

BOSTON WANTS GRAND TRUNK

Sends Delegates to Montreal to See Officials

JOINT OWNING OF B. & M.

To Be Discussed with the Grand Trunk Men—That Portion from White River Junction to Boston Is Meant.

Boston, July 14.—The belief that Boston will eventually be the principal Atlantic coast terminal of the Grand Trunk railroad has received great impetus within the past 24 hours, several things occurring within that brief period of time to add credence to the idea.

In the first place, the commonwealth of Massachusetts granted the Grand Trunk railroad a right of way through a portion of the state, between Palmer and the Rhode Island line.

Secondly, the Boston chamber of commerce, anxious to increase the transportation facilities of the New England metropolis, has sent to Montreal James J. Storrow, former president of the chamber, and D. O. Ives, the chamber's transportation expert. Messrs. Storrow and Ives will see the principal officials of the Grand Trunk railroad, in an effort to induce them to make Boston the coast terminus as well as Providence, which, under plans already laid down, had been selected as the coast terminal point of the road.

Another significant development of the past 24 hours was a statement made by Governor Eben S. Draper at a meeting of the chamber of commerce, following a trip of inspection around the harbor docks. Whether the governor's remarks referred to the Grand Trunk railroad is not definitely known, but in view of the activity of the Canadian road in getting a location through a part of Massachusetts, it was believed by many of the governor's hearers that his remarks most certainly refer to the Grand Trunk.

The governor, during the course of his address, said:

"I have every reason to believe I shall be able to announce within a very short time the completion of an arrangement with a great business interest in this state for taking over for use the great commonwealth pier, with a large amount of land located immediately to the rear of it at a very large annual rental. Verbal agreements have been entered into which show this transaction can be carried through and the commonwealth pier and the land back of it will be leased to one of the great railroad interests at a rental which will give to the state some \$70,000 annually for a period of thirty years.

The commonwealth pier consists of three great docks on the South Boston side of the harbor, so situated as to furnish excellent railroad facilities for the moving of freight and passengers.

President Roosevelt said that Messrs. Storrow and Ives would discuss with President Hays the possibility of what he considered the most satisfactory solution of the problem, namely, "the practical joint ownership of the Boston & Maine railroad between White River Junction and Boston, double tracking it and developing it generally in such a way as to handle easily the resulting increased volume of traffic. This arrangement would bring the Grand Trunk to Somerville, where connections could be made by way of the Grand Junction railroad to East Boston, where the state is about to enter upon a plan of modern dock construction."

CONSIDERED UNLIKELY.

Change of Plan in Favor of Boston Not Probable.

Montreal, July 14.—Prior to the arrival of Messrs. Ives and Storrow, representatives of the Grand Trunk

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys.

When a child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, Home Treatment, including many of the thousands of testimonials received from sufferers who found Swamp-Root to be just the medicine needed. In writing Dr. Kilmer, P.O. Box 589, Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Hood's Sarsaparilla

Cures all humors, catarrh and rheumatism, relieves that tired feeling, restores the appetite, cures paleness, nervousness, builds up the whole system. Get it today in usual liquid form or chocolate tablets called Sarsatabs.

senting the Boston chamber of commerce, reported to have left Boston for an interview with the Grand Trunk railway officials regarding the plan to make Boston, instead of Providence, the coast terminal of the Grand Trunk's new extension, the Grand Trunk officials discussed the proposal in an informal way.

They declared it most unlikely that the company will be induced to change its plans in favor of Boston. They pointed out that there is already a direct line from Palmer to Boston, the Boston & Albany, which would offer serious competition to a new line through that territory, while the route selected to Providence offers no such objection.

As to whether they will consider the extension of its lines to both cities, the officials were inclined to be non-committal, although it was stated that the road eventually hopes to reach Boston.

"WATT'S HIS NAME?"

"Is It?" Smiles Winthrop In Colloquy Over Capps' Successor.

Washington, July 14.—"Watt's his name?" asked the newspaper men of Acting Secretary of the Navy Winthrop yesterday, and Mr. Winthrop replied, smilingly, "Is it?"

The colloquy referred to the selection of a successor to Admiral Capps, the retiring chief of the bureau of construction and repair for which office Naval Constructor Watt, now at Norfolk navy yard, has been mentioned, along with Constructor Stahl of Philadelphia and others.

Mr. Winthrop pursued the pun to its bitter end by saying that "if the present selection was 'Watt' the newspaper men must be content still to guess about."

SUICIDE PACT FAILS.

The Woman Is Shot, but Arrest Alone Is the Man's Lot.

New York, July 14.—Mrs. Antoinette Skora, wife of Karl Skora, formerly a teacher in the university of Krakow, Poland, was found in bed beside her sleeping child, a boy of three, at her home yesterday morning with three bullet wounds in her body and a fourth in her hand. Mrs. Skora told the police that she had been shot by robbers but letters were found which showed the woman had entered a suicide pact on account of a love affair. The letters were written by a man who was infatuated with Mrs. Skora when she was a student in Poland, and who followed her to this country. The letters were from Casimir Malski, a highly educated young Pole. Later, in Bellevue hospital, when Malski was taken before the woman he admitted that he had shot her and then told the police that the two had joined in a suicide pact, but that he had been unable to take his own life because after he had loaded his revolver the carter he had loaded his revolver the carter.

SHERIFF LINKE RESIGNS.

Action Follows Lynching in Newark, O., Last Friday.

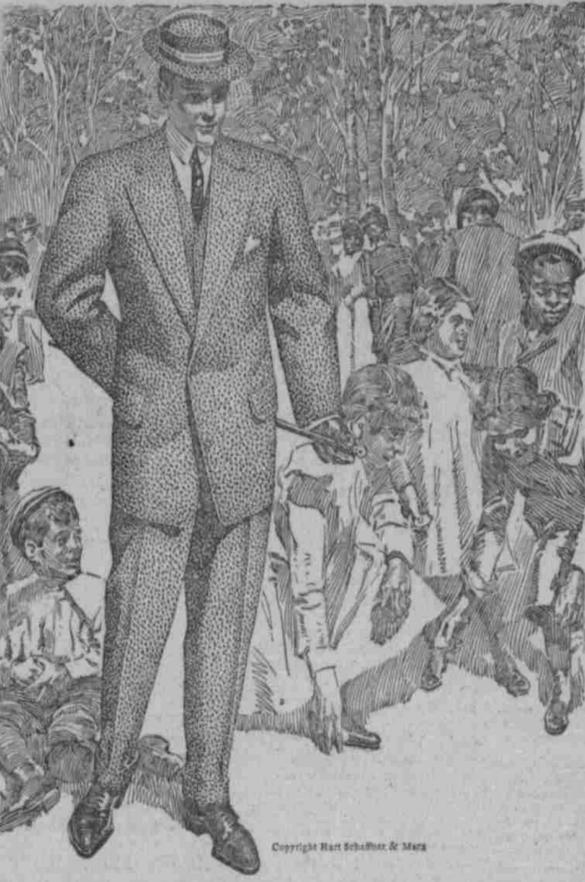

Newark, O., July 14.—Sheriff Linke of Licking county, has resigned. The county commissioners elected C. M. Stuyvesant to succeed him. At a secret session of the police court Tuesday night, Acting Mayor Ankele bound over to the grand jury, which meets on Monday, ten suspects arrested as a result of the lynching of last Friday. They were held without bond to answer to the charge of murder in the first degree.

HIGH SPEED ON GREAT GLACIER.

It Is Moving at the Rate of Twelve Feet a Day.

Juneau, Alaska, July 14.—The great glacier in Rainy Hollow, near Haines, Alaska, is moving at the prodigious rate of twelve feet a day. Huge masses of ice are falling with thunderous noise over the precipice where the glacier discharges. Never before has such rapid extension of the ice rivers been known in the history of the world, it is said. The theory is that avalanches caused by earthquakes are responsible for the increased flow. The National Geographic society has an expedition in Alaska studying the phenomenon.

WE LUBRICATE THE MACHINERY OF BUSINESS With "QUICK MONEY SALE" Oil!

Copyright Hart Schaffner & Mars

We have turned a rather sluggish early-summer selling season into a regular bee-hive of activity by pouring on "special sale" oil. The only match needed was to tell our friends we had started and the large assortments in every department are being consumed with flame-like rapidity.

We want all to have a chance at this money-saving event and the sale is to continue through the month of July. There's enough here for all, but of course the pick of the lot goes to the early bird.

We've reduced everything to the breaking point and while we cannot tell you in this space all the good things you can judge from these samples:

\$1.50 to \$6.00 Men's Trousers - \$1.15 to \$4.85

\$3.50 to 5.00 Regal Oxford Shoes \$2.75 to 3.75

Straw hats, shirts, neckwear, hosiery, fancy vests, suits—everything—at just as big reductions as these—some even greater cuts.

MOORE & OWENS, BARRE'S LEADING CLOTHIERS, 122 North Main Street, Barre, Vermont.

MAYOR SENT TO JAIL

Executive of Lawrence, Mass., Given 3 Years

GUILTY OF CONSPIRACY

In Securing the Confirmation of One of His Appointees—Three Aldermen Also Sentenced for Part in the Conspiracy.

Salem, Mass., July 14.—With the conviction and sentencing of Mayor William P. White of Lawrence and several other residents of that city on conspiracy charges in the circuit court here yesterday, the political scandals which have stirred the city of Lawrence for some time past reached a sensational stage. Found guilty of conspiring to obtain the confirmation by the board of aldermen of Mayor White's appointment of James A. Hamilton as chief of the Lawrence fire department and conspiring later to obtain Hamilton's dismissal from that position, the mayor was sentenced to serve three years in the Essex county house of correction and to pay a fine of \$1,000. Samuel Kress was sentenced to two and a half years' imprisonment, Matthew Burns to two years and George D. Smart to a year and a half. Ernest Dube, also convicted, was not sentenced, this case being placed on file, because he had given evidence for the prosecution.

The case has been on trial for about two weeks. The jury returned its verdict after being out for little over four hours. Thomas Keegan, also indicted in the same case, was found not guilty.

Mayor White made an impassioned speech to the court, saying that he was innocent of any wrong intention. Burns made a similar speech.

At Fountains & Elsewhere

Ask for "HORLICK'S" The Original and Genuine Malted Milk

The Food-drink for All Ages. At restaurants, hotels, and fountains. Delicious, invigorating and sustaining. Keep it on your sideboard at home. Don't travel without it.

A quick lunch prepared in a minute. Take no imitation. Just say "HORLICK'S" in No Gambino or Trust

TEN ROUNDS IS LIMIT.

Future Bouts in Frisco Will Not Go Beyond That Figure.

San Francisco, July 14.—Few, if any bouts in this city, after date, will be of more than 10 rounds' duration. This decision has been reached by the same supervisors as originally granted the Johnson-Jeffries permit. Whether the bouts will be with a decision or not has not yet been determined. The first of these abbreviated bouts will take place July 29, under the management of Jim Griffin, who has held the July permit for some time. Although it isn't definitely settled, Sam Langford and Al Kaufman are most likely to be the principals in the engagement.

MACVEAGH TO RETIRE?

Washington Hears That C. D. Norton Is to Succeed Him.

Washington, July 14.—A rumor is in circulation here that Secretary MacVeagh of the treasury will resign in the fall and be succeeded by Charles D. Norton, private secretary to President Taft.

When appointed secretary he brought young Mr. Norton from Chicago and practically turned over the routine work of the department to him. He won the warm approval of both Mr. MacVeagh and the president.

LARGE LOT OF STAMPS SEIZED.

United States-Labrador Issue With Face Value of \$400,000.

Montreal, July 14.—United States-Labrador postage stamps, with a face value of \$400,000, were yesterday morning seized by the representatives of the federal government here on the suspicion that they are forgeries. The stamps are in twenty-five, fifty-cent and \$1 denominations. They were found in the possession of a pawn broker, who was offering them for sale. He claimed he found them in a valise which he purchased at an auction of unclaimed property at a local railroad station.

Why Boston Has Lost.

Boston, July 14.—The restricted shipments of cattle, meat products, and grain from this port has been offered as an explanation for the continued decline in Boston's export trade during the past 10 or 15 years. During the fiscal year, ending June 30 last, the total exports were valued at \$70,517,075, while 10 years ago the value was \$143,708,229, a shrinkage of \$73,191,157 or 51 per cent. The value of imports increased 109 per cent. in 10 years.

Gotch Won't Fight.

Fort Dodge, Ia., July 14.—Frank Gotch yesterday emphatically declared that he would not fight Jack Johnson. "I am well satisfied with the great honors I have won," declared the champion wrestler. Gotch gave it as his opinion that Jeffries would never fight again.

Five Hurt in Train Wreck.

New York, July 14.—Five persons were injured when a passenger train, bound for New York, on the Staten Island Rapid Transit railway, jumped the track at Prince Bay yesterday morning.

BALLINGER SAYS STICK

"Not Made of Resigning Material."

HE TELLS HIS FRIENDS

Pleased with Outlook Thinks Promises of the Administration Have Been Kept in the Main.

Seattle, Wash., July 14.—Secretary of the Interior Richard A. Ballinger arrived here from Washington Tuesday night, to spend his summer vacation. The first thing the secretary said upon his arrival was that he has no intention of resigning. Mr. Ballinger declared that he had no intention of taking any active part in politics in this state in the present campaign.

"It has been frequently stated," said the secretary, "that I intend to resign and that I have moved my household furniture away from Washington. There is absolutely no foundation for any such statement. I am not made of the resigning material, and do not propose to satisfy those persons who want me to resign. That is not my object in being in office. I expect to administer the interior department in a legal manner, which I believe will ultimately receive the approbation of everyone."

"I am greatly pleased at the legislation enacted by Congress affecting the interior department, which has given legal authority to withdraw public lands for classification and provided for the proper disposition of the public domain."

"The \$20,000,000 reclamation bond issue was an administration measure, as was the largely increased appropriation for the survey of public lands, not only in the United States, but in Alaska."

"The interior department secured through Congress more substantial legislation at the last session than for several years previous. A very fine measure passed was that which enabled subterranean entry on lands containing coal and the disposition of the coal under appropriate laws."

"I take great satisfaction not only in the results affecting the interior department, but the other departments as well. I feel particularly glad that President Taft has secured the fulfillment of substantially all the party pledges."

PIRATES BOMBARDED.

Portuguese Military Post in Turn Captured by Chinese.

Hong Kong, July 14.—A Portuguese gulet, cooperating with troops yesterday, bombarded the pirate settlement on the island of Colovan, destroying the houses and killing many natives.

The Chinese retaliated by storming and capturing the Portuguese military force. Portuguese reinforcements were sent to the scene from Macao.

HORSE DISEASES

The Urinary Organs

The Urinary Organs

The urinary organs form the principal channels for draining the system of the poisons and excretions taken into the system, or developed therein by digestion, cell life, bacteria and germs. Therefore, the impairment of these functions in any degree reflects upon the condition and health of the horse and not to be all on one side, almost any ailment from which the animal may suffer deranges to some extent the urinary system. One should note how nature balances this disposition of the body's secretions. In the winter, when the skin is always dry and inactive, little urine is passed, while in the summer and hot weather, when the horse is drinking a much greater amount of water, the discharge of urine is much diminished, because of the activity of the skin tissues, which so copiously exercise themselves in extreme sweating. Hence, too much sweating dries the system of sufficient water, and the solids of the urine may become crystallized, wherein we see gravel and stone or calcium deposit, or perhaps the solids are passed off in great, when the skin becomes crusted and we have skin ills. Should the liver contribute an excess of bile, the urine becomes stained. Disorders of the lungs are liable to produce an excess of acid in the urine, which acts on the kidneys by irritation and tends to diabetes, while diseases of the brain and nervous system, spinal, and act seriously upon the urine and tend to diabetes. So, in all extensive inflammation and severe fevers, the liquids of the urine are lessened and inflame the urinary sections and poison the general system. Diseases of the heart and lungs tend to kidney disorders.

So, too, feeding frosty green vegetables, or an excess of wheat bran peas, cotton seed cake, beans, exposure to cold, storms, draughts of air, damp bedding, all may derange the kidneys, while a sprain of the back or loins may inflame or cause the kidneys to bleed. Much depends upon the condition of the urine in diagnosing these ailments. In certain cases, this is the only sign of disease.

The urine in a healthy horse is of a deep amber shade in color, with a strong odor. If the feed is of good grain and bright hay, it will maintain a uniform transparency. Green ration shows a white deposit. The urine is made white by salts of lime, red or brown from coloring matter or clots of blood, yellow or orange from bile or slight blood pigment, pale or lemon from excessive amount of water or some form of vegetable. Santonin makes it red, rhubarb makes it brown, carbolic acid and tar will show green.

When one fully understands the true relation of urine to health, he will use more care in feeding and general treatment of the animals under his care. This excessive stalling is caused in the main by feeding hay or oats which, harvested in wet seasons, becomes heated and musty, and is unfit to feed. New oats or excessive feed of roots tends to cause this common ill. Simply exercise judgment and care in use, feeding and treatment and you will not require medicines or doctor.
