For years Burlington has enjoyed the distinction of being the largest and best retail commercial center between Boston and Montreal. It is entitled to this reputation by virtue of its modern stores, modern methods, progressive merchants and their decided liberal sales policy.

That these advantages may be more prominently brought before the people of Vermont and Northern New York, a Merchants' Week will be inaugurated during the first week in May. The merchants extend a most cordial invitation to all to visit the city during this week.

This Merchants' Week is in reality a trade week with special inducements that will make it worth while. Nearly every store will make specials in some lines—but these special discounts will only hold good during the week of May 1 to 6. There will be no cheap penny schemes, no fakir games, no fairs—just simply a trade week with special low prices and car fare paid.

As an organization the Burlington Merchants Protective Association says to you: "We guarantee you fair and courteous treatment. If anyone should take advantage of you, if anyone—merchant, hackman, restaurant or hotel—should in any way give you unfair treatment or make any exorbitant charge, we want to know it."

Your Car Fare Will Be Paid

On purchases of \$25.00 or over car or boat fare both ways will be paid within a radius of 100 miles. This amount will not have to be traded at any one place. The different stores will issue coupons. When these coupons amount to \$25.00 or more if taken to the secretary, he will pay car fare. The secretary is Mr. Hopkins with offices in the Standard Memorial Hall, which is located next to the city hall on Church street.

Twenty Years Ahead! Crawford Ranges. Other ranges have not advanced in any material way in twenty years. They have the same cook-confusing, food-spoiling way of regulating by two dampers. Crawford has but One Damper (patented); one motion controls fire and oven absolutely; slide the knob to "kindle," "bake" or "check"—the range does the rest. No damper mistakes. Ordinary ranges have the old clumsy ash pan; troublesome, untidy. Crawford has an Ash Hod (patented) into which all the ashes fall, far below the fire—making their disposal easy and cleanly. The Coal Hod is beside it. Crawford Ovens have cup-joint flues that heat every part uniformly. Crawford has Patented Grates—most durable, least trouble. Gas Ovens and Broilers at end or above range furnished if desired. Ask the Crawford agent to show you and write to us for circulars. Walker & Pratt Mfg. Co., 31 Union St., Boston For Sale by C. W.
