Congratulated for His Liberal Policy

CATHOLIC PARADE QUIET

Collisions Occur, However, in a Few Places—Clericals Now Planning a Demonstration at Madrid.

Madrid, Oct. 4.—The Liberal press yesterday congratulated Premier Canalejas and interprets the generally peaceful character of Sunday's manifestations as demonstrating the democracy and liberality of his political policies.

The manifestations were authorized by the government. The organizers were careful to declare that the movement had no political significance beyond a protest by the Catholics against what they term the government's anti-religious policy.

RUSSIA TO HAVE BIG SURPLUS.

Finance Minister Says It Will Amount to \$103,000,000.

New York, Oct. 4.—A dispatch to the Sun from St. Petersburg says: Grand Vizier Hakkı Pasha's quest for gold for Turkey has provoked from finance minister Kokovoff a categorical declaration that Russia has no intention of raising any foreign or internal loans and that the current financial year promises a surplus of 200,000,000 rubles (about \$103,000,000) over the estimated revenue.

SPORTING NOTES.

When Jake Stahl first joined the Red Sox he was a catcher. Stahl played with the university of Illinois before joining the Boston team.

Business manager Frank Bancroft of the Cincinnati Reds, who has been identified with the big league clubs for nearly thirty years, says that D. A. Fletcher, the Cincinnati promoter, who insists that he will take some star players on a tour at the end of the season, will limit that to be up against it.

Fletcher will have to build baseball parks all over the country to show his teams," says Bancroft. He also says that the full season will start a baseball league, and nobody who knows anything about it will take a chance in a war with the big leagues.

President Frank Farrell of the New York Americans has announced that President John T. Brush of the Giants has accepted his challenge to have the Americans meet the Nationals in a series this fall, for the championship of Manhattan. The dates will be arranged by the national commission at Cincinnati next Monday.

Johnny Hayes, the Olympic Marathon winner, and James Crowley have been matched to race the full Marathon distance—26 miles and 385 miles—the race to take place within a month.

The first annual report of the Columbia Athletic association shows that the light-blue-and-white institution has succeeded in financing its athletics successfully. The report shows a cash balance of \$1,036.58.

R. W. Dickinson of Wisconsin, Me., has been chosen to captain the basketball team at Tufts college next season.

The last week of the American league season is at hand, and the organization which has been nursed and fostered by Ban Johnson since its organization ten years ago has had a most prosperous season, financially and from a baseball standpoint. The league has grown stronger each season since its existence, and what looked to be a disastrous future for the American league when several Eastern league teams joined their forces in 1901 has turned out to be a blessing for organized baseball.

THE FAMOUS "WHITE HOUSE"

Coffee Gains in Popularity

The introduction of Dwinell-Wright Co.'s Boston-coast coffee in Vermont by the Burlington Grocery company has been so vigorous and far-reaching that in almost every town and city in the state these splendid goods may be obtained from representative retailers on request, and in many instances, the initiative is taken by the grocers themselves, and the goods, particularly the "White House" brand, freely urged upon customers as entirely worthy of confidence and bound to prove satisfactory.

The recent carload arrival of 34,000 pounds (mostly "White House"), announcement of which appears elsewhere in this issue, demonstrates that the sale of "White House" is on the increase, for the last shipment bulked something like four thousand pounds less. Another thing: A scrutiny of the present list of retailers handling these goods will discover a very large proportion of the dealers participating in previous shipments, and many more besides, thus proving conclusively that the statement of our caption is true and that "White House" once established in the affections of the people, retains its position and makes new friends as time passes.

DECISIONS FAVORABLE

United States Scored Decisive Victories

IN FISHERIES AWARDS

Mr. Anderson Well Pleased—Says Judgments of Tribunal Were Almost Wholly to Our Advantage.

New York, Oct. 4.—Chandler P. Anderson, the agent of the United States in the North Atlantic coast fisheries disputes with Great Britain, recently decided by arbitration at The Hague, arrived yesterday on the steamer Lapiand. With him were the three associate counsel for the United States—James Brown Scott, Charles B. Warren and Robert Lansing.

Mr. Anderson expressed himself as much gratified at the outcome of the arbitration, which he regards as decidedly favorable to this country, and in discussing the effect of the award of the tribunal said:—

"There seems to be some apprehension as to the effect of the decision on question one. As a matter of fact, instead of being defeated on that question the United States was wholly successful in securing the full measure of relief sought."

"Some have evidently confused the relief sought with one of the contentions advanced by the United States as a ground for obtaining the desired relief."

"On question one, the United States relied on two alternative lines of argument, one of which was the extreme contention that Great Britain had granted away by the treaty of 1818 a portion of its sovereignty to the United States, and the other was the less advanced, but none the less effective, contention that Great Britain had imposed upon a contractual obligation by the treaty, limiting the exercise of its sovereignty."

"The tribunal decided against the United States on the more extreme contention, but in favor of the United States on the alternative contention, holding that although British sovereignty was intact, the exercise of it was limited as a result of the treaty."

"The only one of the seven questions submitted which was not decided wholly in favor of the United States was question five, which called upon the tribunal to determine the meaning of a clause in the treaty by which the United States recognized the right to fish in all the bays on certain portions of the Canadian and Newfoundland coasts."

"In answering this question, the tribunal, by a divided vote, adopted the strict construction of the language of the treaty and held that the renunciation applied to all bays, irrespective of their size, instead of only to the small bays within the ordinary three-mile limit of territorial jurisdiction, as was contended by the United States."

"This question was introduced into the arbitration by Great Britain, and its only importance was due to its historical interest, for the only large bay where American now fish or have fished to any extent within the last generation is the bay of Fundy, which is expressly excepted from the award. The award on the second, third, fourth, sixth and seventh questions was wholly in favor of the contentions of the United States."

DEAD AND MISSING NOW NUMBER 37

Some Sailors of New Hampshire Thought Drowned Report for Duty. Two Others Lose Their Lives.

New York, Oct. 4.—Three sailors included in the tentative death list caused by the swamping of a barge being towed to the battleship New Hampshire in the Hudson river Saturday night were reported safe yesterday.

Five others reported as missing, but not recognized as being aboard the barge, turned up safely. This cuts the list of probable dead to 26, with 11 missing, 37 in all. Sunday night's list of missing was given out as 11, but increased later to 10, leaving still 11 with yesterday's deductions.

In the place of these cheerful developments, two other drownings among sailors of the fleet occurred yesterday. One of the crew of the Kansas, believed to have been Eugene Audit, lost his life in attempting to save a young woman visitor to the battleship. She was rescued, but he perished.

Last night a sailor cleaning the side of the hospital ship Solace lost his balance and was swept under the vessel by the swift tide. A companion dived to the rescue, but without avail. The latter was saved by the police boat patrol. The name of the victim was not learned.

Grapping for the lost New Hampshire men brought no results yesterday. One sailor's body was found, but examination showed it to be that of Joseph V. Dudley, a coal passer from the repair ship Panther. He had been missing since September 28.

Memorial services for the dead were held on the New Hampshire yesterday afternoon. Chaplain W. G. Caswell officiated. The service was attended by all of the officers and surviving crew of the battleship. The officers of all the other naval vessels in the North river and a complement of 50 men from each vessel.

The board of inquiry, which is investigating the disaster, has not finished its work.

HEARST'S AXE OUT FOR MURPHY.

He Devotes First Page of the American to Attack on Ticket.

New York, Oct. 4.—William Randolph Hearst devotes the entire front page of his American, yesterday morning, to an attack on Charles F. Murphy, leader of Tammany Hall, who is depicted as representing every state officer nominated by the Democratic party at the convention at Rochester. This is the first indication of Mr. Hearst's attitude in the coming campaign. "The election of the Murphy ticket," says the American, "will be a defeat for every American principle; for free and just government. There is no party involved. It is necessary to drive the bosses and criminal trusts out of American politics and any party should be defeated that harbors them."

BRYAN ON CANNON'S TRAIL.

He Will Spend Two Days in Speech-making in Speaker's District.

Danville, Ill., Oct. 4.—It was announced here yesterday that William J. Bryan would spend Oct. 20 and 21 stamping this congressional district against Speaker Cannon.

WHERE SURGERY FAILS

Cutting Won't Remove the Cause of Piles.

Piles mean more than merely the pain of the stubborn little tumors. There is a condition inside that must be dealt with. Cutting is usually followed with later and worse attacks. A permanent cure can only be made by bettering the condition of the parts and getting a free circulation of the blood.

Hem-Roid cures all kinds of piles by internal action right on the cause. Sold by Bunt H. Wells, Barre, Vt., and money back if it fails. Dr. Lenhardt, Station B, Buffalo, N. Y.

NATURES WARNING

Barre People Must Recognize and Heed It.

Kidney ills come quietly—mysteriously. But nature always warns you through the urine.

Notice the kidney secretions. See if the color is unhealthy—If there are settlings and sediment. Pills.

To ward off Bright's disease or diabetes.

Doan's have done great work in Barre. Norman York, 29 Branch street, Barre, Vt., says: "I was subject for six years to attacks of kidney trouble, and I believe the complaint was brought on by a strain. I had pains in my back and was led to believe that my kidneys were out of order by too frequent passages of the kidney secretions. If I stooped to lift anything, it was only with the greatest difficulty that I could regain an erect position. I finally used Doan's Kidney Pills, procured at E. A. Brown's drug store, and their effect was wonderful. The pain in my back soon ceased and the kidney secretions no longer bothered me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

ENDS INDIGESTION OR ANY STOMACH DISORDER

A Little Diapepsin Now Will Stop Food Fermentation and Relieve You of Gas, Heartburn and Dyspepsia in Five Minutes.

Why not get some now—this moment, and forever rid yourself of stomach trouble and indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapepsin to start the digestive juices working. There will be no dyspepsia or belching of gas or eructations of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache and dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapepsin costs only 50 cents for a large case at any drug store here and will relieve the most obstinate case of indigestion and upset stomach in five minutes.

There is nothing else better to take gas from stomach and cleanse the stomach and intestines, and, besides, one single dose will digest and prepare for assimilation into the blood all your food, the same as a sound, healthy stomach would do it.

When Diapepsin works, your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from all stomach misery is waiting for you as soon as you decide to take a little Diapepsin. Tell your druggist that you want Pape's Diapepsin, because you want to become thoroughly cured this time.

Remember, if your stomach feels out of order and uncomfortable, now, you can get relief in five minutes.

BIG FIRE LOSS IN NEW YORK CITY

Lumber Yards, Factories and Stables Destroyed on West Side—Loss Is \$1,500,000, with Only One Accident.

New York, Oct. 4.—Fire in the vicinity of Twenty-fourth street and Eleventh avenue early last night swept an area of 500x300 feet, causing damage estimated at \$1,500,000. Chief Croker announced that it was the greatest area burned during his experience in New York City.

The space swept comprised almost three acres of lumber yards, factories and stables on Eleventh avenue, 24th and 25th streets.

For nearly three hours the fire was beyond the control of the fire department, and it was stopped at length by an accumulation of apparatus, which combined threw water at the rate of 25,000 gallons a minute.

Five hundred horses were rescued from stables and in spite of the size of the blaze and the difficulties of fighting it, it was remarkably free from serious accident.

One of the firemen was badly hurt by hose; several others were less seriously hurt.

The fire started in the lumber yard of Moore Brothers, 11th avenue and 24th street, quickly destroyed it and soon ignited the kindling wood factory of Clark & Wilkins, which was likewise burned to the ground. Besides these structures many others were either destroyed or badly damaged.

COW THAT MILKS HERSELF.

She Steals Her Own Milk and Is Also a Cream Separator.

Greenwich, Ct., Oct. 4.—Miss Mary Dayton, one of the wealthiest women in Greenwich, and a large property owner, has a cow which has acquired the habit of milking itself. While this has been found objectionable, the worst part is that the cow takes all the cream, leaving only skimmed milk for the family.

It took the hired man, Chester, some time to ferret out the mystery of the skimmed milk he got every night when he went to the pasture next to William G. Rockefeller's estate. By accident, he caught the animal in the act.

Being an inventive genius, and the son of a Connecticut minister, he constructed a harness which he put on the cow, and calculated not to incur the displeasure of the Greenwich Society for Animal Protection, of which the Rockefeller family and many other wealthy New Yorkers are members. The harness consisted of a stick across the front of the animal and attached to a bellyband. A rope is fastened to the stick and tied about the cow's horns. The animal can chew its cud, but cannot be a self-milker. The Dayton's milk is much better now.

BOOKER WASHINGTON HONORED.

He Is Received in Copenhagen by King Frederick of Denmark.

Copenhagen, Oct. 4.—King Frederick received Booker T. Washington and conversed at length with him on the subject of the colored race yesterday. His majesty asked the American for a copy of one of his publications. Later, as the guest of prominent Danes, Mr. Washington motored to Roskilde, the old-time capital, where he visited a school and had luncheon. Last night he dined at the palace, meeting the members of the royal family, including Queen Mother Alexander, the widow of King Edward.

LOST ON WAY TO BOSTON.

Mason, Ia., Minister Has Disappeared and Foul Play Is Feared.

Chicago, Oct. 4.—The police have been asked to search for Rev. Ora G. Mallory, pastor of the Congregational church at Mason, Ia., who, it is feared, has met with foul play.

Mr. Mallory left his home Sept. 27, intending to make a trip to Boston. He wrote to his son, Charles Mallory, of this city that he would reach Chicago the night of the 28th and remain a few days at his home. He has not arrived here, nor has he reached Boston.

WRECK HAS SETTLED, LITTLE SINCE NIGHT OF DISASTER.

Havana, Oct. 4.—Preliminary work on the wreck of the Maleta continues under the direction of Capt. Ferguson of the United States engineer corps, who has a force of American divers and drillers at work examining the bottom in the immediate vicinity of the wreck.

From the results of borings already made, it appears that the wreck has settled comparatively little since the night of the disaster.

DELAWARE HAS 202,322.

State Shows An Increase of 9.5 Per Cent. Over 1900 Figure.

Washington, Oct. 4.—The population of the state of Delaware is 202,322. This is an increase of 17,587, or 9.5 per cent., over 184,735 in 1900.

Population statistics were made public yesterday for the following places: Pasadena, Cal., 30,291, an increase of 21,174, or 232.2 per cent., as compared with 8,117 in 1900.

Washington, Pa., (Washington county), 18,778, compared with 7,670 in 1900.

BOTH DUELISTS ARE DEAD.

Six Bullets in One, While Other Received Four.

Corbin, Ky., Oct. 4.—With the revolvers emptied and each man's body riddled with bullets, Henry Lee, a constable, and James Williams, a private policeman, fell dead in each other's arms at the end of a shooting affray yesterday.

The men met in the street, and before either had spoken, began firing. Neither man missed a shot. Williams' body was pierced by six bullets and Lee's by four. Lee had shot and seriously wounded Williams' father and brother several weeks ago.

TRAIN WRECK IN INDIANA.

Lake Erie & Western Collision Results in Injuries to Several Persons.

Laporte, Ind., Oct. 4.—A Lake Erie & Western excursion train from Indianapolis was wrecked early yesterday near here. The train came into collision with a Lake Shore freight and a number were severely injured.

METHUSELAH.

Even Methuselah, rich in years but poor in pocket—if he had one—is not permitted to rest in undisturbed oblivion. Figuratively "they" have dug up his dust and submitted it to impertinent questions about the patriarch's age. By "they" we mean the university of Chicago, with Prof. Daniel Snell Colt as inquisitor-in-chief. Prof. Colt has provided himself with ammunition, not obtained from Biblical sources, to prove that the son of Enoch, sixth in descent from Seth, and father of Lamech, was 969 years on this terrestrial ball, nor near it. In fact, the Chicago delver into ancient tomes and solver of puzzling hieroglyphics engraved on tablets with one remorseless slash, lops off exactly 273 years from Methuselah's total, and says he is entitled to no more.

Colt must have been standing on his head when he looked at the patriarch's numerals, for 696 is merely upside down. Methuselah is vindicated.—Boston Courier.

Quite Enough.

"Oh, sir, will you please come at once! There's three brutes of men jumping on a poor organ-grinder."

"Is he a big organ-grinder?" queried the old gentleman, calmly.

"No, no, sir, quite a little man. Oh, come at once, or it will be too late."

"I don't see why I should interfere," replied the old gentleman. "If he's a small man, the three men don't need my help."—Tit-Bits.

Worms

Handsome children and adults have worms, but are treated for other diseases. The symptoms are—indigestion, with a variable appetite; flatulency; offensive breath; hard and full belly with occasional griping and pain about the navel; eyes heavy and dull; itching of the nose; short, dry cough; grinding of the teeth; sweating during sleep; fever; and often in children, convulsions.

TRUE'S ELIXIR

Is the best worm expeller. It has been in use since 1851, is purely vegetable, harmless and effective. Where no worms are present it acts as a tonic, and corrects the condition of the mucous membrane of the stomach and bowels. A positive cure for Constipation, indigestion, and a valuable remedy in all the common complaints of children and those of the bowels.
