins alighted and knocked. Presently Fletcher in nightclothes opened the door. Wilkins cowed him at the point of a pistol, then threw his strong arms around him and literally carried him, kicking and struggling, to the wagon. With ropes ready they bound their prisoner and were driving off when Fletcher's wife appeared at a window, screaming loud enough to wake the whole village. As they dashed through the streets ashes were thrown up and the people put out their heads to see what was the matter, lights appeared, there were cries of "stop 'em!" and presently a church bell began to sound an alarm that roused the police force. By this time they had reached the outskirts of the village and were clattering southward along the turnpike. Wilkins kept looking backward, but could see no followers until they had covered a mile. Then the sound of horses' hoofs on the stones told him that the mounted police had started on their pursuit. Down came the whip on the horses' haunches, and they nearly doubled their pace. For five miles it was a steady chase. Their team was a good one, and the police were mounted on indifferent horses. Nevertheless the latter had gained a little at every milestone. When they drew near the village where they expected to find their relay team their pace was considerably diminished. Looking ahead, there stood the team ready beside the road. Their pursuers were not a quarter of a mile away. Pulling up beside the relay, they hustled their prisoner from one team to the other and were off before their pursuers came up. The sergeant of police, seeing that the kidnapers had secured fresh horses, sent several of his best mounts to make a dash for them. Wilkins' horses, though fresh, had a load to pull, and this made an even race. Bullets began to whistle past them, but they galloped on their pursuers maintaining their distance behind them. Then a bullet pierced one of the horses. This looked as though the game was up, but the animal seemed goaded to gallop the faster. Finally from a rise in the ground the kidnapers could see the dim outlines of the river. It was an incline straight down to the ferryboat, which they could see on the near shore. The horses had been obliged to walk up the rise, which had brought their pursuers dangerously near them. Now Wilkins pushed them down the incline in spite of the danger of their stumbling and falling, the sound horse now dragging the wounded one. Pulling up beside the ferryboat, they hurried their man into it, the ferryman pushed off, and the police appeared on the top of the rise an eighth of a mile away. When the court met to try Fletcher he was on hand.

Right Way to Grow Sweet Corn. Shallow cultivation of sweet corn should be practiced to preserve the moisture of the soil, since this crop requires a large amount of water in its growth and is likely to suffer from drought.

The Cooks who have used the Single Damper of the Crawford Ranges will never go back to the troublesome two-damper range. The cost of the food spoiled by mistakes in regulating the ordinary two-damper ranges amounts to a large sum. The Single Damper of the Crawford affords absolute fire and oven control by one motion—slide the knob to "kindle," "bake" or "check," the range does the rest. The Oven of the Crawford has cup-joint heat flues which heat everywhere alike and make it the quickest and surest of bakers. The Two Hods (patented in the base—one for ashes instead of the old clumsy ash pan—one for coal, is a great trouble-saving feature. Gas Ovens and Broilers above or at end of range, if desired. Ask the Crawford agent to show you and write us for circulars. Walker & Pratt Mfg. Co., 31 Union St., Boston FOR SALE BY C. W. AVERILL & CO., BARRE AGENTS

Farm and Garden

CULTIVATION OF THE PLUM.

Spring the Best Time For Planting This Variety of Fruit Tree. Discussing the cultivation and propagation of the plum, a bulletin of the Iowa State college says:

The plum may be propagated either by budding or by root grafting. In general practice the former is the more successful, the work being done at the close of the active growing period, which is usually the fore part of August. In top grafting the plum it is

Farmers Buying Autos, Not Bonds. Wall street has been watching with growing envy the success of the automobile makers in disposing of their wares to the farmers. For the moment, at least, securities are out of favor, although, if the figures just made public by the department of agriculture regarding the growing purchasing power of the farmer may be taken as a criterion, after each farmer has his stable of motors there ought to be something left over to squander on stocks and bonds. According to the statisticians of the department, the growth in average farm value per acre for each crop covered is as follows:

Wheat 115.02 47.41 48.81 102.21
Corn 15.30 9.52 6.18 97.4
Oats 12.39 7.53 4.56 82.81
Hay 18.97 11.29 14.68 22.5
Barley 11.49 8.52 4.58 61.6
Potatoes 58.39 34.78 18.51 36.3

—New York Times.

Corn in Mexico.

The corn crop is an important factor in Mexican agriculture. Much of the land is farmed by renters. In Durango, for instance, the renter signs a contract to give the landowner one-half the crop clear of all expenses. The corn is husked by men who get 60 cents each in Mexican money per day. By the time all expenses are paid the renter has little more than enough corn to last him until spring. Then he is compelled to buy of the landowner at an advance of 40 to 60 per cent over prices he receives for his crop of the fall. Prices in Mexico are around 60 cents a bushel in the fall and 90 cents in the spring.

Under average conditions spring is the best time for planting plum trees. In exceptional seasons, with a favorable moisture supply, fall planting may be done with success, provided the work is done early, so that the trees may become re-established before winter sets in. Often, however, the moisture supply in the fall is an uncertain quantity, and if the ground is at all dry the tree which has been recently disturbed is likely to suffer severely during the winter. The distance apart to plant depends somewhat on the variety and also on the type of soil. Generally eighteen to twenty feet apart gives ample room. As fruited at this station and elsewhere in Iowa the plum shown in the cut, the Golden, is an attractive

important that the stock and the action belong to the same or a closely related species. If this is not the case the union is not to be unsatisfactory and the tree becomes poorly developed and is short lived. For the American varieties stocks of the native species should be used. Miner is highly recommended as a stock for the American plums by some of our Iowa growers.

In exceptional seasons, with a favorable moisture supply, fall planting may be done with success, provided the work is done early, so that the trees may become re-established before winter sets in. Often, however, the moisture supply in the fall is an uncertain quantity, and if the ground is at all dry the tree which has been recently disturbed is likely to suffer severely during the winter. The distance apart to plant depends somewhat on the variety and also on the type of soil. Generally eighteen to twenty feet apart gives ample room. As fruited at this station and elsewhere in Iowa the plum shown in the cut, the Golden, is an attractive

important that the stock and the action belong to the same or a closely related species. If this is not the case the union is not to be unsatisfactory and the tree becomes poorly developed and is short lived. For the American varieties stocks of the native species should be used. Miner is highly recommended as a stock for the American plums by some of our Iowa growers.

Under average conditions spring is the best time for planting plum trees. In exceptional seasons, with a favorable moisture supply, fall planting may be done with success, provided the work is done early, so that the trees may become re-established before winter sets in. Often, however, the moisture supply in the fall is an uncertain quantity, and if the ground is at all dry the tree which has been recently disturbed is likely to suffer severely during the winter.
