

SHUTOUT FOR THE OPENER

Goddard Whitewashed by the Barre Athletic Club, 5 to 0

ERRORS WERE FREQUENT

Both Davidson and Fowlie Pitched Fine Ball and Kept the Few Hits Well Scattered—Day Was Poor for the National Game.

The baseball season of 1911 opened in Barre at the campus Saturday afternoon when the Barre Athletic club administered a 5 to 0 shutout to the Goddard seminary team. The sky was overcast with heavy clouds and a chilling wind sweeping over the diamond early prophesied the rather indifferent brand of the national game that followed the umpire's call at 3 o'clock. Notwithstanding the weather, however, a large crowd of real fans were on hand to show that the baseball bug was still alive after lying dormant all winter. Altogether, perhaps 400 people were there to shiver through nine innings of baseball that seldom called forth any marked degree of enthusiasm or excitement. Both teams showed up in fairly good form, considering the fact that it was the opening game of the season.

Fielding features were few and the work of both pitchers, Davidson and Gabeloni, far outshone that of their teammates. Davidson had the seminary boys guessing at nearly every stage and pitched like a veteran in spite of his youth. Gabeloni had his old teammates chasing slants at the very outset and apparently did not weaken as the game progressed. Runs made were usually due to faulty fielding rather than stick work. He will be a prominent factor in the seminary's season if his work Saturday is any indication of what is to follow.

McLeay, in the seminary's center field, picked a pair of flies out of the clouds that helped to keep the score down. Fowlie, for the athletics, and Louis, his opponent behind the bat, both caught consistently. The former came in for no little applause by pulling down two difficult fouls. Other features were few and far between.

Scoring started in the fourth inning when R. Wright lifted a single into left field and took two bases. Davidson was next at bat but fanned. L. Wright followed with an easy grounder to pitcher and died at first. McKenzie, next up, got a life at first on Scott's error, Wright going to third in the meantime. With two men on bases and two down, Tongway sent a grounder to Lee at short. The latter sent the ball wide at first and two runs resulted from the confusion. Nute followed with a fly to center, and scoring ended for the time.

With one man down in the seventh Tongway, by singling to left field, started something that netted three more runs. Nute followed with an easy fly to pitcher, but a single into left by Johnson advanced Tongway to second. Fowlie, next up, drew a free pass, and all three men came romping home a second later when Lee booted Majden's grounder and Louis failed to field a throw from first. The side was retired when R. Wright proved an easy out, Scott to Tinkham.

Goddard had few chances to score but ineffective hitting and clever work by Davidson prevented. In the second inning Richardson drew a pass after two men were down and went to second when McLeay drew a similar ticket. Lee, however, fled out to Johnson and retired the side. With one out in the fifth, Lee got a life at first on Malden's miscue and advanced to second on Tinkham's single to left. Priest sacrificed him to third and Gabeloni, next up, gained first by being hit. This side was retired when Richardson sent an easy grounder to the box, leaving Lee on third. The score:

Barre A. C.	ab	h	po	a	e
Malden, 3b.	4	0	0	1	4
R. Wright, lb.	1	1	1	0	0
Davidson, p.	4	0	0	1	5

MEYER ORDERS AN APOLOGY TO GIRL

Slighting Remark Was Made About Her at the Naval Academy.

Washington, April 24.—An apology from Capt. John M. Bowyer, superintendent of the United States naval academy, to Miss Mary H. Beers and her father, Professor Beers, of Yale, has been ordered by Secretary of the Navy Meyer for a slighting remark about Miss Beers made by someone at the academy as a result of her attendance at a recent hop there.

Miss Beers was governess in the family of Lieut. Tarrant, and her escort was afterward informed that he should not have invited the young lady because of her position.

In explaining the incident in a letter to Representative Korbly of Indianapolis, who called the matter to his attention, Secretary Meyer said: "It grew out of a misunderstanding as to the status of the young lady." The secretary expressed the regret of the department and advised the congressman of the instructions for a letter of apology. This, however, does not satisfy Mr. Korbly, according to a statement he issued last night, in which he says, in part: "It asked for the facts, and the secretary of the navy has not given the facts. I shall repeat my request for the facts. I also regard the incivility shown to Miss Beers and the inevitable embarrassment she has suffered, but expressions of regret do not explain."

QUINCY'S LARGEST DERRICK.

Main Stick Is 125 Feet Long and Boom Is 95 Feet.

Quincy, Mass., April 24.—What is probably the largest derrick in Quincy was put into position on Friday at the Blue Hill quarry in the presence of A. C. Bennett, Alexander Falconer and Herbert F. Pierce, officers of the company. The main stick which was one of the masts of the schooner Palmer wrecked in Boston harbor, was 125 feet long or 15 feet taller than the largest derrick in Quincy. It is over 30 inches in diameter at the butt. The boom, although not the largest in Quincy, is 95 feet in length.

ON WEDDING ANNIVERSARY.

Wife of Representative Sereno E. Payne of New York Dies.

Washington, April 24.—Mrs. Gertrude Knapp Payne, wife of Representative Sereno E. Payne of Auburn, N. Y., for years Republican leader of the House and chairman of the ways and means committee, died here yesterday. She has been ill of liver trouble three months and her life ended on the 38th anniversary of her marriage to Mr. Payne.

KILLED BY TRAIN.

Thomas L. Shaw Victim on Woodstock Railroad Track.

White River Junction, April 24.—Thomas, a man about 45 years old, was run over and killed by a special train on the Woodstock railroad Friday night. Both legs were severed from the body and other injuries sustained.

Shaw recently completed a ten day sentence for intoxication and later was employed at Woodstock. He was in this place Friday and was heard to say he would have to walk back to Woodstock and is supposed to have been on his way at the time the accident occurred.

He is said to have come from New Hampshire and is not known to have any friends here.

ORATORY.

I've heard a Pullman porter yell the names of stations loud, I've stood while politicians tried to awe a moving crowd; I've strained my ear to catch a word and failed, but what of that? To this I listen every time the umpire doffs his hat:

"Ladies and Gentlemen: Batroz for She-Gog: Moster Blabla is the pitcher and Mister Gligli is the catcher; for Deo-troyt Mister Humfums is the pitcher and Mister Billili is the catcher."

Caruso in the phonograph and on the stage I've heard, Though of songs I've heard him sing I don't recall a word. But when the umpire doffs his cap and proudly lifts his hand, This is the little speech I strive and strain to understand:

"Ladies and gentlemen: Batroz for N'York—Mister Grrrrrr is the pitcher and Mister Billili is the catcher; for Deo-troyt Mister Wrrrrrr is the pitcher and Mister Biffiff is the catcher. For N'York—Mister Brrrrrr plays tumfuns in place of Mister Gligli."

I understand the umpire when he says a man is out, And of his meaning when he calls him safe there is no doubt; I understand the meaning of each movement of his hand, But I never yet have understood his speech before the stand:

"Ladies and Gentlemen: Batroz for St. Lewis—Mister Gllllll is the pitcher and Mister Farrrrrr is the catcher; for Deo-troyt Mister Brrrrrr is the pitcher and Mister Mmmmmmm is the catcher—Detroit Free Press.

PITCHER CRAIG DIES OF WOUNDS

Received in Struggle With a Burglar

ON LAST FRIDAY NIGHT

Tragedy at Mineral Springs Resort, Near Indianapolis, Where Craig Was in Training With Indianapolis Club.

Indianapolis, April 24.—George M. (Lefty) Craig, pitcher of the Indianapolis club of the American association, died last night from a bullet wound received in a struggle with a burglar at a Mineral Springs resort, the training quarters of the club, near the city, last Friday night.

The police have been unable to find a clue to the identity of the burglar. Craig's home was in Philadelphia. He was bought by Indianapolis last season from the Trenton, N. J., club of the Tri-State league. He was 24 years old.

STAYS SINGLE, PREFERRING BOSSING TO OBEYING MEN

If She Remains Unwed for Ten Years Will Receive Big Block of Stock from Corporation Employing Her.

Los Angeles, April 24.—Miss Lelia M. Devine, auditor of a local corporation, has signed a contract not to marry within ten years, the consideration being a large block of the corporation's stock. The contract, just made public, was drawn up and signed four years ago, when Miss Devine was twenty-four years old. If she is still unmarried when she becomes thirty-four, the stock will be turned over to her. If she is married before the ten years expire, the stock reverts to the company.

"I will never be married," Miss Devine said. "When I agreed to remain with my employers I was fully aware of what I was doing. They appreciated my services and made me a stockholder in the company, so why should I leave them to be bossed by some man after I have been used to bossing them for years?" "I have never desired to marry, and now I believe after my long experience as a business woman, I have been spoiled for married life. I would not know what to do with myself as mistress of a home after so many years of business activity."

GAMMONS, PRINCE OF SPENDERS, NOW WORKS

Harvard Senior Who Eloped With Young Mrs. Gaynor Is Tolling for \$10 a Week.

Cambridge, Mass., April 24.—Nelson Gammons, the Harvard senior and formerly a familiar figure on Harvard's gold coast, whose recent marriage in New York to Mrs. Mary Guifre, the former wife of Rufus Gaynor of New York, created a sensation, is now working his way through life. He no longer knows the luxuries which were his before he incurred parental displeasure by eloping with the pretty divorcee. Gammons has withdrawn from college and is now working for an automobile dealer for \$10 a week.

"It has been hard sledding," said young Gammons yesterday, "but we've managed to get along fairly well. We've been in somewhat straitened circumstances, but things are looking better now. I tell you it was pretty tough the first few weeks, though. I never studied anything in college that was of any use to me in a practical way, and I had a hard time getting a job."

"My mother hasn't given me any support. I still get letters from her asking me to leave my wife. But I won't do that. I guess we can get along, although I'm not giving my wife all the comforts that I should like to."

CAMORRISTS ALL HEARD.

Prisoners to Be Confronted With Informer on Tuesday—Suicide Faker.

Viterbo, April 24.—The bishop has forbidden the clergy to attend the Camorrista's trial upon pain of excommunication unless they are subpoenaed. Abatemaggio is still ailing, but he insisted Saturday upon attending the trial.

The judge concluded the examination of the prisoners, including Maria Staudard. The session was then adjourned until next Tuesday, when the prisoners will be confronted by Abatemaggio. A wild scene is expected.

TRUTH CROPS OUT

Why Pile Sufferers So Often Fail to Get Relief.

Science is getting to the bottom of everything, including the cause and cure of piles. The brightest doctors now admit that piles are caused internally and can be cured only by internal treatment. Dr. J. S. Leonardt some time ago perfected a remedy in tablet form—Hem-Roid, which cures the cause of piles, and therefore cures permanently. It is sold by Burt H. Wells, Barre, Vt., and druggists everywhere, under money-back guarantee. \$1 for 24 days' treatment. Dr. Leonardt Co., Station B, Buffalo, N. Y. Write for booklet.

The Growth OF CHILDREN

depends upon proper nourishment—a balanced ration. The most frequent lack is bone-forming material, causing soft, weak, diseased, crooked bones.

Scott's Emulsion

supplies every element needed. It's a balanced ration for bone as well as flesh. Every child should have a small dose daily.

ALL DRUGGISTS

Hart Schaffner & Marx

suits and overcoats safeguard your appearance. That's why we sell them. We know about the style and fit; the all-wool quality that goes with that name; and besides that you get exclusive patterns.

Come here to-day and get your pick of this big selection of fine new suits and overcoats. We want to show you a Shape-maker; and the new Varsity.

- H. S. & M. Suits - - \$18 to \$30
- H. S. & M. Overcoats, \$18 to \$35

THE SENATE DEADLOCK

The Committee Tangles Cause Rifts in Progressive Ranks

TO APPEAL TO DEMOCRATS

Weakness for Fat Appointments Being Utilized by the Regulars in Gaining Their Ends.

Washington, April 24.—The end of the deadlock among the Republican senators over the committee assignments seems in sight, and apparently chiefly through a split impending if not indeed already actual, in the ranks of the progressives themselves. As has been indicated, they have made demands for committee preferments which the regulars have concluded they could not assent to, the demands being in effect as if from a separate political entity in the Senate, although professing to be a segment of the controlling majority in the body.

NEW YORK RATE COMPLAINT.

Includes Important New England Railroads.

New Haven, April 24.—The New York, New Haven and Hartford, the Boston and Maine and Boston and Albany railroad companies are included in the complaint filed with the interstate commerce commission Saturday afternoon. The complaint includes not merely the difference in import rates on through business by rail, but also the domestic rate, which is 67 cents by way of Baltimore; 69 cents at Philadelphia and 75 cents at New York, the demand of the New York commercial bodies being that these rates shall be equalized in favor of New York and the discrimination abrogated. It is in effect, it is stated, an attack upon the whole situation at present on the standard trunk lines. The interstate commerce commission's hearing upon the subject will be the next step in the matter.

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days or money refunded. 50c.

THOUSANDS OF ROMANS SLEEP IN STREET OR CAVES

Anti-Rent League Campaign Has Empowered Multitudes of Houses in the City.

Rome, April 24.—Thousands of persons are sleeping in the streets and in huts and caves outside the city wall. The Anti-Rent league, started less than two weeks ago, has already emptied so many houses in Rome that a lowering of rents seems inevitable. Starting with 400 members, the organization now numbers several thousand, and so determined are they that in nearly every case of eviction the tenants have succeeded in preventing the re-renting of the house.

The non-paying tenants plan to hold out until there is a reduction in rents made which are proportionately higher than in any other city in the world. Hundreds of houses from which families have been evicted have been stoned and sacked and such violence has been done that prospective tenants are afraid to move into the empty houses.

SENATOR TO WORK GRATIS.

Judge Kenyon Will Help Prosecute the Beef Trust.

Washington, April 24.—Judge W. S. Kenyon, the newly elected progressive Republican senator from Iowa, will take the oath of office to-day. His credentials arrived Saturday. They were delayed because Gov. Carroll was determined to find a special brand of parchment on which to have them inscribed. Although he will formally assume his duties as senator, the services of Judge Kenyon have been tendered to the government during the beef trust litigation. He assisted in the preparation of the case and has had active charge of its prosecution. Attorney General Wickens has accepted Judge Kenyon's offer and will utilize him when necessary until the conclusion of the suit against the beef trust. Senator Kenyon will act for the department of justice without pay.

DYNAMITE FOR KING VICTOR.

Two Alleged Anarchists From America Arrested in Turin.

Rome, April 24.—Two anarchists have been arrested at Turin, who are suspected of designs on the life of the king when he opens the exhibition of industries. Both men are Italians who have lived a long time in America and belonged to the so-called anarchist group at Paterson, N. J.

The police refuse to divulge their names, but it is known that considerable dynamite was found in their lodgings.

How Motor Car Simplicity Reduces Maintenance Cost

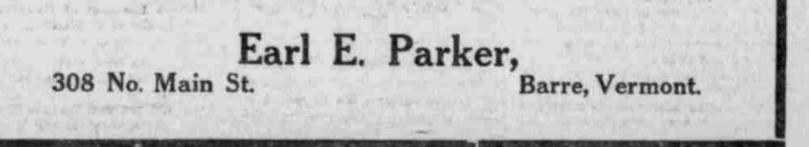

By reducing the number of parts required—approximately 900 as compared with other cars—much is saved in manufacturing cost and a great deal is saved in maintenance cost, for there are fewer parts to wear out and fewer parts to get out of adjustment. Come see this car. At a glance you can see how much simpler it is than any other automobile you have ever examined.

THE supply of HUDSON "33s" is very limited. We have endeavored to increase our allotment. The demand is so great that we feel we can sell more cars than we have arranged for. We can get no more. All that we have will be gone soon. You should see the one advanced car of the year before you make any decision. That car is the HUDSON "33." If you want one this year you must place your order early.

SIMPLICITY is the greatest of engineering virtues. The HUDSON "33," Howard E. Coffin's latest car, is acknowledged the simplest yet designed. It has some 900 fewer parts than other cars. No fan is used except in the fly wheel—the valves are enclosed. The motor and all moving parts are dust proof.

BY reducing the number of parts required—approximately 900 as compared with other cars—much is saved in manufacturing cost and a great deal is saved in maintenance cost, for there are fewer parts to wear out and fewer parts to get out of adjustment. Come see this car. At a glance you can see how much simpler it is than any other automobile you have ever examined.
