

Hood's Sarsaparilla

Acts directly and peculiarly on the blood; purifies, enriches and revitalizes it, and in this way builds up the whole system. Take it. Get it today.

SURELY BREAKS THE MOST SEVERE COLD

Will Overcome All Distress From a Bad Cold or the Grippe in Just a Few Hours.

The most severe cold will be broken, and all gripe misery ended after taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel all the disagreeable symptoms leaving after the very first dose.

The most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, soreness, stiffness, rheumatism pains and other distress vanishes.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or gripe.

Take this harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end gripe misery as promptly and without any other assistance or had after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

CALLS RATE

RAISE UNEVEN

Shipper Says Proposed Increase Would Fall On 10 Per Cent of Tonnage.

Washington, Nov. 25.—Expert freight tariff testimony marked yesterday's session of the inter-state commerce commission, which is investigating the proposed advances in rates in the official classification territory.

Henry C. Barlow of Chicago, a director of the Chicago Association of Commerce, said the class rates between New York and Chicago were unjust and therefore unreasonable and the proposed advances were not fairly distributed. He said the railroad plan put the entire increase on only 10 per cent of the freight tonnage.

Mr. Barlow's declaration that any increased freight rate always fell on the consumer was questioned by Chairman Knapp. Mr. Knapp asked the witness how he figured that an increase of less than five mills on a pair of shoes, "when the increase of freight rates promised general prosperity" would be reflected on the price of shoes a man wore.

Mr. Knapp explained that he recently had been shown some figures regarding shoes which he had verified. The manufacturer had increased his price 15 cents a pair, the retailer 48 cents a pair, under a requirement from the manufacturer, and owing to the freight increase.

Mr. Barlow said that when a manufacturer shipped 100,000 cases of shoes a year probably on 3 or 4 per cent profit, and a 15 per cent rate increase was imposed on him, he probably would raise the price 10 cents a pair, as the manufacturer would not be willing to suffer the loss. Then the retailer would increase the price to the consumer.

While discussing packing house produce rates, Mr. Barlow brought the name of George W. Perkins of the J. P. Morgan company of New York again into the investigation. Mr. Barlow said that he understood that Mr. Perkins agreed with the packers on an advance of only one-half of what has been proposed.

"Did he purport to represent the railroads, the beef shipper or any one else?" demanded Frank Lyon, attorney for the commission.

"I don't know," replied the witness, "I am told Mr. Perkins came as a representative of Mr. Morgan as a peace-maker between the packers and the railroads."

GALLAGHER TRIAL SOON

No Indictment Yet Found Against the Assault of Mayor Gaynor.

New York, Nov. 25.—Prosecuting officials in Jersey City yesterday were preparing for action, which was expected to result shortly in bringing James J. Gallagher to trial, for the shooting of Mayor William J. Gaynor on the deck of the steamer Kaiser Wilhelm Der Grosse last summer. No indictment has been found against Gallagher, who has been held a prisoner in the Jersey City jail, awaiting the result of the injuries he inflicted upon the mayor.

Prosecutor Pierre P. Garven said that he expected yesterday to offer evidence to the Hudson county grand jury for an indictment and looked for grand jury action on the case within a day or so. Gallagher will not be brought to court until he is called to plead to the indictment, if one is found.

The grand jury voted unanimously yesterday afternoon to return four indictments against James J. Gallagher, the discharged city employee, who shot Mayor Gaynor August 8, last. Two indictments will charge assault with intent to kill, first on Mayor Gaynor; second on William H. Edwards, commissioner of street cleaning. The other two indictments will charge carrying concealed weapon.

Free Book on Piles

Tells How to Cure Them with Internal Medicine.

Do you know the cause of piles? Is it internal or external? Will salves, suppositories or cutting remove the cause?

How can one be cured permanently? Do you know how Dr. J. S. Leonard found the cause and cure?

All these questions answered fully in a booklet mailed free by Dr. Leonard Co., Station B, Buffalo, N. Y., or at Burt H. Wells, Barre, Vt., who sells the successful remedy, Hem-Roid, under guarantee, at \$1 per large bottle.

ELEVEN MINERS ENTOMBED

All Are Believed to be Dead in Mine

BY EXPLOSION OF GAS

Little Hope Entertained That Any of Them Have Survived—Rescue Train Sent to the Scene.

Providence, Ky., Nov. 25.—Eleven miners—two white and nine negroes—were entombed in mine number 3 of the Providence Mining company yesterday afternoon, following a gas explosion and it is believed that all are dead. This mine is a new one, the shaft being but 100 feet in depth with only a few entries.

The explosion was so violent that little hope is entertained of the miners having escaped death. A rescue train from the mine rescue station at Linton was sent to the scene last night and comrades of the men entombed are digging to reach them.

The explosion blew great masses of shale and stone from the shaft. A mule blower out of the shaft alighted 150 feet away, still alive.

BERNIER FINDS AN OPEN ARCTIC

Writes That Conditions Are All Favorable for Making the Northwest Passage.

Ottawa, Ont., Nov. 25.—The dominion marine department yesterday heard from Capt. Bernier, who is in the far north of Canada, asserting the jurisdiction of the dominion. Bernier left for the arctic in June. His letter was written in August and left at a whaling station, and reached Ottawa by way of Scotland.

If the captain succeeded in carrying out his program, he must have accomplished the northwest passage by this time and be next heard from via Dawson City, where mail will arrive from the police post at the mouth of the Mackenzie river. Bernier writes as follows:

"Albert Harbor, August.—We had a fair passage as far as Greenland, where we encountered much ice and fog. We sighted Cape York July 27, and anchored on August 3 at Albert harbor. We are proceeding to Beechy islands, where we will build cache No. 2, close to Sir John Franklin's memorial.

"At present everything seems favorable to us to perform our work. Since our arrival here we have had strong gales from the south, which indicates that the ice will be broken up as far as we can see from this distance."

NELSON AND MORAN TO-NIGHT

All Ready for Their Battle at San Francisco.

San Francisco, Nov. 25.—Even money choice, with a man over whom he would have been a top-heavy favorite one year ago, Battling Nelson pulled up in his training yesterday and announced that after his fight with Owen Moran, the British lightweight in Cofroth's open arena, he would be a candidate for a second engagement with champion Ad Wolgast.

The former champion is confident of his ability to beat Moran. He has trained for the bout in a business-like manner, regarding his meeting with the engagement as his one chance for another fight with the man who deprived him of the championship at Richmond.

Moran did a little light work yesterday.

"I have never talked much before my fights," he said to a crowd of admirers, "but to-morrow I will make Battling Nelson take the count for the first time in his life."

The betting on the fight has not been particularly brisk. Commissioner Tom Corbett explains this by saying that the betters find it difficult to make a choice between the two boxers. The experts are taking Moran's skill into account against Nelson's ruggedness.

ARMY AND NAVY TO-DAY

Annual Game at Philadelphia This Afternoon.

Philadelphia, Nov. 25.—The future army and navy officers who will tear up things on Franklin field this afternoon in their great annual battle for football supremacy are on the ground. The West Point cadets arrived here yesterday forenoon and the Annapolis midshipmen came in an hour later. The football squad from West Point is quartered at the Bellevue-Stratford hotel and the navy players are at the hotel Walton.

As usual tickets for to-day's game are scarce and speculators are ready to pay high prices for all seats they can lay their hands on.

DISPOSITION OF GILDED YOUTH

William James Suggested What to Do With Them.

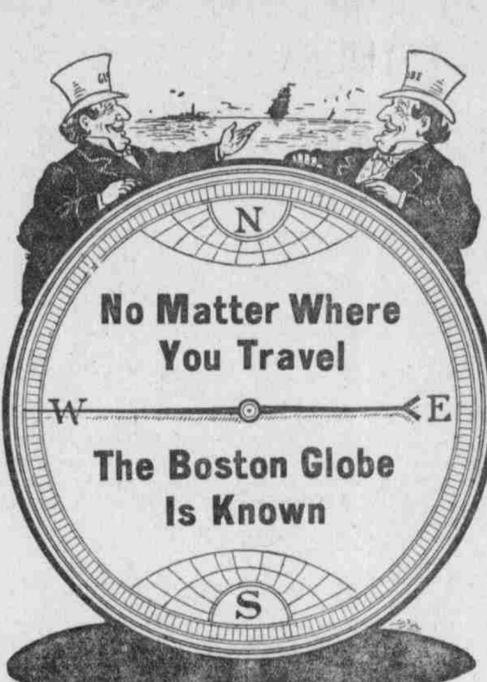

"An Open Mind; William James" is the title of an appreciation of that great psychologist in the Christmas Eve-ly. The following is a quotation:

"The luxurious classes," he says, "are blind to man's real relation to the globe he lives on, and to the permanently hard and solid foundations of his higher life." And he prescribed for them—for their culture, I mean—this treatment: "To coal and iron mines, to freight

disposal, clothes-washing and window-washing, to road-building and tunnel-making, to foundries and stockholes, and to the frames of skyscrapers, would our gilded youths be drafted off according to their choice, to get the child-lishness knocked out of them, and to come back into society with healthier sympathies and soberer ideas."

FEDERAL RAILROAD CONTROL

This Advocated by the National Grange, In Session at Atlantic City.

Atlantic City, N. J., Nov. 25.—The national grange has recorded itself in favor of having the railroads come under absolute government control, if not ownership, if Congress could not clothe the present interstate commerce commission with sufficient power to compel obedience to its rulings. They furthermore asked that Congress further increase the authority of the commission in its rate-making powers. The position upon the ownership issue is the same as that taken at the Des Moines convention last year. H. L. Loncks of South Dakota for eight hours occupied the attention of the convention with his defence of the charges preferred, in a pamphlet which he signed, and in which he alleged that the national officers were not as active as they should be in extending the order in the western states. No decision has been reported up to midnight. The national grange was ordered suspended with the end of December, and the national bulletin is to appear monthly in its place.

FALLING HAIR

Easy to Stop It and Make It Lustrous and Beautiful.

If your hair is falling out, if you have dull unattractive hair, or if you need a daily hair dressing, read what Mrs. Hettie Hodgman of Nelsonville, Erie county, Ohio, writes June 3, 1910, about Parisian Sage—

"I used Parisian Sage for falling hair and find it the finest thing I ever heard of. My hair was falling out by combing, and I could run my fingers through it and they would hang full of loose hair. I washed my hair and got a bottle of Parisian Sage and used two applications, and I could see a great difference. My hair was lustrous and nice and had almost stopped falling out, and by the use of one more bottle it stopped altogether."

For women, for men or for children, Parisian Sage is without any doubt the finest preparation for the hair. It is guaranteed by the Red Cross Pharmacy to stop hair from falling; to eradicate dandruff and stop itching scalp in two weeks, or money back. It is a most daintily perfumed and refreshing hair dressing, free from grease or stickiness, and ought to be in every home where every member of the family could use it daily. Large bottle 50 cents at the Red Cross Pharmacy and druggists everywhere. The girl with the auburn hair is on every package.

ALL QUIET IN MEXICO

No Fighting at Eagle Pass as Reported

MADERO NOT WOUNDED

Troops Can't Find Him—Story of Battle at Eagle Pass Pronounced Baseless—Revolution a Fake, Says Stillwell.

Laredo, Texas, Nov. 25.—There have been no developments in the revolutionary situation and quiet reigns throughout the republic of Mexico.

General Villar, commanding the forces along the Mexican border, has learned that reports that a battle had occurred yesterday in the neighborhood of Eagle Pass and that Francis I. Madero had been wounded are untrue. The Mexican officers communicated with Colonel Pena at Ciudad Porfirio Diaz and Colonel Pena declared the stories baseless. He added that no trace of Madero had been found. Captain Rogers of the Texas Rangers, returned from Mier, Tex., yesterday afternoon and reports tranquility in that vicinity. He says that any force of revolutionists which might have been in that neighborhood has either taken to the brush or has crossed the river into Mexico.

Among the passengers arriving in this city last night from Monterey was Joseph Wheelless, a St. Louis attorney. Mr. Wheelless left Torreon, Mexico, Thursday evening and said at that time conditions were normal.

He has large interests in Mexico and says that the many stories circulated throughout the United States magnifying the importance of what he terms a minor uprising are seriously injuring business in the republic.

Before leaving Torreon Mr. Wheelless visited Oaxaca, Mexico City, Gomez Palacio, Lerlo, Parral and other points and said that beyond uprisings of a minor nature no disturbance existed and the government had little difficulty in quelling the mobs.

MEYER AFTER LODGE'S TOGA

"Scholar of the Senate" Said to Have Decided Not to Fight for Re-election.

Washington, Nov. 25.—That Secretary of the Navy George Von L. Meyer is likely to be the next senator from Massachusetts is information which came to Washington yesterday from reliable authority. This development in the Massachusetts senatorial situation is one that has hardly been broached hitherto.

It is learned here that the assaults upon Senator Lodge in Massachusetts are having effect. In the first place, the senator is much concerned over them. He has succeeded in getting a number of the strong Republicans of the state to renounce any attempt to go to the Senate in his place.

But there has been no renunciation from Secretary Meyer. It is well known, of course, that Governor-elect Ames, has decided war on Senator Lodge, and has given it out he will campaign through the state from end to end before he will allow Lodge to be re-elected. While Mr. Lodge's friends have said this would not defeat the senator, there is reason to believe it has added not a little to the worries of the senator.

Now there is reason to believe that Senator Lodge has reached the point of doubting whether he had better allow his name to go before the legislature. In that case he is said to prefer the selection of Mr. Meyer to succeed him.

FOR PARCELS POST. Postmaster General Recommends Service on Rural Routes.

Washington, Nov. 25.—In his forthcoming annual report, Postmaster General Hitchcock will renew the recommendation he made a year ago for the introduction of a limited parcels post service on rural mail routes. The postmaster general believes that as soon as the postal savings system is thoroughly organized the post office department should be prepared to establish throughout the country a general parcels post.

As the preliminary step in the development of such a service, he hopes Congress will authorize the delivery on mail routes of parcels weighing as high as eleven pounds, which is the weight limit for the international parcels post.

This form of service can be conducted with little, if any, additional expense to the government. It will not require the appointment of more carriers, for those already employed have the necessary equipment in the way of horses and wagons to distribute the parcels as well as the ordinary mail. A rural parcels post of the kind proposed, if successfully conducted, officials say, would probably lead to a more general system.

Mr. Hitchcock believes that before the parcels service is extended generally definite information should be obtained as to the nature and volume of the business to be handled. He will urge that in conjunction with the experiment on rural routes a further inquiry be authorized by Congress in order that the department may be in a better position to develop the system on conservative lines. He will recommend that a special appropriation for the inquiry be granted at the coming session.

FALLS DEAD AT THROTTLE

Engineer Expires With Train Going 40 Miles An Hour.

Racine, Wis., Nov. 25.—The lives of 300 passengers on train No. 6 on the Chicago, Milwaukee & St. Paul road, hung in the balance Thursday when Michael Crowley, the engineer, was stricken with apoplexy at his post and died while the train was running 40 miles an hour.

The fireman, noting that the engineer did not sound signals, called to him, and receiving no answer went to Crowley and found him dead. The fireman stopped his train and backed into Corlies.

HERE'S one of the many good ideas in Fall Overcoats; the Chesterfield, silk lined, faced to the edge; a gentlemen's garment. Whatever your idea of just the kind of an overcoat you want, we've probably got it in this specially chosen line of

MANDARIN IN PAUPER GRAVE

Boxer Leader's Body Found in Colorado After Eight Years.

Denver, Nov. 25.—After a search lasting eight years in which the aid of the United States government was enlisted, the body of Prince Yilan Chow Cun, a leader in the Boxer uprising, was found in the pauper part of a cemetery at Alamosa, Cal.

The body was clothed in mandarin robes with yellow pocket and peacock feathered cap, enclosed in a splendid coffin emblazoned with golden dragons, and Thursday was started on its return to China, where it will be interred.

Prince Yilan fled from China after a yellow silk cord, the Chinese order to commit suicide, had been given him. He was a cousin of Emperor Kwang Su. He died of tuberculosis among poor Chinese who did not know his identity.

KIPLING'S MOTHER DEAD

She Was Miss Alice Macdonald, Daughter of a Wesleyan Minister.

London, Nov. 25.—The mother of Rudyard Kipling died Thursday.

Mrs. Kipling was Miss Alice Macdonald, daughter of the late Rev. George B. Macdonald, a Wesleyan minister. Her sisters married Sir Philip Burne-Jones and Sir E. J. Poynter. She was married to John Lockwood Kipling in 1855. Mr. Kipling is living at Tisbury, Salisbury. He lived for many years in India, with her went soon after his marriage. He was architectural sculptor in the Bombay school of art and was curator of the Central museum at Lahore. They had two children, Rudyard Kipling and a daughter.

Communal Loyalty

There is nothing so beneficial for a community of human beings, large or small, as loyalty to whatever good object is advocated by such community. Disloyalty to town and state is the most dangerous element that can happen and it is preaching broadcast that a town is no good and that a state is no good that will do more damage in one year than it will take 25 years to overcome.

A person who scatters a wrong impression of a town to avenge a fancied grievance is little better than the monster called, "Gossip," which has separated families, driven people of good intentions to social sequestration and spoiled the lives of thousands of defenceless persons who had not the courage to refute what was said against them, by "living it down."

It is a pretty good plan to look upon the benefits we receive with a spirit of thankfulness, and with satisfaction in small ways we may be favored with improvements of greater magnitude.— Windsor Journal.
