Under Any Other Name You Must Wait Two Years for This Car

THERE are well-known cars that are admitted copies of other makers. Every successful design is imitated by less clever manufacturers, Howard E. Coffin before designing the HUDSON "33" had produced four eminently successful cars. Those cars today serve as models for many manufacturers. In motor and chassis design, there are many cars under as many different names that are precisely like some of his earlier designs.

THE HUDSON "33" is his latest and greatest car. It is simple and is the result of his experience with all of his previous models. Already there are makers who are preparing to bring out under their names, cars that are exact copies. But two years is the shortest time in which they can produce their copies and that is why you must wait two years to obtain such a car as the HUDSON "33" under any other name.

OUR allotment of HUDSON "33s" is limited. Only a few are to be had in this territory. When they are gone no more orders can be accepted. Come see this car. It accurately represents the type of automobile that will be generally shown by many makers in 1913. After you have examined it, then decide if you want a car two years in advance. But you must place your order early to be assured of getting it.

The HUDSON "33" is furnished in three types: a Touring Car at \$1,400, a Pony Touring at \$1,450 and the Torpedo at \$1,500. These prices include complete equipment, with dual ignition system, including Bosch magneto, mohair top, Prest-o-Lite gas tank, gas and oil lamps, tools, repair kit, etc. These prices do not include freight from Detroit.

MARSHFIELD.

Fine Work Done By the Ladies For Village Improvement.

Since organization in June, 1909, the ladies have installed and maintained eighteen street lights. It was also through the efforts of this society that an act incorporating the village of Marshfield was granted by the last legislature. About a year ago the ladies, assisted by local talent, presented to the public a minstrel show, that most laudable of entertainments, from which over \$100 was realized. The latest financial scheme, that of presenting little socks to the former and present residents of Marshfield, in which they placed the amounts desired, returning the same to the worthy secretary, proved successful beyond expectation. The generous amount of \$50 was received from this. The ladies wish to extend thanks to each and every one who helped to bring about this great success, those who responded either by sending money or loaning the typewriters, and not least in importance, the ones who made the socks. The society now has over \$50.00 and is very anxious to keep adding to this, that it may help to make our little town more attractive. The next very laudable ambition is to see some permanent improvement in sidewalks. Let every one help all they can in this good work.

At the regular quarterly meeting of the Village Improvement society, held at the home of Mr. Clara Shortt, April 3, the following officers were elected: President, Mrs. Maude Davis; vice president, Mrs. Lillian Davis; secretary, Mrs. Nellie Pitkin; assistant secretary, Mrs. Flora Bliss; treasurer, Mrs. Clara Shortt; executive committee, Mrs. Ella Lilley, Mrs. S. Adella Swedinger and Miss Anna Burnham; electric light committee, Mrs. Mary Spencer and Mrs. Flora Bliss.

A Freak Tune.

At one of the Yorkshire inns there is a pianist who can vamo to any song that any singer wishes to sing. He cannot read a note of music, yet in the local vernacular, he "can play out." Recently, however, he met with an unexpected check. A man hummed over an air, but the pianist failed to get the key. "Let's try it again," he said; and they tried it again. Still it was of no use. A third trial brought no better result. Then the pianist turned to the singer in anger and said: "Sitha, Aw've tried this on t' white 'uns. Aw've tried this on t' black 'uns, and Aw've tried this on t' black and white 'uns mixed. It's no use; tha's singer between t' cracks!"—Tit-Bits.

EAST BARRE.

Mrs. W. E. Bixby has just received a new stock of millinery goods, including all the latest styles.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink. The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.
