

# Miss Hope Principal of Boston Public Cooking School for 15 years, says of **Crawford Ranges**

"I have used several makes of ranges but consider the **Crawford** the best. It uses less coal and gives a more even heat than any range I ever saw."

The **Single Damper** (patented) affords the only perfect control of fire and oven.

The **Oven** has no "cold corners" nor "scorching spots," because of the cup-joint heat flues.

The **Two Hods** in the base, one for ashes instead of the old clumsy ash pan, and one for coal, is a wonderful trouble-saving idea.

**Patented Grates.**

Ask the **Crawford** agent to show you. Write us for circular.

Walker & Pratt Mfg. Co.  
31-35 Union St., Boston

### TOPSHAM.

A. B. White was in Washington on business last week.  
Harry Currier has hired out to J. K. White for the summer.  
C. B. Fiske has been confined to the house with the prevailing distemper.  
Robins have made their appearance, which is a sure sign spring is coming.  
Miss Alice White is working for her sister, Mrs. J. A. White, through the sugar season.  
Erwin Hood went to Hanover hospital last Tuesday and it is reported he had a successful operation for appendicitis.  
Leland McKinley has been released from quarantine at Montpelier for scarlet fever and is stopping with his parents for a short time.  
Mrs. C. N. Fox has been confined to her bed for several weeks with heart trouble and is stopping with her parents, who are convalescing slowly.  
Mrs. Walter Hood has been spending

### EAST BARRE.

Mrs. Fred Labounty is spending the week at the home of Mrs. Frank Ladd of Plainfield.  
A delightful musical party was given last Wednesday evening by the ladies auxiliary at the home of Mr. and Mrs. H. E. Sargent. A large number attended.  
A son was born to Mr. and Mrs. Osman Thompson, a daughter to Mr. and Mrs. Chandler the past week.  
"The Trouble at Satterlee's" is a popular play, full of clever humor, and brilliant dialogue. Hear it Easter Monday evening in opera hall. A full and supper follow the play. Grand promenade at 9:15.

### MONTPELIER.

#### Door Weighing 600 Pounds Fell on Boy.

—Paralyzed From Hips Down.

Carlyle Coates, son of Mr. and Mrs. J. M. Coates, who live at the Langdon farm, was badly injured Saturday when a big barn door, weighing six hundred pounds, fell upon him. No bones were broken, but he was paralyzed from the hips down. The boy and a younger brother were in the barn together, the father having just left, when Carlyle picked up an iron bar and raised the door in the center, physics it from the rollers. He had no time to get out of the way himself, but saw the danger in time to warn his brother, who ran to the house to notify the family. Physicians called, said the boy could not have lived three minutes longer under the weight. They are inclined to think that the present paralysis of the boy's body is due to the shock and that he will recover.

Mrs. Myrtle Stanton of Worcester, Mass., daughter of Mr. and Mrs. M. D. Fowler of this city, was married Friday to Louis King of Worcester.

Rush Estee of New York City, son of Mr. and Mrs. J. B. Estee of this city, is to be one of the ushers at the wedding of Jay Gould and Miss Annie Douglass Graham, to take place April 29.

The window of the city clerk's office looks like a bill board with the seventy liquor license notices posted there. Notices were posted Saturday on all the places from which applications for licenses were made.

The commencement speakers of the high school have been chosen as follows: Valetorian, Florence Reed; salutatorian, Marjorie Jones; Katherine Berry, Guy Hale, Florence Perkins, Clarence Pike, Harold Pape and Edward Richardson.

A sentence of three months was imposed upon Edson Martin and Roy Davis, the two boys who confessed to stealing a case of lager beer from the railway station at Duxbury. Sentence was suspended and the boys allowed to go on probation.

The home of Henry Cerro on Barre street was raided Saturday and 40 pints of whiskey seized. Cerro was arraigned before Judge Harvey on the charge of keeping with intent to sell and his hearing set for Wednesday. He was unable to secure bail and is in jail.

Samuel Rich Waite of Woodbury and Miss Ruth Ella Gray of Calais were married at the Congregational parsonage last night by Rev. S. F. Blomfield. They were attended by Miss Aida C. O'Neil, a sister of the bride, and Eldon C. Austin. Mr. and Mrs. Waite are to live in Woodbury.

The records and files of the Wells River road have been sent to the new headquarters at Boston and the clerks who were in the offices here, have been disposed of as follows: J. H. Moyer, J. C. Callan and Misses Lemay and Dodge have gone to the Boston office. A. S. Howard has been transferred to the local freight office and Miss Florence Seguin has been transferred to the office of General Manager F. W. Stanley.

Angelo Lamperti was fined \$25 and costs of \$5.14 in city court yesterday for taking wood from a lumber pile of Ryle & McCormack. Special Officer Ted Sloane, who patrols the stone shed districts nights, was in the vicinity of the shed yesterday morning about 3 o'clock and caught Lamperti removing the wood. He was arrested and at the trial was not represented by counsel.

Mrs. Emma Waterman, worthy matron of Rob Morris chapter, O. E. S., announced the appointment of the following officers of the chapter Saturday: Mrs. Mabel Colby, Adah; Mrs. Kate Buzzell, Ruth; Mrs. Fannie Wheatley, Esther; Mrs. Jennie Andrews, Martha; Miss Grace Martin, Electa; Mrs. Victoria Ordway, chaplain; Mrs. Hattie Tracy, marshal; Mrs. Lottie Mills, pianist; Mrs. May Roberts, warden; D. P. Barbour, sentinel.

The members of Volunteer Hose company No. 1, met at Miller's inn last night and held their annual banquet and business meeting. The company was organized in 1884 and left the service in 1906, but has kept up its organization. Once a year the members meet for a good time. These officers were elected: President, George B. Walton; vice president, J. M. Buntwell; secretary, George M. Goss; first assistant, W. H. Woodard; second assistant, W. W. Foster; auditors, G. L. Blanchard, C. S. Whittier and M. W. Whislock; banquet committee for next year, J. G. Brown and J. A. DeBoer.

### WILLIAMSTOWN.

James Gregory has sold his cottage at the rear of the Universalist church, to Herbert N. Farnham.

There will be a special meeting of the Village Improvement society on Thursday evening at 7 o'clock prompt.

Mrs. Lucia Sibley went to East Brookfield yesterday to attend the funeral of Mrs. Nathaniel Wheatley, at which Rev. D. H. Strong of this place officiated.

Some lady, by mistake, took a new pair of No. 3 rubbers belonging to Miss Ruby Wright at the Congregational church a week ago, leaving an older pair of No. 4.

The Christian Endeavor society will have its regular meeting at the Congregational church to-morrow evening, Topic, "Painting the States White" (temperance topic).

Any one who knows of soldiers buried in any cemetery in this town, whose graves have not heretofore been decorated on Memorial day, is requested to report the same to the officers of the Grand Army post. This is intended to apply to soldiers who fought in any war.

At the Palm Sunday service at the Congregational church yesterday morning, a special feature was a select quartet of female voices in place of the regular mixed quartet. In the rendering of particular selections without the organ, there was a peculiarly pleasing effect. A rather curious circumstance was that simultaneously at the Methodist church a double quartet of male voices was doing the work of the choir. As the two churches had interchanged singers to some extent, it was all in good part.

### EAST BARRE.

Mrs. W. E. Bisby has just received a new stock of millinery goods, including all the latest styles.

### EAST BRAINTREE.

#### Death of Mrs. Reuben Norman on Last Wednesday.

The whole community was shocked and saddened Wednesday morning, March 29, when it was learned that Mrs. Reuben Norman had passed away during the night, of hemorrhage of the brain. Acha Elvia Tyler was born in Malone, N. Y., July 27, 1856. She was married to Reuben Norman, Nov. 17, 1871. To them were born eight children, six daughters and two sons, all of whom are living. They lived in New York and Bridgport, Vt., before coming here, which was 18 years ago, when they rented the V. L. Spear farm and lived there until 5 years ago, when they bought the house where they have since lived. For several years her health has not been very good, but still she continued to work. About a year ago, while helping move some furniture, she was struck on the head by a chifonier and badly hurt, and this might have been a minor cause of her death. It can be said of her, "She hath done what she could; she hath looked well to the ways of her household; she hath gone on for her reward and her children shall rise up and call her blessed." She united with the church here. The funeral was held from the church Thursday afternoon, Rev. Fraser Metzger officiating. Besides the immediate family she left two own brothers, W. W. Tyler of Randolph and Wade Tyler of New York, who has been staying with Mrs. Norman this winter; an own sister, Mrs. James Morse of Appleton, Wis., and several half-brothers and sisters. The family have the sympathy of the entire community in their bereavement and especially the youngest daughter, Lena, who has been her mother's constant companion.

David Phillips has begun working for C. H. Mann.

Mrs. Erwin Whitecomb of Boston visited at Ernest Boyer's last Saturday.

Miss Lena Norman is going to work for Mrs. Eugene Chadwick this summer.

Wilbur Norman has taken Loren Churchill's farm on Bear hill and moved there last Saturday.

Miss Della Untiedt is sick with the chickenpox, while Miss Cora Bowman has also sick with scarlet fever.

Mrs. Eusebia Simonds went to Roxbury last week to visit her sisters, brothers and other relatives there.

Pearl Rand is moving from his farm in Roxbury and will for the present live with his father-in-law, Reuben Norman.

Mrs. Roy Poor, who has been here several weeks with her parents, Mr. and Mrs. E. H. Chadwick, went to her home in Sandy Hill, N. Y., Saturday.

### RANDOLPH.

Mrs. H. W. Holden is quite ill with pneumonia.

Two cases of scarlet fever have developed, both cases being the Prentice girls, belonging to the same family.

Mr. and Mrs. Elwin Scott of Barre arrived here Saturday for an over-Sunday visit with Mr. and Mrs. J. J. Treise.

Mrs. Will Luther of Northfield arrived here Saturday and was the guest of Mrs. S. S. Whitcomb and went out to Bethel Gilead to visit an aunt, Mrs. Rindge.

Miss Cora Holbrook left here Saturday to pass Sunday with relatives in the city, and the middle of the week will begin work in the millinery establishment of W. R. Messer.

C. N. McCall was delayed from his trip to New York as he planned to go, and is now ill with an attack of pneumonia. Mrs. James McCall will remain here till he is able to leave for the city.

Mrs. E. R. Draper has returned to Boston where she has a position as housekeeper in a family of three. Her household goods were sold at auction on Saturday.

Mrs. Leon Amsden left here Saturday for Lebanon, N. H., where she will remain till after Easter, and then proceed to Leominster, Mass., to visit Miss Marcia Amsden for a few weeks.

It is expected that the school opera will be repeated about May 1st, and this may delay the entertainment which was to be given by the Choral Union, as Music hall will be used for both entertainments.

Mrs. Sophia Spaulding from Washington, D. C., who slipped here on the ice this winter, and has since that time been with her brother, Lyman Hutchinson, has so far recovered, as to be able to start for her home some time week.

The funeral of Luke Parish, whose death occurred March 6 in Texarkana, Arkansas, will be held at Randolph Center, in Grace church, Wednesday, April 12, at 3 p. m. Services will be conducted by Rev. A. C. Gilmore, assisted by Dr. Homer White and Rev. Edward H. Randall of Poultney, Vt.

The Christian Endeavor society of the Federated church held a penny social at the vestry of the Methodist church on Friday evening, which was attended by about 40 young people, and was a highly successful affair, as to enjoyment, and it added a little sum to the treasury of the society.

Mr. and Mrs. G. B. Fish of Stockbridge were the guests of Mr. and Mrs. A. B. Fish on Saturday night, and Sunday morning went on to Richmond to visit Mr. and Mrs. Ernest Fish, and to Burlington to see Mrs. Kezer, a sister of Mrs. Fish, who is in the hospital recovering from a surgical operation.

### GRANITEVILLE.

Meeting of Court Rob Roy, No. 6, F. of A. at Miles' hall, April 11. All members are requested to attend. Per order financial secretary.

Dyspepsia is our national ailment. Burdock Blood Bitters is the national cure for it. It strengthens stomach, membranes, promotes flow of digestive juices, purifies the blood, builds you up.

Any skin itching is a temper-tester. The more you scratch the worse it itches. Doan's Ointment cures psoriasis, eczema—any skin itching. At all drug stores.

"I have been somewhat constive, but Doan's Regulents have just the results desired. They act mildly and regulate the bowels perfectly."—George B. Krause, 306 Walnut Avenue, Altoona, Pa.

A specific for pain—Dr. Thomas' Electric Oil, strongest, cheapest liniment ever devised. A household remedy in America for 25 years.

## Compare These Facts When You Choose a Motor Car

THE first appeal that the HUDSON "33" makes is its wonderful simplicity. The noticeable lack of wiring, exposed valve mechanism and numerous other parts found on other cars, shows how this design is an improvement over all others. That is one fact to compare with other cars. Notice in detail the finish and the character of materials and the type of bearings that are used in the HUDSON "33." The paint and coach work is equal to that used upon cars selling at \$1,000 above that asked for the HUDSON "33."

EXCELLENT machine buffed leather is used in the upholstery. Grease cups are used on all spring shackles and leather boots are placed on the steering connections. The steering wheel is the same size as that used in the highest powered, most expensive cars. Nickel steel is used in the rear axle. Roller and ball bearings are used in the wheels, transmission, differential and rear axle. Every little device that adds to the wearing qualities of the car and the comfort and convenience of the passengers is used. So you can compare the HUDSON "33" here as it was possible at the various automobile shows, where it stood alongside of practically all the leading cars sold in America. You can then see why the HUDSON "33" is considered the greatest bargain of the year.

OUR allotment of HUDSON "33s" is growing extremely short. There will not be enough for all who will want them. Those who decide upon a HUDSON must place their order early if they are to get one this year. This advertisement is an invitation for you to make a comparison—to look at the car. Weigh its advantages with that of any other car you have in mind selling within \$1,000 of its price. If you decide upon a HUDSON, to assure yourself of obtaining delivery, place the order now. In no other way will you be certain of getting the HUDSON "33."

The HUDSON "33" is furnished in three types: a Touring Car at \$1,400, a Pony Touring at \$1,450 and the Torpedo at \$1,500. These prices include complete equipment with dual ignition system, including Bosch magnets, mohair top, Prest-o-lite gas tank, gas and oil lamps, tools, repair kit, etc. These prices do not include freight from Detroit.

**Earl E. Parker,**  
308 No. Main St. Barre, Vermont.

### THE USEFUL IN EDUCATION.

Scientific Schools too Prone to Scorn "Literary" Elements.

That education is practical, of course, which trains the pupil to "do things." One of the things that he should be able to do, however, is to express himself; to formulate what thoughts he has acquired, to put them into shape that may be assimilated by others. That modern scientific education is neglecting this side of training in its effort to suppress everything that is merely "literary," is charged by Mr. L. de Launay in an article on "Literary Culture and Science" contributed to La Nature. This writer falls foul especially of the celebrated engineering schools of Paris, which he says are turning out pupils incapable of giving clear expression to what they know. We read:

"The first way of formulating thought is to understand one's own language, and the more fixed this language is—the more each of its conventional signs has a value that is irremovable and known to all—the more faithfully the thought will be transmitted from the speaker or writer to the hearer or reader. One of the great advantages of learning to express one's thoughts precisely and clearly in the dead languages, whence French is derived, is the fact that they are dead. We must add, in the case of Latin, its well-known qualities of conciseness and rigidity—its lapidary character which makes it the jurist's tongue. Some of these qualities reappear in French, which is a Latin tongue. . . . It goes without saying that we ought to know our own language first and to know it well. . . . Besides this, as we understand in principle, but have not sufficiently carried out, we should multiply our means of entering into communication with men of other lands. While waiting for a universal language, which we may one day possess—which Latin of French once was, and which Esperanto surely will never be—a young man must to-day know as many modern languages as possible. An engineer who desires to rise somewhat beyond routine and the earthly quality of his occupation should at least know English and German. . . . Finally, the last indispensable means of translating thought . . . is the graphic method. The rapid drawing—the sketch—which explains, and which records the explanation, is an indispensable tongue for the engineer and the scientist. At the risk of being paradoxical, I should say that in the education of an engineer, what seems to me most indispensable for immediate acquisition—is perhaps not so much mathematics—as modern languages and drawing."

Now the chief French engineering schools, Mr. De Launay goes on to say, are cutting out precisely these subjects on the ground that their omission is a step toward democracy. "The students graduate from these schools who are quite incapable of asking in a foreign factory what is the horsepower of an engine or the tonnage of a furnace? Why not suppress examinations altogether, he asks, and admit by lot? American schools have not yet reached this point, and the advocates of the older education are hoping that they may never attain it.—Literary Digest.

Where He Ought to Be.

Mahlon Ivins, jr., of Merchantsville has a reputation as an actor and takes part in nearly all of the local shows. In the last show that was given "Shorty" had one of the leading parts. After the show, while he was taking off his makeup, an elderly man made his appearance in the doorway. "Are you Mr. Ivins?" inquired the old man. "Yes," replied "Shorty," as he motioned him to be seated. "Well," the old man continued, "I just want to tell you something. I've been watching your acting to-night. You should not be acting in this town; you should be with Mansfield, Booth, Irving or Joe Jefferson."

"Why," said "Shorty," "those actors are dead." "I know it," said the old man, as he turned on his heel and left.—Philadelphia Times.

### PLATINIZED GLASS.

It Produces an Odd and a Tricky Kind of Mirror.

Platinized glass consists of a piece of glass coated with an exceedingly thin layer of a liquid charged with platinum and then raised to a red heat. The platinum becomes united to the glass in such a way as to form an odd kind of mirror. The glass has not really lost its transparency, and yet if one places it against a wall and looks at it he sees his image as in an ordinary looking glass. But when light is allowed to come through the glass from the other side, as when it is placed in a window, it appears perfectly transparent. Like ordinary glass. By constructing a window of platinized glass one could stand close behind the panes in an unilluminated room and behold clearly everything going on outside, while passersby looking at the window would behold only a fine mirror or set of mirrors in which their own figures would be reflected while the person inside remained invisible. In France various tricks have been contrived with the aid of this glass.

In one person seeing what appears to be an ordinary mirror approaches it to gaze upon himself. A sudden change in the mechanism sends light through the glass from the back, whereupon it instantly becomes transparent, and the startled spectator finds himself confronted by some grotesque figure that had been hidden behind the glass.—Harper's Weekly.

### The Point of View.

The world in which a man lives shapes itself chiefly by the way in which he looks at it, and so it proves different to different men. To one it is barren, dull and superficial; to another, rich, interesting and full of meaning. On hearing of the interesting events which have happened in the course of a man's experience many people will wish that similar things had happened in their lives, too, completely forgetting that they should be envious rather of the mental aptitude which lent these events the significance they possess when he describes them. To a man of genius they were interesting adventures, but to the dull perceptions of an ordinary individual they would have been stale, everyday occurrences.—Schopenhauer.

## Easter Showing of

### ADLER'S COLLEGIAN CLOTHES

possess all the important points mentioned below.

The reputation of ADLER'S COLLEGIAN CLOTHES is second to none.

They possess a dignity not found in any other make of men's garments.

AWAY FROM the ORDINARY READY-MADE CLOTHES, you have an unlimited choice of exclusive styles to select from, and you can absolutely depend upon the make.

Every garment is executed by the best tailors in the land.

## Style Quality Make Economy

See This Make Before Purchasing Your Easter Suit

Lamorey Clothing Company

## Have You Been in to See Our New Spring Stock?

You cannot go wrong in choosing your spring outfit here. We have the right kind in suits and raincoats—the A. & A.
