

The SUNNY MONDAY Smile

SUNNY MONDAY washes so easily and quickly—requires so little elbow effort—that the usual wash-day frown gives place to the Sunny Monday smile. The dirt-starter in Sunny Monday is the magic ingredient that does the trick. Saves rubbing—saves clothes. Sunny Monday is white and contains no rosin. It's the safest laundry soap in the world for finer fabrics—and best for all kinds.

"Doctor's Daughter"

Blood Builder--Nerve Tonic

All the Name Implies

Best for Catarrhal Conditions, Builds and Tones up the system. Just the thing for pale people.

Nothing on Earth Like It for Run Down Conditions.

Dear Doctor's Daughter: I knew your father and grandfather, and I wish every one knew as well as I do what two wonderful doctors they were. I was in the hospital last winter eight weeks, and when I came out I commenced taking your Blood Builder and Nerve Tonic, and there is nothing on earth like it for run-down condition and nervousness. It has built me up wonderfully. I know of so many cases right here in Providence that your Stomach-Rite has cured that I thought I ought to write and tell you. You are doing a great work, and that you come from the celebrated Wilbur family of doctors is all that is needed to have faith in your medicine. If the public had only known you before, human suffering would have been far less.

\$1,500,000
7 Per Cent Cumulative Preferred Shares of the

United States Metal Products Co

Incorporated under the Laws of the State of Massachusetts

The business is the manufacture and sale of metal doors, window frames, interior trim and kindred products, which have been placed in nearly all of the large buildings that have been constructed during the past few years, and is constantly growing owing to the more stringent laws governing the erection of new buildings and the increased cost of wood products.

No bond or mortgage can be placed upon the property without consent of two-thirds of Preferred Shares outstanding, thus to all intents and purposes making this issue practically a mortgage.

Average net earnings for past three years of the companies acting independently and in competition have been \$337,813.43 or in excess of 22 per cent on the Preferred Stock to be issued.

Net quick assets are nearly equivalent to the entire Preferred Stock issue. This issue of Preferred Shares has been underwritten by responsible bankers and individuals.

September 1st, 1910, the Company had unfilled orders on its books equivalent to 85 per cent of the entire business of the preceding year, since which time it has booked many large contracts.

We offer above 7 Per Cent Cumulative Preferred Shares at \$100 each, together with a bonus of 10 Per Cent common stock.

Should the investor not care to avail himself of the Common Share bonus we will repurchase the same at \$40 per share, thus making the price of the Preferred Shares \$96 net.

We recommend this security as a safe and conservative investment. We further believe that the Common Shares will pay a substantial dividend.

The I. O. G. T. gave Mr. and Mrs. Ernest Witham a reception at their hall last Saturday evening, presenting them a purse of money. Refreshments of sandwiches, cake and coffee were served and a pleasant evening passed by a goodly number of Templars.
One of the finest entertainments of the season was given in town last Tuesday evening by the pupils of Cabot high school at their speaking contest. The hall was filled to its utmost capacity with attentive and interested listeners. The pieces were perfectly committed and well rendered. There was no break or prompting through the thirteen selections. An orchestra of five pieces furnished music. A duet by Prin. Gilmore and Miss Florence Houghton, and a violin solo by Daniel Smith, added to the enjoyment of the evening. Remarks by Harvey Burbank of Danville consisted of good advice and praiseworthy sentiments to the speakers and their principal. Prizes were awarded to Miss Jennie Webster, first, Miss Bernice Preesay, second, and to two gentlemen, Merrill Barrett, first, Paul Hopkins, second. Excellent honors were extended to Miss Lila Lawson and Maurice Walbridge. After the exercises were over, the principal and students went to the Congregational vestry, to do justice to the tempting viands which filled the tables, under the supervision of the ladies of the village and adjoining districts. The proceeds of the supper are to be used for the benefit of the pupils of the high school. Much credit is due Prin. Gilmore for his untiring efforts, patience and perseverance in training the speakers, as well as to the pupils for their determination to do their best. There will be another contest during the spring term by the prize winners of the several contests which have been given.

AMUSEMENT NOTES.
A Real Comedian Coming to the Opera House Saturday.
Those who saw Phil Ott when he appeared here last season will be sure to take notice when the announcement is made that a return has been booked for him and his comedians in the near future.
This season he has surrounded himself with several new artists whose peculiarities are particularly adapted to the characters assigned. The musical comedy, "The Explorer," is brand new, and of the whirlwind-laugh-provoking kind.
There isn't a dull moment from the very rise to the final ringing down of the curtain. Something is doing every instant. The wonder of it all is how anyone can conjure up so many excruciatingly amusing situations, each following one upon the other in a perfectly natural way; there being no such thing in evidence as reaching and straining for points.
That Mr. Ott has won for himself a warm spot in the esteem of theatre goers is evidenced by the increased receipts wherever he has thus far played return engagements, capacity being the rule everywhere his company has appeared this season.
The engagement will be for next Saturday, matinee and night, and the fact that popular prices are to prevail will make the announcement doubly attractive since critics as well as public, recognize in Mr. Ott an artist in the truest sense of the word, one without a superior at any price or any stage.

MARSHFIELD.
On the 7th of March, the C. E. society will give a "7" social in the Congregational church. Doors open at 7:07. A program of 7 numbers will be given at 7:17, after which a 7-cent supper, consisting of 7 good things to eat and to drink will be served by 7 waiters. Admission 7 cents and every 7th person admitted free. Exit for 7 cents. Come and bring your friends and receive a 7-fold welcome.

MONTPELIER.
Creamery Proprietor Summoned to Court for Selling Watered Milk.
Charles F. Edity of the Montpelier creamery has been notified to appear in court March 9 to answer to the charge of selling watered milk. The penalty is not less than \$30 nor more than \$100 fine. When the reports of the analyses of various samples of milk sent from this city to Burlington were received, it was found that milk taken at the Montpelier creamery, said to come from the Lackey farm, had been watered. When health officer Lindsay brought the matter to the attention of Manager Mix of the creamery, he said the milk from that farm had not been sold to customers, as he knew it had been watered and had so stated to Mr. Lackey, who was apparently surprised. Mr. Mix said that milk had been run through the separator but not dealt out to customers since they made the discovery. The case had to be brought against the creamery company, as that was where the sample was secured.

Costs Little, But Does the Work Quickly, or Money Refunded.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 7/8 ounces of Pinex (fifty cents worth) in a pint bottle; then add the Sugar Syrup. Take a teaspoonful every one, two or three hours as you feel the need of it.

You will find that this simple remedy takes hold of a cough more quickly than anything else you ever used. Usually ends a deep seated cough in a matter of 24 hours. Splendid, too, for whooping cough, chest pains, bronchitis and other throat troubles. It stimulates the appetite and is slightly laxative, which helps end a cough. This recipe makes more and better cough syrup than you could buy ready made for \$2.00. It keeps perfectly and tastes pleasantly.

Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in galuic acid and all the natural pine elements which are so healing to the membranes. Other preparations will not work in this formula.

This plan of making cough syrup with Pinex and Sugar Syrup (or strained honey) is proven so people far throughout the United States and Canada that it is often imitated, and the old, successful formula has never been equalled.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

The Sirolin Sentinel

Sirolin (Pronounced Si-ro-lin): The celebrated Swiss remedy for coughs and colds.
BARRE, THURSDAY, MARCH 2, 1911.

Rainy Day Don't's

- Don't wear thin-soled shoes on rainy days.
- Don't fail to change your damp clothes immediately when coming in out of them.
- Don't forget to have a bottle of Sirolin in the house, and take a few doses as a cold-preventer, for the old saying that "An ounce of prevention is worth a pound of cure" is as true today as ever.
- Don't leave your umbrella somewhere and forget where you left it.
- Don't fail to eat plenty of warm, nourishing food and wear clothes that are loose and warm.
- Don't forget that Sirolin has no depressing effect. It invigorates the system and kills the "blues."

Stop That Troublesome Cough.

Sirolin Will Do It.

This Famous Swiss Remedy Comes to America.

There are many people who expect to have a prolonged cold every Spring and Fall. They are accustomed to it, and regard its disagreeable symptoms as part of the inevitable annoyances of life. They look for the attack to "wear off" in time—and it generally does. But every long-standing cold leaves its weakening effects on the system, and especially on the delicate membranes of the lungs. It turns the system into a fertile field for pneumonia, chronic catarrh, or that dread disease—Consumption.

The moral is: Don't wait for a cold to "wear off." Break it up as soon as it begins.

Keep a Bottle of Sirolin at Home

Sirolin is the world's best remedy for coughs, colds, and other affections of the respiratory organs. It is a preparation made by European chemists, and it has reached the highest mark of achievement in the successful treatment of pulmonary disorders. Sirolin comes to America with an unequalled European reputation. A prominent physician says: "The use of Sirolin for the treatment of colds, coughs and other affections of the lungs, is the greatest step forward in the treatment of these disorders that has been made in many years."

The difference in action between Sirolin and the ordinary remedy for colds is principally this: The ordinary remedy—whether in the shape of a liquid, or pills, or tablets—

gives a feeling of depression. It adds an additional weakness to an already lowered vitality. It affects the appetite and digestion unfavorably, and creates a sense of fullness in the head.

On the other hand—Sirolin strengthens the system; enables it rapidly to throw off the effect of a cold; encourages the growth of new, healthy tissue; dispels the "blues" and relieves all distress almost immediately. It gives tone to the stomach, and builds up the appetite.

It promotes a secretion which dissolves and expels the congested phlegm in the nasal and bronchial passages, thus promoting the expulsion of accumulated secretions. The cough is alleviated through the invigorating action of the Sirolin upon the mucous surfaces of the respiratory channels. The continued administration of Sirolin exerts a tonic and reconstructive influence upon the membranes until the tendency to cough ceases.

How Sirolin Relieves a Cough
